INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
H.W. Kaufman Financial Group Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of H.W. Kaufman Financial Group Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of H.W. Kaufman Financial Group Retirement Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

As discussed in Note 3 to the financial statements, the comparative statement of net assets available for benefits as of December 31, 2024 includes assets in transit of $153,521,112 that were not held by a qualified institution and, therefore, were not covered by the certification described above. Accordingly, our audit procedures with respect to these assets were not limited by ERISA Section 103(a)(3)(C), and we performed audit procedures on these assets in accordance with auditing standards generally accepted in the United States of America.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of H.W. Kaufman Financial Group Retirement Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about H.W. Kaufman Financial Group Retirement Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of H.W. Kaufman Financial Group Retirement Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about H.W. Kaufman Financial Group Retirement Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year), as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of plan:

The following description of the H.W. Kaufman Financial Group Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General: The Plan is a defined contribution plan covering eligible employees of H.W. Kaufman Financial Group (the Company). All employees who have attained age 21 and have completed one month of service are eligible for salary reduction contributions. Eligible employees share in employer discretionary matching contributions and employer discretionary profit sharing contributions. The entry dates for the employee salary reduction contributions and discretionary matching contributions are the first day of each calendar quarter next following the date that the eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions: Effective in 2025, the Plan operates under a new plan document where eligible employees may make pre-tax, Roth, and voluntary after -tax contributions not to exceed limits imposed by the Internal Revenue Code. The prior plan document did not include after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover).

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4 percent of eligible compensation. In accordance with the Plan provisions, automatically enrolled participants will have their contribution percentage automatically increased by 1% each July 1, until their contribution percentage reaches 10%, unless elected otherwise by the participant.

The Company, at the discretion of the Board of Directors, may make discretionary matching contributions to each participant based on their elective deferrals. In addition, a discretionary profit-sharing contribution and/or a discretionary qualified non-elective contribution may be contributed at the option of the Company's Board of Directors. During the year ended December 31, 2025, the Company made matching contributions equal to 50% of the first 6% of contributions deferred by the participant. The Company did not make any discretionary profit-sharing contributions.

Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions of automatically enrolled participants are invested in the Plan's default investment until changed by the participant. Contributions are subject to certain statutory limitations.

(c) Participant accounts: Each participant's account is credited with the participant's contributions, the Company's discretionary matching contributions (when made), and an allocation of the Company's discretionary profit-sharing contributions (when made), the Company's discretionary qualified non-elective contribution (when made), and Plan earnings. Participant's accounts are charged with an allocation of administrative expenses that are paid by the Plan and Plan losses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. **Description of plan (continued):**

(d) Vesting: Participants are immediately vested in their contributions and any qualified non-elective contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contributions and discretionary profit-sharing portions of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

(e) Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2.00%. Principal and interest is paid ratably through payroll deductions.

(f) Payment of benefits: On termination of service, a participant or the participant's beneficiary may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In-service withdrawals of participant's vested balances may be made by participants who have reached 59 ½ years of age. The Plan also permits withdrawals of an active participant's elective contributions only in amounts necessary to satisfy financial hardships, as defined by the Plan. The Plan also permits withdrawals of an active participant's rollover contribution at any time.

(g) Forfeited accounts: At December 31, 2025 and 2024, forfeited nonvested accounts totaled $251,978 and $185,359, respectively. Available forfeitures are first used to reinstate previously forfeited account balances of former participants (if any) and then used to pay administrative expenses. Any remaining forfeitures are used to reduce the Company's discretionary contributions. For the year ended December 31, 2025, forfeitures were used to reduce employer contributions in the amount of $298,976.

2. **Summary of significant accounting policies:**

(a) Basis of accounting: The accompanying financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

(b) Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment valuation and income recognition: Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the custodian. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of significant accounting policies (continued):

(d) Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. As of December 31, 2025 and 2024, no allowance for credit losses has been recorded. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded to the extent there is a distributable event.

(e) Payment of benefits: Benefits are recorded when paid.

(f) Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Investment related expenses are included in net appreciation of fair value of investments. Administrative expenses include fees for loans, distributions, investment advisory and third-party administration services, which were paid by the Plan. Certain administrative expenses are allocated amongst all participants. Fees related to the administration of notes receivable from participants and distribution costs are charged directly to the participant's account and are included in administrative expenses.

(g) Subsequent events: Subsequent events were evaluated through September 25, 2026, which is the date the financial statements were available to be issued.

3. Assets in transit:

On December 31, 2024, the Plan transferred investment assets with a fair value of $153,521,112 from the predecessor custodian to the successor custodian. The assets were liquidated and removed from the predecessor custodian's records on December 31, 2024, but were not received and recorded by the successor custodian until January 2, 2025. At December 31, 2024, this amount is presented as "Assets in transit" in the 2024 Statement of Net Assets Available for benefits. The assets in transit were not covered by a certified statement from either custodian at December 31, 2024. Management determined the assets in transit were appropriately included in the Plan's net assets at December 31, 2024, based on the Plan's legal right to the assets and the completion of transfer instructions.

4. Related party and party-in-interest transactions:

Certain investments are managed or issued by Fidelity Management Trust Company (the custodian of the Plan), and therefore, these transactions qualified as party-in-interest transactions. Fees incurred by the Plan for investment management and recordkeeping services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than direct payment.

Certain fees paid by the Plan for loans, distributions, investment advisory, accounting and third-party administration services totaled $269,803 for the year ended December 31, 2025. It has been the practice of the Company to pay a portion of administration expenses on behalf of the Plan. Costs such as legal and accounting fees may be paid directly by the Company.

All of the above transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA.

5. Certified investments:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including net appreciation in fair value of investments, dividends, interest and other, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company.

5. Certified investments (continued):

At December 31, 2024, all investments and notes receivable from participants were in transit between custodians and were not covered by a certification from either the predecessor or successor custodian. Accordingly, these amounts were not included in the certified investment information.

6. Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

7. Tax status:

The Plan is based on a Non-Standardized Pre-Approved Profit Sharing Plan with CODA of FMR LLC, which received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the Non-Standardized Pre-Approved Profit Sharing Plan was designed in accordance with the provisions of the Internal Revenue Code (IRC). The Plan has not filed for its own determination letter from the IRS. However, Plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and is exempt from taxation under the Internal Revenue Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by applicable authorities. The Plan is subject to routine audits or examinations by applicable authorities. There are no audits or examinations for any tax periods in progress.

8. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

9. Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

9. **Fair value measurements (continued):**

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

There are no Plan assets requiring the use of Level 2 and 3 inputs for the periods presented.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value.

Money market funds: Shares held in the money market fund are comprised of short-term money market investments and include U.S. government securities and other obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities. The dollar-weighted average maturity of the securities is 60 days or less. The compositions of the securities are structured to maintain a value of $1 per share.

Mutual funds: Shares are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust funds: Valued at the NAV of units of the common collective trust fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

9. Fair value measurements (continued):

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 1,470,512	$ -	$ -	$ 1,470,512
Mutual funds	56,972,988	-	-	56,972,988
Investments measured at net asset value*	-	-	-	110,406,280
Total assets at fair value	$ 58,443,500	$ -	$ -	$ 168,849,780

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

Fair Value of Investments in Entities that Use Net Asset Value per Share Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share practical expedient as of December 31, 2025:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust funds	$110,406,280	N/A	Daily	N/A

10. Guaranteed investment contract:

The Plan entered into a fully benefit-responsive guaranteed investment contract with Standard Insurance Company. Fidelity Management Trust Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdraws and administrative expenses. At December 31, 2025, the contract value of the traditional investment contract was $9,384,102. The guaranteed investment contract issuer is contractually obligated to repay the principle and a specific interest rate that is guaranteed to the Plan.

The guaranteed investment contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contacts because this is the amount received by participants if they were to initiate permitted transactions under terms of the Plan. Contract value, as reported to the Plan by Fidelity Management Trust Company, represents contributions made under the contract, plus earnings, less participant withdraws and administrative expenses. Participants may ordinally direct the withdraw or transfer of all or a portion of their investment at contract value.

The crediting interest rate is based on a formula established by the issuer but may not be less than 1%. Such interest rates are reviewed on quarterly basis.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

10. Guaranteed investment contract (continued):

Certain events may limit the ability of the Plan to transact at contract value with the issuer. These events may be different under each contract. Examples of such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Plan management does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

The guaranteed investment contract may be terminated by either party generally between 30 and 90 days after notice is provided.
