Opinion

We have audited the accompanying financial statements of Chestnut Ridge Foam, Inc.'s Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Chestnut Ridge Foam, Inc.'s Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Chestnut Ridge Foam, Inc., Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, where due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Chestnut Ridge Foam, Inc., Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintain sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements. .

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Chestnut Ridge Foam, Inc., Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Chestnut Ridge Foam, Inc., Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

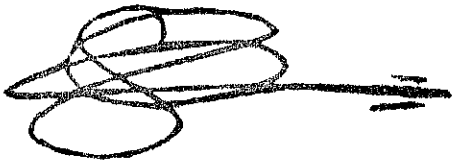

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at December 31, 2025 is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note A – Plan Description and Basis of Presentation

The following brief description of the Chestnut Ridge Foam, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for complete information.

Chestnut Ridge Foam, Inc. (Company) established the Plan effective as of January 1, 1994. As of December 8, 2010, the Plan was amended and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by a Plan Committee comprising of three persons appointed by the Sponsor Company's Board of Directors. The Company's Board of Directors also appoints two trustees.

The Plan purchased Company common stock using the proceeds of a bank borrowing guaranteed by the Company and company loans, and holds the common stock in a trust established under the Plan. The borrowings were previously paid off by fully deductible company contributions to the trust fund.

During 2013, the Plan purchased additional shares of the Company's common stock with a loan of $ 3,099,600 from the Company. As the Plan makes debt payments, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. This borrowing will be paid off by future fully deductible Company contributions to the trust fund. The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

a. the accounts of employees with vested rights in allocated common stock (allocated), and

b. common stock not yet allocated to employees (unallocated).

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Employer Contributions

Each year, the Board of Directors will decide how much to contribute for that plan year. Although not required, contributions may be made in cash, Company Stock, or a combination of both. S Corporation Distributions to the Company's shareholders will also be determined by the Board of Directors.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Note A – Plan Description and Basis of Presentation (Continued)

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the company. Distributions are made in cash in a lump sum if less than $ 5,000 or in equal installments over three years if greater.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan. During 2025, the Company repurchased from participants 9,601 shares at prices determined from the independent appraisal.

Voting Rights

The Company Stock acquired by the Plan is owned by the Employee Stock Ownership Trust. The Trustees of the Trust, appointed by the Board of Directors of the Company, are the legal representatives of the Trust's assets. The voting of shares is described below.

The Trustee receives instructions from the Plan Committee, and all Company Stock held by the Trust is voted by the Trustee in accordance with instructions from the Plan Committee. Notwithstanding the foregoing, each participant shall be entitled to direct the voting of any voting shares of Company Stock allocated to your Company Stock Account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of a trade or business. In accordance with instructions from the Plan Committee, the Trustees shall vote any allocated shares for which a Participant has failed to give timely voting direction.

Plan Termination

Although the Company has established the Plan with the bona fide intention and expectation that it will be able to make contributions indefinitely, nevertheless, the Company shall not be under any obligation or liability to continue its contributions or to maintain the Plan for any given length of time. The Company may in its sole discretion discontinue such contributions or terminate the Plan in whole or in part in accordance with its provisions at any time without any liability for such discontinuance or termination. In the event of a termination (as defined in Treasury Regulation Section 1.401-6(b)(1)) or complete discontinuance of contribution, then the Accounts of all Participants affected by the termination or discontinuance of contributions will become nonforfeitable. In the event of a partial termination, the Accounts of all Participants affected by the partial termination will become nonforfeitable. After termination of the Plan, the Trust will be maintained until the Benefits of all Participants have been distributed. Benefits may be distributed following termination of the Plan or distributions may be deferred and distributed as provided in the Plan, as the Company shall determine. If Benefits will be distributed after the Plan is terminated, the distribution may be delayed until IRS approval is received. In the event that Company Stock is sold in connection with the termination of the Plan or the amendment of the Plan to become a qualified employee plan that is not a stock bonus plan, all Benefits will be distributed in cash.

Note A – Plan Description and Basis of Presentation (Continued)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants are 100 percent vested after three years of service.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradeable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Notwithstanding the foregoing, distribution shall not be made in the form of Company Stock during an S Corporation Year if it would cause the Company to fail to constitute a small business corporation within the meaning of Section 1361(b)(1) of the Code.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution. The election to diversity is made subsequent to year end based upon the shares of employer stock in the participant's account at year end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2025 and 2024 totaled $ 13,195 and $ 2,695, respectively.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Note C – Tax Status

The Plan has received a determination letter from the IRS dated February 2, 2012, stating that the Plan is qualified, under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an significant uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

Note D – Administration of Plan Assets

The Plan's assets, which consist principally of Chestnut Ridge Foam, Inc. common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan.

Note D – Administration of Plan Assets (Continued)

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note E – Investments

The Plan's investments, at December 31, are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Chestnut Ridge Foam, Inc. Common Stock:				
Number of Shares	107,531	7,469	106,286	8,714
Cost	$ 4,561,552	$ 1,098,464	$ 4,405,182	$ 1,254,834
Fair Value	$ 41,506,966	$ 2,883,034	$ 32,603,230	$ 2,673,020

Note F – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The 3 levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note F – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

Assets at Fair Value as of December 31:

	2025		2024	
	Level 3	Total	Level 3	Total
Investment in Chestnut Ridge Foam, Inc. Common Stock	$ 44,390,000	$ 44,390,000	$ 35,276,250	$ 35,276,250
Total Assets at Fair Value	$ 44,390,000	$ 44,390,000	$ 35,276,250	$ 35,276,250

Changes in Fair Value of Level 3 Assets and Related Gains and Losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2025:

Investment in Chestnut Ridge Foam, Inc. Common Stock:	Level 3 Assets Year Ended December 31, 2025
Balance, Beginning of Year	$ 35,276,250
Unrealized Appreciation in Estimated Fair Value	9,113,750
Balance, End of Year	$ 44,390,000
The Amount of Total Gains for the Period Included in Changes in Net Assets Attributable to the Change in Unrealized Gains Relating to Assets Still Held at the Reporting Date	$ 9,113,750

Unrealized gains included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

The Chestnut Ridge Foam, Inc. common stock held by the Plan is reported at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Note F – Fair Value Measurements (Continued)

The valuation process involves plan management's selection of an independent appraiser under contract with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary. The per share valuation that the appraisal arrives at determines what each participant will receive upon distribution.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table sets forth the basic assumption used in arriving at fair value and the range of value for unobservable inputs:

Description	Fair Value	Valuation Technique	Unobservable Input	Rate Applied
Chestnut Ridge Foam, Inc. Common Stock	$ 44,390,000	Capitalization of Earnings	Capitalization Rate	15.16%
			Long-term Growth Rate	-2.00%
			Discount for Lack of Marketability	-3.00%
		Cost-Non-operating Cash Assets	Cash Value	100.00%
			Discount for Lack of Marketability	-3.00%

Note G – Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note H – Loan Payable

In 2012, the Plan entered into a $ 3,099,600 term loan agreement with Chestnut Ridge Foam, Inc. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 1,245 shares being released and allocated for the plan year ended December 31, 2025.

The agreement provides for the loan to be repaid over 20 years. The fair value of the note payable as of December 31, 2025 and 2024, was $ 1,117,343 and $ 1,286,814 respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk. The scheduled amortization of the loan for the next 5 years and thereafter is as follows:

2026	174,047
2027	178,746
2028	183,572
2029	188,528
2030	193,619
Thereafter	198,831

The loan bears interest at 2.70% per annum.

Note I – Subsequent Event

The Plan has evaluated subsequent events through September 28,2026, the date the financial statements were available to be issued.

Note J – Related Party and Party in Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Notes A and D, the Plan has a number of service providers. Such providers are parties-in-interest under ERISA.
