INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Committee
The Campbell Clinic, P.C. Cash Balance Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of The Campbell Clinic, P.C. Cash Balance Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than information that is agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agrees to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 - DESCRIPTION OF PLAN

The following description of The Campbell Clinic, P.C. Cash Balance Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document and the summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

GENERAL

The Plan is a single-employer non-contributory defined benefit pension plan covering certain full-time employees of Campbell Clinic, P.C., (the "Clinic") who are age twenty-one (21) or older with at least one year and a minimum of 1,000 hours of service, as defined in the plan document. Employees automatically become participants on the first day of the calendar year following their attainment of all eligibility requirements. Effective July 24, 2022, the Plan was amended to include employees who are Affiliate Physicians of the Clinic who have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is administered by the Retirement Plan Committee (the "Committee"), which has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

PARTICIPANT ACCOUNTS AND BENEFITS

A hypothetical cash balance account is maintained for each participant. On January 1, 2015, the Plan was amended to limit participation and freeze benefits in the Plan for all employees, with the exception of shareholder physicians, non-shareholder physicians, nurse practitioners, physician assistants, Chief Executive Officer (CEO) and administrative staff. All participants continue to receive interest at five percent (5%) on the last day of the plan year.

Effective January 1, 2015, annual pay based credits are as follows:

Group A – administrative employee, nurse practitioner, physician assistant, or CEO - The contribution percentage is one percent (1%) of the individual participant's compensation, but not less than a meaningful benefit under section 401(a)(26).

Group B - Non-shareholder physicians - The contribution is six percent (6%) of the individual participant's compensation.

Group C - Shareholder physicians - The contribution is $33,000.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

VESTING

Participants become twenty percent (20%) vested in their accrued benefits after completing two (2) years of credited service and one-hundred percent (100%) vested in their accrued benefits after completing three (3) years of credited service.

PENSION, DEATH AND DISABILITY BENEFITS

An active participant is eligible for normal retirement benefits if he or she becomes fully disabled, upon death, or upon his or her normal retirement date (age 65). Distributions are paid in the form of a lump-sum payment or monthly annuity payments as defined in the plan document. The amount of a participant's monthly benefit is computed based upon the balance of the participant's account on his or her date of retirement or termination as defined in the plan document. If an active participant dies, the participant's surviving spouse or designated beneficiary is entitled to a death benefit as defined in the plan document. Active participants who become fully disabled receive annual benefits as defined in the plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared using the accrual method of accounting.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the trustee. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PAYMENT OF BENEFITS

Benefits are recorded when paid.

ADMINISTRATIVE EXPENSES

The Plan's expenses are paid either by the Plan or the Clinic, as provided by the plan document. Expenses that are paid by the Clinic are excluded from these financial statements. Certain investment related expenses are included in the net appreciation in fair value of investments.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future monthly payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. Benefits under the Plan are based upon the participants' estimated date of retirement or termination, eligible compensation, credited service, and credited interest, as defined in the plan document. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered up to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent enrolled actuary, and is that amount that results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2025.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits at January 1, 2025 is as follows:

Vested Benefits		
Participants receiving benefits	$	1,323,796
Participants with deferred benefits		4,393,401
Active participants		26,574,933
Non-vested benefits		564,027
Total actuarial present value of accumulated plan benefits	$	32,856,157
Interest rate used		5.00%

Changes in the present value of accumulated plan benefits:

Actuarial present value of accumulated plan benefits as of January 1, 2024	$	31,056,774
Benefits paid		(1,823,361)
Interest		1,507,811
Benefits accumulated and actuarial (gain)/loss		1,983,955
Assumption changes		130,978
Actuarial present value of accumulated plan benefits as of January 1, 2025	$	32,856,157

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The more significant methods and assumptions used by the actuaries in their valuation are as follows:

Actuarial cost method – Traditional Unit Credit Actuarial Cost Method

Asset valuation method – Fair Market Value

Investment return for funding – based upon the January 2025 PPA Segment rates (January 2024 PPA Segment rates used for the prior year)

Discount rate – 5.0% used for 2025 and 2024

Normal retirement age – 65

Mortality rates – The 2025 Applicable Mortality Table (2024 Applicable Mortality Table used for prior year)

Assumed rate of increase in compensation levels – 4.0%

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The valuations of the present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, there would be no material difference.

NOTE 4 - INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Trust Company (John Hancock), the trustee of the Plan, has certified the following data included in the accompanying financial statements and the supplemental schedule is complete and accurate.

- Investments at fair value
- Net appreciation in fair value of investments
- Dividends
- Schedule of assets (held at end of year)

NOTE 4 - INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (CONTINUED)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and the supplemental schedule.

NOTE 5 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2025 and 2024.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024.

	Investments at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 38,217,392	$ -	$ -	$ 38,217,392

	Investments at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 35,573,521	$ -	$ -	$ 35,573,521

NOTE 6 - FUNDING POLICY

The Plan's funding policy is for the Clinic to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Clinic's contributions are to be made in cash no later than the earlier of the date permitted by law for meeting the minimum funding standards or the date for making tax deductible contributions. For 2024, the Clinic made contributions of $691,598. For 2025, the Clinic made no such contributions. The Plan has exceeded the ERISA minimum funding requirements for the years ended December 31, 2025 and 2024.

NOTE 7 - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are shares of mutual funds offered through John Hancock, the trustee for the Plan and, therefore, these investments and related investment transactions qualify as party-in-interest transactions. The Plan made no direct payments to John Hancock during 2025 and 2024. Certain fees incurred by the Plan for investment management services are included in the net appreciation in fair value of investments as they are paid through revenue sharing, rather than through direct payments. The plan sponsor pays directly any other fees related to the Plan's operations.

NOTE 8 - PLAN TERMINATION

Although it has not expressed the intention to do so, the Clinic has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

a. Vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed below.

b. Vested benefits not insured by the PBGC

c. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 9 - TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 18, 2017, stating that the Plan qualifies under the applicable sections of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

NOTE 10 - RISKS, UNCERTAINTIES AND CONCENTRATIONS

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based upon certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

At December 31, 2025 and 2024, approximately 19% of the Plan's investments were invested in the Baird Core Plus Bond Institutional Fund.

NOTE 11 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through September 28, 2026, which is the date that the financial statements were available to be issued. Subsequent to December 31, 2025, the Plan changed trustees from John Hancock Trust Company to Empower Trust Company, LLC, and Plan assets were transferred accordingly. The transfer did not impact net assets available for benefits as of December 31, 2025.

Actuarial methods

Under the actuarial methods described below, if all current assumptions remain constant and are realized, funding at least the minimum required contribution each year will eventually accumulate sufficient plan assets to cover the funding target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost method

Costs have been computed in accordance with the unit credit actuarial cost method and reflect the actuarial assumptions described under "Actuarial assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Accrued vs. vested benefits

Accrued benefits are the benefits accumulated according to the service, compensation, and benefits outlined in the plan provisions. Vested benefits are the same except that they exclude the following, if applicable:

- Benefits for non-vested participants
- Death benefits over the value of the plan's qualified pre-retirement survivor annuity (QPSA)
- Disability benefits over the value of the standard termination or retirement benefits for participants who are not disabled as of the measurement date
- Benefits over the value of the standard termination benefits for participants who have not attained eligibility for early retirement and supplemental benefits as of the measurement date

Target normal cost

The target normal cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding target and funding shortfall

The funding target is the present value of benefits accrued as of the beginning of the plan year and the funding shortfall is the excess of the funding target over the actuarial value of assets (reduced by the credit balance). The initial funding shortfall is amortized over 15 years.

In subsequent years, the funding shortfall less the present value of prior year amortization installments is amortized over 15 years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is listed on the following page:

Plan year	Corridor
Through 2030	95% - 105%
2031	90% - 110%
2032	85% - 115%
2033	80% - 120%
2034	75% - 125%
2035 and later	70% - 130%

In the event the 25-year average of either the first, second, or third segment rate falls below 5%, the 25-year average of such rate will be deemed to be 5%.

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

Sponsor elections

Discount rate: Segment rates, with a 0-month lookback

Mortality table: Prescribed IRS static mortality table – separate

At-risk determination

The at-risk funding target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the at-risk funding target and at-risk target normal cost when a plan is at-risk in at least two years during the preceding four years. The load increases the at-risk funding target by 4% of the not at-risk funding target plus $700 per participant, and increases the at-risk target normal cost by 4% of the not at-risk target normal cost.

The funding target and target normal cost are calculated by multiplying the not at-risk values by 100% minus the phase-in percentage, plus the at-risk values multiplied by the phase-in percentage.

Credit balance

The credit balance consists of the carryover balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the prefunding balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the minimum required contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The actuarial value of assets is reduced by the credit balance to determine certain funded percentages and to determine the funding shortfall.

Asset valuation method

The actuarial value of assets is equal to the fair market value of assets.

The actuarial value of assets for determining the maximum tax deductible contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

The fair market value of assets used for funds invested in the general account of an insurance company is the stated contract value with a market value adjustment factor. This value is an estimate only and not the precise calculation which would be done at contract discontinuance or to measure the impact of excess withdrawals in any calendar year. It does not constitute a final offer by Empower or a final experience adjustment.

Actuarial assumptions

Funding Assumptions

The discount rate and mortality assumptions are prescribed assumptions set by law. All other assumptions are non-prescribed assumptions set by the actuary which reflect estimates of future experience, are appropriate for the purpose of the measurement, consider relevant plan characteristics, and contain no significant bias unless otherwise noted. Relevant historical information, such as credible plan experience and experience from representative populations, was considered in the selection of the non-prescribed assumptions with a significant effect on the measurement. Factors that may affect future experience and the views of experts were also considered.

The investment return is based on the ASC 715 discount rate assumption.

ASC 960 Assumptions

All assumptions are set by the plan sponsor and they align with the Funding Assumptions except for the mortality assumption.

Below are the actuarial assumptions as of January 1, 2025:

Discount rate	**With interest rate stabilization**	**Without interest rate stabilization**	**ASC 960**
Effective rate	5.34%	5.31%	5.00%
First segment – First 5 years	5.00%	5.00%	N/A
Second segment – Next 15 years	5.27%	5.27%	N/A
Third segment – After 20 years	5.50%	5.40%	N/A

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan provisions

Effective dates	Original Plan: January 1, 2005 Latest Restatement: January 1, 2016
Plan year	The calendar year
Employee	Shareholder Physicians or Board Chair/Chief of Staff (Group C), Non-Shareholder Physicians (Group B), Nurse Practitioners, Physician Assistants, Advance Practice Providers, Chief Executive Officer and Administrative staff (Group A)
Eligibility requirements	Age: 21 Service: One Year Notwithstanding anything to the contrary in this Plan, an employee who commences employment after December 31, 2014 shall not be eligible to participate in the Plan unless the Employee is an Eligible Employee who is classified as Shareholder Physicians or Board Chair/Chief of Staff (Group C), Non-Shareholder Physicians (Group B), Nurse Practitioners, Physician Assistants, Advance Practice Providers, Chief Executive Officer and Administrative staff (Group A).
Plan entry date	The first day of the Plan Year quarter after attainment of age 21 and completion of a Year of Service Notwithstanding anything to the contrary in this Plan, an employee who commences employment after December 31, 2014 shall not be eligible to participate in the Plan unless the Employee is an Eligible Employee who is classified as Shareholder Physicians or Board Chair/Chief of Staff (Group C), Non-Shareholder Physicians (Group B), Nurse Practitioners, Physician Assistants, Advanced Practice Providers, Chief Executive Officer and Administrative staff (Group A).

	Notwithstanding anything in the foregoing to the contrary, any individual who became an Employee of the Employer effective as of July 24, 2022, who was employed by Upper Cumberland Orthopedic Surgery PC as of the immediately preceding business day, and who, as of July 24, 2022, has otherwise satisfied the requirements for participation in the Plan, will enter the Plan as of such date (and shall not be required to wait until October 1, 2022). However, any such Employee who satisfies the requirements set forth above after July 24, 2022, and becomes eligible to participate in the Plan shall enter the Plan as of the next following entry date.
Year of service	A computation period of twelve (12) consecutive months during which an employee completes not less than 1,000 hours of service. For purposes of eligibility for participation, the computation period shall begin with the date on which the Employee first performs an Hour of Service and each anniversary date thereafter.
Normal retirement date	The first day of the month after the Participant attains the later of age 65 or the 5th anniversary of the date on which the Participant first became eligible to participate in the Plan.
Compensation	Total salary or wages from an Employer before deductions, including base pay, bonuses, commissions, overtime, incentive pay and any before tax contributions made under any 40l(k) plan or any amount deferred under Code Section 125. Compensation does not include any severance pay, moving allowance, car allowance, awards or prizes, stock option or SAR payments, nonqualified deferred compensation or imputed income.

Vesting	A Participant shall have 20% vested interest in this Plan after 2 Years of Service and 100% vested interest in this Plan after 3 Years of Service

The Cash Balance Account is a hypothetical account and is established and maintained solely for purposes of recording any credits which are allocated thereto, and no person shall accrue any right or interest to any specific asset of the Trust fund as a result thereof.
Pre-2015 pay credit	6% of the individual's compensation is credited to his Cash Balance Account for each calendar year the individual is both a Participant and an Eligible Employee on the last day of the Plan Year. For the initial year of Participant's Eligibility, Compensation shall be recognized as of such Participant's effective date of participation.
Post-2015 pay credit (Group A)	The contribution percentage shall be 1% of the individual's Compensation, but not less than a meaningful benefit under Section 401(a)(26) and the regulations issued thereunder, for a Participant in a classification of administrative staff employee, nurse practitioner, physician assistant, Advanced Practice Provider T1, Advanced Practice Provider, Chief Operating Officer T1, or chief executive officer. A meaningful benefit is that contribution percentage, when expressed as an annual retirement benefit, equal to the accrual of 0.5% of such Participant's Compensation. Such benefit shall be computed in the form of a single life annuity with no ancillary benefit, beginning at Normal Retirement Age. For purposes of the above, if a Participant is in a classification of administrative staff employee, nurse practitioner, physician assistant, Advanced Practice Provider T1,

	Advanced Practice Provider, Chief Operating Officer T1, or chief executive officer for a portion of the Plan Year, Compensation shall be recognized only for such portion of the Plan Year
Post-2015 pay credit (Group B)	The contribution percentage shall be 6% of the individual's Compensation for a Participant in a classification of physician contract, Associate Physician T1, Senior Physician T1, or Affiliate Physician ("non-shareholder physician"). For purposes of the above, if a Participant is in a classification of non-shareholder physician for a portion of the Plan Year, Compensation shall be recognized only for such portion of the Plan Year
Post-2015 pay credit (Group C)	The contribution dollar amount shall be $33,000 for a Participant in a classification of shareholder physician or board chair/ chief of staff. If a Participant is in a classification of shareholder physician or board chair/ chief of staff for a portion of the Plan Year, this amount shall be prorated based on the portion of the Plan Year in which the Participant is in a classification of shareholder physician or board chair/ chief of staff. Notwithstanding anything to the contrary in this Plan, no pay- based credits shall be made to the Cash Balance Account of a Participant in a classification other than administrative staff employee, board chair/chief of staff, nurse practitioner, physician assistant, physician/shareholder, physician contract, Advanced Practice Provider Tl, Chief Operating Officer T1, Associate Physician T1, Senior Physician T1, Affiliate Physician, Advanced Practice Provider, or the chief executive officer for any year that commences after December 31, 2014.
Interest credit	A 5% increase on each Participant's Account for the applicable Plan Year as of the last day of the Plan Year.

Accrued benefit	Actuarial equivalent of the Cash Balance Account payable on Normal Retirement Date in the form of a single life annuity.
Top-heavy benefit	The minimum monthly normal retirement income for a Participant who is not a Key Employee, commencing at his Normal Retirement Date, shall equal the product of (1) 2% of his average monthly Compensation during his five highest-paid consecutive calendar years of Service, multiplied by (2) the number of his years of Service (to a maximum of 10 such years), including for this purpose each year of vesting Service credited to the Employee regardless of whether or not the Employee was in Employment on the last day of the Plan Year in which the Year of Vesting Service was credited and regardless of the level of 415 Compensation credited to the Employee in such Plan Year. Notwithstanding the preceding, for this purpose any such year during which the Plan is not Top-Heavy shall be disregarded.
Normal form of benefit	Single: Single Life Annuity Married: 50% Joint and Survivor Annuity
Optional form of benefit	Single lump sum, 10 Year-Certain and Life
Normal retirement benefit	Accrued Benefit.
Late retirement benefit	Accrued Benefit determined as of the Participant's actual retirement date.
