Plan Administrator
Silver State Schools Credit Union Defined Benefit Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2025 Financial Statements
We have audited the financial statements of Silver State Schools Credit Union Defined Benefit Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of assets available for benefits as of December 31, 2025, and the related statement of changes in assets available for benefits for the year then ended, and the related notes to financial statements.

Management having determined it permissible in the circumstances, has elected to have the audit of the 2025 Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and for the year then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the 2025 Financial Statements
In our opinion, based on our audit and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section-

- the amounts and disclosures in the 2025 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- the information in the 2025 financial statements referred to above, related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2025 Financial Statements
We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2025 Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements
Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2025 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2025 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA
The supplemental schedule of assets (held at end of year) as of December 31, 2025 and schedule of reportable transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, have been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA

In our opinion:

- the form and content of the supplemental schedules, other than the information derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2024 Financial Statements

The 2024 financial statements of the Silver State Schools Credit Union Defined Benefit Plan as of December 31, 2024, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditor not to perform, and they did not perform, any auditing procedures with respect to the information certified by a qualified institution. Their report dated September 24, 2025, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements, and (b) the form and content of the information included in the financial statements other than that derived from the certified information, were presented in compliance with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following description of the Silver State Schools Credit Union Defined Benefit Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined benefit pension plan and became effective April 1, 1973. The Plan provides pension benefits to all employees of Silver State Schools Credit Union (the Employer) who have completed six months of service and attained 20 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On June 1, 2010, the accrued benefits of the Plan were frozen. Employees can no longer join or rejoin the plan as an active participant on or after this date. Earned benefits are frozen and no additional benefits can be earned.

On April 1, 2018, the Plan was amended in order to adopt disability claim procedures that would make the Plan compliant to the requirements under the regulations of ERISA Section 503.

In 2024, the Plan was restated to retroactively incorporate amendments for the Setting Every Community Up for Retirement Enhancement Act of 2019 and the SECURE 2.0 Act of 2022 beginning on January 1, 2020.

Pension benefits

Employees with 5 or more years of service are entitled to annual pension benefits (paid monthly) beginning at normal retirement age (65) equal to 67.5% of average monthly compensation not in excess of the covered compensation, plus 80% of their total average monthly compensation in excess of the covered compensation. The average monthly compensation is calculated using the five consecutive years (all compensation years, if less than five) that give the highest average out of all compensation years.

However, the average compensation is the frozen average compensation determined as of the date the accrued benefit was frozen. In determining the frozen average compensation as of the date the accrued benefit is frozen, compensation after that date shall be disregarded.

The Plan permits early retirement for participants at ages 55-65 with 5 or more years of service. A reduced retirement benefit will result from early retirement. Employees will receive their pension benefits in the form of a qualified joint and survivor annuity, or in any other form as agreed upon between the employee, the employer, and Principal Life Insurance Company.

Administrative expenses

Plan administrative expenses may be charged directly to the Plan or paid by the Employer. During the year ended December 31, 2025, the Plan paid $94,535 of administrative expenses. Certain administrative expenses are paid by the Company. Investment related expenses are included in net appreciation in the fair value of investments.

Death and disability benefits

Death benefits are provided in the form of monthly pension payments or lump sum payment (after Annuity Starting Date) to the surviving spouse. The spouse may elect to start benefits on any first day of the month or after the earliest date retirement benefits could have been paid to the participant if the participant had ceased to be an employee on the date of death and survived to retire.

Disability benefits are provided if employment ceases, prior to retirement, due to a total and permanent disability. The benefit is reduced by early retirement factors.

Plan Termination

Although it has not expressed any intention to do so, the Employer has the right under the Plan Agreement, in certain circumstances, to discontinue its contributions and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan Agreement. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates.

Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Vesting

Vesting in the Plan is based on years of continuous service. A participant vests in 20% increments beginning at the end of year three and is 100% vested after seven years of credited service as follows:

Years of Service	Percentage Vested
Less than 3 years	0%
3 years	20%
4 years	40%
5 years	60%
6 years	80%
7 or more years	100%

Reclassifications

Certain amounts in the December 31, 2024 financial statements have been reclassified to conform to the year ended December 31, 2025 presentation.

2. Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements of the Plan have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Investments in mutual funds are stated at fair value based upon quoted market prices. Investments in pooled separate accounts are stated at net asset value (NAV) per share as a practical expedient which is based on the fair value of the underlying investments.

Net appreciation of investments includes realized and unrealized gains or losses on investments and is recognized in income currently. Amounts invested may earn interest and dividends, which in turn are reinvested. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Funding Policy
Contributions to provide benefits under the Plan are made solely by the Employer. The Employer's funding policy is to make cash contributions to the Plan in amounts equal to or greater than amounts as determined by the Plan's independent actuary. The Plan's management believes the Employer met the minimum funding requirements of ERISA for the years ended December 31, 2025 and 2024.

Contributions
Employer contributions are recorded in the period in which they become obligations of the Employer.

Payment of Benefits
Benefits are recorded when paid by the Plan.

Risks and Uncertainties
The Plan invests in pooled separate accounts and mutual funds with underlying assets consisting of any combination of stocks, bonds, fixed income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits and the statements of changes in assets available for benefits.

Subsequent Events
Plan management has evaluated events occurring subsequent to year-end through August 5, 2026, which is the date the financial statements were available to be issued.

3. Accumulated Plan Benefits
Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service which employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees and (c) present employees or their beneficiaries. Benefits under the Plan are based on employee's years of service. The accumulated plan benefits for active employees are based on their years of service on the date the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability and termination of employment - is included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying independent actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, withdrawal or retirement) between the valuation date and the expected date of payment. The prior service cost and contributions were actuarially determined under the asset smoothing method.

The following significant actuarial assumptions were used in the January 1, 2025 and 2024 valuations:

	2025	2024
Assumed Rate of Return on investments for accumulated benefits annually	4.75% compounded annually	4.75% compounded annually
Mortality basis	Pri-2012 Blue Collar Base Rate Mortality Table projected generationally using the Principal 2024 Mortality Improvement Scale	Pri-2012 Blue Collar Base Rate Mortality Table projected generationally using the Principal 2023 Mortality Improvement Scale
Retirement	Age 65 or current age if older	Age 65 or current age if older
Actuarial Cost Method	Unit Credit	Unit Credit

The accumulated values from the two preceding years are averaged with the current year market value. The resulting value of the assets is then restricted to be no more than 110% and no less than 90% of the current market value.

The actuarial present value of accumulated plan benefits is as follows as of January 1:

	2025	2024
Vested benefits:		
Participants and/or beneficiaries currently receiving payments	$ 11,705,238	$ 11,699,763
Other participants	7,678,333	7,316,575
Total actuarial present value of accumulated plan benefits	$ 19,383,571	$ 19,016,338

The changes in the actuarial present value of the accumulated plan benefits are as follows as of January 1:

	2025	2024
Actuarial present value of accumulated plan benefits at beginning of the year	$ 19,016,338	$ 19,095,199
Increase (decrease) during the year attributable to:		
Benefits paid	(1,127,736)	(1,111,056)
Plan experience	119,608	151,255
Interest due to decrease in the discount period	876,803	880,940
Assumption changes	498,558	-
Net increase (decrease)	367,233	(78,861)
Actuarial present value of accumulated plan benefits at end of the year	$ 19,383,571	$ 19,016,338

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Exempt Party-In Interest Transactions

Administrative expenses paid by the Plan represent party-in-interest transactions for which a statutory exemption exists. Administrative expenses include trustee fees and fees paid for actuarial and administrative services. In addition, certain employees of the Employer provide administrative services for the Plan for which the Plan is not charged.

5. Federal Income Tax Status

The Plan Sponsor is an adopter of a pre-approved plan. The Internal Revenue Service (IRS) has determined and informed the Plan Sponsor by a letter dated March 30, 2018 that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (the IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Fair value measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Financial Accounting Standards Board established a framework for measuring fair value in the form of a fair value hierarchy, which prioritizes inputs into valuation techniques used to measure fair value into three broad levels. This hierarchy requires assets to be classified by level in their entirety based upon the lowest level of input that was significant to the fair value measurement. The three levels of the fair value hierarchy are as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1, including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data.

Level 3 Unobservable inputs supported by little or no market data for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

2025

7. Information Certified by Trustee

The Retirement Plan has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under that election, the Retirement Plan Committee instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedules:

SCHEDULE H, line 4i - SCHEDULE OF ASSETS (HELD AT END OF YEAR)

Assumptions prescribed by law	
Mortality	Before benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. During benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
Assumptions selected by actuary	
Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	4.75% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions. This assumption is based on the results of recent experience analysis and anticipated future experience.
Disability	1987 Commissioner's Group Disability Table, six month elimination period, male and female. We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.
Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 1.50. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.50 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age. This assumption is based on the results of recent experience analysis and anticipated future experience.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Methods selected by plan sponsor	
Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2019 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
4.65 %	5.28%	5.63%

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Blue collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2024).
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement

Principal 2024 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2024
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2030/2030
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2024
COVID-19 or Excess load	None[1]

[1]Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See Mortality documentation for rationale and additional information.

Interest rate used to value liabilities

4.50%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of Plan Provisions
Silver State Schools Credit Union Defined Benefit Plan
EIN 88-0062898 Plan No. 001

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan restatement, effective 01/01/2025, signed 03/26/2025.

Plan eligibility	
Age	Attained age 20.
Service	One-half year of service. On and after June 1, 2010, no employee shall become an active participant and no inactive participant or former participant shall again become an active participant.
Normal retirement benefit	
Age	Attained age 65 with five years of plan participation.
Form	Monthly annuity payable for ten years and life thereafter. (optional forms may be elected in advance of retirement)
Amount (accrued benefit)	The sum of a) and b) rounded to the nearest $5; multiplied by c), and multiplied by d): a) 67.5% of average compensation less than or equal to the integration level. b) 80% of average compensation above the integration level. c) Short service percentage. d) Accrued benefit adjustment. On and after June 1, 2010, the accrued benefit is frozen and no additional benefits shall accrue on and after such date. Accrual service shall be frozen on and after June 1, 2010 for purposes of determining the accrued benefit on such date.
Early retirement benefit	
Age	Attained age 55.
Service	Five years of accrual service. On and after June 1, 2010, accrual service for purposes of determining a participant's early retirement age shall continue to be credited with one year of service for each accrual computation period ending after June 1, 2010 in which he is credited with at least 1,000 hours of service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 6 2/3% for each year up to five and 3 1/3% for each year between five and ten that the early retirement date precedes normal retirement date.

Late retirement benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or the actuarial equivalent of the prior year's accrued benefit.
Termination benefit	
Vesting percentage	20% after three years of vesting service and 20% each year thereafter up to 100%.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.
Disability benefit	
Eligibility	Employment ceases prior to retirement due to becoming totally and permanently disabled as determined by a physician appointed by the plan administrator.
Form	Monthly income payable as though retired.
Amount	Accrued benefit as of the January 1st following termination of employment reduced by early retirement factors. Participants who become totally and permanently disabled after termination from employment shall receive the actuarial equivalent of their vested accrued benefit.
Survivor annuity death benefit (a vested benefit)	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions	
Average compensation	The monthly average of total pay received for the five consecutive years prior to retirement date which gives the highest average. On or after June 1, 2010, an employee's average compensation shall be his frozen average compensation as of June 1, 2010. Compensation years ending after June 1, 2010 shall be disregarded.
Accrued benefit adjustment	The quotient of (a) divided by (b), not to exceed 1.00, (a) The number of completed years of service to date. (b) The sum of (a) and the number of years of service remaining to normal retirement date.
Integration level	The monthly average of the Social Security Taxable Wage Bases (in effect under Section 230 of the Social Security Act) for each year in the 35-year period ending with the year the employee attains Social Security retirement age.
Short service percentage	The percentage obtained by dividing the number of complete years of service between the participant's date of employment and normal retirement date by 25 (maximum 100%).
Optional forms of benefit payments	The optional forms of benefit payments are: • Monthly annuity payable for life, or 10 years certain and life. • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100. The optional form conversion basis is 7.5% interest and the 1983 Group annuity mortality table blended 50/50 for payments other than lump sums.
	Lump sum provisions Small amount force out (SAFO) – allowed up to $7,000. Lump sums in excess of SAFO - aren't allowed. Conversion –greater of the deferred or immediate rate with early retirement factor based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.
