Independent Auditor's Report

Retirement Plan Committee
SynTerra Employee Stock Ownership Plan
Greenville, South Carolina

Opinion

We have audited the financial statements of SynTerra Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the SynTerra Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of SynTerra Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about SynTerra Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SynTerra Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about SynTerra Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of Plan

The following description of the SynTerra (the “Company”) Employee Stock Ownership Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Company established the Plan effective January 1, 2015. The Plan operates as an employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) of the Internal Revenue Code of 1986 ("IRC"), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is administered by the Company's Board of Directors, who has appointed an independent trustee, Lance Studdard (the “Trustee”). The Plan utilizes third-party administrators appointed by the Trustee.

The Plan purchased 4,689 shares of Company common stock on August 31, 2016, using proceeds from a loan payable to the Company and holds the common stock in the SynTerra Employee Stock Ownership Trust (the “Trust”). The Plan purchased the remaining 5,544 shares of Company common stock on October 6, 2023, using proceeds from a loan payable to the Company and holds the common stock in the Trust. The Trustee invests and reinvests Trust assets in Company common stock or other investments as directed by the Board of Directors in accordance with the terms of the Plan agreement and Trust agreement. If the Plan is leveraged and as the Plan makes debt payments, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

From time to time, the Plan may purchase shares using debt. Any debt is collateralized by the unallocated shares of Company common stock and is guaranteed by the Company. The Company, who sold shares to the ESOP, has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

a. the accounts of employees with vested and unvested rights in allocated Company common stock (“allocated”), and

b. Company common stock not yet allocated to employees (“unallocated”).

Eligibility

Employees of the Company are eligible to participate in the Plan after one year of service provided they worked at least 1,000 hours and have attained 21 years of age.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's distribution and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans, as applicable. The Company can also make elective contributions. Employee contributions are not permitted. During the year 2025, the Company contributed $1,129,463 to the Plan.

Payment of Benefits

The Plan provides for the payment of benefits in the event of retirement, death, disability, or termination of employment with the Company. The Plan’s provisions allow these distributions to be paid in a lump sum distribution, in installments over a five-year period, or rolled over to another qualified plan. During the year 2025, the Plan paid benefits totaling $2,130,716 to participants as eligible distributions.

Participant Accounts and Allocations

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company common stock released by the Trustee from the unallocated account or recycled by the Trustee from forfeitures of terminated participants' non-vested accounts or distributions paid out. Only those participants who are eligible Company employees as of the last day of the Plan year receive an allocation. Allocations are based on a participant's eligible compensation, subject to IRC limitations, relative to total eligible compensation. Plan earnings (losses) related to Company common stock are allocated based on the ratio of a participant's allocated shares of common stock to the total number of shares of Company common stock allocated to all participants as of December 31, 2025. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants vest in their balances after six years of credited service, increasing 20% each year starting at two years of credited service. A participant will become immediately 100% vested in their balances upon reaching retirement age, disability, or death while in the employment of the Company or in active-duty military service.

Forfeitures

During the year ended December 31, 2025, there were forfeitures of 87.68 shares of stock and $14,446 in cash. The Company recycled and reallocated forfeited shares and cash to eligible participants proportionally based on eligible compensation.

Voting Rights

Generally, the Trustee of the Plan will vote all Company common stock held by the Plan. However, each participant or beneficiary is entitled to direct the trustee as to the manner in which voting rights of shares of Company common stock that are allocated to their account are exercised with respect to any corporate matter involving the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of the business, or such similar transaction.

Put Option

Because the employer stock that is held by the Plan and its participants is not readily tradable on an established market, the Plan includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Plan has the option of assuming the Company's repurchase obligations. At the discretion of the Company, the Company can pay for the purchase over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of the value of shares allocated to his or her account less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a right to transfer the applicable cash amount to the Plan where it may be invested in a variety of mutual funds and other investments offered under that Plan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Cash and Cash Equivalents

Cash and cash equivalents represent balances on deposit in interest bearing cash management funds.

Allocations

The financial statements of the Plan present separately the assets and changes therein pertaining to (a) the accounts of employees with rights in Company common stock ("allocated"), and (b) Company common stock not yet allocated to employees ("unallocated"), including Company common stock that is committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Company absorbs substantially all expenses incidental to the administration of the Plan including internal administrative costs.

Note 3. Fair Value Measurements

Fair value as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1 Observable inputs such as quoted prices in active markets.

Level 2 Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 Unobservable inputs, about which little or no market data exists, therefore require an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Company Common Stock
The fair value of the Company common stock is not readily determinable and was valued using a third-party appraisal. The stock is included in the fair value table below as a level 3 asset. This appraisal was based on an income valuation approach. The income approach used was a discounted cash flow analysis. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	December 31, 2025			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market funds	$ 10,960,873	$ 10,960,873	$ -	$ -

	December 31, 2025			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market funds	$ 9,342,217	$ 9,342,217	$ -	$ -

Level 3 assets are measured at fair value on a recurring basis for the year ended December 31, 2025.

Level 3 Activity

Activity, transfers into and out of Level 3 and the reasons for those transfers are as follows:

2025	
Purchases	$ -
Issuances	-
Unrealized appreciation on investments	1,618,656
Transfers into Level 3	-
Transfers out of Level 3	-

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31, 2025 and 2024.

	December 31, 2025		
	Fair Value	Valuation Technique	Unobservable Inputs
SynTerra Corporation Common shares	$10,960,873	Discounted cash flow	EBITDA Net income Weighted average cost of capital (18.25%) Long-term revenue growth rate (3.00%) Discount rate (20.75%) Discount for lack of marketability (5.00%)

	December 31, 2024		
	Fair Value	Valuation Technique	Unobservable Inputs
SynTerra Corporation Common shares	$ 9,342,217	Discounted cash flow	EBITDA Net income Weighted average cost of capital (18.50%) Long-term revenue growth rate (3.00%) Discount rate (20.75%) Discount for lack of marketability (5.00%)

The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Investments

The Plan's investment in Company common stock at December 31, 2025 and 2024 is presented in the following table:

	2025	
	Allocated	Unallocated
Number of shares	4,148	6,085
Cost	$ 2,068,590	$ 3,103,350
Estimated fair value	$ 4,443,100	$ 6,517,773

	2024	
	Allocated	Unallocated
Number of shares	4,966	5,267
Cost	$ 2,485,770	$ 2,686,170
Estimated fair value	$ 4,533,892	$ 4,808,325

During 2025, the Plan's investment in Company common stock had net appreciation of $1,618,656.

Note 5. Loan Payable

The Plan entered into a $2,827,440 term loan agreement with the Company on October 6, 2023. The proceeds were used to purchase 5,544 shares of the Company's common stock. The shares are unallocated until the shares are legally released as principal and interest are paid on the loan. Unallocated shares are collateral for the loan and have a fair value of $5,344,543. The loan bears interest at 4.6% and matures on September 30, 2043. The loan calls for 20 annual principal and interest payments of $216,525.

The Plan entered into a $1,000,000 term loan agreement with the Company on October 10, 2025. The proceeds were used to facilitate a repurchase of 1,095 shares of the Company's common stock from terminated participants who elected to receive a distribution from their vested accounts. The shares are unallocated until the shares are legally released as principal and interest are paid on the loan. Unallocated shares are collateral for the loan and have a fair value of $1,173,230. The loan bears interest at 3.87% and matures on September 30, 2030. The loan calls for 5 annual principal and interest payments of $223,579.

Estimated future annual principal payments of notes payable at December 31, 2025 are as follows:

2026	$ 284,687
2027	295,226
2028	306,962
2029	319,773
2030	332,813
Thereafter	2,101,299
	$ 3,640,760

The loan is expected to be repaid from contributions and dividends to be received from the Company.

Note 6. Exempt Party-In-Interest Transactions

The Plan's assets, which consist principally of Company common shares, are held by the Trustee. Company contributions are remitted to a custodial account held by a bank. Benefit payments are made from this account. A third-party administrator and recordkeeper computes release of share allocations as well as interest expense and benefit payments. All transactions between the Company and the third-party service providers are considered exempt party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 7. Tax Status

The Internal Revenue Service (the "IRS") has determined and informed the Company by a letter dated February 14, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right under the Plan to terminate the Plan at any time. Upon such termination of the Plan, participants would become 100% vested in their accounts. Upon termination of the Plan, the Trustee would be directed to pay all liabilities and expenses of the trust fund and sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loans.

Note 9. Risks and Uncertainties

The Plan's investment in common shares of the Company is exposed to various risks such as overall equity market volatility. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

Note 10. Subsequent Events

The Plan has evaluated subsequent events through September 30, 2026, the date the financial statements were available to be issued.
