Independent Auditors' Report

To the Participants and Plan Administrator of
Nasco Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Nasco Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2025 (in liquidation) and 2024 (ongoing), and the related statement of changes in net assets available for benefits (in liquidation) and of changes in accumulated plan benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting

As discussed in Notes 1 and 2 to the financial statements, Management of the Plan approved a plan of liquidation on December 17, 2025 with an effective date of March 31, 2026 and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the ongoing plan basis of accounting used in presenting the 2024 financial statements to the liquidation basis of accounting used in presenting the 2025 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Nasco Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan which covers the majority of the employees of the Nasco Holdings LLC entities of Nasco Healthcare, Inc., Fort Atkinson Education LLC, Nasco Sampling LLC, Nasco Agriculture LLC (formerly Nasco-Fort Atkinson, Nasco International, Nasco-Modesto) and Triarco Arts & Crafts (Triarco) (collectively, the Company).

The Plan, as set forth herein, is the amended and restated version of the Nasco Salaried Employees Pension Plan (Salaried Plan) originally effective as of March 25, 1952 as the Aristotle Corporation Pension Plan, which was merged with the Nasco International Hourly Employees Pension Plan (Hourly Plan) and the Southern Life and Health Insurance Company Revised Retirement Plan (Southern Life Plan) on September 10, 2004 (the Merger). The effect of the Merger was to combine the assets and liabilities of the three predecessor plans into one plan without changing the benefits provided to participants and beneficiaries of each of the three predecessor plans. The Plan, as amended and restated, is intended to qualify as a defined-benefit pension plan under Internal Revenue Code (the Code or IRC) Section 401(a). The Plan is maintained for the exclusive benefit of eligible employees and their beneficiaries. The Plan's administrator is responsible for oversight of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Effective February 16, 2026, the plan sponsor became Fort Atkinson Education LLC formerly known as Nasco Education, LLC which was the plan sponsor through that date.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2025, the Company initiated steps to terminate the Plan, and brought plan funding to 100% of ERISA requirements.

Pension Benefits

Salaried employees of the Company who had completed at least five years of credited service as of January 1, 2006 are entitled to monthly pension benefits beginning at normal retirement age (65) equal to 1.075% of the employee's average monthly earnings times the employee's years of benefit service plus 0.580% of the employee's average monthly earnings in excess of $600 multiplied by the employee's years of benefit service to a maximum of 35 years. The benefit will be reduced by any benefit earned under the Hourly Plan if the employee transferred from the Hourly Plan to the Salaried Plan prior to January 1, 1994. Effective January 1, 2006, the Plan froze to new entrants and accruals for salaried participants with less than five years of service to the Plan and effective December 31, 2020, the Plan was fully frozen with no increase to the average annual earnings and no additional credited service.

Hourly employees of the Company who have met the five-year vesting requirement are entitled to monthly pension benefits beginning at normal retirement age (65) equal to $8.00 per month for each year of service completed after December 31, 1978 (May 31, 1981 for Triarco employees) through December 31, 1994, and $16.00 per month for each year of service completed thereafter, with a minimum monthly pension benefit of $50.00 per month. Effective January 1, 2006, the Plan froze to new entrants and accruals for hourly participants of the Plan.

Southern Life employees eligible for accrued benefits as of the date the Plan was frozen to new entrants and accruals, May 25, 1992, are entitled to monthly pension benefits beginning at normal retirement age (65) equal to 1% of the employee's final average earnings, multiplied by the employee's years of credited service. The accrued benefit for each participant who was actively employed by Southern Life as of March 1, 1992 was increased by 20% as of the date benefits under the Plan ceased to accrue.

The Plan permits early retirement at reduced monthly benefits from ages 55 to 64, provided at least 10 years of service has been completed for hourly and salaried employees of the Company. The Plan permits early retirement at reduced monthly benefits from ages 55 to 64 for employees of Southern Life, provided at least five years of service have been completed.

Employees may elect to receive their pension benefits in the form of a single sum payment (salaried and hourly employee option), certain life annuity or they may elect to receive their benefits as a joint and survivor annuity payable monthly from retirement, with options providing for reduced payments to a designated beneficiary upon the employee's death. Participants may work past normal retirement, subject to the mutual agreement of the participant and the Company. If employment is terminated before an employee renders five years of credited service, the employee's right to receive the value of their accumulated plan benefit is forfeited.

Death and Disability Benefits

If an hourly or salaried participant of the Company dies prior to retirement after having completed at least five years of credited service, a survivor benefit is paid to the surviving spouse equal to 50% of the amount, which would have been payable to the participant under an actuarially equivalent joint and survivor annuity beginning on the day the participant would have been first eligible to retire. If a participant of the Southern Life Plan dies prior to retirement after having completed at least five years of credited service, a survivor benefit is paid to the surviving spouse equal to 75% of the amount, which would have been payable to the participant under an actuarially equivalent joint and survivor annuity beginning on the day the participant would have been first eligible to retire.

If a participant dies after retirement after having completed at least five years of credited service, the death benefit is paid in accordance with the annuity election chosen by the participant upon retirement.

Salaried active participants of the Company between the ages of 50 and 64 with at least 15 years of credited service are to receive disability benefits, provided that the participant is receiving or is eligible to receive a Social Security disability benefit. Participants of the Southern Life Plan who ceased to be eligible employees after December 31, 1975 and before January 1, 1978, under circumstances entitling them to a disability benefit under the terms of the Southern Life Plan, as amended and in effect at the time they ceased to be eligible employees, are entitled to disability benefits. Disability benefits paid are equal to the normal retirement benefit that the participant has accumulated as of the time the participant becomes disabled. Disability benefits are paid until the normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed until the participant's normal retirement date with no credited service being granted for periods when the participant received a disability benefit.

If a participant of the Company is married when disability benefits begin, the participant's disability benefit will be actuarially adjusted to 50% of the amount that would have been payable to the participant under an actuarially equivalent joint and survivor annuity beginning on the day the participant would have been first eligible to retire. If a participant of the Southern Life Plan is married when disability benefits begin, the participant's disability benefit will be paid in the form elected by the participant, with appropriate spousal consent if necessary.

Plan Termination

On December 17, 2025, management of the Plan adopted a resolution to terminate the Plan. This resolution also allowed for plan management to sign a contract with insurance companies to transfer the remaining plan liabilities. On December 17, 2025, plan management signed a buy-in contract with Principal Life Insurance Company to purchase an annuity contract but retain legal obligation to the beneficiaries and participants and is reimbursed by the insurer for the amount paid out each month. This transfer occurred on December 17, 2025. See Note 2 for related liquidation basis and subsequent events disclosures.

2. Summary of Accounting Policies

Basis of Accounting

As a result of the resolution to terminate the Plan, the Plan considers liquidation to be imminent and, therefore, the financial statements of the Plan as of and for the year ended December 31, 2025 are presented on the liquidation basis of accounting.

The financial statements of the Plan as of December 31, 2024 were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Subsequent Events

Subsequent events were evaluated through September 24, 2026, the date the financial statements were available to be issued.

In July 2026, the Company elected to convert its existing single premium group annuity buy-in contract with Principal Life Insurance Company to a group annuity buy-out contract. Principal Life Insurance Company accepted the election, with the buy-out becoming effective September 1, 2026. Upon issuance of the buy-out contract, Principal Life Insurance Company commenced direct payment of covered benefits to the applicable annuitants, and the existing buy-in contract has terminated. The final liquidation of the Plan's assets will occur after September 1, 2026.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2026 and 2025. Had the valuations been performed as of December 31, there would be no material differences. The significant actuarial assumptions used in the valuations were:

Assumption	December 31, 2025	December 31, 2024
Assumed rate of return on investments	N/A	5.50%
Effective interest rate	4.95%	5.05%
Retirement age	65	65
Mortality basis	Pri-2012 Total dataset base rate mortality table projected generationally using the MP-2021	Pri-2012 Total dataset base rate mortality table projected generationally using the MP-2021
Actuarial cost method	Unit Credit	Unit Credit

The actuarial assumptions used in determining the actuarial present value of accumulated plan benefits reflect that the Plan has been terminated and is in the process of liquidation. Accordingly, the assumptions are based on the expected settlement of the Plan's obligations rather than the presumption that the Plan will continue as an ongoing plan.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

Pooled separate accounts are valued based upon the unit values of such pooled accounts held by the Plan at year-end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from or corroborated by observable market data by correlation or other means. The underlying investments of the pooled separate accounts consist of mutual funds, each of which follows a separate investment strategy. Due to the nature of these pooled accounts, there are no unfunded commitments or redemption restrictions.

Unallocated insurance contract is valued based upon the negotiated purchase price established in the underlying contractual agreement. Management concluded that the contractual purchase price approximates fair value based on the timing and terms of the transaction and the absence of subsequent events or changes in circumstances indicating a change in value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Assets at Fair Value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	$ -	$ 121,657	$ -	$ 121,657
Unallocated insurance contract	-	-	13,973,064	13,973,064
Total investments at fair value	$ -	$ 121,657	$ 13,973,064	$ 14,094,721

Assets at Fair Value as of December 31, 2024	**Level 1**	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	$ -	$ 14,998,969	$ -	$ 14,998,969
Total investments at fair value	$ -	$ 14,998,969	$ -	$ 14,998,969

Changes in Level 3 Assets

The Plan had purchases of $13,973,064 and $0 of Level 3 assets for the year ended December 31, 2025 and 2024, respectively.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The valuation techniques used to measure the fair value of those financial instruments as of December 31, 2025 and the significant unobservable inputs include a contract that is plan-specific, nonmarketable insurance contract with no quoted market price. The transaction price approximates fair value at December 31, 2025 due to the proximity of the transaction to the measurement date and the absence of subsequent events or changes in circumstances.

5. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the Trustee of the Plan, has certified to the completeness and accuracy of all investments, except for certain investment information related to the unallocated insurance contract, reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 (in liquidation) and 2024 (ongoing), and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits in liquidation for the year ended December 31, 2025 and the information reported in the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2025. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

The Trustee certified certain investment information included in the accompanying financial statements; however, certain investment information related to the unallocated insurance contract was not certified by the Trustee and was subject to audit procedures performed by the Plan’s independent auditor.

6. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with the Trustee of the Plan. Contributions are held and managed by the Trustee, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 9, 2015, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since the date of the IRS Determination Letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan may hold certain investments that represent 10% or more of the Plan's net assets available for benefits. As of December 31, 2025 and 2024, the Plan held one and three such investments totaling $13,973,064 and $13,937,788, respectively.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Assumptions prescribed by law

Mortality

Before benefit payment period

IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

During benefit payment period

IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Inflation

2.40% increase per year.

Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return

5.50% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

Active participants are assumed to retire at the following rates:

Age	Probability of retirement
65	50%
70	Remaining participants

Inactive participants are assumed to retire at age 65. A late retirement increase is applied to the benefit for those assumed to defer payment past age 65.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Disability

None. This plan does not offer a subsidized disability benefit, therefore the disability assumption is built into the withdrawal assumption.

Marriage

75% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal	2003 Society of Actuaries Basic Age Table, multiplied by 2.00. We rely on a publicly published table due to the limited size of the plan. The SOA Basic Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 2.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Form of benefit and basis	Participants not yet in payment are assumed to receive benefits as a single lump sum payable immediately for retirement benefits and as a single sum payable at retirement for withdrawal benefits. This assumption is based on the results of recent experience analysis and anticipated future experience. The lump sum benefit is based on the Applicable Mortality projected to decrement and the plan's funding target interest rates, as prescribed.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 6.00%. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Lump sum payments	Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.
Methods selected by plan sponsor	
Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates	24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using MP-2021.
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement	MP-2021 is the most recent improvement scale published by the SOA in October 2021. In selecting this assumption, we considered the other parameters available in the MIM-2021-v4 application tool issued by the SOA in October 2023 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.
Interest rate used to value liabilities	5.55% The interest rate used to value ASC 960 liabilities is the same discount rate developed for ASC 715 as of the most recent measurement date.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.
Basis for lump sums	Interest rate 5.05% Mortality Prescribed IRC §417(e) table

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 2a - Explanation of Assets
Nasco Pension Plan
EIN 81-2923579 Plan No. 001

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. The difference of $66,533 is due to a refund for an overpayment of benefits so was not reported as assets on the Schedule SB.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
Nasco Pension Plan
EIN 81-2923579 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan restated on 01/26/2015 including amendments signed on 10/31/2018, 06/25/2020, and 11/12/2020 and the amendment effective 09/01/2023.

Salaried – Supplement A

Plan eligibility

Age	Attained age 21
Service	6 months of eligibility service
	Plan participation is frozen after 01/01/2006

Normal retirement benefit

Age	Attained age 65
Service	5 years of participation service.
Form	Monthly annuity payable for life with 10 years certain period.
Amount (accrued benefit)	Sum of A and B below: A) Product of 1.075% of average compensation and accrued service B) 0.58% of average compensation in excess of integration level multiplied by accrued service (not to exceed 35 years) The accrued benefit is frozen as of 01/01/2006 for selected HCEs and all employees with less than five years of credited service as of 01/01/ 2006. The accrued benefit is frozen as of 12/31/2020 for the remainder of active participants on that date.

Early retirement benefit

Age	Attained age 55
Service	Completed 10 years of accrual service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date multiplied by the early retirement factors below.

Years prior to NRD	Factor
1	0.9330
2	0.8670
3	0.8000
4	0.7330
5	0.6670
6	0.6330

8	0.5440
9	0.4960
10	0.4480

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date. retirement age.

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date. A participant with 10 years of service may begin payments as of the first day of the month following age 55.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage. If the participant has 10 years of service, benefit payable at age 55 or later is reduced for early commencement based on the same table as early retirement.

Disability benefit	
Eligibility	Eligible for or receiving benefits under Title II of the Federal Social Security Act Age 50 Completed 15 years of accrual service Active at the time of disability
Form	Monthly income payable until normal retirement, death, or recovery and a deferred annuity payable at the normal retirement date.
Amount	Accrued benefit on date of disability.

Survivor annuity death benefit (a vested benefit)	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions	
Average compensation	Highest 5 consecutive compensation years out of the 10 latest compensation years
Accrual service	1000 hours equals 1 year of accrual service
Vesting service	1000 hours equals 1 year of vesting service
Integration level	$7,200 (annually)
Optional forms of benefit payments	The optional forms of benefit payments are: • Monthly annuity payable for life. • Monthly annuity payable for 10 years certain and life. • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100. • Social Security Level Income Option • Single sum payment at retirement The optional form conversion basis is 6.00% interest and the 1951 Group Annuity Mortality rates projected to 1970 by Scale C, with no age setback for beneficiaries and a 5 year age setback for participants for payments other than lump sums.

Lump sum provisions

Small amount force out (SAFO) – allowed up to $5,000.

Lump sums in excess of SAFO - are allowed at retirement.

Conversion – greater of the deferred or immediate rate with early retirement factor based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the first calendar month preceding the first day of the stability period which is the plan year.

Hourly – Supplement B
