Independent Auditor's Report

To the Plan Administrator
Alaska Airlines, Inc. Fixed Income Retirement Plan for Pilots
Seattle, Washington

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Alaska Airlines, Inc. Fixed Income Retirement Plan for Pilots (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplementary information, as listed in the accompanying table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplementary information, other than the information in the supplementary information that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplementary information agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of the Plan

The following description of the Alaska Airlines, Inc. Fixed Income Retirement Plan for Pilots (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined benefit pension plan covering certain pilots of Alaska Airlines, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Plan Administration - The Plan is administered by a committee consisting of certain employees of the Company and its affiliates. Principal Bank serves as trustee of the Plan.

Funding Policy - The Company funds the Plan through contributions. The Company's funding policy is to make annual contributions based upon actuarial cost determinations using the unit credit cost method. The Plan is in compliance with the minimum funding requirements of ERISA.

Eligibility - The Plan covers pilots of the Company covered by the Air Line Pilots Association (ALPA) bargaining agreement hired or transferred to the work group prior to January 1, 2010 and who have completed 400 or more hours of service within a consecutive twelve-month period. Pilots hired after December 31, 2009 are not eligible for participation in the Plan.

Retirement Plan Benefits - The Plan provides for retirement benefits based on years of credited service and 1.9% of the average of the participant's eligible earnings as an active participant in the Plan during the 60 consecutive completed months of highest earnings out of the last 120 months immediately preceding termination or retirement (final average earnings). In 2009, the Company and its pilots entered into a new collective bargaining agreement which amended certain provisions regarding retirement benefits effective January 1, 2010. Existing participants elected one of a number of benefit options.

Only participants who are receiving disability retirement benefits as of December 31, 2009 will continue to receive disability retirement benefits after December 31, 2009. Disability retirement benefits will not begin after December 31, 2009, even if the participant's date of disability precedes January 1, 2010.

Participants are eligible to receive benefits upon death or retirement. Participants age 60 are eligible for normal retirement benefits while early retirement benefits are allowed as early as age 45. The form of payment is a single life annuity for unmarried participants and a 50% joint and survivor annuity for married participants unless an optional form of payment is selected.

Vesting - Participants are 100% vested after completing five years of service (0% before five years) or attaining age 45 while actively employed.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Master Trust investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements. The valuation of the portfolio is on a trade date basis with income recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the gains and losses on investments bought and sold as well as held during the year.

The insurance annuity contracts are stated in the financial statements at fair value, which is determined based on the present value of discounted cash flows. The crediting interest rate and yield were 4.95% and 4.1%, respectively, for the year ended December 31, 2025. The crediting interest rate and yield were 4.2% and 3.8%, respectively, for the year ended December 31, 2024. The crediting interest rate is based on an agreed upon formula with the issuer. There are no unfunded commitments, restrictions, or reserves associated with the contract.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Company pays for all administrative expenses of the Plan, except for administrative fees for the annuity contracts, which are paid by the Plan.

Subsequent Events - The Plan's management has evaluated subsequent events through October 1, 2026, the date the financial statements were available to be issued.

Note 3 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future benefit payments which individual participants have accumulated under the Plan's provisions based on compensation and service rendered to date.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employee's compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, plus interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, retirement, death, disability, and termination of employment, are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Note 3 - Continued

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2024 was as follows:

Vested benefits-	
Participants currently receiving payments	$ 447,380,026
Other participants	713,063,449
	1,160,443,475
Nonvested benefits	6,447,135
Actuarial Present Value of Accumulated Plan Benefits, End of Year	**$1,166,890,610**

Changes to the actuarial present value of accumulated plan benefits were a result of the following for the year ended December 31, 2024:

Actuarial present value of accumulated plan benefits, beginning of year	$ 1,123,221,843
Changes during the prior year attributable to-	
Benefits accumulated and (gains) losses	27,560,361
Increase for interest due to decrease in discount period	76,376,736
Benefits paid	(59,308,836)
Change in actuarial assumptions	(959,494)
Actuarial Present Value of Accumulated Plan Benefits, End of Year	**$1,166,890,610**

The significant actuarial assumptions used for the valuation were as follows:

Interest Rate	7.00% and is based on the expected long-term rate of return on assets. This expected long-term rate of return on plan assets is based on an allocation of U.S. and non-U.S. equities and fixed-income securities. The Company regularly reviews the actual asset allocation and periodically rebalances investments as appropriate.

Note 3 - Continued

Mortality	Pre-retirement deaths: Pri-2012 employee white collar mortality tables with contingent survivor adjustments for existing survivors, separate rates for males and females, and with fully generational Mercer modified projection scale (MMP-2021). Post-retirement deaths: Mercer Industry Longevity Experience Study white collar mortality table for Auto, Industrial Goods, and Transportation with fully generational Mercer Modified projection scale (MMP-2021).
Retirement Age	Varies from 55 to 65.

Actuarial assumption changes since the prior valuation are:

- The discount rate and the mortality assumption for lump sum conversion and late retirement factors were updated to reflect current Internal Revenue Code (IRC) Section 417(e) assumptions.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4 - Tax Status

The Plan was amended and restated as of January 1, 2015. The Plan received a favorable determination letter from the Internal Revenue Service (IRS) dated July 19, 2016. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified and the related trust is tax-exempt. The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. Upon complete or partial termination of the Plan, retirement income accrued by affected participants will be nonforfeitable to the extent funded. The assets of the Plan will be allocated to those affected participants to the extent and in the order of preference set forth in Section 4044 of ERISA. Any assets remaining after the allocation and after satisfaction of all liabilities of the Plan with respect to the participants will be returned to the Company. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable statutory limitations. Should the Plan terminate, the level of benefits guaranteed by the PBGC and the Plan's net assets at the date of the termination would determine the amount of available benefits.

Note 6 - Certified Information

Certain information in the accompanying financial statements related to investments held at the Master Trust and Plan level as of December 31, 2025 and 2024, and investment income or loss at the Master Trust and Plan level for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Bank, a qualified institution. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

Additionally, certain information in the accompanying financial statements and supplementary information related to investments held at the Plan level as of December 31, 2025 and 2024, and investment income or loss at the Plan level for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Empower Annuity Insurance Company of America (Empower), a qualified institution. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary information.

Note 7 - Party-in-Interest Transactions

Master Trust investments include a Northern Trust short term collective investment. Northern Trust is the benefits administrator for the Plan and therefore transactions in this investment qualify as party-in-interest transactions. Additionally, the plan holds an annuity contract issued by Empower. Empower is a custodian of the plan and, therefore, transactions with the annuity contract qualify as party-in-interest transactions.

Note 8 - Interest in Alaska Air Group Retirement Master Trust

Assets of the Company's four defined benefit plans, covering salaried and dispatch employees; pilots; mechanics and related crafts employees; and clerical, office, and passenger service employees, are pooled into the Alaska Air Group Retirement Master Trust (Master Trust). Effective May 1, 2025, the Master Trust agreement was amended to include the Retirement Plan for Pilots of Hawaiian Airlines, Inc. Held within the Master Trust are cash and short-term investments, common commingled trust funds, and an investment in a real estate limited partnership. The five defined-benefit plans participating in the Master Trust have divided interests in the investments within the Master Trust. Each plan has its own assets and related investment income, with the assets held separately from other plans' assets.

Note 8 - Continued

The following table presents the net assets of the Master Trust and the Plan as of December 31:

	Master Trust		Plan	
	2025	2024	2025	2024
Investments-				
Cash and short-term investments	$ 13,088,340	$ 6,673,554	$ 6,298,873	$ 4,348,392
Common commingled trust funds	2,417,482,512	1,955,146,425	1,289,156,215	1,149,269,927
Real estate limited partnership	51,772,150	52,753,731	35,691,557	36,368,256
Total investments	2,482,343,002	2,014,573,710	1,331,146,645	1,189,986,575
Receivable for investments sold and accrued income and dividends	3,597,747	2,132,489	1,459,085	361,775
Total Net Assets	**$2,485,940,749**	**$2,016,706,199**	**$1,332,605,730**	**$1,190,348,350**

The following table presents net appreciation in the fair value of investments and investment income for the Master Trust for the years ended December 31:

	2025	2024
Net appreciation in fair value of investments	$ 255,513,459	$ 64,756,591
Dividends and interest income	2,363,157	2,594,202
Net Investment Income	**$ 257,876,616**	**$ 67,350,793**

GAAP provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than the quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs that are significant to the fair value measurement.

Note 8 - Continued

The asset or liability's fair value measurement within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

The fair value of the Master Trust's investments in cash and short-term investments is considered equal to their carrying value because of the near-term maturity of these assets.

The Master Trust's investments in common commingled trust funds trade on a regular basis, have published prices that investors can obtain at any time, and do not have restrictions on the redemption of the investments. Given this information, fair value of the common commingled trust funds have been deemed to be readily determinable and fair value is based on published prices.

The Master Trust's investments also include an investment in a real estate limited partnership ("Partnership"). The Partnership is composed of a core portfolio of primarily equity real estate investments located within the United States. Its strategy is to provide broad real estate market diversification to maximize risk adjusted returns. Net asset value (NAV) is used as a practical expedient to estimate the fair value of the investment. Investors may request redemption of all or a portion of their units as of the end of a calendar quarter by delivering written notice to the Partnership at least 60 days prior to the end of the quarter. Redemption requests are subject to certain restrictions and the availability of cash. Redemptions of units are made based on the Partnership's NAV as of the redemption date. There are no unfunded commitments.

During 2020, notice was provided to the Partnership for a full redemption of this fund. As full redemption is dependent on how quickly the underlying property is able to be sold, there is no set date on when the fund will be fully redeemed as of the date the financial statements were available to be issued. Effective as of January 1, 2026, the Fund had an outstanding eligible redemption request of approximately $4.5 billion.

The following tables sets forth by level, within the fair value hierarchy, the Master Trust assets at fair value as of December 31:

	Fair Value Measurements as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Cash and short-term investments	$ 13,088,340	$ -	$ -	$ 13,088,340
Common commingled trust funds	2,417,482,512	-	-	2,417,482,512
Total Assets in the Fair Value Hierarchy	**$2,430,570,852**	**$ -**	**$ -**	2,430,570,852
Investments measured at NAV[(a)]				51,772,150
Total Investments at Fair Value				**$2,482,343,002**

Note 8 - Continued

	Fair Value Measurements as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Cash and short-term investments	$ 6,673,554	$ -	$ -	$ 6,673,554
Common commingled trust funds	1,955,146,425	-	-	1,955,146,425
Total Assets in the Fair Value Hierarchy	**$ 1,961,819,979**	**$ -**	**$ -**	1,961,819,979
Investments measured at NAV[(a)]				52,753,731
Total Investments at Fair Value				**$2,014,573,710**

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy.

Note 9 - Insurance Annuity Contract

The Plan's interest in insurance annuity contracts is valued based on the present value of future cash flows and is categorized as Level 3 in the fair value hierarchy. The below statement of activity summarizes the change in the fair value of Level 3 assets during the plan years ended December 31, 2025 and 2024:

Year end balance, December 31, 2023	$ 4,759,418
Credited interest	182,389
Administrative expense	(37,500)
Year End Balance, December 31, 2024	**4,904,307**
Credited interest	201,852
Administrative expense	(38,599)
Year End Balance, December 31, 2025	**$ 5,067,560**

Note 10 - Risks and Uncertainties

The Plan invests in a real estate limited partnership and common commingled trust funds, which in turn invest in a combination of real estate assets, stocks, bonds and other investment securities through its investment in the Master Trust. Investment securities and real estate assets, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain real estate assets and investment securities, it is reasonably possible that changes in the values of real estate assets and investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 10 - Continued

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Mortality sponsor elections		
• Healthy and disabled participants	Section 430(h)(3) prescribed separate annuitant and nonannuitant generational mortality tables. These tables are based on the Pri-2012 mortality tables projected with the IRS-modified MP-2021 mortality improvement scale, in accordance with IRS regulation 1.430(h)(3)-1	
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment.	
Other economic assumptions		
• Salary increases	See table of sample rates.	
• Inflation	2.20% per year compounded annually.	
Expected investment return	6.31% per year for 2024 and 6.72% per year for 2025.	
• Expenses	None assumed. Expenses are paid outside the trust.	
• Valuation Earnings	Prior year's salary projected one year ahead according to the salary scale assumption.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as required by IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Insurance contracts**: The plan has a Guarantee Deposit Account annuity contract issued by Prudential. The benefits and contract value are included in assets, target liability and target liability normal cost.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability/death benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's target normal cost is the sum of the individual target normal costs, and the plan's funding target is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

Each employee is assumed to retire in accordance with the table of retirement rates. The proportion of employees expected to retire at each potential retirement age is shown below. The average retirement age is 63.

Schedule SB, Part V — Summary of Plan Provisions

Summary of major plan provisions

Effective date and plan year	Original plan: July 1, 1957 Restated plan: January 1, 2015 Plan year: January 1 to December 31
Status of the plan	Closed to new participants as of January 1, 2010
Significant events that occurred during the year	None
Definitions	
• Participation	Pilots become plan participants on the first day of the month following completion of one year of service from date of hire during which the pilot has 400 or more hours of service. Employees hired on or after January 1, 2010 are not eligible to participate in the plan. All employees who were active on December 31, 2009 were given a one-time election under the Pilots Retirement Choice Program to choose one of three options: Status Quo, Rebalance, or Soft Freeze. Details of the benefit formulas under these options can be found in the Normal Retirement Benefit section.
• Vesting service	One year of service for each calendar year during which a participant has 400 or more hours of service.
• Credited service	Credited service includes all years and months of employment from date of hire.
• Pensionable earnings	Total remuneration received in each calendar year, including base pay differentials, but excluding per diem and reimbursement of expenses. Compensation is limited according to the requirements of IRC § 401(a)(17).
• Final average earnings	The monthly average of the highest 60 consecutive calendar months of compensation during the 120-month period ending with the earlier of termination or retirement.
• Death benefit account	Account from which pre-retirement and post-retirement benefits may be payable upon death. At the end of each plan year (or at the participant's date of death or termination, if earlier) the death benefit account is credited with an amount equal to 6% of the participant's compensation. The account will receive interest credits at a rate equal to the current valuation rate or, if greater, at a rate equal to 120% of the Federal mid-term rate as in effect for the first month of the plan year, compounded annually. Pay credits under the death benefit account are no longer provided as of January 1, 2010 for participants electing the Soft Freeze Formula.
• Actuarial equivalence	The amount of adjusted benefit based on the applicable PPA mortality table, based upon a fixed blend of 50% male and 50% female mortality rates. The interest rates used to determine actuarial equivalence will be the segmented spot rates for the November before the plan year which contains the annuity starting date. For the joint and survivor spouse option, actuarial equivalence is defined by the following formula: $1 - (0.12)(W) – (0.005)[(2.0)(X) – Y – Z]$

Schedule SB, Part V — Summary of Plan Provisions

	where W is the Joint and Survivor Percentage; X is the Participant's age; Y is the Participant's Spouse's age; and Z is the Normal Retirement Age.
Normal retirement	
• Eligibility	Attainment of age 60 or completion of 30 years of credited service
• Benefit	Status Quo Formula: The greater of: a. 1.9% of final average compensation multiplied by years of credited service, or b. $900 per month (for participants hired prior to May 1, 1991). Rebalance Formula: The greater of: 1) The sum of 1.9% multiplied by years of credited service through December 31, 2009, and 1.0% multiplied by years of credited service after December 31, 2009; multiplied by final average compensation, or 2) $900 per month (for participants hired prior to May 1, 1991). Soft Freeze Formula: The greater of: a. 1.9% of final average compensation as of December 31, 2009 multiplied by years of credited service as of December 31, 2009. Benefits will be adjusted for future increases in final average compensation, or b. $900 per month (for participants hired prior to May 1, 1991).
Early retirement	
• Eligibility	Attainment of age 45.
• Benefit	The Normal Retirement Benefit, based on credited service and final average compensation at actual retirement, but in no event less than $1,100 per month (for participants hired prior to May 1, 1991) actuarially reduced if payment commences prior to normal retirement.
Late retirement	
• Eligibility	Retirement subsequent to normal retirement age.
• Benefit	The greater of the actuarially increased Normal Retirement Benefit or the accrued benefit at the late retirement date. Payment of benefit commences at actual retirement date.
Deferred vested	
• Eligibility	The earlier of completion of five or more years of vesting service or the attainment of age 45.
• Benefit	The Normal Retirement Benefit, based on credited service and final average compensation at termination, reduced actuarially if payments commence before the participant’s normal retirement date.
Disability	
• Eligibility	Total disability upon completion of five or more years of service.
• Benefit	The greater of:

Schedule SB, Part V — Summary of Plan Provisions

	a. The Participant's Normal Retirement Benefit, based on credited service and final average compensation at disability, reduced 3% for each year that disability retirement precedes age 45, or b. 50% of the average of a participant's final 12 months of compensation prior to disability. At age 60, the benefit will be recomputed using years and months of credited service to age 60. The recomputed benefit shall not exceed the previous disability benefit, unless the normal retirement benefit accrued to the date of disability is larger than the previous disability benefit. In this case, the recomputed benefit is based on years and months of credited service to date of disability. After January 1, 2010, newly disabled pilots will receive pre-retirement disability benefits from a different plan.
Pre-retirement death	
• Eligibility	Spouses of active or terminated vested participants who die while eligible for vested benefits and who have not waived spouse's benefit coverage. If the participant has waived spouse's benefit coverage, the beneficiary will be paid the full balance of the death benefit account and no further benefits will be payable for that participant. Pay credits under the death benefit account are no longer provided as of January 1, 2010 for participants electing the Soft Freeze Formula.
• Benefit prior to early retirement	The amount which would have been payable to the spouse assuming the participant terminated employment on the date of death, survived to age 45 (if such is not otherwise the case) and then retired, having elected a 50% joint and survivor spouse annuity. Monthly payments begin as of the first of the month following the participant's assumed date of retirement and continue for the spouse's life. The primary retirement benefits will be reduced ½% for each year that coverage is in effect.
Form of benefits	
• Automatic form for unmarried participants	Single Life Annuity
• Automatic form for married participants	50% Joint and Survivor Annuity
• Automatic form when actuarially equivalent value of Accrued Benefit does not exceed $5,000	Lump Sum
• Optional forms of benefits	Life annuity, actuarially equivalent 50%, 66-2/3%, 75% or 100% joint and survivor spouse annuity, or 10 or 15 years certain and continuous annuity. Participants may also elect to receive 50% of their accrued benefit as an actuarially equivalent lump sum.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC § 401(a)(17) for the calendar year in which the 12-month period begins. The limit is indexed annually. For 2025, this limit is $350,000.

Schedule SB, Part V — Summary of Plan Provisions

•	Maximum benefits	Annual benefits may not exceed the limits in IRC § 415(b). The limit is indexed annually. For 2025, this limit is $280,000.
•	Benefits not included in valuation	To the best of our knowledge, all benefits are included in the valuation

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated January 1, 2015 including all subsequent amendments, are included in this valuation:

- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
  - Active participants: Late increases apply to participants who defer retirement beyond age 60 or attainment of 30 years of service. This valuation includes increases for these participants.
  - Deferred vested participants: Late retirement increases are not taken into account for current deferred vested participants over normal retirement age.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding

Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
