RSM US LLP

401(k) Fiduciary Committee
JAMF Software, LLC 401(k) P/S Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed audits of the financial statements of the JAMF Software, LLC 401(k) P/S Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA
The supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

The following description of the JAMF Software, LLC 401(k) P/S Plan (the Plan) provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of JAMF Software, LLC (the Company or Employer) who are age 18 or older and completed one hour of service, except for excluded employees as further defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration: The Plan is administered by the Company (the Plan's Management). The Plan's Management has been given all powers necessary to carry out its duties, including, but not limited to, the power to administer and interpret the Plan, to answer all questions affecting eligibility of participants in the Plan, and to authorize disbursements for the payment of Plan benefits. The Company has a group contract with Voya Retirement Insurance and Annuity Company and has appointed them as the custodian of the Plan's assets. The custodian is responsible for maintaining custody of the Plan's assets, processing contributions and distributions and executing transactions to appropriate investment options.

Contributions: Each year, participants may make salary deferral contributions in any percentage of pretax or after-tax annual compensation, as defined in the Plan, up to the maximum allowed by the Internal Revenue Code (the Code). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan includes an automatic deferral provision whereby all newly eligible employees are automatically enrolled at a pretax contribution rate of 3% of eligible compensation, unless they affirmatively elect otherwise. In addition, each year the contribution rate is increased by 1% until it reaches 10%, unless the employee elects otherwise.

The Company makes nonelective safe harbor contributions of 3% of each participant's eligible compensation, regardless of whether the participant makes elective deferrals.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings or losses, and is charged with an allocation of administrative expenses. Allocations are based on participant eligible compensation, account balances, or specific transactions as defined. The benefit to which a participant is entitled is equal to the balance in the participant's account.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment options. All funds vary in types of investments, rates of return, and investment risk and are described in more detail in the Plan's literature. Participants may elect, on a daily basis, to have all or part of their account balances and future contributions transferred from one fund to another or in any combination.

Vesting: Participants are always 100% vested in their salary deferral contributions and Company safe harbor contributions.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $500 up to a maximum of $50,000. The amount of the note cannot exceed the lessor of 50% of their vested account balance or $50,000 less any outstanding notes. Note terms range from one to five years, except if the proceeds received by the participant from the note are used for the purchase of a principal residence, in which case the Plan permits a longer repayment term. The notes are secured by the balance in the participant's account and bear interest at the prime rate. The rate of interest on existing notes at December 31, 2025, ranged from 3.25% to 8.50% and are due on various dates through May 2054. Principal and interest are paid ratably through payroll deductions.

Note 1. Description of the Plan (Continued)

Payment of benefits: Upon termination of service, retirement, attainment of age 59½, death, disability, or Plan termination, participants may elect to roll over their account balances to another qualified retirement plan or individual retirement account or receive the value of their vested account balances in the form of a lump-sum distribution, periodic installments, or partial withdrawals. The Plan also permits hardship withdrawals, subject to the provisions of the Plan. Upon termination of service and if no payment election is made by the participant, participants with vested account balances of $5,000 or less may be subject to mandatory distribution provisions. For balances greater than $1,000 for which no election is made, the distribution may be made through an automatic rollover to an individual retirement account in accordance with Plan provisions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 and 2024. If a participant ceases to make note repayments, and the Plan's Management deems the participant note to be in default, the participant's note balance is reduced and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Contributions: Contributions from Plan participants and the safe harbor contributions from the Employer are recorded in the year in which the employee contributions are withheld from compensation.

Payment of benefits: Benefit payments to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included as an offset to net appreciation in fair value of investments. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Note 2. Summary of Significant Accounting Policies (Continued)

Risks and uncertainties: The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments have occurred since December 31, 2025, or will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2025 statement of net assets available for benefits.

Plan termination: Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become fully vested.

Subsequent events: The Plan's Management has evaluated subsequent events through September 29, 2026, the date these financial statements were available to be issued.

Note 3. Information Certified or Provided by the Plan's Custodian

The following is a summary of the Plan's asset information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included throughout the Plan's financial statements and ERISA-required supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year), obtained by the Plan's Management and agreed to or derived from information certified as complete and accurate by Voya Retirement Insurance and Annuity Company (Voya), a qualified institution:

	December 31	
	2025	2024
Pooled separate accounts at fair value	$ 95,184,216	$ 80,871,105
Common collective trust funds at fair value	103,959,450	81,901,457
Investments at contract value	2,467,012	1,720,991
Notes receivable from participants	1,352,003	1,322,253

Voya also certified to the completeness and accuracy of $30,919,984 of net appreciation in fair value of investments, $70,814 of interest, dividends and other income related to the aforementioned investments, and $96,216 of interest income on notes receivable from participants for the year ended December 31, 2025.

Note 4. Fair Value Measurements

Accounting standards established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2025 and 2024.

Pooled separate accounts: Pooled separate accounts are valued at the net asset value (NAV) of the units of accounts held by the Plan. The NAV is used as a practical expedient to estimate fair value. The NAV of the accounts is reported by the investment manager at year-end and is based on the underlying quoted market price of the assets that comprise each account. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the NAV. Each pooled separate account's underlying assets are composed primarily of an individual mutual fund or collective investment fund.

Common collective trust funds: Common collective trust funds are valued at the NAV of the underlying assets. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with Subtopic 820-10, certain investments that were measured at NAV or its equivalent have not been classified in the fair value hierarchy. The fair value amounts in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4. Fair Value Measurements (Continued)

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2025 and 2024. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value as of December 31		Unfunded	Redemption	Redemption
	2025	2024	Commitments	Frequency	Notice Period

(a) This category is composed of funds whose objective is to provide capital growth over the long-term through investing in small- to mid-cap U.S. stocks and through investing in companies that provide exposure to the commercial real estate market.

(b) This category is composed of funds whose objective is to provide a total return through investing primarily in a portfolio of bonds.

(c) This category is primarily composed of funds whose objective is to provide a total return consistent with an asset allocation targeted at various retirement dates through investing in a combination of U.S. stocks, international stocks, U.S. bonds, and other fixed-income investments.

(d) This category is primarily composed of funds whose objective is to provide capital growth and total return through investing primarily in large-cap U.S. stocks.

(e) This category is composed of funds whose objective is to provide long-term capital appreciation through investing primarily in non-U.S. stocks.

(f) This category is primarily composed of a fund whose objective is to provide stable total return through investing primarily in short-term debt securities and other fixed-income investments.

Note 5. Fully Benefit-Responsive Investment Contract

At December 31, 2025 and 2024, the Plan held a traditional investment contract, the Voya Fixed Account, with Voya. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

Note 5. Fully Benefit-Responsive Investment Contract (Continued)

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The annual crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed each calendar year for resetting. The contract cannot be terminated before the scheduled maturity date. The guaranteed interest rate to the Plan as of and for the years ended December 31, 2025 and 2024, was 1%.

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following: (1) the Plan's failure to qualify under Section 401(a) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code, (2) premature termination of the contract, (3) Plan termination or merger, (4) changes to the Plan's prohibition on competing investment options or (5) bankruptcy of the Company or other Company events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations. No events are probable that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation or (4) a material amendment to the agreements without the consent of the issuer.

Note 6. Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments are units of pooled separate accounts and an investment contract managed by Voya, the custodian of the Plan, as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return of each fund. The Plan also paid certain administrative expenses in the amount of $432,810 to Voya, the custodian, as defined by the Plan.

Note 7. Tax Status

The Plan adopted a non-standardized defined contribution pre-approved plan sponsored by Voya. Voya has received an opinion letter from the Internal Revenue Service (IRS), dated June 30, 2020, as to the Plan's qualified status. The opinion letter has been relied upon by the Plan. The Plan has been amended subsequent to the version covered by the Plan's determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code.

Accounting principles generally accepted in the United States of America require the Plan's Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
