Independent Accountant's Review Report

To Management
Infrastructure Engineering, Inc. and Infrastructure Engineering of Indiana, LLC
Chicago, Illinois

We have reviewed the accompanying combined financial statements of Infrastructure Engineering, Inc. and Infrastructure Engineering of Indiana, LLC, which comprise the combined balance sheet as of December 31, 2022, and the related combined statements of operations and retained earnings, and cash flows for the year then ended, and the related notes to the combined financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the combined financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Combined Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the combined financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of Infrastructure Engineering, Inc. and Infrastructure Engineering of Indiana, LLC and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying combined financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

The accompanying supplementary information detailed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic combined financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the combined financial statements. The supplementary information has been subjected to the review procedures applied in our review of the basic combined financial statements. We are not aware of any material modifications that should be made to the supplementary information. We have not audited the supplementary information and do not express an opinion on such information.

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Infrastructure Engineering, Inc. and Infrastructure Engineering of Indiana, LLC (collectively, the "Company") provide professional civil and structural engineering and consulting services to governmental clients in Illinois, Indiana, Michigan and New York. The Company's headquarters are in Chicago, Illinois.

Combination

The combined financial statements include Infrastructure Engineering, Inc and Infrastructure Engineering of Indiana, LLC, all under common ownership. All significant intercompany balances and transactions have been eliminated in combination.

These combined financial statements contain only the assets, liabilities, revenues and expenses specifically related to the business activities of the Company. They do not include the personal assets, liabilities, revenues or expenses of the individual shareholders and members.

The duration for Infrastructure Engineering of Indiana, LLC shall be in perpetuity, unless sooner dissolved in accordance with the operating agreement.

Revenue and Cost Recognition

The Company's services are performed under three principal types of contracts: fixed price, cost plus fixed fee or rate and cost plus fixed fee subject to a maximum contract value.

Contract Types

Fixed Price - Under fixed price contracts, clients pay an agreed fixed amount negotiated in advance for a specified scope of work.

Cost Plus Fixed Fee or Rate - Under cost plus a fixed fee or rate contracts, the Company is reimbursed for allowed or otherwise defined costs incurred plus a negotiated fee or rate.

Cost Plus Fixed Fee subject to a maximum contract value - Under cost plus fixed fee subject to a maximum contract value contracts, the Company is reimbursed for allowed or otherwise defined costs incurred plus a negotiated fee however there is a cap or a not to exceed value. There are often instances that a contract is modified to extend the contract value past the cap. As the consideration is variable depending on the outcome of the contract renegotiation, the Company will estimate the total contract price in accordance with the variable consideration guidelines and will only include consideration that it expects to receive from the customer. When the Company is reaching the cap value, the contract will be renegotiated, or the Company ceases work when the maximum contract value is reached. The Company will continue to work if it is probable that the contract will be extended. The Company is only entitled to consideration for the work it has performed, and the cap value is not a guaranteed contract value.

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue and Cost Recognition (Continued)

Contract Combination

To determine the proper revenue recognition method for contracts, the Company evaluates whether two or more contracts should be combined and accounted for as one single contract and whether the combined or single contract should be accounted for as more than one performance obligation.

This evaluation requires significant judgment and the decision to combine a group of contracts or separate a combined or single contract into multiple performance obligations could change the amount of revenue and profit recorded in a given period.

The Company reviews its contracts at contract inception to determine if the contract represents multiple performance obligations or a single performance obligation. Contracts are considered to have a single performance obligation if the promise to transfer the individual goods or services is not separately identifiable from other promises in the contracts, primarily because the Company provides a significant service of integrating a complex set of tasks and components into a single project or capability. For contracts with multiple performance obligations, the Company allocates the transaction price to each performance obligation using management's best estimate of the standalone selling price of each distinct good or service in the contract, which typically is determined using cost plus an appropriate margin. Generally, the Company's contracts contain one performance obligation.

Recognition Method

The Company recognizes revenue over time using the output method which measures progress toward complete satisfaction of the performance obligation based upon the value to the customer for the Company's performance completed to date using the right to invoice practical expedient.

Variable Consideration

It is common for the Company's contracts to contain variable consideration in the form of negotiated fees related to maximum contract value, claims and unapproved and unpriced change orders that may either increase or decrease the transaction price. The Company estimates the amount of variable consideration at the most likely amount it expects to be entitled. Variable consideration is included in the transaction price when it is probable that a significant reversal of cumulative revenue recognized will not occur or when the uncertainty associated with the variable consideration is resolved. The Company's estimates of variable consideration and determination of whether to include such amounts in the transaction price are based largely on the Company's assessment of legal enforceability, anticipated performance and any other information (historical, current or forecasted) that is reasonably available.

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue and Cost Recognition (Continued)

Variable Consideration (Continued)

The Company provides limited warranties to customers for work performed under contracts that typically extend for a limited duration following substantial completion of the Company's work on a project. Such warranties are not sold separately and do not provide customers with a service in addition to assurance of compliance with agreed-upon specifications. Accordingly, these types of warranties are not considered to be separate performance obligations. Historically, warranty claims have not resulted in material costs incurred.

Contract Estimates and Modifications

Management reviews estimates of total contract transaction price and total contract costs on an ongoing basis. Changes in job performance, job conditions and management's assessment of expected variable considerations are factors that influence estimates of total contract transaction price, total costs to complete those contracts and the Company's profit recognition. Changes in these factors may result in revisions to revenue in the period in which the revisions are determined, which could materially affect the Company's results of operations for that period. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined.

Contracts are often modified to account for changes in contract specifications and requirements. Most of the Company's contract modifications are for goods or services that are not distinct from existing contracts due to the significant integration provided in the context of the contract and are accounted for as if they were part of the original contract. The effect of a contract modification on the transaction price and the Company's measure of progress for the performance obligation to which it relates, is recognized as an adjustment to revenue (either as an increase in or a reduction of revenue) on a cumulative catch-up basis. The Company accounts for contract modifications as a new contract when the modification results in the promise to deliver additional goods or services that are distinct and the increase in price of the contract is for the same amount as the stand-alone selling price of the additional goods or services included in the modification.

Contract Assets

Contract assets include unbilled amounts typically resulting from performance under contracts where revenue is recognized for work performed which has not been billed to the customer. These unbilled amounts are stated at net realizable value and will become billable according to the contract terms and generally will be billed and collected over the next 12 months. Based on historical experience, the Company generally considers the collection risk related to these amounts to be low. When events or conditions indicate that it is probable that the amounts outstanding become unbillable, the transaction price and associated contract asset is reduced.

The Company has determined there are no significant financing components in contracts during the year ended December 31, 2022.

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue and Cost Recognition (Continued)

Contract Costs

Contract costs include all direct labor costs, reimbursable expenses, subconsultants and other direct costs related to contract performance. These costs are recorded as incurred and revisions to estimated total costs are reflected as soon as the obligation to perform is determined. Changes in job performances, job conditions and estimated profitability may result in revisions to costs and income, which are recognized in the period in which the revisions are determined.

Costs to obtain contracts ("precontract costs") that are not expected to be recovered from the customer are expensed as incurred and included in general and administrative expenses on the combined statement of operations and retained earnings. Although unusual, precontract costs that are explicitly chargeable to the customer even if the contract is not obtained are included in accounts receivable or contract assets on the combined balance sheet when the Company is notified that the Company is not the low bidder with a corresponding reduction to general and administrative expenses on the combined statement of operations and retained earnings.

Accounts Receivable

Accounts receivable is recognized when the Company's right to consideration is unconditional and is presented net of an allowance for doubtful accounts. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts based on the history of past write-offs and collections and current credit conditions. The Company has no allowance for doubtful accounts as of December 31, 2022. The Company's policy is not to accrue interest on past due trade receivables.

Property, Equipment and Depreciation

Property and equipment are carried at cost and include expenditures for new additions and those which substantially increase the useful lives of existing assets. Depreciation is computed at various rates using the straight-line method. Depreciable lives generally range from three to ten years.

Expenditures for normal repairs and maintenance are charged to operations as incurred. The cost of existing assets retired or otherwise disposed of and the related accumulated depreciation are removed from the accounts in the year of disposal with the resulting gain or loss reflected in earnings.

The provision for depreciation amounted to $322,395 for the year ended December 31, 2022.

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Long-lived Assets

Long-lived assets to be held and used are tested for recoverability whenever events or changes in circumstances indicate that the related carrying amount may not be recoverable. When required, impairment losses on assets to be held and used are recognized based on the excess of the asset's carrying amount over the fair value of the asset. Long-lived assets to be disposed of by sale are reported at the lower of carrying amount or fair value less cost to sell.

Leases

The Company adopted Accounting Standards Codification Topic 842, Leases, under the modified retrospective transition approach effective January 1, 2022. The adoption of this standard required classification of leases as either finance leases or operating leases and resulted in the recognition of right-of-use assets and lease liabilities in the amount of $1,470,464 on January 1, 2022. The adoption had no effect on shareholders' or members' equity. Before the adoption of Topic 842, the Company accounted for leases under Topic 840, which required different accounting treatment based on classification between capital leases and operating leases.

The Company applies judgment in determining whether a contract contains a lease and whether a lease is classified as an operating lease or a finance lease. The Company determines the lease term as the non-cancellable term of the lease, which may include options to extend or terminate the lease when it is reasonably certain that the Company will exercise that option. The lease term is used in determining classification between operating lease and finance lease, calculating the lease liability and determining the appropriate discount rate.

The Company elected to utilize the transition package of practical expedients permitted within the new standard, which among other things, allows the Company to carryforward the historical lease classification.

The Company has made an accounting policy election not to recognize right-of-use assets and lease liabilities that arise from short-term leases for any class of underlying asset. Short-term leases have an initial term of 12 months or less with purchase options or extension options that are not reasonably certain to be exercised.

The Company has made an accounting policy election to use a risk-free discount rate for present value lease calculations when the rate implicit in the lease is not readily determinable.

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (Continued)

Operating Leases

Operating leases are included in right-of-use assets, and current portion of lease liability and noncurrent portion of lease liability, as appropriate. Right-of-use assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at commencement date. The right-of-use asset also includes any lease payments made and initial direct costs incurred at lease commencement and excludes lease incentives. Lease terms may include options to extend or terminate the lease when it is reasonably certain that the Company will exercise that option. Lease expense for minimum lease payments is recognized on a straight-line basis over the lease term.

Income Taxes

Income taxes, including for limited liability companies electing to be taxed as C corporations, are provided for the tax effects of transactions reported in the combined financial statements and consist of taxes currently due plus deferred taxes. Deferred taxes are recognized for the differences between the basis of assets and liabilities for financial statement and income tax purposes. Those differences relate primarily to revenue and expense recognition (use of accrual method for financial statement reporting and use of cash method for income tax reporting) and fixed asset depreciation (use of different depreciation methods and lives for financial statement reporting and income tax reporting). The deferred tax assets and liabilities represent the future tax consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax benefits are also recognized for any operating loss carryforwards, charitable contribution carryforwards and tax credit carryforwards that are available to offset future income taxes.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Company and to recognize a tax liability if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS) or other taxing authorities. In 2020, the IRS commenced an examination of the Company's U.S. income tax returns for 2017, 2018 and 2019. In 2021, the IRS commenced an examination of the Company's U.S. income tax return for 2021. The Company has yet to receive any proposed adjustments from the IRS.

The Company's policy is to recognize income tax related penalties and interest as such costs are incurred in its combined statement of operations, which amounted to $4,664 for the year ended December 31, 2022.

Cash Flows

For purposes of the combined statement of cash flows, the Company considers all highly liquid instruments purchased within three months or less of an instrument's maturity date to be cash equivalents.

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of combined financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the combined financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Significant estimates used in preparing these combined financial statements include those assumed in computing profit by satisfying performance obligations over time using the output method of revenue recognition based on the value to the customer. It is reasonably possible that the significant estimates used will change within the next year.

Recently Issued Accounting Pronouncements

In June 2016, the FASB issued Accounting Standards Update 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments", which introduces a forward-looking approach, based on expected losses, to estimate credit losses on certain types of financial instruments, including trade and other receivables. The estimate of expected credit losses will require entities to incorporate considerations of historical information, current information and reasonable and supportable forecasts. As a result, these changes may result in earlier recognition of credit losses. This accounting standards update also expands the disclosure requirements to enable users of financial statements to understand the entity's assumptions, models and methods for estimating expected credit losses. This guidance is effective for fiscal years beginning after December 15, 2022. The Company is currently evaluating the impact of this accounting standards update.

Management Evaluation of Subsequent Events

Management has evaluated subsequent events through June 28, 2023, the date on which the combined financial statements were available to be issued.

In February 2023, the Company entered into stock purchase agreements with several key members of management exchanging notes payable in the amount of $745,500 to the Company for 236 shares in total. Concurrent with these agreements, the Company redeemed an equal number of shares from the majority shareholder in exchange for a note payable in the amount of $2,073,200.

NOTE 2 - ACCOUNTS RECEIVABLE

Accounts receivable consists of the following at December 31, 2022 and January 1, 2022:

	December 31, 2022	January 1, 2022
Contracts in progress	$ 7,492,096	$ 5,928,406
Other	-	10,000
Less: Allowance for doubtful accounts	-	(8,364)
Total	$ 7,492,096	$ 5,930,042

NOTE 3 - CONTRACT ASSETS

The following table summarizes contract assets at December 31, 2022 and January 1, 2022:

	December 31, 2022	January 1, 2021
Revenue earned in excess of amounts paid or payable	$ 2,819,052	$ 1,623,432

NOTE 4 - LINE OF CREDIT

The Company has a $3,000,000 line of credit available through August 31, 2023. Borrowings on the line of credit are $2,108,096 for the year ended December 31, 2022. Borrowings bear interest at the SOFR rate plus 2.6% (6.66% at December 31, 2022) with interest due on a monthly basis.

The line of credit is collateralized by substantially all of the Company's assets, the personal guarantee by the Company's principal shareholder and member and further secured by the assignment of life insurance in an amount not to exceed $500,000 on the Company's principal shareholder and member. The line of credit is also subject to various covenants.

NOTE 5 - INCOME TAXES

Federal and state income tax expense (benefit) for the year ended December 31, 2022, is summarized as follows:

Federal:	
Current expense	$ 122,780
Deferred benefit	(594,945)
	(472,165)
State:	
Current expense	138,491
Deferred benefit	(193,329)
	(54,838)
Total	$ (527,003)

The income tax provision differs from the amount that would result from applying statutory tax rates primarily due to permanent difference between determining income for financial reporting purposes versus income tax reporting purposes, as well as deferred income taxes being computed on timing differences based upon average tax rates, which may differ from the actual tax rates when the assets and liabilities are recovered or settled.

The Company's deferred tax assets and liabilities as of December 31, 2022, are summarized as follows:

Federal:	
Deferred tax assets	$ 1,885,056
Less valuation allowance	(140,394)
Deferred tax liabilities	(2,403,851)
	(659,189)
State:	
Deferred tax assets	706,013
Less valuation allowance	(7,815)
Deferred tax liabilities	(968,854)
	(270,656)
Net deferred tax liability	$ (929,845)

NOTE 5 - INCOME TAXES (CONTINUED)

The significant components of the Company's net deferred tax asset (liability) as of December 31, 2022, are as follows:

Research and development costs	$	941,615
General business tax credits		219,629
Charitable contributions		95,252
Net operating loss carryforwards		151,617
Right of use assets		39,261
Valuation allowance		(148,209)
Property and equipment		(133,082)
Accrual to cash		(2,084,265)
Other		(11,663)
Total	$	(929,845)

NOTE 6 - RETIREMENT PLAN

The Company maintains a 401(k) savings plan whereby employees who meet the eligibility requirements set forth in the plan can contribute and defer taxes on compensation contributed to the plan. The Company is required to contribute to the plan based upon a percentage of each participant's salary deferral, as defined by the plan. The plan also includes a profit-sharing component. Profit-sharing contributions are made at management's discretion and are allocated based upon each participant's eligible compensation.

Employer contributions are subject to a five-year vesting schedule. Total retirement contributions amounted to $584,548 for the year ended December 31, 2022.

NOTE 7 - COMMON STOCK

All of the Infrastructure Engineering, Inc.'s voting stock has equal voting rights with a $1 par value. The following summarizes shares of common stock as of December 31, 2022:

Authorized	100,000
Issued	1,118
Outstanding	1,118

NOTE 8 - LEASES

The Company's operating leases primarily consist of various office spaces in Illinois, Indiana, Michigan, New York and New Jersey.

NOTE 8 – LEASES (CONTINUED)

The Company's Chicago, Indianapolis, and New York office lease agreements all include an abatement of rent and include an escalation clause that adjusts annual base rentals through maturity in March 2026, July 2023 and August 2024, respectively.

The Company's Peoria, Illinois lease required basic monthly rent through maturity in September 2020. This lease requires month to month payments through December 31, 2023.

The Company's Detroit, Michigan lease requires monthly rent through maturity in March 2026.

The Company's Trenton, New Jersey lease requires month to month rent through August 31, 2023.

Lease related costs recognized in the Statement of Operations for the year ended December 31, 2022, are as follows:

Operating lease cost:	
Operating lease cost	$ 411,666
Short-term lease cost	54,834
Total lease cost	$ 466,500

Other information related to leases included on the Balance Sheet as of and for the year ended December 31, 2022, is as follows:

	Operating Leases
Cash paid for amounts included in the measurement of lease liabilities:	
Operating activities cash flows	$ 435,899
Weighted average remaining lease term	2.9 years
Weighted average discount rate	1.02%

NOTE 8 – LEASES (CONTINUED)

Future expected lease payments on lease liabilities as of December 31, 2022, are as follows:

Year Ending December 31,	Operating Leases
2023	$ 409,987
2024	320,557
2025	265,248
2026	66,713
Total minimum lease payments	1,062,505
Less amounts representing interest	(15,321)
Present value of lease liabilities	1,047,184
Less current portion	(401,513)
Long-term portion	$ 645,671

NOTE 9 - CONCENTRATIONS

Credit Risk

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents, accounts receivable and contract assets. The Company places its cash and cash equivalents with a single financial institution. At times, such amounts may be in excess of the FDIC insured limit. The Company routinely assesses the financial strength of its customers and, as a consequence, believes that its accounts receivable and contract assets credit risk exposure is limited.

Major Customers

One customer accounted for approximately 23% of contract revenues for the year ended December 31, 2022. Two customers accounted for approximately 46% of accounts receivable and two customers accounted for 34% of contract assets at December 31, 2022.

NOTE 10 - PENDING LITIGATION

The Company is subject to legal proceedings and claims which arise in the ordinary course of the business. Management of the Company believes the resolution of any pending or threatened actions will not have a material effect on the Company's financial position or results of operations.

NOTE 11 - RELATED PARTY TRANSACTIONS

The amount due to shareholders of $378,000 at December 31, 2022 is due on demand, unsecured and non-interest bearing.
