Report of Independent Auditors

The Plan Administrator
Hospital, Surgical & Medical, Major Medical,
Dental, Life & Accident, Vision, CareChoice

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Hospital, Surgical & Medical, Major Medical, Dental, Life & Accident, Vision, CareChoice (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and statements of benefit obligations as of December 31, 2025, and 2024, and the related statement of changes in net assets available for benefits and statement of changes in benefit obligations for the year ended December 31, 2025, and the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025, and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, (referred to as the "supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements

themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Hospital, Surgical & Medical, Major Medical, Dental, Life & Accident, Vision, CareChoice plan (the Plan), sponsored by BlueCross BlueShield of Tennessee, Inc. (the Employer) provides only general information. Participants should refer to the Summary Plan Description and individual Evidence of Coverage documents for a more complete description of the Plan's provisions.

General

The Plan is comprised of participants who are age 65 or older that are covered by a Medicare Advantage (MA) plan (MA Plan) and participants who are under age 65 that are covered by the self-funded plan (SF Plan).

The MA Plan pays the subsidized portion of the monthly premium on behalf of the participants who are age 65 or older.

The SF Plan covers participants for medical, dental and vision benefits (health benefits). The SF Plan requires the Employer to pay its portion of the cost of benefits for all participants. The SF Plan provides health benefits to full-time and part-time employees of the Employer and their covered dependents (active participants). The SF Plan also provides postemployment health benefits to former employees and their covered dependents that elect to receive the health benefits upon the former employee's commencement of long-term disability (LTD participants). Effective January 1, 2010, postemployment health benefits for LTD participants were restricted to two years for participants who commenced participation after December 31, 2009. Benefits for participants who commenced participation on or prior to December 31, 2009 continued for two years, or until their current limitation date (age 65 or 70). After December 31, 2009, premiums were required of all participants. The SF Plan provides health and survivorship benefits in excess of Medicare coverage to eligible retired employees under age 65 that elect coverage and their covered dependents (retired participants).

The Employer subsidizes health benefit premiums for eligible employees who elect retiree health coverage at retirement. On June 4, 2004, the Executive and Governance Committee of the Board of Directors of the Employer approved an amendment such that effective January 1, 2005, newly hired employees were not eligible for the postretirement health benefits provided by the Plan. Service accumulation towards postretirement health benefits for current employees was frozen on December 31, 2007. Employees who were at least age 55 with at least 25 years of service as of December 31, 2004 are eligible for fully subsidized retiree health benefits regardless of when they retire. Employees who were hired or rehired prior to January 1, 2005, are at least 55 years of age and have completed at least 15 years of service at the time of retirement are eligible for a subsidy calculated at 4.0% of the premium of the experience

rated retiree group multiplied by the full calendar years of service completed as of December 31, 2007, subject to a dollar cap. Employees who were hired or rehired prior to January 1, 2005 and are at least age 55 with between 10 and 14 years of service at the time of retirement are eligible for retiree health coverage but are not eligible for the Employer subsidy. Employees hired or rehired on or after January 1, 2005 are not eligible for Employer sponsored retiree health benefits.

The Employer processes claims for health benefits of the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Interest in the Trust

The Blue Cross and Blue Shield Plans' National Retiree Health Benefits Trust (the Trust), whose underlying assets include plan assets of two or more Blue Cross and Blue Shield Association (BCBSA) affiliated companies, is established by the BCBSA to fund and pay retiree health benefits. The Trust's participants are not a related group therefore qualifying it as a 103-12 investment entity under Department of Labor Regulation 2520.103-12. Funds invested in the Trust may be used to fund retiree health benefits for retired participants under the provisions of the health programs maintained by the participating employers. Participating employers maintain programs with selective eligibility criteria for participation. The Plan became a participant in the Trust effective December 22, 1992. Each of the participating plans has an undivided interest in the Trust. The Trust invests all contributions made by participating plans and reinvests all dividend and interest income received on securities owned by the Trust.

Assets are allocated among participating plans by assigning to each plan those transactions (primarily contributions, benefit payments and certain administration expenses), which can be specifically identified. Investment income, net change in the value of investments, and expenses, including unrelated business income taxes or refunds, are allocated to the Plan based upon their pro-rata share in the net assets of the Trust. The value of the Trust is adjusted daily to reflect the earnings and market value changes of investments and certain administrative expenses of the Trust.

Contributions and Funding Policy

Eligible benefit costs incurred by retired participants under the postretirement health benefits portion of the Plan are paid by the Employer. These qualified benefits are reimbursed from the Trust to the Employer in the following year. All other benefits are paid from the assets of the Employer.

The Employer's practice is to contribute to the Trust an amount up to, but not to exceed, the maximum amount allowed as a tax deduction by the Internal Revenue Code (IRC). Under current tax law, the Employer is not permitted to deduct amounts for future benefits to current employees and retirees.

The Plan provides that LTD participants and most employees retiring on or after January 1, 2007, as outlined in the Plan, pay a portion of benefits provided under the Plan. The participant contributions are a specified amount determined annually by the Employer. The Employer contributes amounts necessary to fund the Plan's obligations and is responsible for any excess of benefit obligations over the net assets of the Plan.

Administration

The Trust's investments are held by the Northern Trust Company (the Trustee). Northern Trust Global Investments serves as the investment manager and securities custodian. The Trustee administers the Trust's assets together with the income derived from the Trust. Investment transactions are initiated, executed and accounted for by the Trustee in accordance with the investment guidelines approved by the Board of Directors of the Trust.

Administrative Expenses

Trustee, audit and certain actuarial fees and taxes related to the Trust are paid by the Trust. All administrative expenses of the Plan, other than those of the Trust, are paid by the Employer.

Plan Termination

The Employer has the right under the provisions of the Plan to modify the benefits provided to and contributions required of participants, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, the Employer would be responsible for all benefits not covered by the remaining assets. In the event there were excess assets, the remaining assets in the Plan would be applied for the benefit of employees or former employees of the Employer or the benefit of their covered dependents.

2. Summary of Significant Accounting Policies

Basis of Presentation and Use of Estimates

The accompanying financial statements of the Plan are prepared using the accrual method of accounting in conformity with United States generally accepted accounting principles. The preparation of financial statements requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

Management has reviewed transactions and events occurring subsequent to December 31, 2025 through October 1, 2026, the date at which the financial statements were available to be issued, for any that would require recognition or disclosure in the accompanying financial statements. No such transactions or events were identified.

Investment Valuation and Income Recognition

Investments held by the Plan are reported at fair value. See Fair Value Measurements note for further information related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net change in the fair value of investments includes the Plan's gains and losses on investments bought, sold and held during the year.

3. Interest in Trust Assets and Income

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2025 and 2024, and participation in the net investment activity of the Trust for the year ended December 31, 2025, was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by the Trustee.

4. Fair Value Measurements

As a practical expedient to measuring fair value, the Plan's investment in the Trust is estimated by applying the Plan's ownership percentage in the Trust to the total net asset value (NAV) of investments held by the Trust. In accordance with Accounting Standards Codification 820, *Fair Value Measurements,* the Plan is not required to disclose the levels of the fair value hierarchy for investments measured using NAV per share or its equivalent. There are no restrictions on the Plan's investment in the Trust.

The Trust holds a diversified portfolio of government obligations, common stock, American depository receipts, registered investment funds and real estate investment trusts. The Trust's investments as of December 31, 2025 were allocated between government obligations (62%), common stock (23%), American depository receipts (13%), and registered investment funds (2%). The methods described above may produce fair values that are not indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan has determined its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value at the reporting date.

5. Benefit Obligations

Postretirement benefit obligations represent the actuarial present value of estimated future benefits that are attributed by the terms of the Plan to participants as of December 31, 2025 and 2024, reduced by the actuarial present value of contributions expected to be received in the future from participants. Postretirement benefits include future benefits expected to be paid to or for currently retired participants and active participants during their retirement. Prior to an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

Postretirement benefit obligations are determined by an actuary and represent the amounts that result from applying actuarial assumptions to estimate future incurred benefit costs, the portion of those costs expected to be paid by Medicare and the participants, and the probability of payment (by means of decrements such as those for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment, discounted to present value.

The following table presents the weighted average assumptions used to determine the postretirement benefit obligations as of December 31:

	2025	**2024**
Discount rate[1]	**5.14%**	5.46%
Health care trend rates:		
Trend rate assumed for next year (pre-65 and Rx drug/post-65)	**8.00%/15.25%**	8.50%/14.75%
Ultimate trend rate	**4.75%**	4.75%
Year ultimate trend rate reached	**2034**	2034

The healthcare cost trend rate assumption has a significant effect on the amounts reported. If the assumed rates increased by 1% in each year, the obligation would decrease by $130 as of December 31, 2025, and increase by $438 as of December 31, 2024.

The assumptions used by the actuary are based on the presumption that the Plan will continue subject to the provisions of ERISA. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligations.

[1] Changes in actuarial assumptions recognized in the accompanying statement of changes in benefit obligations includes the change in the weighted average discount rate.

Other Plan Benefits

Plan obligations at December 31, 2025 and 2024, for health claims incurred by active participants but not reported at that date are estimated by the Employer on behalf of the Plan based on historical claims experience and subsequent claim payments relating to the current period. Such estimated amounts are reported in the accompanying statements of benefit obligations at present value. Health claims currently payable for active participants are included with the Plan's liability for claims incurred but not reported. Health claims incurred by LTD participants but not reported at year-end are included in postemployment benefit obligations. The weighted average discount rate used by the actuary for postemployment benefit obligations was 5.17% and 5.56% for 2025 and 2024, respectively. Health claims incurred by retired participants but not reported at year-end are included in Postretirement benefit obligations.

6. Party-in-interest Transactions

The Employer processes and pays all eligible claims. The Trust reimburses the Employer for eligible benefit costs related to participants covered under the Trust agreement. Benefit costs reimbursed by the Trust were $3,433 all of which were due to the Employer at December 31, 2025.

7. Income Tax Status

The Trust has received a determination letter from the Internal Revenue Service (IRS) dated April 26, 1994 stating that the Trust is qualified under Section 501(a) of the IRC and, therefore, is exempt from taxation. The Plan and Trust are required to operate in conformity with the IRC to maintain their qualified status. The Plan administrator has determined that the Plan is operating in compliance with the applicable requirements of the IRC and therefore is qualified and the related Trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator analyzed the tax positions taken by the Plan and concluded that there were no uncertain positions taken or expected to be taken as of December 31, 2025 or 2024. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Trust invests in securities that are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the securities will occur in the

near term and that such changes could materially affect the amounts reported in the accompanying financial statements.

The actuarial present value of benefit obligations are reported based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2025	**2024**
Net assets available for benefits per the financial statements	**$ 108,411**	$ 100,823
Less claims payable and claims incurred but not reported	**(8,903)**	(11,524)
Net assets available for benefits per the Form 5500	**$ 99,508**	$ 89,299

Claims payable and claims incurred but not reported are reflected as current benefit liabilities for Form 5500 purposes but not for financial statement purposes.

The following is a reconciliation of benefits paid per the financial statements to the Form 5500:

	Year Ended December 31, 2025
Claims paid per the financial statements	**$ 126,660**
MA premiums per the financial statements	**2,874**
Benefits paid per the financial statements	**129,534**
Plus claims payable and claims incurred but not reported at December 31, 2025	**8,903**
Less claims payable and claims incurred but not reported at December 31, 2024	**(11,524)**
Benefits paid per the Form 5500	**$ 126,913**

The change in claims payable and claims incurred but not reported is included in benefits paid on the Form 5500 but not for financial statement purposes.
