Independent Auditors' Report

To the Administrative Committee
PAQ Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of PAQ Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of PAQ Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of PAQ Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about PAQ Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that

an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PAQ Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about PAQ Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of schedule of assets (held at end of year) is presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following description of the PAQ Employee Stock Ownership Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

PAQ, Inc. (Company) established the PAQ Employee Stock Ownership Plan (Plan) effective as of January 1, 2019. The purpose of the Plan is to recognize the contributions made to the Company's successful operation by its employees, and to reward such contribution by enabling its eligible employees who adopt the Plan, to acquire a proprietary interest in the capital stock of the Company. The Plan is intended to satisfy the applicable requirements of the Internal Revenue Code of 1986, as amended (the "Code") section 401(a), section 409, and section 4975(e)(7), and the Employee Retirement Income Security Act of 1974, as amended ("ERISA") section 407(d)(6). The Plan shall be interpreted, wherever possible, to comply with the terms of the Code, ERISA and all formal regulations and rulings thereunder. The Plan is administered by a third-party administrator specializing in ESOP administration and recordkeeping. Miguel Paredes of Prudent Fiduciary Services, LLC is the Plan's Trustee.

On November 29, 2019, the Plan purchased Company common stock using the proceeds of a borrowing from the Company (Note 8) and holds the stock in trust established under the Plan. The borrowing is to be repaid over a period of 35 years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of Company common stock. The lender has no rights against shares of Company common stock once they are allocated to participants under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

1. the accounts of employees with vested rights in allocated common stock (Allocated) and
2. common stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan upon the attainment of age twenty-one and the completion of one year of service for the employer. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company may make its contributions in cash, or, in Employer Securities, as the Employer from time to time may determine provided the contribution (including, but not limited to, Employer Securities) is not a prohibited transaction under the Code of ERISA. The Employer may make its contribution of Employer Securities at fair market value determined at time of contribution. The plan does not permit participant contributions or rollover contributions by participants.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a single lump-sum distribution or in installment payments over a period generally not to exceed five (5) years, unless elected over a longer period. Participants have the right to elect to receive the balance credited to their Company stock account in the form of Company stock, subject to the requirement that the Company Stock must immediately be sold to the Company or back to the Trust at a price equal to its fair market value (as determined by a qualified independent appraiser as of December 31 of the immediately- preceding year). The Company or the Trustee will have the option to pay the purchase price for their Company stock in one lump sum or in substantially equal, annual installments over a period not exceeding five (5) years, with interest. Distributions for termination of employment commence within five years after the close of the year in which employment with the Company is terminated, but not before the ESOP loan is repaid. All vested account balances not exceeding $1,000 may be distributed in a lump-sum payment. All vested account balances exceeding $1,000 but less than $5,000 may be distributed as a direct rollover to an individual retirement account. Participants terminated in 2025 with vested account balances under $25,000 was $1,143,824 to be paid in 2026 or later.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations.

Effective January 1, 2023, the Plan was amended to increase the lump sum threshold to $25,000 and amend the timing of distribution in excess of $25,000 to commence during but before the end of the sixth (6^{th}) plan year after separation from service. The amendment also clarifies participants with vested account balances in excess of $25,000 will be paid in five (5) annual installment payments.

Effective January 1, 2025, the Plan was amended to increase the Cash Out and Consent limit to $7,000 in accordance with the SECURE Act 2.0, provided that vested balances of $7,000 or less that are distributed without participant consent will be rolled into an Individual Retirement Account (IRA) selected by the committee, and clarify how distributions will be paid in the event of complete plan termination.

Voting Rights

Each participant is entitled to direct the Trustee as how to vote the shares of Company stock allocated to his or her account with respect to any proposed corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the assets of a trade or business of the Company. The Trustee will vote the shares of Company stock held in the Plan on all other matters in accordance with the Plan. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan Termination

The Company reserves the right to terminate the Plan at any time subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Employee Benefits Administration Committee directs the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a two-factor point system based on years of service and wages. The participant earns 10 points for each year of service and one point for every $1,000 in wages subject to a maximum of $345,000. The shares are allocated to each participant based on their total points to the total points of all participants. Plan earnings are allocated to each participant's account based on the ratio of the participant's last valuation date account balance to all participants' last valuation date account balances.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on the total years of service in the ESOP. Participants vest 20% per year after the second year and are 100% vested after six years of service.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the value of the Company stock and 50% of the Company stock credited for the 6^{th} year, reduced by any amounts previously elected to diversify. The participant must direct the diversified amounts among three or more investment funds consisting of differing types of properties and offering different degrees of risk and potential reward.

Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's total points to the total points of all eligible participants for the year. For the year ended December 31, 2025, 40,405 shares of Company stock were allocated to eligible participants.

Note 2 - Summary of Significant Accounting Policies

The summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management who is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements and supplemental schedules.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates. Significant estimates included the valuation of the Company common stock.

Allocations

The financial statement of the Plan presents separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of the Company common stock are valued at fair value. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Benefits

Benefits are recorded when paid.

Date of Management's Review of Subsequent Events

For the year ended December 31, 2025 Plan has evaluated subsequent events for potential recognition and disclosure through September 30, 2026, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Level 3 inputs were used only when Level 1 or Level 2 were not available.

Level 3 Fair Value Measurements

The fair value of the Company common stock is based on an annual independent appraisal. The appraisal was based on a combination of the market and income valuation approaches. The appraiser considered historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts and premiums.

The Employee Benefits Administration Committee, under the supervision of the Company's Board of Directors, determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following table present fair value measurement information for the Plan's Investments in Company common stock at December 31, 2025 and 2024.

December 31, 2025	Fair Value	(Level 3)
PAQ, Inc. common stock	$ 86,753,327	$ 86,753,327
December 31, 2024		
PAQ, Inc. common stock	$ 83,113,327	$ 83,113,327

The following table represents a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2025:

	PAQ, Inc. Common Stock
Beginning balance	$ 83,113,327
Unrealized appreciation	3,639,999
Rounding	1
Ending balance	$ 86,753,327

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2025, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2025, there were no significant transfers into or out of Level 3.

Note 4 - Investments

The Plan's investments in Company common stock at December 31, 2025 and 2024 is as follows:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	1,748,020	6,918,646	1,500,925	7,165,741
Cost	$ 8,472,964	$ 33,535,910	$ 7,275,251	$ 34,733,623
Fair Value	$ 17,497,677	$ 68,255,949	$ 14,393,873	$ 68,719,454

Note 5 - Administration of Plan Assets

The Plan's assets, which consist principally of Company common stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, who invests cash received, interest and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 6 - Related-Party and Party-in-Interest Transactions

The Plan invests in the Company common stock and has indebtedness to the Company. These are related party and party-in-interest transactions. As described in Notes 2 and 5, the Company pays the expenses of the Plan. The Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the PAQ ESOP by a letter dated July 31, 2020, that the Plan is qualified, and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC.

The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statement.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 8 - Loan Payable

On November 29, 2019, the Plan entered into a $42,008,874 term loan agreement with PAQ, Inc. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of the current year's payments, plus all future years' principal and interest payments. This resulted in 247,094 shares being released and allocated for the plan year ended December 31, 2025.

The loan bears interest at a fixed rate of 1.94%. The Plan must make principal and interest payments of $1,631,063 annually through 2053.

Principal future payments on the note are as follows:

2026	$ 952,403
2027	970,880
2028	989,716
2029	1,008,916
2030	1,028,489
Thereafter	30,032,032
Total	$ 34,982,436

Note 9 - Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
