INDEPENDENT AUDITORS' REPORT

To the Retirement Committee of the
Contran Corporation Pension Plan

Opinion

We have audited the accompanying financial statements of the Contran Corporation Pension Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2025, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2025, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year), Schedule of Assets (Acquired and Disposed of Within Year) and Schedule of Reportable Transactions, together referred to as "supplemental information" are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

INDEPENDENT AUDITORS' REPORT

To the Retirement Committee of the
Contran Corporation Pension Plan

Opinion

We have audited the accompanying financial statements of the Contran Corporation Pension Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2025, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2025, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year), Schedule of Assets (Acquired and Disposed of Within Year) and Schedule of Reportable Transactions, together referred to as "supplemental information" are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

CONTRAN CORPORATION PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2025

Note 1 - Description of Plan:

General. The following description of the Contran Corporation Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a non-contributory defined benefit pension plan which covers eligible current and former employees of Contran Corporation, Valhi, Inc. and Medite Corporation, and certain former employees of Keystone Consolidated Industries, Inc. ("Keystone") (collectively, the "Employer"). Effective January 1, 2020, the Plan was amended such that, among other things, it was frozen to future eligibility, service crediting, crediting of earnings and benefit accrual. Employees who were a participant in the Plan immediately prior to the freeze date will continue as a participant in the Plan and the freezing of the Plan did not reduce or eliminate any benefits that are accrued, in pay status, vested and deferred under the Plan as of the freeze date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

At December 31, 2025, a wholly-owned subsidiary of Contran held approximately 91% of Valhi's outstanding common stock. Medite is a wholly-owned subsidiary of Valhi. Prior to December 31, 2018, Keystone was a wholly-owned subsidiary of Contran. Effective December 31, 2018, Contran sold all of its interest in Keystone. At December 31, 2025, a majority of Contran's outstanding voting stock is held directly by Lisa K. Simmons and by family stockholders (Thomas C. Connelly (the husband of Ms. Simmons' late sister), a family-owned entity and various family trusts established for the benefit of Ms. Simmons, Mr. Connelly and their children) who are required to vote their shares of Contran voting stock in the same manner as Ms. Simmons. Such voting rights are personal to Ms. Simmons and last through April 22, 2030. The remainder of Contran's outstanding voting stock is held by another trust (the "Family Trust"), which was established for the benefit of Ms. Simmons and her late sister and their children and for which a third-party financial institution serves as trustee. Consequently, at December 31, 2025, Ms. Simmons and the Family Trust may be deemed to control the Employer and the Plan.

Contributions. Employer contributions are determined and paid annually in amounts sufficient to meet the minimum funding requirements of ERISA and to not exceed the maximum amounts currently deductible for federal income tax purposes. In 2024 and 2025, the minimum required contribution determined by the actuary was $0.

Pension benefits. Upon retirement or death, the participant or beneficiary may elect to receive one of a number of different payment methods as outlined in the Plan document.

Plan termination. The Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, in compliance with the provisions of ERISA. In the event the Plan is terminated, the accrued benefits of each participant would become fully vested to the extent funded. The net assets of the Plan, after providing for liquidation expenses, are to be allocated in accordance with Section 4044 of ERISA. To the extent unfunded vested benefits exist, ERISA provides that such benefits are payable to participants by the Pension Benefit Guaranty Corporation, subject to certain limitations.

Expenses of administering the Plan. To the extent not paid by the Plan, administrative expenses are paid by the Employer at its sole discretion. The Plan paid a significant portion of administrative expenses in 2024 and 2025.

Tax status. The Plan, as amended and restated, has been notified by the Internal Revenue Service in a letter dated November 14, 2017, that it is a qualified plan under Section 401(a) of the Internal Revenue Code of 1986 (the "Code"), as amended, and is therefore exempt from federal income taxes under provisions of Section 501(a) of the Code. Although the Plan has been amended since receiving this determination letter, the Plan administrator believes the Plan is currently in compliance with applicable requirements of the Code.

The Plan's Annual Returns/Reports of Employee Benefit Plan prior to 2022 are closed to examination by the applicable tax authorities. The Plan had no significant uncertain tax positions for the years ended December 31, 2024 and 2025.

Note 2 - Summary of significant accounting policies:

Basis of accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Cash and cash equivalents. Cash equivalents consist principally of money market instruments with original maturities of three months or less.

Payment of benefits. Benefits are recorded when paid.

Management estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may, in some instances, differ from previously estimated amounts.

Investment valuation and income recognition. The Plan's investments are stated at fair value. See Note 3 for a discussion of fair value measurements. The net appreciation (depreciation) for the year includes the Plan's gains and losses on investments bought and sold as well as held throughout the year and is reflected in the Plan's statements of changes in net assets available for benefits. Dividend income is accrued on the ex-dividend date and interest income is accrued as earned.

Subsequent events. The Plan has evaluated subsequent events through September 28, 2026, the date these financial statements were available to be issued.

Note 3 - Fair Value Measurements:

The assets of the Plan are held and the related investment transactions are executed by U.S. Bank National Association ("US Bank"), as custodian.

The Plan carries its investments at fair value in accordance with Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurements and Disclosures, which establishes a consistent framework for measuring fair value and is applied to all financial statement items required to be measured at fair value. The standard requires fair value measurements to be classified and disclosed in one of the following three categories:

- *Level 1* – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- *Level 2* – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the assets or liability; and
- *Level 3* – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable.

The asset fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 or 2025.

Commingled funds: Investments are generally valued at the Net Asset Value ("NAV"). The NAV, as provided by the investment manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV. All of the Plan's commingled funds were valued at the NAV at December 31, 2024 and 2025.

Limited partnerships: Investments are generally valued at the NAV. The NAV, as provided by the investment manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable

that the Plan will sell the investment for an amount different than the reported NAV. All of the Plan's limited partnerships eligible to be valued at the NAV were valued at the NAV at December 31, 2024 and 2025. Other investments in this class, not eligible to be valued at the NAV, trade infrequently or not at all and are valued based on financial information obtained from the issuer, current and projected financial condition and results of operations of the issuer and other unobservable inputs. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for these investments existed.

Corporate bonds: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities. This includes basing value on yields currently available on same or comparable securities of issuers with similar credit ratings.

U.S. government securities: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities.

Municipal bonds: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities. This includes basing value on yields currently available on same or comparable securities of issuers with similar credit ratings.

Cash and cash equivalents: Investments are valued at the daily closing price as reported by the money market fund. The money market fund held by the Plan is an open-end mutual fund that is registered with the U.S. Securities and Exchange Commission. This fund is required to publish its daily NAV and to transact at that price. The money market fund held by the Plan is deemed to be actively traded.

The following table sets forth by level within the fair value hierarchy of ASC Topic 820, *Fair Value Measurements and Disclosures*, the Plan's investments at fair value as of December 31, 2024 and 2025.

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the total investments presented in the statement of net assets.

The following table summarizes the Plan's investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2024 and 2025.

Commingled funds – Fixed income funds: This class includes fixed income funds with the investment objective to provide investment returns that approximate as closely as practicable the performance of benchmark indices, including the Barclays Capital U.S. Long Treasury Bond Index, the Bloomberg U.S. Intermediate Credit Index, the Bloomberg U.S. Government Bond Index and the Bloomberg 20+ Year Strips Index, over the long term. These funds invest in various types of U.S. Treasuries and corporate bonds based on the investment strategy of each fixed income fund.

Commingled funds – Equity funds: This class includes equity index funds with the investment objectives to provide returns that replicate or exceed performance of specified financial market indices including the S&P 500 Index, MSCI World Index, MSCI EAFE Index, FTSE RAFI U.S. 1000 Index and the Russell 2000 Index. These funds invest in various types of U.S. and non-U.S. equity securities based on the investment strategy of each equity fund.

Limited partnerships: This class includes investments in private equity funds that have different areas of focus with the goal of capital appreciation. The agreements covering certain of the Plan's limited partnership interests contain provisions that obligated the Plan to invest additional amounts when and as determined by the general partner. The Plan's limited partnerships had no remaining commitments at December 31, 2025. One fund, valued at $2.9 million, may be partially redeemed with at least 60 days' notice and the remaining investments in the fund may only be redeemed as the underlying investments are liquidated. The remaining private equity funds in this class may be redeemed only with the approval of the general partner of the partnership. If the Plan remains invested, distributions will be made from investments as the underlying investments of the partnerships are liquidated. It is estimated that the underlying assets of the funds would be liquidated over the next 1 to 7 years.

Note 4 - Actuarial present value of accumulated benefits:

Accumulated plan benefits are those estimated future payments that are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (i) retired and terminated vested participants or their spouses, (ii) spouses of deceased participants, and (iii) active participants or their spouses. Benefits payable under all circumstances (retirement, death and termination of employment) are included to the extent they are deemed attributable to employee services rendered to the valuation date.

The actuarial present value of accumulated benefits is determined by independent actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for post-retirement mortality) between the valuation date and the expected date of payment. Actuarial valuations are determined at January 1 of each Plan year. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the actuarial present value calculation.

The significant actuarial assumptions used in the valuations as of December 31, 2024 and 2025 were (i) life expectancy of participants – Pri-2012 tables, projected generationally using Adjusted Scale MP-2021 for both 2024 and 2025; (ii) retirement age assumption – for Medite participants, age 62 if eligible for unreduced benefits, otherwise age 65 and for Contran participants, age 65 if hired prior to January 1, 2002 or, if earlier, the later of age 59 ½ and the first date that age plus years of vesting service are equal to or greater than 90 years and age 65 if hired after January 1, 2002; and (iii) interest rate – 6.00% and 5.50%, respectively.

The actuarial present value of accumulated benefits and the changes in the actuarial present value of accumulated benefits are summarized below.

Schedule SB, Part V – Summary of Actuarial Assumptions/Methods

Plan Name: Contran Corporation Pension Plan EIN: 74-1646336
Plan Sponsor: Contran Corporation PN: 003

Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded and accounted for. Annual contributions and accounting expense are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

The Plan's Normal Cost is the sum of the present value of the portion of each active participant's projected benefit attributable to the current year of service. The Plan's accrued liability is the sum of (a) the present value of the portion of each active participant's projected benefit attributable to all prior years of service plus (b) the present value of each inactive participant's benefits.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is equal to the Market Value of Assets. The Market Value of Assets is equal to the Fair Value of Assets as of the valuation date plus the discounted value of employer contributions made after the valuation date. These contributions are discounted to the valuation date using the Effective Interest Rate for the prior plan year.

The Market-Related Value of Assets used for determining the Plan Sponsor's FASB ASC Topic 715 accounting requirements is equal to the Fair Value of Assets (without inclusion of any receivable contributions).

Amortization Method

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen- year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430. All prior shortfall amortizations were eliminated effective with the 2022 valuation as the Plan Sponsor elected to apply the provisions of Section 9705 of the American Rescue Plan Act of 2021 for the 2022 plan year.

Changes in Actuarial Methods Since Prior Valuation

ECONOMIC ASSUMPTIONS

Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0–5 years)	5.00%	5.00%	4.65%
Segment 2 (5–20 years)	5.27%	5.27%	5.28%
Segment 3 (20+ years)	5.50%	5.40%	5.63%
Effective Interest Rate	5.33%	5.29%	5.34%

ERISA minimum funding: 24-month average segment rates, using no lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Maximum Deductible Contribution: 24-month average segment rates, using no lookback period, but not adjusted to reflect segment rate stabilization.

PBGC premium: Spot segment rates for the month preceding the valuation date but not adjusted to reflect segment rate stabilization. The standard method (adopted January 1, 2023) is used for the PBGC variable-rate premium calculation.

FASB ASC Topic 960: 6.00% per year (adopted January 1, 2025). This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses and including assumed inflation rate of 2.30%. It is based on the Plan's investment policy, including target asset allocation, and Milliman's capital market expectations.

Compensation Increases

Not applicable.

Inflation (CPI)

2.30% per year. It is based on Milliman's capital market expectations.

Social Security Taxable Wage Base Increases

None assumed.

Maximum Benefit and Annual Compensation Limitation Increases

ERISA minimum funding and Maximum Deductible Contribution: 0% per year as required by statute.

FASB ASC Topic 960: The assumed inflation assumption of 2.30% per year.

Administrative Expenses

An administrative expense load is estimated based on the prior year's actual expenses with an adjustment for future experience and is added to the Target Normal Cost.

DEMOGRAPHIC ASSUMPTIONS

Except where noted, demographic assumptions are based on the actuary's judgment and continued review of experience.

Mortality

ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium: IRS applicable mortality for 2025.

FASB ASC Topic 960: For former participants of the Keystone Employees' Retirement Plan for Inactive Participants: Pri-2012 Blue Collar Mortality Tables for Employees, Retirees, and Contingent Survivors, projected generationally with adjusted Improvement Scale MP-2021. For all others: Pri-2012 Total Dataset Mortality Tables for Employees, Retirees, and Contingent Survivors, projected generationally with adjusted Improvement Scale MP-2021.

Retirement

Medite: Participants are assumed to retire at age 62 if eligible for unreduced benefit, otherwise age 65.

Valhi: Participants hired prior to January 1, 2002 are assumed to retire at age 65 or, if earlier, the later of age 59½ and the first date that age plus years of vesting service are equal to or greater than 90 years. Participants hired on or after January 1, 2002 are assumed to retire at age 65.

Termination

None assumed.

Disability

None assumed.

Decrement Timing

Decrements are assumed to occur at the middle of the year, except that 100% retirement (see above) is assumed to occur at the beginning of the year.

Form of Payment

Joint and 100% Survivor annuity.

Marital Characteristics

For participants not in pay status: 100% of participants are assumed to be married to a spouse of the opposite sex. Males are assumed to be three years older than females.

For participants in pay status: Actual birth dates of beneficiaries are included in the census data, where relevant.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V – Summary of Plan Provisions

Plan Name: Contran Corporation Pension Plan EIN: 74-1646336
Plan Sponsor: Contran Corporation PN: 003

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

Definitions

Accrued Benefit: Determined using the same formula which is used to compute such Participant's Normal Retirement Benefit, taking into account the Participant's Benefit Years and Average Compensation through the date of determination.

Actuarially Equivalent: Equality in value such that the present value of the amount under any form of payment is essentially the same as the present value of the amount under the normal form of annuity payment for single participants.

In general, for purposes other than determining lump sum amounts, actuarially equivalent factors are based on the 1994 GAR GATT Unisex Table and an interest rate of 7.5%. For former Medite Plan participants, the interest rate used is 6.5%.

For purposes of determining lump sum distribution amounts, actuarially equivalent factors are based on the applicable mortality table specified in IRS Notice 2013-49 for the plan year of distribution and the statutory three-tier segment interest rates in effect for the November preceding the plan year of distribution.

Average Monthly Compensation: Determined by dividing the total Compensation he received during all years of employment by the number of months during such period for which he received Compensation.

A Participant's excess monthly Average Compensation is that portion, if any, of his monthly Average Compensation which is in excess of his monthly Average Wage Base.

Average Wage Base: One-twelfth of an amount equal to the maximum amount of earnings considered as wages for that plan year under Section 3121(a)(1) of the Code (or under any comparable section or sections of legislation that amends, supplements or supersedes Section 3121(a)(1)) as in effect as of the first day of that year.

Compensation: FICA wages without regard to the Social Security taxable wage base, including bonuses, overtime, commissions, or deferred compensation, but excluding:

- Non-cash compensation and any amounts contributed by the employer for the participant's benefit to, or paid to the participant under, this plan or any other retirement or benefit plan maintained by the employees; provided that any amounts which are treated as salary reduction contributions and used to purchase non-taxable benefits under Section 125 or 401(k) of the Internal Revenue Code shall be included in his earnings.
- Reimbursements for medical, dental or travel expenses, automobile allowances, relocation allowances, educational assistance allowances or other special allowances and awards.
- Income realized for federal income tax purposes as a result of (i) group life insurance, (ii) personal use of an employer owned automobile, (iii) grant or exercise of option(s) to acquire shares of stock of any Valhi Company (whether or not related to or in lieu of the exercise of such option(s)) or the disposition of shares acquired on exercise of such an option, or (iv) transfer of restricted shares of stock or restricted property of a Valhi Company, or the removal of any such restrictions.
- Compensation paid or payable to the participant, or to any governmental body or agency on account of the participant, under the terms of any state, federal or foreign law requiring the payment of such compensation because of the participant's voluntary or involuntary termination or employment with any Valhi Company.

Plan Name: Contran Corporation Pension Plan EIN: 74-1646336
Plan Sponsor: Contran Corporation PN: 003

In accordance with Internal Revenue Code Section 401(a)(17), annual Compensation in excess of $285,000 (or such other maximum amount as may be permitted pursuant to Section 401(a)(17) of Code or from time to time by the secretary of the Treasury or his delegate or by law) is disregarded.

Eligible Employee Classification: A classification of Employees, the members of which are eligible to participate in the Plan. The Plan covers all employee classifications except:

- employees who are members of a collective bargaining unit,
- resident aliens in the U.S. on a temporary basis (unless specifically included by the plan administrator),
- nonresident aliens,
- leased employees,
- independent consultants or contract employees,
- independent contractors, and
- any person classified by an employer in its sole discretion as a leased employee, independent consultant, contract employee of independent contractor regardless of whether such person is subsequently determined by a government agency or court to be other than as classified by the employer.

Plan Effective Date: The Effective Date of the Plan as amended and restated is January 1, 1998. As of January 1, 1994, the Medford Corporation Employees' Pension Plan (for salaried employees) was merged in to the Medford Corporation Retirement Plan For Hourly Paid Employees. As of January 1, 2001, the Valhi, Inc. Pension Plan was merged in to the Medite Corporation Retirement Plan. The Plan was then renamed Contran Corporation Pension Plan.

Plan Year: The 12-month period beginning January 1 and ending December 31.

Year of Service:

For Eligibility Purposes: A Year of Eligibility Service, for purposes of eligibility to participate in the Plan, is credited for each Computation Period during which an Employee is credited with at least 1000 Hours of Service. The Computation Period is the 12 consecutive month period beginning with the Employee's Employment Commencement Date and anniversaries thereof. All of an Employee's Years of Eligibility Service are taken into account in determining his eligibility to participate.

For Benefit Purposes: Determined using the Elapsed Time Method. All of a Participant's Years of Accrual Service are taken into account in determining his monthly benefit except:

- Fractional months,
- Service prior to July 1, 1982, and
- Service in excess of 30 years. The 30 year service provision was modified as of December 13, 2010, such that the benefit only takes into account the 30 years of benefit service which produces the highest benefit.

For Vesting Purposes: Determined using the Hours of Service Method. A Year of Vesting Service, for purposes of computing a Participant's Vested Percentage, is credited for each Plan Year in which an

Employee is credited with at least 1,000 Hours of Service. All of a Participant's Years of Vesting Service are taken into account in determining his Vested Percentage.

Eligibility for Participation

The January 1st or July 1st which coincides with or next follows the attainment of age 21 and the date on which the employee completes one year of eligibility service.

Effective December 31, 2019, the Plan closed to new entrants.

Normal Retirement

Normal Retirement Date: The first day of the month coincident with or next following the attainment of age 65 or the fifth anniversary of the date he became a plan participant, if later. For a participant who was employed prior to January 1, 2002, if he has attained age 59½, shall be considered as having attained his Normal Retirement Date on the first date that such Participant's age and years of vesting service total 90 years or more.

Normal Retirement Benefit: An annual pension benefit commencing on his Normal Retirement Date payable in the Normal Benefit Form in an amount equal to:

- 1.20% of Average Compensation, plus
- 0.55% of Average Compensation in excess of Average Wage Base

for each year of Benefit Service. If a participant has more than thirty years of benefit service, the participant's monthly retirement income shall be determined by taking into account only the thirty consecutive years of service which produce the highest monthly retirement income.

Effective December 31, 2019, the Plan froze all benefit accruals.

In-Service Benefit: Participants who remain active past their Normal Retirement Date may begin receipt of their Normal Retirement Benefit. The amount will be trued-up and updated annually while the participant is employed.

Early Retirement

Early Retirement Date: The first day of the month coincident with or next following the date upon which the Participant satisfies the following requirements:

- **Medite:** attainment of age 55 and completion of 5 Years of Service.
- **Valhi:** attainment of age 60 and completion of 10 Years of Service.

Early Retirement Benefit: Equal to:

- **Medite:** a pension benefit determined as of his Early Retirement based on Benefit Years and compensation up to Early Retirement Date. The benefit is unreduced after age 62 and is reduced by 5% per year prior to age 62 with interpolation between whole years. For hourly participants terminated prior to 1976 and salaried participants terminated prior to 1989 the reduction applies from age 65.
- **Valhi:** the Actuarial Equivalent of the Participant's Accrued Benefit determined as of his Early Retirement Date.

Plan Name: Contran Corporation Pension Plan EIN: 74-1646336
Plan Sponsor: Contran Corporation PN: 003

Deferred Retirement

Deferred Retirement Date: The first day of the month coincident with or next following the date of termination of service if it occurs after the Normal Retirement Date.
Deferred Retirement Benefit: The Accrued Benefit determined as of the Deferred Retirement Date.

Termination

Termination Date: The date of termination of service other than for reasons of retirement or death.

Termination Benefit: The Accrued Benefit, multiplied by the vested percentage in the following table, payable at the Normal Retirement Date, or payable as of the first day of any month coincident with or next following attainment of Early Retirement Age (reduced for commencement prior to Normal Retirement Date, as described above).

Years of Vesting Service	Vested Percentage
Less than 5	0%
5 or more	100%

Effective December 31, 2019, all accrued benefit amounts under the Plan are vested.

Preretirement Death

Preretirement Death Benefit Eligibility: Surviving spouses of participants with a vested Accrued Benefit who die before commencement of payments.

Preretirement Death Benefit: The greater of:

- the monthly amount payable to the surviving spouse under a Joint & Survivor Pension assuming the participant had terminated employment as of his date of death and his annuity commencement date was to occur on the first day of the calendar month coincident with or next following the later to occur of the date of his death or the date so elected by his surviving spouse, and
- the monthly actuarial equivalent of 100 times the monthly benefit determined by the Normal Retirement Benefit formula based on service and Average Compensation assuming the participant had survived to Normal Retirement Date and the participant's monthly Average Compensation remained level from the date of death to the Normal Retirement Date.

Forms of Payment

Normal Forms: Lifetime Pension with 5 Years Certain for Medite; Joint & Survivor Pension for Valhi.

Optional Forms for Medite: actuarially equivalent life annuity; actuarially equivalent Joint & Survivor Pension with 5 Years Certain; lump sum distribution (the Actuarial Equivalent of a Participant's benefit accrued as of December 31, 1989 under the Prior Salaried Plan and the balance of the benefit in another optional form).

Optional Forms for Valhi: None.

Changes in Principal Plan Provisions Since Prior Valuation

None.
