Report of Independent Auditor

To the Plan Administrator
The Institute for Applied Network Security 401(k) Plan
Boston, Massachusetts

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Institute for Applied Network Security 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule of Delinquent Participant Contributions – Form 5500, Schedule H, Part IV, Line 4a for the year ended December 31, 2025 and Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1—Description of the Plan

The following description of the Institute for Applied Network Security 401(k) Plan (the "Plan") provides only general information. A more complete description of the Plan's provisions is in the Plan document.

General – The Plan is a qualified defined contribution plan with a cash deferral arrangement covering all eligible employees ("Participants") of the Institute for Applied Network Security (the "Company" or "Plan Sponsor"). The Plan was established on April 21, 2006 and is administered on the basis of the Plan year, which is the 12-month period commencing each January 1 and ending on December 31. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participants are offered a selection of mutual funds for the placement of their contributions ("participant-directed funds"). The determination of the participant-directed funds made available to Participants is made by the Plan's administrator.

Effective January 1, 2024, the adoption agreement was amended to change the contribution period for matching employer contributions from each Plan year to each payroll period.

Eligibility – Employees of the Company, as defined in the Plan, are eligible to participate in the Plan upon attaining age 21. Participants may begin salary deferrals the first day of the month following or coinciding with the date they satisfy the eligibility requirements.

Contributions – Participants may elect to defer up to 90% of their annual compensation as defined in the Plan, subject to limits set by the Internal Revenue Code ("IRC"). Participants that have met requirement age of 50 or older may elect to defer additional amounts as catch-up contributions, subject to limits set by the IRC. Additionally, if a participant is eligible to make deferrals and is age 60–63 before the end of the calendar year, the participant may make additional catch-up contributions of up to $11,250 into the Plan as a pre-tax contribution, subject to certain IRC limitations and limits as defined by the Plan. Participants may also contribute distributions from other qualified retirement plans ("Rollovers"). Participants may also elect to defer a percentage of their after-tax compensation designated as Roth contributions, subject to maximum limits set by the IRC, effective August 14, 2023.

The Company may make discretionary matching contributions based on a percentage of the participant's eligible contributions, excluding catch-up contributions, during the Plan year determined by the Company annually. The Company may limit the eligible contributions up to a specified percentage of compensation or dollar amount or may provide for matching contributions to be made in a different ratio for eligible contributions above and below a specified percentage of compensation or dollar amount. A participant is eligible if they are an active participant during the Plan year and make an eligible contribution. For the year ended December 31, 2025, the Company made discretionary matching contributions of 50% of eligible contributions up to 6% of compensation limited to $3,000.

Notes Receivable from Participants – Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested balance of their account subject to certain Internal Revenue Service ("IRS") limitations. Participants may only have one loan outstanding at any given time. Loans are to be repaid within five years unless the loan is for a primary residence.

Loans are secured by the remaining vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are repaid through after-tax payroll deductions on a semi-monthly basis.

Vesting – Participants are fully vested in their deferral contributions, rollover contributions, and any earnings thereon. Vesting of matching contributions and earnings is achieved through a four-year formula based on whole years of continuous service and date of hire using the elapsed time method. Vesting of contributions defined as top heavy by the Plan are vested over six whole years of continuous service using the elapsed time method.

Note 1—Description of the Plan (continued)

Forfeitures – Contributions made by the Company which are not vested at the time employees cease to be Participants in the Plan may first be used to pay any administrative expenses, then to reduce future contributions by the Company. As of December 31, 2025 and 2024, there were unallocated forfeitures of $51,128 and $16,096, respectively. For the year ended December 31, 2025, forfeitures totaling $1,000 were used to pay administrative expenses.

Payment of Benefits – Upon termination of service, retirement, or disability, distributions under the Plan shall be paid through a single lump-sum amount. The Plan also allows for hardship withdrawals and in-service withdrawals upon normal retirement age, performing qualified military service or reaching age 59½ of all or a portion of a participant's vested account as defined in the Plan.

Participant Accounts – Each participant's account is credited with (a) the participant's elective deferrals, and rollover contributions, (b) Company's discretionary matching contributions, and (c) net investment earnings. Participant accounts are charged with an allocation of administrative expenses and participant withdrawals. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Plan Administration – The Plan is administered by the Plan Sponsor. Certain administrative functions are performed by officers or employees of the Plan Sponsor. The Plan Sponsor has designated certain employees, who serve without additional compensation, to administer the Plan. The Plan administrator has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities.

Plan Termination – The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, participant's accrued benefits become fully vested and non-forfeitable.

Note 2—Summary of significant accounting policies

Basis of Accounting – The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the use of estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, see Note 4. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefits Paid – Benefits are recorded when paid.

Note 2—Summary of significant accounting policies (continued)

Administrative Expenses – Certain administrative expenses incurred in maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses, recordkeeping, and other Plan administration expenses are paid by the Plan and are recorded in the net appreciation in fair value of investments and in administrative expenses.

Note 3—Information certified by the Plan's qualified institution

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company ("FMTC"), a qualified institution, has certified to the completeness and accuracy of the following data included in the accompanying financial statements and supplemental schedule.

- Investments, at fair value and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2025 and 2024.

- Interest and dividends, net appreciation in fair value of investments, and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2025.

- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2025.

Note 4—Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability, including assumptions regarding risk.

Note 4—Fair value measurements (continued)

The following is a description of the valuation methodology used for assets measured at fair value:

Mutual Funds – The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

Money Market Fund – The Plan's money market account is a short-term, U.S. dollar-denominated obligation issued or guaranteed by the U.S. Treasury, valued on a daily basis by the administrator and classified within Level 1 of the valuation hierarchy.

All investments measured at fair value are classified within Level 1 of the fair value hierarchy. In addition, there were no changes in the valuation methodologies used during those years.

The Plan believes its valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 6—Related party and party-in-interest transactions

Plan investments include mutual funds managed by FMTC, the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Administrative fees related to the trustees' administration of the Plan are paid by the Plan.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services to the Plan at no cost to the Plan. Notes receivable from participants are included in the statement of net assets available for benefits and interest income related to notes receivable from participants is included in the statement of changes in net assets available for benefits.

Note 7—Tax status

The IRS has determined and informed the Plan sponsor by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain positions that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 8—Delinquent participant contributions

As required by ERISA Section 2510.3-102, the Company must remit participant contributions to the Plan as soon as such amounts can reasonably be segregated from the Company's general assets. During 2024, certain participant contributions were not remitted to the Plan on a timely basis and, accordingly, constituted prohibited transactions. During 2025, the Company corrected the delinquent contributions and remitted the related lost earnings to the Plan.

Note 9—Subsequent events

The Plan has evaluated all subsequent events through September 22, 2026, the date the financial statements were available to be issued and determined that no additional subsequent events have occurred that would require recognition or disclosure in these financial statements, except as discussed below.

On September 2, 2026, the Plan Sponsor executed an amendment to the Plan’s adoption agreement effective January 1, 2024 which modified the Plan’s definition of eligible compensation to include synthetic equity and phantom equity. In addition, unused leave is considered eligible compensation under the amended provisions.
