Report of Independent Auditors

The Employee Benefits Committee
Eli Lilly and Company

Opinion

We have audited the financial statements of The Eli Lilly and Company Retiree Health Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and statements of benefit obligations as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits and statement of changes in benefit obligations for the year ended December 31, 2025, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and benefit obligations of the Plan at December 31, 2025 and 2024, and the changes in its net assets available for benefits and changes in its benefit obligations for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

A member firm of Ernst & Young Global Limited

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 (referred to as the "supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of the Plan

General

The Eli Lilly and Company Retiree Health Plan (the Plan) provides health and other benefits covering substantially all retired employees of Eli Lilly and Company (the Company and Plan Sponsor). It is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). More detailed information concerning the Plan may be found by consulting the Retiree Health Benefits - Summary Plan Description.

Benefits

The Plan is a welfare benefit plan established January 1, 2013. The Plan provides medical, dental, mental health and substance abuse, and prescription drug benefits to qualifying retirees and to their beneficiaries and covered dependents, as well as certain employees on long-term disability.

Contributions

During 2025, the Company made gross contributions of approximately $78.5 million, offset by reimbursements of approximately $78.1 million, for a net contribution of $343k, to fund health benefits for eligible retired employees of the Company, their dependents, and their beneficiaries. At December 31, 2025 and 2024, the Plan has a claim reimbursement payable to the Company in the amount of $78.1 million and $72.3 million, respectively, for payments made by the Company on behalf of the Plan. This amount is recorded as a liability on the Plan's statements of net assets available for benefits and as a reduction to employer contributions - net of reimbursement on the statement of changes in net assets available for benefits.

Participants contribute specified amounts based on applicable monthly premiums for their respective benefit elections. The costs of the postretirement benefit plan are shared by the Company, Plan and retirees.

Note 1 - Description of the Plan (Continued)

Retirement Date	Company Contribution	Retiree Contribution
Post January 1, 2010		
(1) Non-Medicare-eligible individuals	The Company will pay a fixed amount each year toward the cost of health care premiums (known as a defined-dollar benefit).	Retirees will be responsible for paying the difference between the total premium and the fixed amount that the Company pays.
(2) Medicare-eligible individuals	The Company will contribute a fixed amount each year into a Medicare Health Reimbursement account (using a similar defined-dollar benefit structure) for the individual to purchase Medicare supplemental coverage through a private Medicare supplement marketplace.	Retirees will be responsible for paying the difference between the fixed amount that the Company pays and any premiums for Medicare supplemental coverage through Lilly's private Medicare exchange provider along with any other eligible out-of-pocket medical expenses.
Pre January 1, 2010		
(1) Non-Medicare-eligible individuals	The Company will pay the difference between the total premium and the percentage paid by the retiree.	Retirees will pay a percentage of their total premium cost based on employee points. Points are defined as the sum of an employee's age and years of service. The percentage of premium paid is generally based on whether the employee has: - less than 80 points (must be at least age 55 with 10 years of service or 65 with 5 years of service) - at least 80 points but less than 90 points, or - 90 points or more
(2) Medicare-eligible individuals	The Company will contribute a fixed amount into a Medicare Health Reimbursement account based upon the retirement date, age and years of service to be used to purchase Medicare supplemental coverage through a private Medicare supplement marketplace.	Retirees will be responsible for paying the difference between the fixed amount that the Company pays and any premiums for Medicare supplemental coverage through Lilly's private Medicare exchange provider along with any other eligible out-of-pocket medical expenses.

Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to modify the benefits provided to employees and to terminate the Plan, subject to the provisions set forth in ERISA. If the Company terminates or partially terminates the Plan, the VEBA II trust and 401(h) account (as defined in Note 2), as necessary, will pay benefits that participants are entitled to receive under the terms of the Plan.

Note 2 - Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Claims and Premiums

Claim payments are recorded when paid. Claims paid by the Company that are to be reimbursed by the Plan are recorded as a payable in the accompanying statements of net assets available for benefits.

Certain premiums and claims are paid from the general assets of the Company; however, all premiums and claims of the Plan are recorded in the accompanying statement of changes in net assets available for benefits, regardless of whether they are paid from plan assets or from the general assets of the Company.

Rebates

Rebates from prescription drug programs are recorded when earned from the provider and netted with claims paid in the accompanying statement of changes in net assets available for benefits.

Deposit

Deposit represents amounts deposited in advance for health benefit payments processed by a third-party administrator for retiree benefits.

Claims Incurred But Not Reported

Plan obligations at December 31, 2025 and 2024 for claims incurred but not reported are estimated by the Plan's actuary in accordance with accepted actuarial principles based on claims data provided by the Plan's third-party claims administrator. These amounts are paid by the Plan only if claims are submitted and approved for payment.

Postretirement Benefit Obligations

The postretirement benefit obligations represent the actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31, reduced by the actuarial present value of contributions expected to be received in the future from current plan participants.

Postretirement benefits include future benefits expected to be paid to or for: (1) currently retired employees and their beneficiaries and dependents and (2) active employees and their beneficiaries and dependents after retirement from service with the Company. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date. Postretirement benefits also include an estimate for incurred but not reported claims, which are determined based on a three-year history of claims reporting.

Note 2 - Significant Accounting Policies (Continued)

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment and to reflect the portion of those costs expected to be borne by the retired participants and other providers. The postretirement benefit obligations represent the amount that is to be funded by contributions from the Plan Sponsor and from existing plan assets.

Postretirement Benefit Obligation Assumptions

For measurement purposes, at December 31, 2025, a 6.75% annual rate of increase in the per capita cost of covered medical benefits for pre-65 participants was assumed, decreasing to an ultimate rate of 4.5% in 2035; a 5.75% annual rate of increase in the per capita cost of covered medical benefits for post-65 participants was assumed, decreasing to an ultimate rate of 4.5% in 2035; and an 11.5% annual rate of increase in the per capita cost of covered prescription drug benefits was assumed, decreasing to an ultimate rate of 4.5% in 2035.

For measurement purposes, at December 31, 2024, a 7.00% annual rate of increase in the per capita cost of covered medical benefits for pre-65 participants was assumed, decreasing to an ultimate rate of 4.5% in 2033; a 5.5% annual rate of increase in the per capita cost of covered medical benefits for post-65 participants was assumed, decreasing to an ultimate rate of 4.5% in 2033; and an 10% annual rate of increase in the per capita cost of covered prescription drug benefits was assumed, decreasing to an ultimate rate of 4.5% in 2033.

The following were other significant assumptions used in the valuations of the expected postretirement benefit obligations:

Discount rate	5.53% per annum at December 31, 2025
	5.69% per annum at December 31, 2024
Retirement ages	An actuarial table of probability of retirement among retirement-eligible participants with various rates from 5% at age 55 to 100% at age 72
Mortality	Pri-2012 base mortality rates with white/blue collar adjustments based on individual employment status, with Scale MP-2021 projection

The health care cost trend rate assumption has an effect on the amounts reported. If the assumed rates increased by one percentage point in each year, the obligation would increase as of December 31, 2025 by approximately $118,000.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligations.

Amounts currently payable are primarily comprised of benefit payments reimbursable to the claims administrators and represent claim amounts paid by the claims administrators and reimbursed in the subsequent year.

Benefit Obligations

Effective January 1, 2024, the income portion of the long-term disability leave benefit is now a fully insured benefit. Accordingly, the Plan does not have a postemployment benefit obligation.

Note 2 - Significant Accounting Policies (Continued)

VEBA II Trust

The Northern Trust Company (the Trustee) holds certain of the Plan's assets in the Eli Lilly and Company Master Trust for Post-Retirement Health Benefits (VEBA II), which provides for continued funding of health benefits for eligible retired employees of the Company, their dependents, and their beneficiaries. The Plan owns 100 percent of the net assets of VEBA II. The majority of assets in VEBA II are held within a Trust Owned Life Insurance (TOLI) contract issued by The Prudential Insurance Company of America (Prudential).

401(h) Account

The Lilly Retirement Plan includes a health and welfare component, in addition to normal retirement benefits, to fund a portion of the postretirement benefit obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (the Code). In accordance with accounting standards, a separate account has been established and maintained in The Lilly Retirement Plan for such net assets. In accordance with Section 401(h) of the Code, the Plan's investment in the 401(h) account may not be used for, or diverted to, any purpose other than providing health and welfare benefits for retirees and participants. Assets transferred to the 401(h) account, if any, from The Lilly Retirement Plan in a qualified transfer (and any income allocable thereto) that are not used during the year must be transferred out of the account back to The Lilly Retirement Plan. The obligations for health and welfare benefits are not a component of The Lilly Retirement Plan's accumulated plan benefits but are reflected as obligations in the financial statements of the Plan. The total amount of such obligations for which The Lilly Retirement Plan is obligated is limited to the amount in the 401(h) account. Plan participants do not contribute to the 401(h) account. Employer contributions or qualified transfers to the 401(h) account are determined annually and are at the discretion of the Company.

Income Tax Status

The trust used to fund the Plan has received an exemption letter from the Internal Revenue Service (IRS) dated December 16, 1988, indicating generally that the trust is tax exempt under the provisions of Section 501(c)(9) of the Code as a Voluntary Employees' Beneficiary Association. The Plan and the trust are required to operate in conformity with the Code to maintain the tax-exempt status of the trust. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2025, there are no uncertain positions expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Administrative Expenses

Certain expenses related to the medical and dental claims, as well as administrative and professional services for the Plan, are paid by the Plan. Certain other administrative expenses are paid by the Company.

Benefit Payments

Benefits are recorded when paid.

Note 2 - Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Parties-in-Interest

Certain plan assets are in investments managed by The Northern Trust Company. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA and applicable regulatory guidance.

Subsequent Events

Management evaluated subsequent events for the Plan through September 23, 2026, which is the date the financial statements were available to be issued.

Effective January 1, 2026, coverage is provided under a Preferred Provider Organization Plan (PPO) model and covered benefits are self-insured. Retirees will continue to be responsible for paying the difference between the total premium and the fixed amount that the Company pays.

Note 3 - Fair Value Measurements

ASC 820, *Fair Value Measurements*, defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Inputs other than quoted prices that are for the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)

Note 3 - Fair Value Measurements (Continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based upon the lowest level input that is significant to the fair value measurement in its entirety.

The following is a description of the valuation techniques and inputs used for each major class of assets and liabilities measured at fair value:

- Trust Owned Life Insurance contract - Valued at cash surrender value based upon the value of the underlying funds and classified within Level 2 of the valuation hierarchy based on the underlying investments.
- Value of Interest in Common/Collective Trust Fund - Represents interest in a pooled investment vehicle designed primarily for collective investment of employee benefit trusts. The fair value of the investment in this class has been estimated using the Net Asset Value (NAV) per unit provided by the fund managers. Redemption is daily, and there were no unfunded commitments in this investment category.

The valuation methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used during 2025.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2025:

In conformity with U.S. generally accepted accounting principles, the financial statements herein do not include accruals for benefit claims payable. However, the Department of Labor (DOL) requires these amounts to be reported as a liability on Form 5500.

Note 6 - Loan Payable

In August 2024, the Plan borrowed $37,000,000 at a 5.73% annual interest rate under terms of its TOLI contract issued by Prudential. In accordance with this contract offered by Prudential, loans may be taken against the value of the investments in the TOLI contract. The proceeds of the loan were utilized to pay claims during 2024 and 2025. At December 31, 2024, the Plan recorded an insurance contract receivable of $27,128,169 related to the loan which consisted of principal owed of $26,517,675 and accrued interest owed of $610,494. The loan was paid in full in 2025.
