Independent Auditors' Report

To the Participants and Plan Administrator of
Mount Saint Mary's University 403(b) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Mount Saint Mary's University 403(b) Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Mount Saint Mary's University 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Mount Saint Mary's University (the University) effective September 1, 1960, as restated January 1, 2020. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The University is the sponsor and plan administrator. The Insurance Company of the Plan is Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (TIAA and CREF) (the Insurance Company). Fidelity Management Trust Company also serves as a Custodian for certain assets of the Plan (the Custodian). The Insurance Company and Custodian manage the investments of the Plan, as directed by the participants, and make distributions according to the Plan's provisions. In addition, the Insurance Company and Custodian provide recordkeeping services for the Plan. The Retirement Plan Committee is responsible for oversight of the Plan as delegated by the Board of Trustees. The Plan's Retirement Committee determines the appropriateness of the Plan's investment offering and monitors investment performance. The Audit Committee oversees the audit and compliance requirements related to the Plan.

Eligibility

All employees, excluding non-resident aliens, student employees, employees who are eligible to participate in other plans of the University, and union employees, are eligible to make deferrals into the Plan. Employees who are classified as benefits eligible can receive University contributions into the Plan. The Plan requires a participant to be employed as of year-end to be eligible to receive University contributions. Benefits eligible employees are those who Human Resources classifies as benefits eligible based on the Employee Handbook. There is no age requirement to make employee deferral contributions or to be eligible for the University contributions.

Contributions

Each year, participants may contribute a percentage of pretax annual compensation, as defined in the plan document, up to the maximum limits of the Internal Revenue Code (IRC). Participants also may designate all or a portion of their deferral contributions as after-tax contributions into a Roth account. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. In accordance with the Setting Every Community Up for Retirement Enhancement Act (SECURE 2.0 Act), participants aged 60 through 63 are eligible to make additional catch-up contributions, subject to applicable IRC limitations. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The University may make discretionary matching and discretionary nonelective contributions to the Plan. Discretionary matching contributions may be equal to a uniform percentage or dollar amount of an eligible participant's elective deferrals.

For the year ended December 31, 2025, the University made a discretionary nonelective contribution equal to 7% of eligible compensation, as defined by the plan document, for eligible employees. In addition, the University made discretionary matching contributions equal to 100% of employee contributions, up to 3% of participants' salary reductions. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, University matching contributions, allocations of the University's discretionary contributions and an allocation of the Plan's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan participants can designate the investment of their accounts in various funds with pre-selected investment objectives, each of which is invested in securities selected and managed by the Insurance Company and Custodian to meet the objectives of each fund.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the University's contribution portion of their accounts is based on years of continuous service. If an employee has been credited with years of service at a predecessor employer of higher education, the years of service will be considered for vesting purposes at the University. University contributions, including both the discretionary nonelective 7% and the matching contributions, and earnings thereon vest in accordance with provisions of the Plan as follows:

Vesting Years of Service	Percentage Vested
Less than 2 years	0%
2 or more years	100

For purposes of determining the extent to which a participant is vested, a year of service defined as the 12-month period commencing on an employee's hire date. Each participant may also become 100% vested on termination of service due to death, disability or upon normal retirement age as defined in the Plan. Participant contributions (salary reduction, catch-up, rollovers and Roth) and their respective earnings are immediately vested.

Plan Loans

Plan loans that were issued prior to January 1, 2021 were issued as separate contracts by TIAA as contemplated under IRC section 72(p)(5) and do not represent plan assets. Loans are collateralized using a participant's TIAA Traditional account balance in an amount equal to 110% of the outstanding loan balance. Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 45% of their TIAA Traditional vested account balance. Loan terms range from one to five years in one-year increments. The loans bear interest at variable rates tied to the monthly average corporate yield, published by Moody's Investor Service, but the rate remains the same for the first year. Principal and interest is paid ratably by the participant to TIAA, and each payment will reduce amounts collateralized by the borrowing participant's TIAA Traditional account balance.

Prior to January 1, 2021, participants could borrow directly from the Custodian, subject to certain limitations, by using a portion of their plan account as security for the plan loan. These loans do not occur directly within a participant's account but rather through a designated Custodian account. Outstanding loan balances were $14,509 and $13,778 at December 31, 2025 and 2024, respectively, and are not reported within the accompanying financial statements of the Plan but serve as collateral against the outstanding plan loan balances. Interest on these loans is paid directly to the Custodian. As of December 31, 2025 and 2024, plan loans in default totaled $14,509 and $13,778, respectively.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rates vary based on the investments in the participant's accounts that are used to secure the balance, as defined in the plan document. Principal and interest are paid ratably through participant monthly bank account deductions. Terms range up to five years or greater for the purchase of a primary residence.

As of December 31, 2025 and 2024, outstanding participant loans totaled $404,642 and $312,113, respectively. As of both December 31, 2025 and 2024, rates of interest on outstanding notes receivable ranged from 4.25% to 9.50%.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a terminated participant's vested balance is less than or equal to $7,000, the amount may be automatically distributed in the form of lump sum cash payment. In addition, the Plan allows for hardship distributions if certain criteria are met. The Plan allows self-certification of hardship distributions. Effective March 2025, all amounts, including employer contribution amounts, are available for hardship withdrawals, subject to applicable plan provisions and hardship distribution requirements. Required minimum distributions are no longer required from designated Roth accounts during a participant's lifetime. Non-Roth accounts remain subject to applicable required minimum distribution rules.

TIAA Traditional Annuity contract transfer and withdrawal options vary by type of contract owned. Plan participants may participate in one or more contracts. Liquidity options for these contracts are:

Retirement Annuity Contract

TIAA Traditional Annuity withdrawals and transfers are distributed in ten annual installments.

Group Retirement Annuity Contract

Lump-sum withdrawals are available within 120 days following termination of employment, subject to a 2.5% surcharge. All other withdrawals and transfers are distributed in ten annual installments or in five annual installments for withdrawals after termination of employment.

Group Supplemental Retirement Annuity Contract

Subject to terms of the Plan, this contract allows for lump sum transfers and cash withdrawals. However, because of its greater liquidity, this contract is usually credited with a lower interest rate.

Forfeited Accounts

At December 31, 2025 and 2024, forfeited nonvested accounts totaled $533,310 and $315, respectively. These accounts will be used to reduce future employer contributions. During 2025, employer contributions were reduced by $1,677, from forfeited nonvested accounts, in accordance with plan provisions.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 3 for discussion of fair value measurements.

The Plan's investments in fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from Plan participants and the Employer contributions are recorded in the year in which the participant contributions are withheld from compensation.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. Delinquent notes receivable are recorded as distributions on the basis of the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the University. Expenses that are paid by the University are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Recent Regulatory Updates

The SECURE 2.0 Act of 2022 includes various provisions that impact defined contribution plans. Plan management adopted mandatory provisions effective for the year ended December 31, 2025 noted below, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan.

Distributions for Qualified Federally Declared Disasters: The Plan permits special disaster-related distributions of up to $22,000 per qualified federally declared disaster. Such distributions are exempt from the 10% early withdrawal penalty and may be included in taxable income over a three-year period. Participants may repay these distributions within three years. The Plan may also allow increased loan limits and extended repayment terms for affected participants.

The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

Subsequent Events

Subsequent events were evaluated through October 2, 2026, the date the financial statements were available to be issued.

Effective January 1, 2026, unless otherwise noted, in accordance with the SECURE 2.0 Act, the following items were implemented:

- The requirement that catch-up contributions made by catch-up eligible participants whose prior-year wages from the University exceed the applicable IRS indexed threshold be designated as Roth contributions.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Money market funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate account: Valued based upon the unit values of such pooled accounts held by the Plan at year-end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from or corroborated by observable market data by correlation or other means, although are not based upon quoted market prices in an active market. The underlying investments of the pooled separate accounts consist of mutual funds, each of which follows a separate investment strategy. Due to the nature of these pooled accounts, there are no unfunded commitments or redemption restrictions.

Self-directed brokerage accounts: Valued at the NAV at shares held by the Plan at year-end, as quoted in the active market.

Guaranteed annuity contracts: Investments in certain guaranteed annuity (fixed annuity) contracts are valued at fair value by the Insurance Company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuers. In determining the reasonableness of the methodology, the plan administrator evaluates a variety of factors including review of existing contract, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration of payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Separate accounts: Valued at NAV of shares, which are valued by the Insurance Company at accumulation unit value based on the estimated value of the underlying investments, held by the Plan at year-end. NAV is a readily determinable fair value and is the basis for current transactions.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

The following table presents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2025 and 2024, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value December 31, 2025	Principal Valuation Technique	Significant Unobservable Inputs	Ranges

Instrument	Fair Value December 31, 2024	Principal Valuation Technique	Significant Unobservable Inputs	Ranges
Guaranteed annuity contracts	$ 16,450,325	Discounted cash flow and theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA - 3.65%-6.50% SRA - 3.00%-5.75% GRA - 3.65%-6.50% GSRA - 3.00%-5.75% RC - 3.90%-6.75% RCP - 3.15%-6.00%

4. Concentrations

As of December 31, 2025 and 2024, the Plan had investments of $16,143,063 and $16,450,325, respectively, which were concentrated in one fund.

5. Fully Benefit-Responsive Investment Contract

The Plan holds a traditional fully benefit-responsive guaranteed investment contract, for which contributions are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the sponsoring trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at the specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 2%. The crediting rate is reviewed on an annual basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. These events may be different under each contract. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; or, (5) premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. These events may be different under each contract. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation; or, (4) a material amendment to the agreement without the consent of the issuer.

6. Information Certified by the Insurance Company and the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, TIAA and CREF is the Insurance Company of the Plan, and Fidelity Management Trust Company serves as Custodian for certain assets of the Plan. The Insurance Company and Custodian of the Plan, have certified to the completeness and accuracy of all investments and notes receivable from participants reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025, and the related investment activity and interest income on notes receivable from participants reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2025. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

7. Related Party and Party-in-Interest Transactions

Certain plan investments are managed by TIAA and CREF (the Insurance Company of the Plan) and an affiliate of Fidelity Management Trust Company (the Custodian). Therefore, these transactions qualify as party in interest transactions.

Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the University. No such officer or employee receives compensation from the Plan.

8. Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

9. Tax Status

The University has adopted a volume submitter plan document offered by TIAA that has received an IRS Opinion Letter dated August 7, 2017, stating that the form of the volume submitter plan document was in compliance with the applicable requirements of the IRC. The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore believes that the Plan is qualified.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, concentration and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
