REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator and Participants
Frequency Electronics, Inc. 401(k) Savings Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit
We have performed audits of the financial statements of Frequency Electronics, Inc. 401(k) Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Grant Thornton LLP is a U.S. member firm of Grant Thornton International Ltd (GTIL). GTIL and each of its member firms are separate legal entities and are not a worldwide partnership.

Basis for opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s responsibilities for the audit of the financial statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matter – supplemental schedule required by ERISA
The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from

the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The accompanying notes are an integral part of this financial statement.

NOTE 1 - PLAN DESCRIPTION

The following description of Frequency Electronics, Inc. (the Company, Employer, or Plan Sponsor) 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the comprehensive Plan document for a more complete description of the Plan's provisions.

General

The Plan, adopted on January 1, 1985 by the Company, is a defined contribution savings plan qualified under Section 401(a) of the Internal Revenue Code (IRC) covering all full-time employees of the Company who have completed six months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The board of directors is responsible for the oversight of the Plan.

Custodian and Administration of the Plan

The recordkeeper of the Plan is Fidelity Workplace Services LLC (Fidelity). Fidelity Management Trust Company (FMTC) serves as trustee for the Plan. The administrator of the Plan is the Company. The custodian holds all assets of the Plan in accordance with the service provider contract with the Company and also holds the Plan's investment in the Plan Sponsor's common stock. Investment options available to participants in the Plan are offered by Fidelity. The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 99% of their pretax annual compensation, and up to 100% of their bonus, as defined by the Plan, subject to certain limitations. Participants who have attained age 50 before the end of the Plan-year are eligible to make catch-up contributions. Participants may also roll over amounts representing distributions from other qualified benefit plans (rollover). After-tax (Roth) contributions are also allowed. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Company may make discretionary matching contributions, as defined by the Plan. Company contributions, if any, may consist of cash or qualifying Employer securities. During the year ended December 31, 2025, Company contributions were made in the form of Company common stock. In 2025, the Company contributed 100% of the first 6% of base compensation that a participant contributed to the Plan, not to exceed a maximum of $6,000. Additional profit-sharing amounts may be contributed at the option of the Company's management team and may be invested in a portfolio of investments, as directed by the Company. During the year ended December 31, 2025, the Company did not make any profit-sharing contributions to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contribution and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the vested portion of their accounts.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest 20% after one year of service and 20% each year thereafter. A participant is 100% vested after five years of credited service.

Investment Options

Contributions are invested by Fidelity, according to the options elected by the participants. All participant and Employer contributions, except for contributions of the Company common stock, below, are directed by the participant among the available investment options. Investment earnings are automatically reinvested into the fund or portfolio from which they were derived.

Notes Receivable from Participants

Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's contributory account balance. Loans bear interest based upon the prime rate plus 1%. The loans are secured by the balance in the participant's account. Principal and interest are paid ratably through weekly payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. As of December 31, 2025 and 2024, participant loans bore interest at rates of 4.25% to 9.5%. No more than two loans are allowed at any time and repayment of the entire balance is permitted at any time.

Payment of Benefits

A participant may elect to receive the value of the vested interest in his or her account upon termination of service due to death, disability, or retirement. An employee who became a participant on or after January 1, 1998, will generally receive his or her benefit as a lump-sum distribution. An employee who became a participant prior to January 1, 1998, will generally receive his or her benefit, unless otherwise elected, as a qualified joint and survivor annuity if the participant is married, or as a life annuity, if unmarried. Participants who elect not to receive the annuity form of payment may elect to receive a lump-sum distribution or a distribution in substantially equal monthly, quarterly, semi-annual, or annual installments (over a term that does not extend beyond the participant's or designated beneficiary's actuarial life expectancy).

Forfeitures

At December 31, 2025 and 2024, forfeited non-vested accounts, including earnings and losses thereon, totaled $22,029 and $29,130, respectively. Forfeitures may be used to pay administrative costs of the Plan. Any such accounts not used to pay administrative costs will be reallocated to participants in the same manner as Employer contributions. During 2025 and 2024, the Plan reallocated to participants an aggregate of $29,130 and $17,912, respectively, from prior-year forfeitures.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Frequency Electronics, Inc. Common Stock

The Frequency Electronics, Inc. common stock is a nonparticipant-directed investment. All Employer matching contributions that were made prior to January 1, 1990 and subsequent to January 1, 2001, are in the form of Frequency Electronics, Inc. common stock. This stock is valued at the last sale price on NASDAQ on the last business day of the year. Frequency Electronics, Inc. common stock approximated $24,318,540 (33%) and $9,269,802 (18%) of net assets available for benefits at December 31, 2025 and 2024, respectively.

Information about the significant components of the changes in net assets related to the shares of common stock of the Company (nonparticipant-directed investment) is as follows:

Balance, January 1, 2025	$ 9,269,802
Employer contributions received during 2025	965,269
Net income from investments	16,791,049
Distributions, net	(2,707,580)
Balance, December 31, 2025	$ 24,318,540

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and

are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Direct compensation paid by the Plan as administrative expenses totaled $116,320 and $89,684 for the years ended December 31, 2025 and 2024, respectively, which consisted of third-party recordkeeping fees.

NOTE 3 - CERTIFIED INVESTMENT INFORMATION

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule of assets (held at end of year) as of December 31, 2025, including investments and notes receivable from participants held at December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by FMTC.

NOTE 4 - FAIR VALUE MEASUREMENTS

The Plan follows the provisions of Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The following is a description of the valuation methodologies used for these items, as well as the general classification of such items pursuant to the fair value hierarchy of ASC 820:

Frequency Electronics, Inc. Common Stock - This asset is valued at the closing price reported on the NASDAQ Global Market on which the securities are traded. Such values are considered as Level 1 values.

Mutual Funds - These assets are valued at the daily closing prices, as reported by each fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the valuation methodologies of these items held at December 31, 2025 and 2024.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	December 31, 2025			
	Assets at Fair Value			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 48,579,412	$ -	$ -	$ 48,579,412
Frequency Electronics, Inc. common stock	24,318,540	-	-	24,318,540
Total investments	$ 72,897,952	$ -	$ -	$ 72,897,952

	December 31, 2024			
	Assets at Fair Value			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 40,696,306	$ -	$ -	$ 40,696,306
Frequency Electronics, Inc. common stock	9,269,802	-	-	9,269,802
Total investments	$ 49,966,108	$ -	$ -	$ 49,966,108

The Plan had no financial assets that were measured at fair value on a nonrecurring basis during the years ended December 31, 2025 and 2024. There were no transfers between levels during the year ended December 31, 2025.

NOTE 5 - INCOME TAX STATUS

Effective May 10, 2021, the Plan was amended and restated using a prototype non-standardized profit sharing plan document, which received a favorable opinion letter from the IRS dated June 30, 2020, which stated the Plan is acceptable for use under IRC Section 401. The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC

and, therefore, believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 - PLAN TERMINATION

While the Company has not expressed any intention to terminate or partially terminate the Plan, the Company reserves the right to amend or discontinue the Plan or its contributions at any time, subject to the provisions set forth under ERISA. Upon termination of the Plan, the Company, at its discretion, may elect to terminate the trust agreement. In such event, each affected participant's individual account balance will be paid to such participant as soon as practicable after a determination is made of the value of the participant's individual account.

NOTE 7 - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments include shares of common stock issued by the Plan Sponsor. Investment in Frequency Electronics, Inc. common stock is permitted under the provisions of the Plan.

Certain Plan investments are managed by Fidelity. Fidelity is the trustee for the Plan and, therefore, these transactions qualify as party-in-interest transactions. Additionally, certain officers of the Company, who are also participants in the Plan, perform administrative services for the Plan at no cost. Fees paid by the Plan were $116,320 for the year ended December 31, 2025. Notes receivable from participants also qualify as party-in-interest transactions.

As of December 31, 2025 and 2024, the Plan held 451,627,714 shares and 500,450,315 shares, respectively, of common stock of Frequency Electronics, Inc., parent company of the sponsoring employer, with a cost basis of $4,615,818 and $4,620,295, respectively.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across various participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments.

NOTE 9 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per Form 5500 to the financial statements:

	December 31, 2025	December 31, 2024
Net assets available for benefits, per Form 5500	$ 73,182,119	$ 50,305,037
Contributions receivable from employer	184,457	145,372
Contributions receivable from participants	53,398	40,455
Net assets available for benefits, per financial statements	$ 73,419,974	$ 50,490,864

The following is a reconciliation of the changes in net assets available for benefits per Form 5500 to the financial statements:

	Year Ended December 31, 2025
Net income, per Form 5500	$ 22,877,082
Change in contributions receivable	52,028
Changes in net assets available for benefits, per financial statements	$ 22,929,110

NOTE 10 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 5, 2026, the date the financial statements were available to be issued. No material items were noted that need to be disclosed.
