Report of Independent Auditors

To the Participants and Trustees of
Minnesota Nurses Association
Pension Plan and Trust

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Minnesota Nurses Association Pension Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution, as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America; and

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

6800 France Avenue So. I Suite 550 I Edina, MN 55435 I 952.841.3950 I 952.841.3951 Fax I www.legacycpas.com

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements (continued)
In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed;
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements; and
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements

December 31, 2025 and 2024

Note 1. Description of the Plan

Minnesota Nurses Association Pension Plan and Trust (the Plan), established January 1, 1966, by Minnesota Nurses Association (the Association), provides retirement benefits for eligible participants. The Plan covers employees working under a union contract between Minnesota Nurses Association Staff Organization Local 1 (the Union) and the Association. The Plan is administered by the Association on behalf of the Board of Trustees, which is comprised of an equal number of Union and Association representatives. The Board of Trustees has overall responsibility for the operations and administration of the Plan. The Plan is a single employer defined benefit pension plan and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Under current provisions of the Plan, employees are eligible to participate after being credited with one year of eligibility service. A year of eligibility service is earned once an employee is credited with 1,000 hours of service during a period of 12 consecutive months, commencing on the date of employment. Plan entry dates are January 1 or July 1 following the initial service hour requirement.

A year of vesting service is earned during a Plan year in which a participant is credited with at least 1,000 hours of service. A participant's accrued benefit becomes vested and non-forfeitable upon the completion of five years of vested service.

A participant is eligible for a normal pension upon attaining age 65 with five years of benefit service. A normal pension is equal to 1.75% of the final average monthly compensation, multiplied by benefit credits earned. The Plan also contains provisions for early retirement, late retirement and benefits for surviving spouses.

Participants should refer to the summary plan description for more complete information.

Note 2. Summary of Significant Accounting Policies

Method of Accounting - The accompanying financial statements have been prepared using the accrual basis of accounting.

Note 2. Summary of Significant Accounting Policies (continued)

Investments - Investments are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell that asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Purchases and sales of investments are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service which employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Expenses - Administrative expenses paid by the Plan are included in the accompanying financial statements. Certain administrative expenses paid by the Association are not included in the accompanying financial statements. Certain investment related expenses are included in net appreciation in fair value of investments.

Reclassifications - Certain prior year amounts have been reclassified to conform to the current year presentation.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Subsequent Events - Subsequent events have been evaluated though October 1, 2026, which is the date the financial statements were available to be issued.

Note 3. Priorities upon Termination

It is the intent of the Association to continue the Plan in full force and effect; however, the right to discontinue the Plan is reserved to the Association. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by ERISA and its related regulations. Termination shall not permit any part of the Plan assets to be used for or diverted to purposes other than the exclusive benefit of the pensioners, beneficiaries and participants. Whether or not a particular participant will receive full benefits should the Plan terminate at some future time will depend on the sufficiency of the Plan's net assets at that time and the priority of those benefits.

Note 3. Priorities upon Termination (continued)

In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of plan amendments in effect for less than five years. Some benefits may be fully or partially provided for while other benefits may not be provided at all.

Note 4. Tax Status

The Plan's latest determination letter is dated March 3, 2015, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements under Section 401(a) of the Internal Revenue Code and was, therefore, exempt from federal income taxes under the provisions of Section 501(a). The Plan has been amended since receiving the determination letter. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require the Plan to evaluate tax positions taken and recognize a tax liability if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5. Fair Value Measurements

The *Fair Value Measurements and Disclosures* Topic of the Financial Accounting Standards Board Accounting Standards Codification established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities
Level 2	Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable

Note 5. Fair Value Measurements (continued)

The following tables set forth, by level within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2025 and 2024. As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. In accordance with generally accepted accounting principles, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the following tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

		Fair Value Measurements at 12/31/25 Using		
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 23,848,865	$ 23,848,865	$ -	$ -
Investments measured at net asset value:				
Pooled separate accounts	809,491			
Total	$ 24,658,356			

		Fair Value Measurements at 12/31/24 Using		
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 21,342,625	$ 21,342,625	$ -	$ -
Investments measured at net asset value:				
Pooled separate accounts	892,854			
Total	$ 22,235,479			

Level 1 Measurements

The fair values of the mutual funds are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Shares held are traded on national securities exchanges and are valued at the net asset value on the last business day of each period presented.

Note 5. Fair Value Measurements (continued)

Measurements Using Net Asset Value as a Practical Expedient

The pooled separate accounts are valued at the net asset value per share, used as a practical expedient to estimate fair value. The net asset value is based on the fair values of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.

The pooled separate accounts are direct filing entities (DFEs) and file a Form 5500 annual report with the U.S. Department of Labor. The Plan is not required to disclose the significant investment strategies of DFE investments. Redemptions are available daily without notice.

Note 6. Concentration of Plan Investments

As of December 31, 2025 and 2024, the Plan held units in two mutual funds, with a collective fair value of $13,127,561 and $9,846,716 respectively. The investment funds represented approximately 53% and 44% of the Plan's net assets available for benefits as of December 31, 2025 and 2024, respectively. It is reasonably possible that changes in the fair values of these investment funds could materially affect the amounts reported in the statements of net assets available for benefits. If a significant decline in the fair values of these investments occurred during the next year, a change in the assumed rates of return used to calculate the present value of accumulated plan benefits may be needed.

Note 7. Certified Information

The following information included in the accompanying financial statements and ERISA-required supplemental schedule as of December 31, 2025 and 2024 and for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Trust Company, a qualified institution.

	2025	2024
Investments - at fair value		
Mutual funds	$ 23,848,865	$ 21,342,625
Pooled separate accounts	$ 809,491	$ 892,854
Investment income		
Net appreciation in fair value of investments	$ 1,737,106	$ 463,602
Dividends	$ 868,178	$ 719,384

Note 8. Actuarial Information

Actuarial valuations of the Plan were made by Principal Financial Group as of December 31, 2025 and 2024. Information in the reports included the following:

	2025	2024
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving benefits	$ 10,639,581	$ 10,303,367
Other participants	5,968,770	6,231,897
Total vested benefits	16,608,351	16,535,264
Nonvested benefits	1,114,969	1,052,996
Total actuarial present value of accumulated plan benefits	$ 17,723,320	$ 17,588,260

As reported by the actuary, the changes in the actuarial present value of accumulated plan benefits during the years ended December 31, 2025 and 2024 were as follows:

	2025	2024
Actuarial present value of accumulated plan benefits at beginning of year	$ 17,588,260	$ 16,798,393
Increase (decrease) during the year attributable to		
Decrease in discount period	1,024,629	978,955
Benefits paid	(1,037,322)	(979,083)
Benefits accumulated and plan experience	653,960	789,995
Changes in actuarial assumptions	(506,207)	-
Actuarial present value of accumulated plan benefits at end of year	$ 17,723,320	$ 17,588,260

The actuarial valuations were made using the unit credit cost method. Some of the more significant actuarial assumptions used in the valuations were as follows:

Mortality - IRS 2024+ Combined Static Mortality Table for small plans

Retirement - 100% of those eligible under the rule of 85, the remainder at age 65

Investment rate of return - 6.50% for 2025 and 6.75% for 2024

Note 8. Actuarial Information (continued)

Because administrative expenses are incurred when making benefit payments, those expenses must be considered in determining the benefit information. Generally accepted accounting principles require administrative expenses expected to be paid by the Plan (not those paid by the sponsor) that are associated with providing accumulated plan benefits to be reflected either by appropriately adjusting the assumed rates of return or by assigning those expenses to future periods and discounting them to the benefit information date. However, for the years ended December 31, 2025 and 2024, no adjustments were made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses, due mainly to the consideration that the Association may change its administrative expense handling at any time and because expenses paid with Plan assets are required to be included in the normal funding cost so that the Plan is reimbursed annually through required funding. Plan management believes that this approach reflects the best estimate of the Plan's future experience.

Changes in actuarial assumptions for the year ended December 31, 2025, were primarily the result of updates to the assumed asset return and interest rates.

The actuarial assumptions were based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial results.

On August 17, 2006, the Pension Protection Act (PPA) was signed into law. Included in its many provisions are numerous revisions surrounding new funding rules for defined benefit plans that may significantly increase required contributions for underfunded plans. PPA establishes minimum funding standards and limits benefit increases and accruals for underfunded plans. Plans with a funding percentage below 80% will be required to implement certain benefit limitations such as restricting lump-sum payments and restricting the plan from amending the plan to enhance benefits. Further limitations such as freezing the accrual of all future benefits will be required for plans that are underfunded by more than 60% until such time as the percentage increases above 60%. Additionally, pursuant to PPA, each year actuaries are required to certify to a plan's funded percentage. The Plan received such certification for the Adjusted Funding Target Attainment Percentage (AFTAP), which is one way of measuring the funded status of a Plan using actuarial assumptions mandated by the Internal Revenue Service and the actuary determined that the AFTAP for the Plan is 121.90% as of January 1, 2026 and 115.48% as of January 1, 2025.

Note 9. Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9. Risks and Uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10. Funding Policy

The Association contributes such amounts as required under accepted actuarial principles to meet the minimum funding standards of ERISA or at its discretion if those standards have been met. The Plan's actuary has advised that the minimum funding requirements of ERISA were being met as of January 1, 2026.

Note 11. Party-In-Interest Transactions

The Plan invests in pooled separate accounts managed by Principal Life Insurance Company, an affiliate of Principal Trust Company, the Trustee of the Plan. Principal Financial Group, the Plan's actuary, is also an affiliate of the Trustee. The Association is also a party-in-interest. These transactions qualify as party-in-interest transactions under ERISA.

SCHEDULE H, line 4i - SCHEDULE OF ASSETS (HELD AT END OF YEAR)

Assumptions prescribed by law	
Mortality	Before benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. During benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
Assumptions selected by actuary	
Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	6.50% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Retirement	Active participants are assumed to retire at the earlier of age 65 or when age and service total 85. Inactive participants are assumed to retire at Normal Retirement Age as defined in Plan provisions. Due to our short tenure, this assumption is based on the prior actuary's assumption.
Upcoming year salary increase	The preceding year's salary is increased by 5.00% at each age. Note: not used for Plan accounting calculations. Due to our short tenure, this assumption is based on the prior actuary's assumption.
Disability	None. Due to our short tenure, this assumption is based on the prior actuary's assumption.
Marriage	80% married; husbands are 3 years older than wives. Due to our short tenure, this assumption is based on the prior actuary's assumption.

Withdrawal

Sarason's T-1

Selected rates of withdrawal are shown below:

Age	Rate of withdrawal
25	4.97%
40	1.33%
55	1.04%

Due to our short tenure, this assumption is based on the prior actuary's assumption.

Compensation limit increase

2.40% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See Calculated deduction in Rules and regulations.

Compensation limit increase is consistent with the inflation assumption.

Form of benefit

Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Benefit accrual

All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.

- The portion based on the plan's definition of accrued benefit.
- The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.

The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2023 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
4.65%	5.28%	5.63%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on IRS 2024+ Small Plan Combined Static Mortality (dynamic)
Interest rate used to value liabilities	6.00% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of Plan Provisions
Minnesota Nurses Association Pension Plan
EIN 41-0417949 Plan No. 001

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 06/18/2014 including amendments through #3, signed 08/16/2023.

Plan eligibility	
Age	No minimum age requirement.
Service	One year of service in which at least 1,000 hours worked.
Entry date	January 1 or July 1

Normal retirement benefit	
Age	Attained age 65, or if earlier, the day when the sum of the participant's years of age and years of vested service is 85.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The benefit is the sum of all annual benefit credits where each annual accrual shall equal the following: For termination prior to 01/01/1995: 1½% of compensation multiplied by credited service earned during the plan year. The annual benefit accrual shall not be less than $228. For termination on or after 01/01/1995: 1 ¾% of compensation multiplied by credited service earned during the plan year. The annual benefit accrual shall not be less than $300. The following increases in accrued benefit amounts also apply: a) On 1/1/1988, the accrued benefit of each active and vested terminated participant increases 25%. b) On 1/1/1994, the accrued benefit of each vested terminated and retired participant increases 5%. c) On 1/1/1996, the accrued benefit of each vested terminated and retired participant increases 5%. d) On 1/1/1999, the accrued benefit of each retired participant increases 5%. e) On 1/1/2003, the accrued benefit of each retired participant increases 2%. f) On 1/1/2007, the accrued benefit of each retired participant increases 2%. g) On 1/1/2008, the accrued benefit of each retired participant increases 2%. h) On 1/1/2009, the accrued benefit of each retired participant increases 2%. i) These increases do not apply to benefits that are accrued under the Plan after the effective date of increase.

Early retirement benefit	
Age	Attained age 55.
Service	Completed 5 years of service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by ¼ of 1% for each month that the early retirement date precedes normal retirement date.

Late retirement benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	At the close of each plan year prior to termination of employment, the benefit is equal to the greater of: (a) the actuarial equivalent of the prior plan year accrued benefit; and (b) the accrued benefit

Termination benefit	
Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Survivor annuity death benefit (a vested benefit)	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Beneficiary death benefit (a nonvested benefit)	
Annuity death benefit	
Eligibility	For unmarried participants over age 55 with 5 years of vesting service who are employed at time of death.
Form	10 year certain
Amount	50% of benefit credits as of the date of death
Lump sum death benefit	
Eligibility	Available for unmarried participants who have attained age 40 and 10 years of vesting service but not yet age 55 who are employed at time of death.
Form	Lump sum
Amount	Actuarial equivalent of the benefit that would have been payable to the spouse had the participant been married on the date of death.

Definitions	
Compensation	Regular or base salary or wages, commissions and bonuses received during the plan year.
Credited service	Prior to 01/01/1976: one year for each plan year of continuous service On or after 01/01/1976: one year for 1,000 hours of service. Partial year of service is given during year of hire or termination.
Vesting service	Prior to 01/01/1976: one year for each plan year of continuous service On or after 01/01/1976: one year for 1,000 hours of service.
Optional forms of benefit payments	The optional forms of benefit payments are: • Monthly annuity payable for life or 10 years certain and life. • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50 and 75. The optional form conversion basis is 6.0% interest and the 1971 Group Annuity Mortality table for payments other than lump sums.
Lump sum provisions	
	Small amount force out (SAFO) – allowed up to $1,000. Lump sums in excess of SAFO - aren't allowed. Conversion –the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.
