Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Community Resource Credit Union Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Community Resource Credit Union Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See CLAglobal.com/disclaimer.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Community Resource Credit Union Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Resource Credit Union Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Community Resource Credit Union Pension Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Resource Credit Union Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

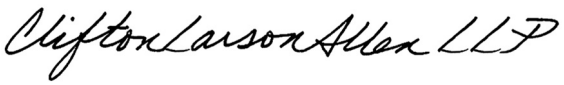

The supplemental schedule of assets (held at end of year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 DESCRIPTION OF PLAN

Description of Plan

The following description of Community Resource Credit Union Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all employees of Community Resource Credit Union (the Credit Union) who have attained age 20½ and have completed six consecutive months or one year of service prior to December 31, 2019. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 31, 2019, the Plan was amended to make employees hired or rehired on or after December 31, 2019 ineligible for the Plan and to change the entry date to the first day of the Plan year following the date on which eligibility requirements are met.

Effective May 1, 2024, the Plan was amended to modify the vesting schedule to provide 100% vesting after three years of service during a top-heavy plan year, and to permit a lump sum distribution of vested accrued benefits prior to termination of employment.

Pension Benefits

Employees who are at least the normal retirement age (65) and have accumulated five or more years of service are entitled to 40% of average monthly compensation for each year of service after December 31, 2001, for all years of service. However, if projected years of service as of the end of the Plan year in which normal retirement age is attained is less than 20, the percentage of average monthly compensation is reduced by 1/20th for each year of service less than 20. The Plan permits early retirement for participants after age 55 and 10 or more years of service. A reduced retirement benefit will result from early retirement. Specifically, the amount of the earned accrued benefit is reduced by 1/3 of 1% for each month the early retirement date precedes the normal retirement date. Participants who continue employment beyond their normal retirement date may choose to commence receiving their payment of monthly benefits as though actual retirement had occurred or postpone receiving benefits until actual retirement. For those who choose to delay benefits, late retirement benefits shall be the greater of continued accruals or the actuarial equivalent of accrued benefits.

Participants become fully vested in the Plan upon attaining normal retirement age or a participant's early retirement date, death, total disability, or upon the completion of five years of vesting service. Normal retirement age is defined as the older of age 65 or the age of the participant on the date five years after the first day of the Plan year in which his Plan entry date occurred. A participant's early retirement date is the first day of the month on which the participant ceases to be an employee and has attained age 55 and completed 10 years of vesting service.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Death and Disability Benefits

If an active employee dies, a death benefit equal to the actuarial equivalent of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled continue to accrue benefits at the same regular rate of compensation and service until normal retirement age. Disability benefits are not paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

Vesting

Vesting in the Plan is based on years of continuous service. Participants are 100% vested at the end of five years. No vesting occurs in years one through four. Effective May 1, 2024, the Plan was amended to modify the vesting schedule to provide 100% vesting after three years of service during a top-heavy plan year.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Earnings on the stable value fund are reported as interest income.

Payment of Benefits

Benefits are recorded when paid and reduced for overpayments reimbursed.

Administrative Expenses

The Plan's expenses are paid by either the Plan or the Credit Union. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

a) retired or terminated employees or their beneficiaries,
b) beneficiaries of employees who have died, and
c) present employees or their beneficiaries.

Benefits under the Plan are accumulated based on the employees' most recent 10 years of compensation, divided by the number of whole months during which the employee accrued at least one hour of service as an eligible employee prior to the normal retirement date. Benefits payable under all circumstances - retirement, death, and termination of employment (provided the employee is age 55 or older with 10 years of vesting service, otherwise benefits are payable at the normal retirement age) - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts are excluded from Plan assets and are also excluded from accumulated Plan benefits. The actuarial present value of accumulated Plan benefits is determined by an enrolled actuary employed by Standard Insurance Company (Standard) and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2024 were:

a. Life expectancy of Participants (the Pri-2012 Total Dataset (Employee/Retiree/Survivor) Amount-Weighted with mortality with SOA MP-2021.
b. Retirement Age Assumptions (Normal retirement age of 65 years; other active participants will elect early retirement from ages 55 to 64).
c. Investment Return of 6.00%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The computation of the actuarial present value of accumulated Plan benefits was made as of January 1, 2025. Had the valuation been performed as of December 31, 2024, there would be no material differences.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The following is a summary of actuarial present value of accumulated Plan benefits as of December 31, 2024:

Actuarial Present Value of Accumulated Plan Benefits:	
Vested Benefits:	
Participants Currently Receiving Benefits	$ 2,862,554
Participants Entitled to Deferred Benefits	2,509,883
Other Participants	5,620,915
Total Vested Benefits	10,993,352
Nonvested Benefits	-
Total Actuarial Present Value of Accumulated Benefits	$ 10,993,352

The changes in the actuarial present value of accumulated Plan benefits are summarized as follows for the year ended December 31, 2024:

Actuarial Present Value of Accumulated Plan Benefits - Beginning of Year	$ 11,480,764
Increase During the Year Attributed to:	
Benefits Accumulated	791,073
Benefits Paid	(1,930,069)
Assumption Changes	19,797
Increase for Interest Due to the Decrease in the Discount Period	631,787
Net Change	(487,412)
Actuarial Present Value of Accumulated Plan Benefits - End of Year	$ 10,993,352

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

Standard Insurance Company, the qualified institution of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of investments as of December 31, 2025 and 2024, and investment income for the years then ended, in the accompanying financial statements and ERISA-required supplemental schedule.

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2025 and 2024.

Separate Account: Net asset value (NAV) is determined by Standard Insurance Company's (Standard's) fund company trading partners as of the close of business each day. The separate account is valued at fair value using NAV per share without further adjustment. NAV is based upon the fair value of the underlying investments.

Stable Value Account: Valued at contract value, which represents contributions made, less withdrawals and administrative expenses, plus interest credited. Contract value approximates fair value.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total
Stable Value Account	$ -	$ -	$ 10,974,950	$ 10,974,950
Total Investments in the Fair Value Hierarchy	$ -	$ -	$ 10,974,950	10,974,950
Investments Measured at Net Asset Value				26,776,638
Total Investments at Fair Value				$ 37,751,588

	2024			
	Level 1	Level 2	Level 3	Total
Stable Value Account	$ -	$ -	$ 10,775,901	$ 10,775,901
Total Investments in the Fair Value Hierarchy	$ -	$ -	$ 10,775,901	10,775,901
Investments Measured at Net Asset Value				24,946,623
Total Investments at Fair Value				$ 35,722,524

There were no issuances, purchases, sales, transfers in, or transfers out of investments included in the Plan's Level 3 assets for the year ended December 31, 2025. Purchases of investments included in the Plan's Level 3 assets for the year ended December 31, 2024 were $1,949,793.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

	Fair Value		Principal Valuation	Significant	
Instrument	2025	2024	Technique	Unobservable Inputs	Range
Stable Asset Value Fund	$ 10,974,950	$ 10,775,901	Contract Value, which Approximates Fair Value	Composite Crediting Rate	3.03 %

The following table summarizes investments for which fair value is measured using the net asset per share practical expedient as of December 31:

	Fair Value		Unfunded	Redemption	Redemption
Investment Type	2025	2024	Commitments	Frequency	Period
Separate Account A	$ 26,776,638	$ 24,946,623	$ -	Daily	Daily

NOTE 6 GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY

The Plan has a group annuity contract with Standard Insurance Company. The insurance company maintains a portion of the contributions in a "guaranteed account," the Stable Asset Value Fund. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Standard Insurance Company. The contract specifies a guaranteed interest rate of no less than 3%. For the years ended December 31, 2025 and 2024, the composite crediting rate was 3.03%. Upon termination of the investment contract, the lump sum liquidation value of the general account portion of the Plan's accumulation value shall be equal to the product of (a) the Plan's general account accumulation value on the liquidation date, reduced by the liquidation charge applicable on the liquidation date and (b) a market value adjustment percentage.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intention to do so, the Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.

3. All other vested benefits (that is, vested benefits not insured by the PBGC).

4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 8 PLAN TAX STATUS

The Plan has adopted a pre-approved plan document that has received an opinion letter from the Internal Revenue Service (IRS) stating that the form of the pre-approved plan document was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since adopting the pre-approved plan document, the plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore, believes that the plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

The Plan investments are managed by the qualified institution of the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan investment activity to various service providers. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

NOTE 11 SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 2, 2026, the date the financial statements were available to be issued.

Appendix B – Summary of Actuarial Assumptions and Methods

For attachment to 2025 Schedule SB, Part V – Actuarial Assumptions and Methods
EIN 74-1109927 / PN 001

Funding method:	Liabilities presented in this report are computed in accordance with the Unit Credit Cost Method. The target normal cost is the present value of all benefits that are expected to accrue during the upcoming plan year. The benefits expected to be accrued include any increase in benefits during the plan year that is a result of any actual or projected increase in compensation even if that increase in benefits is with respect to benefits attributable to service performed in a preceding plan year. The funding target as of the valuation date is the present value of all benefits that have been accrued or earned under the plan as of the valuation date. The benefits considered in determining the funding target and target normal cost are all benefits earned or accrued under the plan, including retirement-type and ancillary benefits. The determination of the funding target and target normal cost is based on plan provisions that are adopted no later than the valuation date for the plan year and that become effective during the plan year.
Actuarial value of assets:	Market value.
Changes since prior year:	None.

Appendix B – Summary of Actuarial Assumptions and Methods (cont.)

The actuarial assumptions summarized below are either prescribed by law, or when not prescribed by law selected by the plan's actuary as the best predictor of future experience, based on all available prior experience and future expectations. For any assumption not prescribed by law or selected by the plan's actuary, the individual organization selecting such assumption is identified separately, and the report will note if the actuary has any disagreement with the appropriateness of the assumption.

Retirement: Normal Retirement Age.

Turnover: T-10 Less GA51M.

Sample rates:

Age	Rate
25	17.22%
40	13.10%
55	4.40%

The plan does not have enough credible data to develop a plan-specific turnover table. However, when compared to actual experience from 2017 through 2021, the publicly T-10 study table most closely matches recent turnover history.

Disability Incidence: None.

Salary Scale: APHB S-2 minus 50 basis points.

Sample Rates:

Age	Rate
25	5.76%
40	4.27%
55	3.41%
65+	0.00%

This assumption is based on the plan sponsor's future expectations.

Assumed Form of Payment: 50% of participants are assumed to elect the normal form under the plan and 50% of participants are assumed to elect a lump sum payment.

Expenses: $85,000 paid from plan assets.

Marriage: 90% of males and 80% of females are assumed to be married with husbands three years older than wives.

Mortality Table – Lump Sum:	IRS 2025 Small Plan Combined Static Mortality.
Lump Sum Valuation Method:	IRS 2025 Applicable Mortality for 417(e).

Appendix A – Summary of Principal Plan Provisions

For attachment to 2025 Schedule SB, Part V – Summary of Plan Provisions
EIN 74-1109927 / PN 001

Original Effective Date:	November 1, 1967.
Last Restatement:	January 1, 2025.
Subsequent Amendments:	None
Eligible Employee:	An eligible employee means any employee EXCEPT the following: ▪ Leased employees. ▪ Employees covered by a collective bargaining agreement. ▪ Security officers. ▪ Employees providing service pursuant to a written agreement that states the employee is not eligible to participate. ▪ Employees hired or rehired after December 31, 2019.
Participation:	Employees are eligible to enter the plan following the completion of six months of service and attaining age 20 ½. Entry is each plan anniversary following.
Vesting Service:	The sum of the plan years during which a participant has at least 1,000 hours of service.
Benefit Service:	The sum of the plan years during which the participant has at least 1,000 hours of service. Partial years of service are given in years of hire and termination.
Normal Retirement Date:	First of the calendar month coincident with or next following attainment of age 65.

Appendix A – Summary of Principal Plan Provisions (cont.)

Early Retirement Date:	Any participant who has attained age 55 and completed 10 years of vesting service may elect early retirement on the first day of any calendar month following the termination of service. In this case, the amount of the earned accrued benefit is reduced 4% per year, or fraction of a year, for each year preceding his normal retirement date.
Late Retirement Date:	Retirement may be postponed beyond the normal retirement date. Late retirement benefits will be the greater of (a) accrued benefit at the late retirement date, or (b) actuarial equivalent of the normal retirement benefit.
Regular Benefit Amount:	The normal retirement benefit is equal to 40% of a participant's average monthly compensation reduced for each year of benefit service less than 20 years multiplied by the actual years of benefit service earned to date divided by the potential years the participant would have accrued as of the participant's normal retirement date (or actual date of retirement if later). Average monthly compensation shall mean the participant's most recent 10 consecutive plan year average preceding termination shall be used.
Disability Amount:	A participant who becomes disabled will be treated during his disability as though he were still employed at the same regular rate of compensation and same regular number of hours of service credited prior to his disability until the earlier of (a) normal retirement age, or (b) he ceases to be totally and permanently disabled.
Pre-Retirement Death Benefit Amount:	If the participant is not vested, no death benefits are payable. If the participant is vested, then the death benefit payable to the spouse is 50% of the amount that would have been payable to the participant under the 50% Joint and Survivor option of he had retired on the day before his death. If the participant is eligible for early retirement, the death benefit payable to the beneficiary is 50% of the amount the participant was eligible to receive upon death with no reduction for early retirement.

Appendix A – Summary of Principal Plan Provisions (cont.)

Termination Benefit Amount:

A terminating participant who has completed five years of service is entitled to receive a vested monthly benefit starting on his normal retirement date. The amount of the benefit is equal to the retirement income earned on the basis of service to date, multiplied by the appropriate vested percentage from the following table:

Years of Vesting Service	Vested Percentage
Fewer than 5	0%
5 or more	100%

Service prior to age 18 is excluded. Active participants are 100% vested upon death or attainment of normal retirement age.

Normal Form of Benefit:

A participant who is not married at the annuity starting date shall receive such benefit in the form of a single life annuity.

A participant who is married at the annuity starting date shall receive a benefit in the form of a subsidized 50% Qualified Joint and Survivor Annuity wherein the spouse shall receive a monthly benefit for his or her remaining lifetime equal to one-half of the amount payable during the participant's lifetime.

Optional Forms of Payment:

Benefits which are actuarially equivalent to the normal form may be paid in alternative forms, if approved by the participant and spouse:

- Life annuity.
- Life annuity with monthly payments guaranteed.
- Joint and Survivor annuity forms.
- Single lump sum payment.

Changes Since Prior Year:

Lump sum option open to all current and former participants effective 05/01/2024
