Independent Auditor's Report

Board of Trustees
Weiler Engineering, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Weiler Engineering, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agree to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

RSM US LLP is the U.S. member firm of RSM International, a global network of independent assurance, tax, and consulting firms.

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA
The supplemental schedule of Schedule H, Line 4i—schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Note 1. Plan Description

The following description of the Weiler Engineering, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the amended plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan, established January 1, 1985, and maintained for the benefit of eligible employees. Eligible employees include all employees of Weiler Engineering, Inc. (the Employer and Plan Sponsor). Eligible employees may begin to participate in employee deferrals on the earliest of January 1, April 1, July 1 or October 1 following hire date. Employees are eligible for all other contributions upon reaching 21 years of age and having completed one year of service during which the employee has worked a minimum of 1,000 hours. Eligible employees may begin to participate in all other contributions on the earliest of January 1, April 1, July 1 or October 1 following completion of the service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Plan is designed as a qualified cash deferred arrangement pursuant to Section 401(k) of the Internal Revenue Code (IRC) and provides for the following contributions, which are to be maintained in separate accounts for each participant:

Participants' elective contributions: These contributions are deductions from compensation made by the Plan Sponsor at the direction of the employee in an amount up to 100% of the employee's compensation. Amounts are deducted from the participants' direct compensation and are excluded from the participants' reportable taxable wages for the year. The aggregate amount of the participant-directed contributions cannot exceed the statutory limit as adjusted from time to time pursuant to Section 402(g)(5) of the IRC ($31,000 for participants over the age of 50 and $23,500 for all others for 2025). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

Employer's matching contributions: These contributions are to be made by the Plan Sponsor in amounts equal to a percentage of each participant's eligible salary deferral contributions. The Plan Sponsor is required to provide an employer matching contribution of 100% of the first 5% of participants' eligible compensation. The employer match is made to all plan participants after completing one year of service, as defined.

Employer's discretionary contribution: The Plan Sponsor may, at the discretion of its Board of Directors, make additional contributions to be allocated to the accounts of the eligible participants. There were no Employer discretionary contributions made for the year ended December 31, 2025.

Vesting: Participants are immediately vested in their elective contributions and employer matching contributions plus actual earnings thereon. The employer's discretionary contribution is vested 20% after two years of service and 20% per year thereafter, being fully vested after six years of credited service. Participants become fully vested upon normal retirement, death or disability.

Participants' accounts: Each participant's account is credited with: (a) the employee's elective contributions, (b) the employer's matching contributions and (c) allocations of: (1) the employer's discretionary contributions, if any, (2) plan earnings and (3) forfeitures. Each participant's account is charged with an allocation of administrative expenses. Allocations of discretionary contributions are based upon participant compensation, as defined. The allocations of plan earnings and administrative expenses are based on the participants' relative account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Plan Description (Continued)

Investment options: The Plan is a participant-directed plan, whereby each participant directs their voluntary and Plan Sponsor contributions to one or more of the investment options as more fully described in the Plan's literature. Participants may change their investment options at any time, subject to certain restrictions.

Notes receivable from participants: Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of: (1) $50,000 reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made or (2) 50% of the participant's vested account balance reduced by any outstanding loan balance on the date the new loan is made. Notes receivable terms range from one to five years or longer for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined upon the initiation of the loan. The interest rates range from 3.25% to 8.50% at December 31, 2025. Principal and interest are paid ratably through payroll deductions.

Payments of benefits: Benefits under the Plan are payable to participants or their beneficiaries upon death, retirement, disability or termination of employment. Benefits are payable in a lump-sum or by other methods as described in the plan document. Participants may make withdrawals from their account balances upon reaching normal retirement age or by determination that a financial hardship, as defined, has been incurred. At December 31, 2025, no benefits were owed to former participants whose employment had been terminated and who had elected to withdraw from the Plan.

Forfeitures: Forfeitures of unvested portions of terminated participants' accounts are credited to each participant's account based upon participant compensation. There were no forfeitures allocated for the year ended December 31, 2025. There were no unallocated forfeitures at December 31, 2025 and 2024.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for a discussion of fair value measurements. The methods used to determine the fair value of investments are described in Note 5.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Contributions from Plan participants and from the Plan Sponsor are recorded in the year in which participant compensation is paid.

Administrative expenses: Administrative expenses of the Plan are charged against earnings except to the extent the expenses are paid by the Plan Sponsor.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent events: The Plan Sponsor has evaluated subsequent events for potential recognition and/or disclosure through September 14, 2026, the date the financial statements were available to be issued.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in the employer's discretionary portion of their accounts.

Note 4. Related-Party and Party-In-Interest Transactions

Plan investments are managed by Principal Life Insurance Company (Principal) and, therefore, these transactions qualify as party-in-interest. Furthermore, Principal provides plan administrative services to the Plan.

Total administrative expenses paid to Principal by the Plan for the year ended December 31, 2025, were $42,598. In addition, certain administrative functions are performed by the trustees or employees of the Plan Sponsor for which no compensation is received from the Plan.

Certain other investment advisory and administrative expenses are paid by the Plan Sponsor on behalf of the Plan. These amounts are not material to the financial statements.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 5. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies at December 31, 2025, compared to December 31, 2024.

***Guaranteed investment contracts*:** These investments are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 6). Since the participants transact at contract value in most circumstances, fair value is determined annually for financial statement reporting purposes only.

Collective investment contracts: Valued based on the net asset value (NAV) of units of the collective investment contracts fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions occur on a daily basis. This practical expedient is not used when it is determined that the fund will sell the investment for an amount different from the reported NAV.

Pooled separate accounts: The investments are primarily valued at NAV per share based on quoted market prices of underlying investments, except as otherwise noted below. The NAV, as provided by the insurance company, is used as a practical expedient to estimate fair value. The U.S. Property Separate Account is valued using the current NAV per share based on the fair value of the underlying property assets. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor. This practical expedient is not used when it is determined that the fund will sell the investment for an amount different from the reported NAV.

Registered investment companies: Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1 inputs).

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
Description	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	$ -	$ -	$ 914,131	$ 914,131
Shares of registered investment companies	360,961	-	-	360,961
Total assets in the fair value hierarchy	$ 360,961	$ -	$ 914,131	1,275,092
Investments measured at NAV (a)				33,191,557
Investments at fair value				$ 34,466,649

Note 5. Fair Value Measurements (Continued)

Description	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	$ -	$ -	$ 1,178,984	$ 1,178,984
Shares of registered investment companies	147,125	-	-	147,125
Total assets in the fair value hierarchy	$ 147,125	$ -	$ 1,178,984	1,326,109
Investments measured at NAV (a)				34,619,572
Investments at fair value				$ 35,945,681

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) at December 31, 2025 and 2024:

Investment	Fair Value December 31		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2025	2024			
Pooled separate accounts	$ 32,943,570	$ 34,355,833	$ -	Daily	None
Collective investment contracts	247,987	263,739	-	Daily	None

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the total net assets available for benefits. For the years ended December 31, 2025 and 2024, there were no transfers in or out of Level 3.

The table below sets forth a summary of the purchases and issuances of the Plan's Level 3 assets for the year ended December 31, 2025:

	Guaranteed Investment Contracts
Purchases	$ 317,666
Issuances	640,550

Note 5. Fair Value Measurements (Continued)

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements: The following tables present the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of value for those inputs as of December 31, 2025 and 2024:

2025

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment contracts	$ 914,131	Market value adjustment	Composite guaranteed rate	3.98% - 4.14%
			Current rate on 12/31/2025	0.76% - 5.60%

2024

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment contracts	$ 1,178,984	Market value adjustment	Composite guaranteed rate	4.65% - 4.86%
			Current rate on 12/31/2024	0.76% - 5.59%

Guaranteed investment contracts are valued at Level 3 using a market value adjustment which is considered contract value adjusted to take into account the current rates of interest available in the marketplace due to the absence of active market quotes for identical or similar contracts with comparable features and risks. This valuation technique requires the use of significant unobservable inputs, and accordingly, the fair value for the Guaranteed investment contracts are classified as Level 3 within the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 6. Investment Contracts With Insurance Company

The Plan has invested in guaranteed interest accounts with Principal Life Insurance Company. The guaranteed interest accounts are comprised of non-benefit-responsive investment contracts which are stated at fair value as reported to the Plan by Principal Life Insurance Company. Principal Life Insurance Company maintains the contracts in a general account. The contract is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of the issuer and not on the value of the securities in the insurer's general account. The credit rating of the issuer was A+ at December 31, 2025, as reported by S&P Global. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value; however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 7. Information Certified or Provided by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust Company, collectively, the custodians)

The following is a summary of the Plan's asset and income information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following investments are complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the certified information in the following tables.

Principal Life Insurance Company, certified to the completeness and accuracy of the following as of December 31, 2025 and 2024, and for the year ended December 31, 2025:

	2025	2024
Pooled separate accounts	$ 32,943,570	$ 34,355,833
Guaranteed investment contracts	914,131	1,178,984
Collective investment contracts	247,987	263,739
Net appreciation in fair value of investments	4,019,964	
Interest on guaranteed investment contracts	38,478	

Note 8. Tax Status

Effective February 17, 2022, the Plan adopted a non-standardized prototype plan sponsored by Principal. The prototype plan has received an opinion letter from the Internal Revenue Service (IRS) as to its qualified status dated June 30, 2020. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the adoption date. The Plan Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by a plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 9. Risks and Uncertainties

The Plan provides for various investment options and invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2025 and 2024, to Form 5500:

	2025	2024
Net assets available for benefits per the financial statements	$ 34,624,068	$ 36,110,629
Notes receivable from participants	(147,913)	(164,948)
Participant loans	147,913	164,948
Net assets available for benefits per Form 5500	$ 34,624,068	$ 36,110,629

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the year ended December 31, 2025, to Form 5500:

Net decrease in net assets available for benefits per the financial statements	$ (1,486,561)
Earnings on investments—interest on participant loans	10,068
Interest on participant notes receivable	(10,068)
Net decrease in net assets available for benefits per Form 5500	$ (1,486,561)
