Independent Auditors' Report

To the Plan Participants and Plan Administrator
Norfolk Southern Corporation Medical Plan for Retirees and LTD Participants:

Opinion

We have audited the financial statements of Norfolk Southern Corporation Medical Plan for Retirees and LTD Participants (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

KPMG LLP, a Delaware limited liability partnership, and its subsidiaries are part of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Notes to Financial Statements

The following Notes are an integral part of the Financial Statements. Management has evaluated subsequent events through October 1, 2026, which is the day the financial statements were available to be issued.

1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis.

The Norfolk Southern Corporation (NS) Medical Plan for Retirees and LTD Participants (the Plan) meets the definition of a health and welfare benefit plan under the Employee Retirement Income Security Act of 1974, as amended (ERISA), and is thus subject to the reporting and disclosure, fiduciary responsibility, administration and enforcement, continuation of coverage, and group health plan provisions of Title I of ERISA. The Plan covers medical expenses for certain retired management employees and former employees who are receiving long-term disability (LTD) benefits from Norfolk Southern Corporation and Participating Subsidiary Companies.

Use of Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, actuarial value of benefit obligations, health benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments

The presentation of investments at fair value in the accompanying financial statements of the Plan is required by and in accordance with GAAP. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 4).

Actuarial Valuations of Benefit Obligations

Management's estimate of future postemployment and postretirement health and welfare benefits included in benefit obligations was based on actuarial valuations made by an independent third-party actuary. The valuations were calculated using the projected unit credit cost method (see Note 6).

Investment Activity

Unrealized and realized appreciation and depreciation in the fair value of investments are recognized in the financial statements in the periods in which such changes occur. Security transactions are accounted for on the trade date (the date that the order to buy or sell is executed). Interest is accrued when it is earned. Dividend income is recorded on the ex-dividend date.

2. Plan Description

The following is a brief description of the Plan in effect during 2025 and not the complete text of the plan document. Participants should refer to the plan document for more complete information. Capitalized terms used but not defined herein are defined in the plan document.

General Information

The Plan was established effective January 1, 2010, and is administered by the Vice President Human Resources of NS. Assets of the Plan are held in the Norfolk Southern Corporation Post-Retirement Benefits Trust (Trust), which is a trust consisting of assets that must be used to fund certain benefits covered by the Plan. The Trust is administered by three trustees consisting of NS' chief human resource officer, chief legal officer and chief financial officer (Trustees). The Trustees have directed the investment of Trust assets in group variable trust-owned life insurance policies (TOLI), which are administered by Prudential Financial, Inc.

Benefits

The Plan provides medical benefits for certain employees last hired before January 1, 2003, who are continuously employed in management positions as of and subsequent to January 1, 2016, and who retire directly from active management service or from Long-Term Disability service, for their eligible dependents, and for former employees receiving benefits from the Long-Term Disability Plan of Norfolk Southern Corporation and Participating Subsidiary Companies and their eligible dependents.

Administrative Expenses

NS pays certain administrative costs arising under the Plan at its discretion. Reasonable expenses of administering the Plan, however, may be paid from assets in the Trust as provided under the Plan and in the document establishing the Trust.

Plan Termination

Although it has not expressed any intent to do so, NS has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, any assets held by the Trust which are attributed to the Plan will be disposed of by the Trustees as prescribed by the Trust document, the Plan and by law, in a manner consistent with the Trust's tax-exempt status, and will not be returned to NS.

Plan Amendments

NS has reserved the right to amend the Plan at any time.

3. Funding Policy

Medical benefits provided by the Plan are funded on a current basis by NS from its general assets and from participant contributions as required. The Trust is funded by contributions from NS. No contributions to the Trust are required from plan participants.

The Trust is required to reimburse NS to the extent that NS makes any payment to provide post-retirement medical benefits, unless NS either notifies the Trustees that it does not wish to receive reimbursement or fails to submit a proper claim for reimbursement within fifteen months after making the payment. NS shall submit claims for reimbursement periodically, and not less frequently than annually; and any reimbursement should be made by the Trustees within 60 days after NS has sought the reimbursement.

In 2025, reimbursements from the Trust to NS were $7.4 million, net of administrative expenses, which included reimbursements from the Trust of $1.2M and $6.2M for qualified Plan expenditures incurred during 2023 and 2024, respectively. These reimbursements are presented as an offset to employer contributions which were $23.1 million.

During 2026, through the date these financial statements were issued, the Trust reimbursed NS $1.9 million and $3.7 million for qualified Plan expenditures incurred during 2024 and 2025, respectively.

The Plan has point of sale rebates for prescription drug coverage. While participants benefit from the rebates being applied at point of sale, there is an additional rebate that is refunded to the plan sponsor. The rebates to the plan sponsor are presented as a reduction of employer contributions on the statement of changes in net assets available for benefits.

4. Interest in Trust

The Trust invests in TOLI, which consists of a U.S. stock account and a U.S. bond account, but may retain cash or cash equivalents at times as well. Trust assets and income are reduced by reimbursements from the Trust to NS for qualified expenditures of the Plan.

The following table presents the assets of the Trust:

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10, *"Fair Value Measurements,"* established a framework for measuring fair value and a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels, as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Trust has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets, • quoted prices for identical or similar assets or liabilities in inactive markets, • inputs other than quoted prices that are observable for the asset or liability, and • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

TOLI: Valued at the Plan's interest in trust-owned life insurance issued by a major insurance company. The underlying investments owned by the insurance company consist of a U.S. stock account and a U.S. bond account but may retain cash and cash equivalents at times as well. The U.S. stock account and U.S. bond account are valued based on readily determinable fair values.

Money market fund: Valued at fair value based on the closing price reported on the active market on which the fund is traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth the Trust's assets by valuation technique level, within the fair value hierarchy. There were no level 3 valued assets at December 31, 2025 or 2024.

	Level 1	Level 2	Total

Money market	$ 599	$ —	$ 599
TOLI	—	143,759	143,759
Total investments at fair value	$ 599	$ 143,759	$ 144,358

5. Federal Income Taxes

The Internal Revenue Service (IRS) determined and informed NS by a letter dated May 10, 1993, that the Plan and related trust are designed in accordance with applicable sections of the Code. Subsequent to this determination by the IRS, the Plan was amended and restated. Management believes the Plan is designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is still qualified and the related trust is tax-exempt other than Unrelated Business Income Tax (UBIT). During 2025, the Trust incurred $300 in UBIT. The Plan and the Trust have been amended since the IRS issued the determination letter; however, management believes the Plan and the Trust are currently designed and being operated in compliance with the applicable requirements of the IRC.. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more than likely would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Actuarial Valuations of Benefit Obligations

The estimated future postemployment and postretirement health and welfare benefits included in benefit obligations were based on actuarial valuations made by an independent third-party actuary. The valuations were calculated using the projected unit credit cost method. Significant actuarial assumptions used for 2025 and 2024 were: (1) a postemployment obligation discount rate of 5.00% and 5.08%, respectively, (2) a postretirement obligation discount rate of 5.10% and 5.52%, respectively, (3) the assumed mortality rate used was the latest Society of Actuaries Table, and (4) an assumed 6.5% increase in 2025 and 7.0% increase in 2026 per capita cost of covered health care benefits with gradual decreases to an ultimate rate of 5.0% for 2034 and thereafter. An actuarial valuation requires the use of estimates and assumptions. Actual results could differ from those estimates and assumptions.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and factors might be applicable in calculating these liabilities.

The following tables present the components and the related changes in the Plan's benefit obligations:

7. Related Party Transactions

Prudential Financial, Inc. is currently the custodian of plan assets; therefore, transactions with Prudential Financial, Inc. qualify as exempt party-in-interest transactions.
