Independent Auditor's Report

Plan Administrator
AT&T Umbrella Benefit Plan No.1 and No.3
Dallas, Texas

Opinion

We have audited the financial statements of AT&T Umbrella Benefit Plan No. 1 and AT&T Umbrella Benefit Plan No. 3 (Plans), employee benefit plans subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and plan benefit obligations of the Plans as of December 31, 2025 and 2024, and the changes in their net assets available for benefits and plan benefit obligations for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plans and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plans, and determining that the Plans' transactions that are presented and disclosed in the financial statements are in conformity with the Plans' provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The following description of the Plans provides only general information. Further information regarding the Plans and Program benefit provisions, including the addition or discontinuation of specific Programs, is available in the Plans and Program summary plan descriptions and summaries of material modifications distributed to participants.

The Plans provide group medical (including prescription drugs), health reimbursement accounts, supplemental benefits, dental, vision, life insurance, short-term and long-term disability and accidental death and dismemberment benefits under their various Programs previously listed. Under the Plans, employees, former employees and their dependents are eligible for the Programs that the Company makes available as described in the eligibility provisions in the summary plan descriptions of the specific Programs. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Programs offered under the Plans are self-funded, insured or partially self-funded and partially insured. For the self-funded Programs, the Company is responsible for any payment of claims, regardless of whether a third-party administrator is used. The costs of the medical, prescription drug, dental and vision Programs are also paid in part by employee contributions. For the insured Programs, the insurance company is responsible for financing and administering (either by themselves or through a third-party administrator) the benefits under that Program; however, the premiums for the insured coverage are paid by the Voluntary Employees' Beneficiary Association (VEBA) Trusts, the Company and/or participants. The benefits under certain self-funded and insured Programs are paid through VEBA Trusts. Pursuant to the terms of the Programs, some participants are required to contribute to the Plans via the VEBA Trusts based on coverage selected. The Company contributes additional amounts required to fund the Plans' administration expenses, claims and insurance premiums not covered by participants. There is a postretirement benefit obligation for group medical, prescription drug, and dental benefits. Refer to Note 4 "Postretirement and Postemployment Benefit Obligations" for further discussion.

Supplemental benefits are provided by the Plans through optional Programs that cover certain designated experimental or investigational medical procedures and certain other designated benefits like preventive care for active employees if not covered under base medical, dental services for surgery provided in a hospital, doula services, service animals, and more. Certain employees and former employees of the Company are defaulted into these Programs to the extent provided in the Programs. Supplemental benefits are funded by participants' contributions to VEBA Trusts, except when a premium holiday applies. AT&T has the right under the Plans to terminate these optional Programs at any time. In the event of termination, expenses for any procedure in progress that have been certified by the claims administrator would be paid as well as any remaining administrative expenses, and any excess Program assets would then be returned to the current participants.

Dental benefits are provided by Umbrella Plan 3, except those provided by a dental health maintenance organization (DHMO), and are funded either through operating results of the Company or through VEBA Trusts. Premiums for the insured benefits provided by a DHMO are funded either through operating results of the Company or through VEBA Trusts, plus an employee contribution for the difference, if any, between the Company's contribution and the premium determined by the DHMO.

Vision benefits provided by Umbrella Plan 3 are funded either through operating results of the Company or through VEBA Trusts. Vision benefits for retirees are covered by an insurance policy and funded only by participant contributions based on the premium determined by the insurer.

Life insurance benefits provided by the Plans are covered by insurance policies funded, for basic life, by premiums paid to the insurer by the Company either through operating results of the Company or through VEBA Trusts, and for supplemental life and dependent life, by premiums paid to the insurer by the participant. In some cases, AT&T has the option each year to either renew the life insurance coverage or become self-insured. For some participants, premiums are subsidized by premium stabilization reserves. In addition, retirement funding accounts, as applicable, are included on the Statements of Net Assets

Available for Benefits representing funds held by insurance companies restricted to funding retiree life insurance benefits. The postretirement benefit obligation related to life insurance benefits represents the obligation of the Plan to either pay premiums or claims in future years, including those funded through retirement funding accounts. Refer to Note 4 "Postretirement and Postemployment Benefit Obligations" for further discussion.

In Umbrella Plan 3, long-term disability benefits, which are calculated using a formula that considers a participant's salary, are self-insured by AT&T and are funded through a VEBA. Supplemental long-term disability benefits for eligible employees are funded by participant contributions. The present value of long-term disability benefits for participants remaining disabled at December 31 was calculated using the maximum eligible benefit date under the provisions of the applicable Programs. This amount has been recorded in the postemployment benefit obligation in the accompanying Statements of Benefit Obligations. Refer to Note 4 "Postretirement and Postemployment Benefit Obligations" for further discussion.

Short-term disability benefits, held in Umbrella Plan 3, are self-insured by AT&T and are funded out of a VEBA trust and provide benefits that are calculated using a formula that considers a participant's salary. Because these disability payments are subject to income and employment tax, they are paid via the Company's payroll systems. In addition, certain states provide for state disability benefits which are not a part of the Plan. The state disability benefits in states such as California are funded in accordance with applicable state laws. Any state disability insurance benefits paid are offsets to the disability benefits paid under the applicable Programs. The short term disability amount has been recorded in the postemployment benefit obligation in the accompanying Statements of Benefit Obligations. Refer to Note 4 "Postretirement and Postemployment Benefit Obligations" for further discussion.

Basic accidental death and dismemberment benefits provided to eligible active employees are covered by insurance policies funded by premiums paid to the insurer by the Company either through operating results of the Company or through VEBA Trusts. Such benefits provided to eligible former employees are self-insured and are funded either through operating results of the Company or through VEBA Trusts. This amount has been recorded in the postemployment benefit obligation in the accompanying Statements of Benefit Obligations. Refer to Note 4 "Postretirement and Postemployment Benefit Obligations" for further discussion.

Retiree benefits provided through Umbrella Plan 1 or Umbrella Plan 3 are funded by VEBA trusts, which were established exclusively for designated retiree coverage purposes (collectively referred to as the "Retiree VEBA Trusts"). Certain of the Retiree VEBA Trusts' assets are restricted to cover benefits under certain Programs and/or for certain participants of the Retiree VEBA Trusts.

The following Retiree VEBA Trusts are allowed to fund and pay expenses for certain benefits under the Programs within Umbrella Plan 1:

- AT&T Union Welfare Benefit Trust
- BellSouth Corporation RFA VEBA Trust for Non-Representable Employees
- AT&T Corp. Represented Employees Postretirement Welfare Benefits Trust

The following Retiree VEBA Trusts are allowed to fund and pay expenses for certain benefits under the Programs within Umbrella Plan 1 and Umbrella Plan 3. Allocations of these VEBA Trusts activity have been made for employer contributions primarily on the basis of claim and premium payments funded by the Trusts during the year. Notwithstanding, the allocations noted above, the following Retiree VEBA Trusts assets may be used to satisfy the liabilities of either of the Plans.

- BellSouth Corporation Health Care Trust – Retirees (BellSouth Health Care Trust)
- BellSouth Corporation RFA VEBA Trust (BellSouth RFA VEBA)
- AT&T Corp. Management and Nonrepresented Employees Postretirement Welfare Benefits Trust (AT&T Nonrepresented Trust)

The Retiree VEBA Trusts' assets for the Ameritech Retirement Funding Accounts, which pay postretirement benefits under certain Ameritech Programs, have been merged into the AT&T Medical and Group Life Insurance Programs, and are restricted.

The AT&T VEBA Trust funds activity for Umbrella Plan 1 and Umbrella Plan 3. Combined funding of Umbrella Plan 1 and Umbrella Plan 3 was provided by participating companies. Allocations of the AT&T VEBA Trust activity have been made for employer contributions, investment income, investment appreciation or depreciation and trustee/investment manager expenses primarily on the basis of claim and premium payments funded by AT&T through the AT&T VEBA Trust during the year. Notwithstanding, the allocations noted above, AT&T VEBA Trust assets may be used to satisfy the liabilities of either of the Plans.

The cost of postretirement benefits is paid as provided in Umbrella Plan 1 and Umbrella Plan 3 either by the Company or shared by the Company and Umbrella Plan 1 and Umbrella Plan 3 participating retirees. Participant contributions differ based on various factors, including terms of negotiated bargaining contracts and the medical program in which the retiree participates. The summary below is not intended to represent each situation, but rather to provide an overview. In addition to deductibles and co-payments, nonbargained retiree (management) participant contributions during 2025 were as follows:

Nonbargained Retiree Region	No Contributions	Contributions Determined Annually[1]	100% Cost of Coverage Paid by Participants[2]
Southwest	Retired before 9/1/92	Retired on/after 9/1/92 and hired before 8/1/97	Hired on/after 8/1/97

Mobility	N/A	Hired before 1/1/97	Hired on/after 1/1/97

1 Retiree contributions are determined before annual enrollment each year and are subject to change annually at the sole discretion of the Company.

2 Retirees on/after 1/1/21 are not eligible for subsidized Medicare retiree benefits. Retirees on/after 1/1/22 are not eligible for subsidized pre-Medicare retiree benefits.

3 Retirees between 1/1/88 and 12/31/91 with less than 30 years of service pay a contribution based on years of service.

In addition to deductibles and co-payments, bargained retiree participant contributions during 2025 were as follows:

Bargained Retiree Region	No Contributions	Cost in Excess of Annual Cap[1]	100% Cost of Coverage Paid by Participants[2]
Southwest	Retired before 9/1/92, except Southwestern Bell Yellow Pages, which is before 11/1/92	Retired after 9/1/92, except Southwestern Bell Yellow Pages, which is after 11/1/92	Hired, rehired or transferred after 4/8/13 and termination date is on or after 4/8/17
West	Retired before 1/2/91	Retired on/after 1/2/91	Hired, rehired or transferred after 4/7/13 and CWA – Termination date on or after 4/4/20 IBEW – Termination date on or after 7/11/20
East	Retired before 1/1/90	Retired on/after 1/1/90	Hired, rehired or transferred after 6/3/13 and termination date is after 4/9/16
Midwest	Retired before 1/1/93	Retired on/after 1/1/93	CWA - Hired, rehired or transferred after 8/17/12 and terminated after 4/14/18 IBEW – Hired, rehired or transferred after 6/22/13 and terminated employment after 6/25/17
AT&T Corp.	Retired before 3/1/90	Retired on/after 3/1/90	CWA - Hired, rehired or transferred after 8/17/12 and terminated after 4/14/18 IBEW – Hired, rehired or transferred after 6/22/13 and terminated employment after 6/25/17
Southeast[3]	Retired before 1/1/92	Retired on/after 1/1/92	Hired, rehired or transferred after 8/17/12 and termination date is on or after 8/3/19
Mobility	N/A	Hired before 1/1/02 and met the Transition Group 1,2 or 3 requirements	Hired before 1/1/02 and meet the Transition Group 4 requirements. Hired on/after 1/1/02 and terminate on any date

1 Annual cap for former employees who retired as a bargained employee varied among regions; the current contracts covering a majority of bargained employees no longer stipulate zero retiree contributions for any contract period after 4/1/11. Contributions for Mobility are not based on an annual cap.

2 Retirees on/after 1/1/21 are not eligible for subsidized Medicare retiree benefits.

3 Retirees between 1/1/88 and 12/31/91 with less than 30 years of service pay a contribution based on years of service.

Former employees who are eligible for benefits under Umbrella Plan 1, and are hired or rehired by an AT&T participating company into a job position in which they are eligible to retain some or all of the benefits as a former employee, those benefits will be provided by Umbrella Plan 3 instead of Umbrella Plan 1 until the rehired eligible former employee becomes eligible for the Company subsidy as an active employee, then they move to active employee benefits. When the rehired eligible former employee again terminates employment they will return to the Program in effect, as amended, on the day prior to their rehire.

AT&T has the right to terminate the Plans described above at any time in any manner consistent with applicable law. In the event of termination, incurred and outstanding claims would be settled upon termination to the extent provided in the Plans. AT&T will make any contributions needed to cover deficiencies of net assets available for benefits over benefit obligations to the extent required by and in any manner consistent with the ERISA or the Internal Revenue Code of 1986 (IRC) Section 501(c)(9).

2. Accounting Policies – The accompanying financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP). GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

The Medicare Prescription Drug, Improvement and Modernization Act (Medicare Act) introduced a prescription drug benefit under Medicare Part D as well as a federal subsidy to sponsors of retiree health care benefit Plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. The accumulated postretirement benefit obligation and changes in that obligation do not reflect the impact of the Medicare Act because the Medicare subsidy is received by the Plan sponsor and not directly by Umbrella Plan 1. Accordingly, Umbrella Plan 1's obligations and changes thereto differ from the Plan sponsor's obligation because the Plan sponsor's amount is net of the Medicare subsidy.

The estimated amount of claims incurred but not reported was actuarially determined by applying an industry accepted claims lag methodology to actual AT&T claims incurred and paid over a 48-month period.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability that payment (by means of decrements such as those for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion.

Investments in securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. If no sale was reported on that date, they are valued at the last reported bid price. Investments in securities not traded on a national securities exchange are valued using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Government obligations are valued at the bid price or the average of the bid and asked price on the last business day of the year from published sources where available and, if not available, from other sources considered reliable.

Common/collective trust funds, pooled separate accounts, and other commingled (103-12) investment entities are priced at quoted redemption rates that represent the net asset values of units held at year end which management has determined approximates fair value.

Alternative investments not having an established market are valued at fair value as determined by the investment managers. These estimated fair values may differ significantly from the values that would have been used had a ready market for these investments existed, and such differences could be material. Private equity, mezzanine and distressed investments are often valued initially by the investment managers based upon cost. Thereafter, investment managers may use available market data to determine adjustments to carrying value based upon observations of the trading multiples of public companies considered comparable to the private companies being valued. Such market data used to determine adjustments to accounts for cash flows and company-specified issues include current operating performance and future expectations of the investments, changes in market outlook, and the third-party financing environment. Private equity partnership holdings may also include

publicly held equity investments in liquid markets that are marked-to-market at quoted public values, subject to adjustments for large positions held. Real estate and natural resource direct investments are valued either at amounts based upon appraisal reports prepared by independent third-party appraisers or at amounts as determined by internal appraisals performed by the investment manager, which have been agreed to by an external valuation consultant. Fixed income securities valuation is based upon pricing provided by an external pricing service when such pricing is available. In the event a security is too thinly traded or narrowly held to be priced by such a pricing service, or the price furnished by such external pricing services is deemed inaccurate, the managers will then solicit broker/dealer quotes (spreads or prices). In cases where such quotes are available, fair value will be determined based solely upon such quotes provided. Managers will typically use a pricing matrix for determining fair value in cases where an approved pricing service or a broker/dealer is unable to provide a fair valuation for specific fixed-rate securities such as private placements. New fixed-rate securities will be initially valued at cost at the time of purchase. Thereafter, each bond will be assigned a spread from a pricing matrix that will be added to current Treasury rates. The pricing matrix derives spreads for each bond based on external market data, including the current credit rating for the bonds, credit spreads to Treasuries for each credit rating, sector add-ons or credits, issue specific add-ons or credits as well as call or other options.

In substantiating the reasonableness of the pricing data provided by third parties, the general partner or fund manager evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments and overall credit ratings. AT&T meets with and monitors the performance of the fund managers on a periodic basis throughout the year. These estimated fair values may differ significantly from the values that would have been used had a ready market for these investments existed, and such differences could be material.

Non-interest bearing cash, temporary assets and overdrafts are valued at cost, which approximates fair value.

Retirement funding accounts are valued at fair value based on the underlying assets held by the issuer. These funds are used to fund retiree life insurance benefits in accordance with policy provisions.

Purchases and sales of securities are recorded as of the trade date. Realized gains and losses on sales of securities are determined on the basis of average cost. Interest income is recognized on the accrual basis. Dividend income is recognized on the ex-dividend date.

Claims are recorded when paid.

3. Fair Value Measurements – The Fair Value Measurement and Disclosure framework in Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, provides a three-tiered fair value hierarchy based on the reliability of the inputs used to determine fair value. Level 1 refers to fair values determined based on quoted prices in active markets for identical assets. Level 2 refers to fair values estimated using significant other observable inputs and Level 3 includes fair values estimated using significant unobservable inputs.

The level of an asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Our valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methodologies described in Note 2 may produce a fair value calculation that may not be indicative of future net realizable value or reflective of future fair values. We believe our valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2025 and 2024.

See Note 6 for fair value hierarchy for the Plans' investments.

4. Postretirement and Postemployment Benefit Obligations – The amounts reported as the postretirement and postemployment benefit obligations represent the actuarial present value of those estimated future benefits that are attributed

by terms of the Plans to employees' services rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from current and future participants of the Plans.

The deficiency of net assets available for benefits over benefit obligations at December 31, 2025 and 2024, relates to both the postretirement and postemployment benefit obligations. Based on current provisions, these obligations would be funded in later years with AT&T contributions to Umbrella Plan 1 and Umbrella Plan 3 or directly from company assets.

Postretirement benefits include future benefits expected to be paid for (1) currently retired participants or eligible disabled participants and their beneficiaries and dependents and (2) active employees and their beneficiaries and dependents who become eligible for postretirement benefits after retirement or disablement from service with the Company.

Postemployment benefits include future benefits expected to be paid for former or inactive employees after employment but before retirement. The postemployment obligation also includes estimates for health benefits under the Consolidated Omnibus Budget Reconciliation Act of 1985 and for health benefits continued under severance Programs.

Prior to active employees' full eligibility date, the postretirement benefit obligation represents the portion that is attributable to the employees' services rendered to the valuation date. The postretirement obligations represent amounts that are currently expected to be funded by contributions from the Company and from existing Umbrella Plan 1 and Umbrella Plan 3 or company assets, including earnings based on the current provisions of the Plans. The postemployment benefit obligations represent amounts that are currently expected to be funded by contributions from the Company and from existing Umbrella Plan 3 or company assets, including earnings based on the current provisions of the Plan.

Actuarial assumptions for postretirement and postemployment benefits under the Plans were as follows:

	As of December 31, 2025	As of December 31, 2024
Postretirement benefits:		
Discount rate	**5.30%**	5.60%
Expected long-term return on assets	**4.00%**	4.00%
Postemployment benefits:		
LTD income	**4.70%**	5.30%
LTD medical	**5.00%**	5.40%
Disability pension	**4.70%**	5.30%
STD accident	**5.40%**	5.60%
Workers compensation	**5.20%**	5.20%
Postretirement and Postemployment benefits:		
Pre-Medicare medical cost trend rate - initial	**7.25%**	7.50%
Pre-Medicare medical cost trend rate - ultimate[1]	**4.25%**	4.25%
Post-Medicare medical cost trend rate - initial	**6.75%**	5.00%
Post-Medicare medical cost trend rate - ultimate[2]	**4.25%**	4.25%
Drug cost trend rate - initial	**12.25%**	11.25%
Drug cost trend rate - ultimate[3]	**4.25%**	4.25%
Dental cost trend rate	**3.00%**	3.00%

1 For the years ended December 31, 2025 and December 31, 2024, the ultimate trend rate is assumed to be reached in 2032.

2 For the year ended December 31, 2025, the ultimate trend rate is assumed to be reached in 2031. For the year ended December 31, 2024, the ultimate trend rate was assumed to be reached in 2033.

3 For the year ended December 31, 2025, the ultimate trend rate is assumed to be reached in 2035. For the year ended December 31, 2024, the ultimate trend rate was assumed to be reached in 2032.

"Change in actuarial assumptions" is presented on the Statements of Changes in Benefit Obligations, and in 2025 was primarily related to changes in the discount rate.

For 2025 and 2024, both the pre-commencement and post-commencement mortality are based on the headcount-weighted Pri-2012 mortality tables, projected generationally with Projection Scale MP-2021 with COVID endemic adjustments.

Raising the annual medical and dental cost trend rates by one percentage point would increase the postretirement benefit obligation by $8,773 for Umbrella Plan 1 and $113,130 for Umbrella Plan 3 as of December 31, 2025, and $5,250 for Umbrella Plan 1 and $103,338 for Umbrella Plan 3 as of December 31, 2024.

The foregoing assumptions are based on the presumption that the Plans will continue as they exist as of December 31, 2025. If the Plans were to terminate or be amended, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement and postemployment benefit obligations.

Additionally, it is possible that there could be a change in market conditions which could change the return on high quality fixed income bonds that are used to establish the yield curve we use for discounting the benefit obligation. This could significantly affect the actuarial calculation of accumulated benefit obligations.

The postretirement benefit obligation of the Plans at December 31 related to the following categories of participants:

	2025		2024	
	Umbrella Plan 1	**Umbrella Plan 3**	Umbrella Plan 1	Umbrella Plan 3
Retired participants	**$ 4,010,363**	**$ 881,475**	$ 3,948,015	$ 901,913
Other participants fully eligible for benefits	**137,191**	**752,159**	135,877	537,725
Participants not yet fully eligible for benefits	**33,815**	**354,793**	50,156	424,145
	$ 4,181,369	**$ 1,988,427**	$ 4,134,048	$ 1,863,783

The postemployment benefit obligation for Umbrella Plan 3 was $420,824 at December 31, 2025 and $424,209 at December 31, 2024, related solely to "other participants fully eligible for benefits."

5. Master Trusts

AT&T VEBA Trust – Certain assets of the Plans are maintained in the AT&T VEBA Trust. The purpose of the AT&T VEBA Trust is to fund and pay the expenses of the Plans. The assets are allocated among the Plans by assigning to each Plan those transactions that can be specifically identified and allocating among all Plans the net investment income, gains and losses, and expense of the AT&T VEBA Trust, in proportion to the market value of the assets assigned to each Plan. The assets of the AT&T VEBA Trust are managed at the direction of AT&T in its capacity as fiduciary for the Plans and at the discretion of investment managers appointed pursuant to ERISA.

6. Investments – The Plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, liquidity, market and credit risks. Due to the level of risk associated with certain investment securities and the possibility there could be a decline in market conditions, it is at least reasonably possible that changes in the fair values of investment securities could occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Commitments

The commitments to fund venture capital investments in future periods were $827 and $2,207 for Umbrella Plan 1, BellSouth Corporation Health Care Trust – Retirees, and BellSouth Corporation RFA VEBA Trust at December 31, 2025 and 2024, respectively.

Umbrella Plan 1, BellSouth Corporation Health Care Trust – Retirees, and BellSouth Corporation RFA VEBA Trust's fair value investments shown in the table below have been estimated using the net asset value per share of the investments. Alternative investments held at December 31, 2025, consist of the following:

		Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Hedge funds	Commingled funds[1]	77	Not Applicable	Monthly, quarterly, annually	5-90 days
Equities	Commingled funds[2]	146,834	Not Applicable	Daily, monthly, quarterly	1-30 days

Private equity assets	Commingled funds[4]	5,738	827	No redemption rights	Not applicable
Real estate Investments	Closed- End funds[5]	9,164	—	No redemption rights	Not applicable
		$ 211,758	$ 827		

(1) This class includes both directional and non-directional hedge fund strategies. The fair value of these investments has been estimated using the net asset value per share reported by the funds' managers. These investments can be redeemed provided the funds have sufficient liquidity; otherwise, unredeemed amounts are rolled forward to the next period. It is estimated that the redemption from two funds, which AT&T has elected to exit, will occur over the next one to three years.

(2) This class includes equity commingled funds that invests primarily in publicly traded U.S. and non-U.S. equity securities. The fair value of the investments in this class has been estimated using the net asset value per share reported by the fund managers. These funds are either selected by AT&T and AT&T determines the timing and amount of contributions/redemptions or are approved by AT&T for a manager to utilize on a discretionary basis as part of a broad equity mandate. These are open end funds with no final termination dates.

(3) This class includes fixed income commingled funds that invest primarily in publicly traded fixed income securities. These funds are either selected by AT&T and AT&T determines the timing and amount of contributions/redemptions or are approved by AT&T for a manager to utilize on a discretionary basis as part of a broad fixed income mandate. These are open end funds with no final termination dates. Some funds may impose limits on redemption amounts based on liquidity and cash flow availability.

(4) This class includes private equity funds that invest in U.S. and International companies. The fair values of the investments in this class have been estimated using the net asset value of the Plan's ownership in partners' capital. These investments can never be redeemed with the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is estimated that the underlying assets of the funds will be liquidated over the next seven to ten years. There are no current plans to sell any of these funds. This includes $4,130 in Umbrella Plan 1, $583 in the BellSouth Corporation Health Care Trust - Retirees, and $1,025 in the BellSouth RFA VEBA.

(5) This class includes real estate and natural resource investment funds that invest in U.S. and International real assets. The fair values of the investments in this class have been estimated using the net asset value of the trust's ownership in partners' capital. These investments can never be redeemed with the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is estimated that the underlying assets of the funds will be liquidated over the next seven to ten years. There are no current plans to sell any of these funds. This includes $4,747 in Umbrella Plan 1, $2 in the BellSouth Corporation Health Care Trust - Retirees, and $4,415 in the BellSouth RFA VEBA.

Umbrella Plan 1, BellSouth Corporation Health Care Trust – Retirees, BellSouth Corporation RFA VEBA Trust, and AT&T Corp. Management and Nonrepresented Employees Postretirement Welfare Benefits Trust's fair value investments shown in the table below have been estimated using the net asset value per share of the investments. Alternative investments held at December 31, 2024, consist of the following:

		Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Interest bearing investments	Commingled funds[1]	$ 4,976	Not Applicable	Daily	1-5 days
Hedge funds	Commingled funds[2]	127	Not Applicable	Monthly, quarterly, annually	5-90 days
Equities	Commingled funds[3]	158,430	Not Applicable	Daily, monthly, quarterly	1-30 days
Fixed income	Commingled funds[4]	135,221	$ —	Daily, monthly	3-5 days
Private equity assets	Commingled funds[5]	8,889	2,207	No redemption rights	Not applicable
Real estate Investments	Closed- End funds[6]	9,079	—	No redemption rights	Not applicable
		$ 316,722	$ 2,207		

(1) This class includes common/collective trust funds that invest primarily in publicly traded short-term fixed income securities. The fair value of the investments in this class has been estimated using the net asset value per share reported by the fund managers. These funds are selected by AT&T and AT&T determines the timing and amount of contributions/redemptions. These are open end funds with no final termination dates.

(2) This class includes both directional and non-directional hedge fund strategies. The fair value of these investments has been estimated using the net asset value per share reported by the funds' managers. These investments can be redeemed provided the funds have sufficient liquidity; otherwise, unredeemed amounts are rolled forward to the next period. It is estimated that the redemption from two funds, which AT&T has elected to exit, will occur over the next one to three years.

(3) This class includes equity commingled funds that invests primarily in publicly traded U.S. and non-U.S. equity securities. The fair value of the investments in this class has been estimated using the net asset value per share reported by the fund managers. These funds are either selected by AT&T and AT&T determines the timing and amount of contributions/redemptions or are approved by AT&T for a manager to utilize on a discretionary basis as part of a broad equity mandate. These are open end funds with no final termination dates.

(4) This class includes fixed income commingled funds that invest primarily in publicly traded fixed income securities. These funds are either selected by AT&T and AT&T determines the timing and amount of contributions/redemptions or are approved by AT&T for a manager to utilize on a discretionary basis as part of a broad fixed income mandate. These are open end funds with no final termination dates. Some funds may impose limits on redemption amounts based on liquidity and cash flow availability.

(5) This class includes private equity funds that invest in U.S. and International companies. The fair values of the investments in this class have been estimated using the net asset value of the Plan's ownership in partners' capital. These investments can never be redeemed with the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is estimated that the underlying assets of the funds will be liquidated over the next seven to ten years. There are no current plans to sell any of these funds. This includes $5,968 in Umbrella Plan 1, $1,248 in the BellSouth Corporation Health Care Trust - Retirees, and $1,673 in the BellSouth RFA VEBA .

(6) This class includes real estate and natural resource investment funds that invest in U.S. and International real assets. The fair values of the investments in this class have been estimated using the net asset value of the trust's ownership in partners' capital. These investments can never be redeemed with the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is estimated that the underlying assets of the funds

will be liquidated over the next seven to ten years. There are no current plans to sell any of these funds. This includes $4,781 in Umbrella Plan 1, $2 in the BellSouth Corporation Health Care Trust - Retirees, and $4,295 in the BellSouth RFA VEBA.

Derivatives
In the normal course of operations, certain VEBA Trusts' assets may include derivative financial instruments (futures, options and foreign currency contracts). These instruments involve, in varying degrees, elements of credit and market volatility risks in excess of more traditional investment holdings such as equity and debt instruments. The contract or notional amounts provide a measure of the trusts' involvement in such instruments but are not indicative of potential loss. The intent is to use derivative financial instruments as an economic hedge to manage market volatility risk and foreign currency exchange rate risk associated with the Plans' investments as a whole. The VEBA Trusts are exposed to credit risk in the unlikely event of nonperformance by counterparties with respect to nonexchange traded contracts. Leveraged derivatives, as defined in the VEBA Trusts' derivative policy, are prohibited. The fiduciaries do not anticipate any material adverse effect on the VEBA Trusts' financial position resulting from involvement in these instruments.

At December 31, 2025 and 2024, the fair value of derivative financial instruments held by the VEBA Trusts was not material.

Foreign Currency Contracts
The primary risk managed by the VEBA Trusts using foreign currency forward contracts is the foreign currency exchange rate risk associated with the Plan investments denominated in foreign currencies. On behalf of the Plans, investment managers for the VEBA Trusts entered into forward foreign currency contracts, which are agreements to exchange foreign currencies at a specified future date at a specified rate, the terms of which are not standardized on an exchange. These contracts are intended to minimize the impact of currency fluctuations on the performance of investments denominated in foreign currencies. All the VEBA Trusts' contracts address the currency risk of the U.S. dollar versus foreign currencies. Risk arises both from the possible inability of the counterparties to meet the terms of the contracts (credit risk) and from the movements in foreign currency exchange rates (market risk). Forward contracts are entered into only with major banks to minimize counterparty default risk.

The contracts are recorded at fair value on the date the contract is entered into, which is typically zero. The fair values of the foreign currency contracts are recorded as either a payable or receivable, based on the contract position at the report date. The net realized and unrealized gains or losses are included in net appreciation (depreciation) in fair value of investments on the Plans' accompanying Statements of Changes in Net Assets Available for Benefits.

Investment Risk
Investments held by the Plans are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments could occur in the near term and that such changes could materially affect balances and the amounts reported in the statement of net assets available for plan benefits.

Additionally, the VEBA Trusts invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

7. Retirement Funding Accounts – As reported on the Statements of Net Assets Available for Benefits, Umbrella Plan 1 assets include funds held by insurance companies for funding retiree life insurance benefits. Amounts held in pooled separate accounts were $196,869 at December 31, 2025, and $216,713 at December 31, 2024, with no amounts held in general accounts at either date.

The AT&T Corp. Management and Nonrepresented Employees Postretirement Welfare Benefits Trust, which became a Master Trust in 2023, held assets held by insurance companies for funding retiree life and health benefits. During 2025, the assets of the AT&T Nonrepresented Trust Net Assets were significantly expended, and an immaterial amount of net assets

remained in the Trust as of December 31, 2025. Amounts held in pooled separate accounts were $120,939 at December 31, 2024.

8. Related Party and Parties-in-Interest Transactions – During 2025, the VEBA Trusts received proceeds of $45 for the sale of AT&T common stock.

The VEBA Trusts held AT&T common stock with a fair market value $37 at December 31, 2024. No AT&T bonds were held in the VEBA at December 31, 2025 and 2024, and no AT&T common stock was held in the VEBA at December 31, 2025.

The VEBA Trusts maintain revolving credit notes with AT&T. These notes allow for AT&T to pay benefits on behalf of the Plans during a plan year and, at AT&T's discretion to seek reimbursement for these amounts from the trusts in the plan year as permitted under Department of Labor guidance. No interest accrues on outstanding balances and all balances are unsecured. During 2025, AT&T instructed the VEBA Trusts to repay $277,285 for claims paid on behalf of the Plans in 2025. Fee payments of $13,243 related to Umbrella Plan 1 and $99,795 related to Umbrella Plan 3 were paid to claim administrators during 2025.

9. Tax Status – The Internal Revenue Service has determined that the VEBA Trusts qualify under Section 501(c)(9) of the IRC and are exempt from federal income taxes under Section 501(a) of the IRC. However, on occasion, certain VEBAs have been required to pay income taxes under Section 511 of the IRC for Unrelated Business Income (UBI). With few exceptions, the period for examination of the trusts by federal tax authorities for years before 2021 are closed. The Plans and trusts are required to operate in conformity with the IRC to maintain the tax-exempt status of the trusts. The Plans' administrator believes that the Plans and trusts are being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Reconciliation of Financial Statements to Form 5500 – The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	Umbrella Plan 1		**Umbrella Plan 3**	
	2025	2024	**2025**	2024
Net assets available for benefits per the financial statements	**$ 458,571**	$ 738,704	**$ 318,898**	$ 471,529

Premiums due to insurers, current year	**(32,014)**	**(16,691)**
Net loss per the Form 5500	**$ (174,775)**	**$ (258,364)**

11. Risk and Uncertainties – The current economic environment presents employee benefit Plans with circumstances and challenges, which in some cases have resulted in large declines in the fair value of investments.

Given the volatility of current economic conditions, the fair values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plans.

12. Subsequent Events

Subsequent events have been evaluated through September 18, 2026, which is the date the financial statements were available to be issued.
