INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
National Refrigeration, Inc. 401(k) Plan
Warwick, Rhode Island

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of **NATIONAL REFRIGERATION, INC. 401(k) PLAN**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of National Refrigeration, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of National Refrigeration, Inc. 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about National Refrigeration, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of National Refrigeration, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about National Refrigeration, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion -

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NATIONAL REFRIGERATION, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2025 and 2024

Note A – Description of Plan:

The following description of the National Refrigeration, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:
The Plan is a defined contribution plan established effective January 1, 1999 and amended and restated effective January 1, 2023 for the benefit of qualifying employees of National Refrigeration, Inc. (the Company), as a define contribution plan. The Plan was established to provide employees of the Company with an opportunity to accumulate funds for retirement or disability and to provide death benefits for employees' dependents and beneficiaries. The Plan was established The Plan is intended to be a qualified retirement plan under the Internal Revenue Code of 1986 ("IRC") as amended and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan allows traditional 401(k) deferral (pre-tax) contributions.

Participant contributions:
Eligible employees generally include all employees of the Company, excluding non-resident aliens, leased employees, and union employees. Employees become eligible for contributions at the age of 21 and after completion of six months of service. Eligible participants will be able to enter the Plan on the first day of the first month of the Plan quarter coinciding with or following satisfaction of eligibility requirements.

Subject to limitations issued by the Internal Revenue Service (the "IRS"), participants may elect to contribute to the Plan from 1% to 90% of pre-tax eligible earnings. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer contributions:
Each year, the Plan Sponsor may make a discretionary matching contribution to the Plan in an amount specified by the Plan Sponsor. All eligible participants described above who are participating in the Plan will receive the contribution. The contribution will be calculated based on the participant's amount of salary deferrals each year.

The Plan Sponsor may also make a discretionary profit-sharing contribution to the Plan. All participants in the Plan who are employed at the end of the Plan year and who have completed 500 hours of service will be eligible to receive the contribution. The Contribution will be allocated amongst participants based on the same percentage of compensation for all eligible participants.

There were no employer discretionary matching contribution or profit sharing contributions made during the year ended December 31, 2025.

Note A – Description of Plan (continued):

Participant accounts:
Each participant's account is credited with the participant's contributions, the Company's contributions, and allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations of the Company's contributions, investment income and administrative expenses are based on participants' earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Investment options:
Plan Participants may invest in one or more of the various investment funds offered by the Plan. Each of the Plan's funds represents a mix of various investments. The investment mix chosen by the participant will apply to employee and Company contributions. Rollover contributions are invested at the election of the participant. The Plan's investment advisor determined the appropriateness of the Plan's investment offerings, monitors investment performance and reports to Plan management.

Vesting:
Participants are immediately vested in their deferral and rollover contributions, including the earnings on those amounts. Vesting in the Companies' contribution portion of their accounts is based on years of continuous service as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

In the event of death, disability or attainment of the Plan's normal retirement age, a Participant becomes 100% vested in their total account balance.

Notes receivable from participants:
Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or one-half of their vested account balance. The loans are secured by the balance in the participant's account. Loan terms range from one to five years, except for loans to purchase a primary residence, which may be offered over a term of up to 30 years. The loans are secured by the balance in the participants' accounts and bear interest at the Prime Rate plus 1%. The notes currently bear interest at rates ranging from 4.25% to 9.50%. Participants may have two loans outstanding at any given time. Generally, principal and interest are paid ratably through weekly payroll deductions.

As of December 31, 2025, and 2024, there were outstanding notes receivable from participants of $199,984 and $180,420, respectively.

Note A – Description of Plan (continued):

Payment of benefits:
Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a participant terminates employment for any reason and his or her vested account balance does not exceed $1,000, the plan administrator may distribute such amount in a lump-sum payment to the participant without the consent of the participant. If the participant's balance is between $1,000 and $5,000, and the participant does not provide payment instructions, the plan administrator may roll the amount into an individual retirement account on behalf of the participant without the consent of the participant.

The Plan also provides for in-service withdrawals by participants who have attained the age of 59½. Upon financial hardship, a participant is entitled to the value of his or her deferral accounts, which is payable immediately in a lump-sum distribution.

Forfeitures:
If a participant withdraws his or her vested amount, any non-vested discretionary matching and profit-sharing contributions are forfeited. All benefits forfeited remain in the Plan and can be used to reduce future employer contributions or to pay plan administrative expenses. Forfeited nonvested discretionary matching accounts totaled $55,934 and $7,382 at December 31, 2025 and 2024, respectively. During 2025 and 2024, no forfeitures were used to reduce Company matching contributions or to pay administrative expenses of the Plan.

Note B – Recently issued accounting pronouncements

Management has evaluated recently issued accounting pronouncements issued by the Financial Accounting Standards Board (FASB) and determined that they did not have, and are not expected to have, a material effect on the Plan's financial statements.

Note C – Summary of significant accounting policies:

Financial statement presentation:
The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan, if applicable.

The Plan invests in the Morley Stable Value Fund Class 75, which is a collective trust. The collective trust invests in fully benefit-responsive investment contracts issued by insurance companies and other financial institutions (see investment valuation and income recognition).

Note C – Summary of significant accounting policies (continued):

Use of estimates:
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, additions to net assets, deductions from net assets, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Plan expenses:
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to administration of notes receivable from participants, distributions and investment advisory and investment management services are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Financial instruments with a concentration of credit risk:
The Plan's investments are held by third party custodians. The Plan's exposure to credit risk is associated with the outside entity's non-performance of their fiduciary responsibilities relating to these amounts as specified in the agreements. The Plan also provides for various investment options which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and those changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits. Benefits provided by the Plan are not insured or guaranteed by the Pension Benefit Guaranty Corporation.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2025, may not necessarily be indicative of amounts that could be realized in a current market exchange.

Notes receivable from participants:
Notes receivable from participants represent participant loans and are valued at their unpaid principal balance plus any accrued but unpaid interest, which approximates fair value. Related fees are recorded as administrative expenses and are expensed as incurred. Management has concluded that no allowance for current expected credit losses was necessary at December 31, 2025 and 2024. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment valuation and income recognition:
The Plan's investments, consisting of registered investment companies and a collective trust, are stated at fair value. Registered investment companies, consisting of mutual funds and exchange traded funds, are valued using quoted market prices from national exchanges.

Note C – Summary of significant accounting policies (continued):

Investment valuation and income recognition (continued):
Investments in collective trust funds, including the Morley Stable Value Fund ("Stable Value Fund"), which is an indirect investment in a fully benefit-responsive investment, are valued using Net Asset Value ("NAV") as a practical expedient, and are recorded at the Plan's proportionate share of the contract value as determined by the fund manager. This is considered the fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of benefits:
Benefits paid to participants are charged to expense during the period paid.

Subsequent events:
Plan management has evaluated subsequent events through August 6, 2026, the date that the accompanying financial statements were available to be issued.

Note D – Investments certified by plan trustees:

Information presented in the accompanying financial statements and supplemental schedule for investments, net appreciation (depreciation) in fair value of investments, interest and dividend income was derived, without audit, from information certified to be complete and accurate by Matrix Trust Company, the trustee, as permitted by the election made by the Plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and were not subject to auditing procedures.

Note E – Fair value measurements:

Investments held by the Plan are reported at fair value. The Plan's investment in the Stable Value Fund holds investment contracts that are deemed to be fully benefit responsive investment contracts ("FBRIC"), however, this is considered to be an indirect FBRIC investment and it is reflected at NAV as a practical expedient which is considered to be fair value. The NAV is equal to contract value of the underlying investment held by the fund, less its liabilities. The Stable Value Fund is not available for sale or transfer on any securities exchange. The contract value is a relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Note E – Fair value measurements (continued):

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs (that is, Level 1 and Level 2 inputs that do not require significant adjustment) and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Registered investment companies - Valued using market approach at the closing price reported on the active market on which the individual securities were traded.

There have been no changes in the methodology used at December 31, 2025 and 2024.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E – Fair value measurements (continued):

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025:

	Quoted Prices In Active Markets (Level 1)	***Other Observable Inputs (Level 2)***	***Unobservable Inputs (Level 3)***	***Total Assets Measured at Fair Value***
Investments:				
Registered investment companies	**$ 8,968,386**	**$ 0**	**$ 0**	**$ 8,968,386**
Total assets in fair value hierarchy	**8,968,386**	**0**	**0**	**8,968,386**
Collective trust measured at NAV as a practical expedient (a)	**70,338**	**0**	**0**	**70,338**
Total investments at fair value	**$ 9,037,724**	**$ 0**	**$ 0**	**$ 9,037,724**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	Quoted Prices In Active Markets (Level 1)	*Other Observable Inputs (Level 2)*	*Unobservable Inputs (Level 3)*	*Total Assets Measured at Fair Value*
Investments:				
Registered investment companies	$ 6,970,600	$ 0	$ 0	$ 6,970,600
Total assets in fair value hierarchy	6,970,600	0	0	6,970,600
Collective trust measured at NAV as a practical expedient (a)	67,379	0	0	67,379
Total investments at fair value	$ 7,037,979	$ 0	$ 0	$ 67,037,979

(a) In accordance with FASB ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Gains and losses excluded in changes in net assets available for benefits are reported in net appreciation of fair value of investments.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value input level to another. The Plan's policy is to recognize transfers between levels as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2025 and 2024, there were no significant transfers between levels.

Note F – Party-in-interest transactions:

New England Pensions, LLC is the recordkeeper for the Plan and Matrix Trust Company is the trustee of the Plan. Certain investment and administrative expenses were paid to Matrix Trust Company. Fees incurred by the Plan for administrative services provided by the trustees, recordkeepers and investment management companies totaled $78,518 and $58,082 for the years ended December 31, 2025 and 2024, respectively.

Certain employees and officers of the Companies, who are also participants in the Plan, perform administrative services for the Plan at no cost to the Plan. Also, the Plan issues loans to participants, which are secured by balances in the participants' accounts. These transactions qualify as party-in-interest transactions and are exempted from the prohibited transaction rules of ERISA.

Cavanagh CPAs & Associates, LLC, the auditor of the Plan's financial statements, is also a party-in-interest as defined by ERISA.

Note G – Plan tax status:

The Plan adopted a non-standardized pre-approved profit sharing/money purchase/CODA plan offered by DATAIR Employee Benefit Systems, Inc. which received an IRS Advisory Letter dated June 30, 2020, stating that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC).

Although the Plan has been amended since receiving the most recent determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan files the Annual Return/Report of Employee Benefit Plan (Form 5500) in the U.S. federal jurisdiction. The Plan is no longer subject to U.S. federal tax examinations for years before 2022.

Note H – Plan termination:

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.
