INDEPENDENT AUDITOR'S REPORT

Trustee
Design Workshop, Inc.
Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Design Workshop, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for plan benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for plan benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for plan benefits for the year ended December 31, 2025 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at Year End) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Design Workshop, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Design Workshop, Inc. (the "Company" or "Employer"), established the Plan effective as of January 1, 2006; with subsequent amendments in January 2009, January 2015, January 2016 and January 2023. The Plan operates as a leveraged employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by Principal Life Insurance Company. The Board of the Directors of the Company has appointed V. Wayne Isaacks (the "Trustee") as the independent Plan Trustee.

On December 15, 2006, the Plan purchased 136,246.50 shares of the Company's common stock using the proceeds of a loan from the Company and the proceeds of a loan from one of the shareholders whose stock was purchased by the Plan. The stock was purchased at a price of $11.01 per share, for an aggregate purchase price of $1,500,000. The loans associated with the financing have been paid in full.

On August 6, 2014, the Company redeemed 30,317.33 shares of voting common stock directly from eligible ESOP participants. During the year ended December 31, 2019, the Company contributed additional shares via a non-cash contribution of 11,034.29 to the Plan.

On April 30, 2020, the Plan purchased an additional 185,300.70 shares of the Company's common stock using the proceeds of a loan from the Company and a cash payment. The stock was purchased at a price of $13.59 per share, for an aggregate purchase price of $2,518,237. Ten percent of the purchase price was paid in cash and the remaining ninety percent financed with the loan. Additionally, on April 30, 2020, the Board of Directors of the Company approved a forward stock split whereby each share of common stock was divided and split based on the ratio of 1:3.31.

The Plan holds the common stock in an established trust. Total shares held at December 31, 2025 and 2024 were 1,000,494.37.

The loan for the purchase of the 185,300.70 shares is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

General (Continued)

a) the accounts of employees with rights in allocated common stock (allocated), and

b) common stock not yet allocated to employees (unallocated)

Administration

Certain administrative functions are performed by officers or employees of the Company and by Principal Life Insurance Company. No such officer or employees receive compensation from the Plan. Fees due Principal Life Insurance Company and any fees due to the Trustee are paid by the Company.

Eligibility

Employees of the Company are eligible to participate in the Plan on the first day of the subsequent quarter after they complete 1,000 hours of service and they have reached age 21. The first determination occurs on the one-year anniversary of the employee's hire date. Subsequent determinations are made based on the Plan year.

Independent contractors, employees who are subject to a collective bargaining agreement and employees who provide services to the Employer under a contract between the Employer and a temporary help firm, outsourcing company or any other similar organizations are not eligible to participate in the Plan.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its outstanding loan. Employee contributions are not permitted. Contributions may be made in shares of Company stock which will be valued at their then fair market value. The Company can also make additional discretionary contributions to the Plan.

Payment of Benefits

Distributions on account of death, disability, or retirement shall commence as soon as administratively feasible following the participant's separation from service beginning no later than one year after the close of the Plan year in which such event occurs. If the Company stock account and other investment account exceeds $10,000, the distribution will be made in the year subsequent to termination if the cause of termination is retirement upon reaching normal retirement age (65), death, or disability. In all other cases of termination, the distribution will be made in the sixth year following the year of termination.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits (Continued)
Distributions for other separations from service, shall be made as soon as administratively feasible after the close of the Plan year in which employment terminates based on the participant's vested account balance as follows:

Vested balance is less than $1,000. If a participant's vested account balance does not exceed $1,000, it will be distributed to the participant. The vested account will be paid directly to the participant in a lump sum payment unless the participant has completed a timely election to roll over their benefit to another plan or an IRA.

Vested Account Balance exceeds $1,000 but does not exceed $5,000. If a participant's vested account balance exceeds $1,000 but does not exceed $5,000 and the participant does not return their completed distribution forms in a timely manner, the vested account will be rolled over to an IRA and initially invested in a low-risk investment.

Vested Account Balance Exceeds $1,000 but not $10,000. If a participant's vested account balance exceeds $1,000 but not $10,000, the Employer, with the participant's consent, will direct the Trustee to distribute the participant's vested account in a lump sum payment. Participants may choose to roll this amount over to an IRA or another qualified plan. Participants may also choose to delay receiving a distribution of their vested account as described above for participants with vested account balances greater than $10,000.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Administrative Expenses
As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the expenses for the Plan. In the event the Company were to charge administrative expenses to participant accounts, the Plan would allocate the expenses on a pro-rata basis to participants.

Voting Rights
All Company stock held by the Plan shall be voted by the Trustee. Participants and/or beneficiaries shall be entitled to direct the Trustee as to the voting of any voting shares of the Company stock allocated to their Company stock account in certain situations related to major corporate events (i.e. merger or a major financial restructuring). The Trustee shall vote any unallocated shares held by the Plan as well as any allocated shares for which a participant has failed to give timely voting direction. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who have accumulated 1,000 or more hours of service during the Plan year and who are employed on the last day of the Plan year will receive an allocation. Allocations are based on the proportion of a participant's covered compensation to the total covered compensation of all participants for that year. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

Participants who, while employed with the Company die, attain the normal retirement age (65) or incur a disability, will be 100% vested in such participant Plan benefits. Participants who terminate for other reasons besides death, retirement or disability are fully vested after the completion of three years of service.

Put Option

Under federal income tax regulations, the Employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase in a single payment or with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Qualified Participants, who are at least age 55 with at least 10 years of participation in the Plan, may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage increases to 50%. The election to diversify is made within 90 days of the Plan year-end based upon the shares of employer stock in the participant's account at year end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's plan compensation to total compensation for the Plan year. Forfeitures allocated to participants during December 31, 2025 totaled $9,516.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and changes therein. Actual results could differ from those estimates.

Allocations
The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (*a*) the accounts of employees with rights in allocated stock ("allocated") and (*b*) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid. Allocation limitations are based upon the lesser of the Section 415 limitation during the year (subject to cost-of-living adjustments under Section 415) or 100% of the participant's total compensation for the year.

Investment Valuation and Income Recognition
The shares of Company common stock are reported at fair value. See Note 4 for discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Income Taxes
The Plan and related trust are designed in accordance with applicable sections of the IRC. In March 2015, the Plan received a determination letter from the IRS noting that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, therefore, the Company believes that the Plan is qualified, and the related trust is tax-exempt.

Risks and Uncertainties
The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits
Benefits are recorded when paid.

NOTE 3 – INVESTMENTS

The Plan's investments at December 31st, are as follows:

	2025 Allocated	2025 Unallocated	2024 Allocated	2024 Unallocated
Number of shares	571,152.66	429,341.71	540,485.40	460,008.97
Cost	$6,259,833	$4,705,585	$5,923,720	$5,041,698
Fair value	$8,750,059	$6,577,515	$6,826,331	$5,809,913

NOTE 4 – FAIR VALUE MEASUREMENT

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 4 – FAIR VALUE MEASUREMENT (Continued)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's assets as of December 31, 2025 and 2024 were 100% invested in Design Workshop, Inc. common stock. The fair value was determined within the fair value hierarchy under Level 3 inputs with the fair value of the stock totaling $15,327,574 and $12,636,244 at December 31, 2025 and 2024, respectively.

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2025:

Balance, beginning of year	$12,636,244
Unrealized appreciation in estimated fair value	2,691,330
Balance, end of year	**$ 15,327,574**

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Plan Benefits.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

The Design Workshop, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the income and market valuation techniques and resulted in a fair value of $15,327,574. The income principal valuation technique utilizes the following unobservable inputs – EBITDA, net income, weighted-average cost of capital, discount rate, and discount for lack of marketability. The market principal valuation technique utilizes the following unobservable inputs – public comparables, revenue multiple, EBITDA multiple, and discount for lack of marketability.

The valuation process involves the selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a preliminary report that Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves.

NOTE 4 – FAIR VALUE MEASUREMENT (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – NOTE PAYABLE

On April 30, 2020, the Plan entered into a $2,518,237 term loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released is calculated using the General Rule methodology in any year which is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 30,667.26 shares being released and allocated to participants for the Plan year ended December 31, 2025.

The agreement provides for principal and interest at 0.91% to be paid in 20 consecutive annual installment payments of $137,878 beginning December 31, 2020. The note matures December 31, 2039. Prepayments may be made without penalty and shall be applied to payments of earliest maturity.

Future principal maturities of the note payable are as follows as of December 31, 2025:

2026	$ 121,455
2027	122,560
2028	123,675
2029	124,801
2030	125,937
Thereafter	1,186,271
	$ 1,804,699

NOTE 6 – RELATED PARTY TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party in interest transactions. As described in Note 1, administrative expenses may be paid either by the Plan or the Company. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

NOTE 7 – PLAN TERMINATION

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time by resolution of its Board of Directors and is subject to the provisions of ERISA. Upon termination of the Plan, further contributions to the Plan shall cease and all participants who are affected by such termination shall become 100% vested. Net assets available for plan benefits would be distributed to the participants based on each participant's interest in the Plan.

NOTE 8 – UNCERTAIN TAX PROVISIONS

U.S. GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Internal Revenue Services ("IRS") or the Department of Labor ("DOL"). The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2025 and 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 30, 2026, which is the date the financial statements were available to be issued and has determined that there are no subsequent events that require disclosure.
