INDEPENDENT AUDITORS' REPORT

September 22, 2026

Board of Directors
Utility Supply and Construction Company
Savings and Employee Stock Ownership Plan
Reed City, Michigan

Opinion

We have audited the financial statements of ***Utility Supply and Construction Company Savings and Employee Stock Ownership Plan*** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements (the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

HLB We are an independent member of THE GLOBAL ADVISORY AND ACCOUNTING NETWORK

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) and delinquent participant contributions as of and for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

UTILITY SUPPLY AND CONSTRUCTION COMPANY
SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN

The following description of the ***Utility Supply and Construction Company Savings and Employee Stock Ownership Plan*** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Utility Supply and Construction Company established the Plan effective as of November 1, 1980. The Plan was amended and restated in the form of a 401(k) employee stock ownership plan on May 31, 1995, effective January 1, 1995. The Plan operates as a non-leveraged employee stock ownership plan ("ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is a defined contribution plan covering all eligible employees of Utility Supply and Construction Company, Power Line Supply Company, The Hydaker-Wheatlake Company, Hydrolake, Inc., Crossroads Mobile Maintenance, LLC, and CVR Engineering, LLC (collectively the "Company" or "Plan Sponsor"). Employees are eligible to make elective contributions on the first day of the month after completion of 30 days of service. Employees are eligible to receive employer contributions after they have attained the age of 21 and have completed one year of service consisting of at least 1,000 hours. For consideration of employer contributions, Plan entry dates are January 1 and July 1.

OneDigital Investment Advisors, LLC ("OneDigital") is the trustee of the participant directed portion of the Plan (the "Trustee") and Mark Mills is the trustee of the non-participant directed portion of the Plan (the "ESOP Trustee"). EPIC Retirement Plan Services is the recordkeeper of the Plan. The Company is the administrator of the Plan (the "Plan Administrator"). Mid-Atlantic Trust holds all participant directed assets of the Plan and Charles Schwab holds all non-participant directed assets of the Plan in accordance with the service provider contracts with the Company. Management of the Plan Sponsor is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Trustees.

Notes to Financial Statements

Contributions

Each year participants may contribute up to 100% of their pretax annual compensation as defined in the Plan subject to certain IRS limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to contribute to the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company, at its discretion, may make safe harbor and ESOP profit sharing contributions to the Plan. Participants must work 1,000 hours during the Plan year and be employed by the Company on the last day of the Plan year to receive an allocation of ESOP profit sharing contributions. The amount credited to the participant's account is based on the participant's eligible compensation for the Plan year. If an ESOP profit sharing contribution is made for a particular Plan year, it is allocated among the accounts of all participants who are eligible. The Company made a 2% ESOP profit sharing contribution in 2025. If a safe harbor contribution is made for a particular year, it is allocated among the accounts of all participants and is based on annual compensation. The Plan made a 3% safe harbor contribution to all qualified participants in 2025. Participants direct the investments of employee contributions and employer safe harbor contributions for participant directed accounts into various investment options offered by the Plan. The ESOP Trustee directs the investments of ESOP profit sharing contributions for non-participant directed accounts.

Participant Accounts

Each participant's account is credited with the participant's elective contributions, the Company safe harbor contributions (when made) and an allocation of (a) the Company's ESOP profit sharing contribution (when made), (b) forfeited nonvested funds of former participants, and (c) Plan earnings and charged with an allocation of administrate expenses, if any. Participants who initiate a benefit payment are charged a fee for that transaction. Allocations are based on participant compensation, account balances, or specific participant transaction, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Each participant who holds shares of Utility Supply and Construction Company stock on the record date for shareholder distributions from the Company is eligible to receive an allocation of such dividends as of the valuation date that coincides with, or immediately follows, the record date.

Vesting

Participants are immediately vested in their 401(k) voluntary contributions and Company safe harbor contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing and ESOP contributions is based on years of continuous service. A participant is 100% vested after six years of credited service with graduated vesting beginning after two years of credited service.

Notes to Financial Statements

Payment of Benefits

Upon termination of service due to death, disability, retirement or any other distributive event, as defined in the Plan agreement, participants or their beneficiaries may receive an amount equal to the value of the participant's vested interest in their account in a lump-sum payment. The Plan also allows distributions on attainment of 59 1/2 years of age equal to the value of the participant's vested interest in their account. The distribution of an ESOP account will be paid in cash or Company common stock. If common stock is distributed, it must be sold back to the Company or to the trustee based on the fair value of the common stock which is determined annually by an independent appraiser.

Forfeited Accounts

Any participant's nonvested funds are maintained in an account in the participant's name until five consecutive one-year breaks in service have passed, at which time such funds are forfeited. Forfeitures may be used to pay Plan expenses with any remaining amounts allocated among the accounts of participants. No forfeitures were used to pay plan expenses in 2025 or 2024. Unallocated forfeited accounts were $39,957 and $27,305 at December 31, 2025 and 2024, respectively.

Company Common Stock - Voting Rights

All shares of Company common stock held by the Plan shall be voted by the ESOP Trustee or its proxy, subject to certain limitations as defined in the Plan agreement.

Put-Option

Under federal income tax regulations, the employer common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its common stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the common stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants who are at least age 55, with at least 10 years of participation in the Plan so that they may have the opportunity to move part of the value of their investment in Company common stock into other investments in the Plan to reduce certain risks by having a more diverse investment portfolio. Diversification occurs over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Eligible participants elected to transfer $1,806,285 of their Plan balance in the ESOP portion of the Plan to the participant directed portion of the Plan in 2025.

Notes to Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in accordance with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. The fair value of the Company's common stock is one such significant estimate. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisor, Trustee, and ESOP Trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net change in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the year.

Contributions

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become obligations of the Company.

Benefits Paid to Participants

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Plan's administrative expenses are paid by the Company or the Plan, as provided in the Plan agreement. Certain administrative expenses, including an allocation of salaries related to Plan administration, accounting, legal, valuation, and audit fees are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that are paid directly by the Company are excluded from these financial statements. Fees for custodial and record keeping services are also paid by the Company. Participants are charged directly for fees relating to certain distribution types.

Notes to Financial Statements

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to the most recent statement of net assets available for benefits presented herein, through the date these financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 or 2024.

Mutual funds: Shares held in mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Notes to Financial Statements

Collective investment trust ("CIT"): Valued at the NAV of units of a collective trust fund, classified as "other" and not assigned a level in the fair value hierarchy. The NAV as provided by the trustee of the CIT, is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

Common stock of Utility Supply and Construction Company: The fair value is determined annually by an independent appraiser. The valuation was determined using a combination of several different approaches, specifically, income valuation techniques based on the discounted cash flow method, market and asset based approaches. The appraiser considered past performance, discussions with management, and five year performance projections. The value of the stock was $12,666 and $12,251 per share for the 701 and 747 shares held by the Plan as of December 31, 2025 and 2024, respectively.

Other common stocks: Valued at the closing price reported on the active market in which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments measured at fair value at December 31:

2025	Level 1	Level 2	Level 3	Other (1)	Total
Mutual funds	$ 35,988,376	$ -	$ -	$ -	$ 35,988,376

Notes to Financial Statements

(1) Certain investments are measured at NAV per share (or its equivalent) on a non-active market and have not been classified in the fair value hierarchy and are presented in the column titled "Other" above. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers of assets into or out of Level 3 in 2025.

There were no purchases or issuances of the Plan's Level 3 assets in 2025. During 2025, the Plan sold 46 shares of Utility Supply and Construction Company stock to the Plan sponsor for total proceeds of $536,546.

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAV per share (or its equivalent) as of December 31:

	2025			
Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment trust	$ 2,442,721	$ -	Daily	Daily

	2024			
Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment trust	$ 2,482,860	$ -	Daily	Daily

4. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor ("DOL") regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments are held in shares of common stock of the Plan Sponsor and, therefore, these transactions qualify as party-in-interest.

The Plan's investment in Utility Supply and Construction Company common stock as of December 31, 2025 and 2024, represents a party-in-interest investment. The Plan held 701 shares of Utility Supply and Construction Company common stock as of December 31, 2025, and 747 shares as of December 31, 2024, representing approximately 11% and 12% of the Company's total outstanding common stock, respectively. The cost basis of the Company common stock held by the plan is $2,103 and $2,478 as of December 31, 2025 and 2024, respectively.

Notes to Financial Statements

Distribution processing fees are paid to OneDigital by participants. Fees paid by the Plan for investment management services are included in the net change in fair value of investments, as they are paid through revenue sharing, rather than direct payment. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

5. TAX STATUS

The plan has received a favorable determination letter dated September 30, 2022, from the IRS that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan Administrator and the Plan's legal counsel believe that the Plan is designed in compliance with the applicable requirements of the IRC. Additionally, the Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC, and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. While the Plan may be subject to routine audits by taxing jurisdictions, there are currently no audits for any tax periods in progress.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. DELINQUENT PARTICIPANT CONTRIBUTIONS

During the Plan year ended December 31, 2024, participant contributions totaling $13,424 were not remitted to the Plan within the period prescribed by DOL regulations. These transactions constitute prohibited transactions as defined by ERISA. The 2024 contributions and related lost earnings were remitted to the Plan during 2025. There were so such late remittances to the Plan during 2025.

8. RISKS AND ECONOMIC UNCERTAINTIES

The Plan invests in various investment securities with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities using valuation assumptions based on earnings, cash flows and other such techniques. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of interest rate, market, and credit risks inherent with certain of the Plan's investment securities, including uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.
