REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Committee
Dentons US LLP Cash Balance Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit
We have performed audits of the financial statements of Dentons US LLP Cash Balance Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Grant Thornton LLP is a U.S. member firm of Grant Thornton International Ltd (GTIL). GTIL and each of its member firms are separate legal entities and are not a worldwide partnership.

Basis for opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s responsibilities for the audit of the financial statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matter – supplemental schedules required by ERISA
The supplemental schedules of assets (held at end of year) as of December 31, 2025 and reportable transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Dentons US LLP Cash Balance Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a cash balance defined benefit plan established effective December 1, 2021 to provide retirement benefits for eligible partners and specified employees of Dentons US LLP (the Firm). The Plan Committee is responsible for oversight of the Plan, as well as determining the appropriateness of the Plan's investment strategy and monitoring investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

To initially be eligible to participate in the Plan, an eligible person must complete one year of service with the Firm on or before October 1, 2021. After inception, any other eligible person will become a participant in the Plan on the first January 1, April 1, July 1 or October 1 on or after the date such eligible person completes one year of service with the Firm. A person is eligible under this Plan if they are a partner with more than 60 Adjusted Partnership Points or an employee as identified in Appendix IV of the Plan document.

Participant's Accounts

Under the Plan provisions, amounts are credited by the Firm to each participant's hypothetical account. The accounts are allocated contribution credits each Plan year that a participant is active in the Plan and complete at least 1,000 hours of service while being an eligible person. Contribution credits for a Plan year are credited to the participant's hypothetical account as of the last day of the Plan year. If the participant terminates service with the Firm and begins to receive retirement benefits from the Plan before the end of the Plan year, the contribution credit will be earned through the date of distribution.

Funding Policy

The Plan's funding policy is for the Firm to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Firm made contributions of approximately $19,000,000 and $15,800,000 for the years ended December 31, 2025 and 2024, respectively, which met the minimum required funding requirements.

Although it has not expressed any intention to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to ERISA provisions.

Calculations of Benefits Earned

The participant's hypothetical account will be allocated with contribution credits each plan year the participant completes at least 1,000 hours of service. The amount of the annual contribution credits that are credited to the participant's hypothetical account is the lesser of (i) the Formula Amount or (ii) the Age-Based Amount. The Formula Amount is determined using the Adjusted Partnership Points (APP). The APP for partners is the number of partnership points assigned to the partner for the Plan year by the Firm's board in accordance with the Firm's partnership agreement multiplied by a fraction, the numerator of which is the budgeted point value established by the board in the Firm's budget for the year, and the denominator of which is $9,000. This number is further multiplied by 6.67 for partners who are classified as "preferred interest partners" and further multiplied by an APP multiplier for each partner set forth in Appendix V of the Plan document. The APP for participants who are employees are set forth in Appendix IV.

The Formula Amount is the greater of $5,000 or $1,300 multiplied by the APP minus the 415 (c) limit in effect for the Plan year. This amount is subject to annual cost of living adjustments as determined by the IRS in accordance with regulations under Section 415 of the Internal Revenue Code (IRC). For certain participants identified in Appendix VI of the Plan document, the Formula Amount is further reduced by the amount set forth opposite the participant's name in Appendix VI.

The Age-Based Amount is set forth based on the participant's age on the last day of that Plan year as indicated in the Plan document. Plan participants' hypothetical accounts will be credited or charged with interest credits at an annual rate of return equal to the annual rate of return on plan assets (net of the Plan's administrative expenses) less 25 basis points (0.25%). The interest credits will be computed and credited on a daily basis based on the daily valuation of the Plan's assets. Participant's accounts begin receiving interest credits with respect to the annual contribution credit for a Plan year on February 1 of the following Plan year. Each participant's account continues to be credited or charged with interest credits until the participant begins receiving annuity distributions from their account even if the participant has ceased being an active participant.

Vesting

Benefits are fully and immediately vested.

Payment of Benefits

Plan participants are entitled to receive a distribution of the full amount credited to their hypothetical accounts after the participant reaches age 59½. Participants who terminate, including for reasons of death or disability, or their beneficiaries are entitled to receive up to 100% of their hypothetical account balance determined at the most recent valuation date. Payments are made in lump-sum distributions or through an annuity, as permitted by the Plan. The cash balance account used to determine a participant's accrued benefit shall not be less than the sum of all contribution credits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies, utilizing information provided by the investment advisors, third-party administrator and custodian. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Firm, as provided by the Plan document. Expenses that are paid directly by the Firm are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

NOTE 3 - INFORMATION CERTIFIED OR PROVIDED BY THE PLAN CUSTODIAN

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, US Bank National Association (US Bank NA), asset custodian of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, at fair value as of December 31, 2025 and 2024, as shown in the statements of net assets available for benefits.
- Net investment income, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2025 and 2024.
- Schedule of assets (held at end of year) as of December 31, 2025, as shown in the Schedule H, line 4i.
- Schedule of reportable transactions for the year ended December 31, 2025, as shown in Schedule H, line 4j.

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025.

Money Market Funds

The fair value of money market funds are based upon market quotations of national security exchanges.

Mutual Funds

Mutual funds are valued at the closing price as reported by the fund. Mutual funds that are held by the Plan are open-ended mutual funds that are registered with the securities and exchange commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Exchange Traded Funds (ETFs)

SEC registered investments that publish their daily NAV and as such are deemed actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 526,641	$ -	$ -	$ 526,641

ETFs	6,636,462	-	-	6,636,462
Investments, at fair value	$ 31,669,444	$ -	$ -	$ 31,669,444

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 1,035,528	$ -	$ -	$ 1,035,528
Mutual funds	15,963,084	-	-	15,963,084
ETFs	4,749,835	-	-	4,749,835
Investments, at fair value	$ 21,748,447	$ -	$ -	$ 21,748,447

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future benefit payments that are attributable under the Plan's provisions to employees' service and compensation rendered to the benefit valuation date below. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstance - retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered through the benefit valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2024, was (a) average-assumed retirement age (65), (b) life expectancy of participants (IRS 2025 Static Mortality Table with separate tables for annuitants and non-annuitants and (c) assumed interest credit rate (2.5%). The cash balance interest credit rate is equal to the rate of return on plan assets, subject to cumulative minimum and maximum interest crediting rates. The interest rate used to discount the obligation for December 31, 2024 was 2.50%.

The computations of the actuarial present value of accumulated plan benefits have been made as of the beginning of the year, January 1, 2025. Had the valuation been performed as of December 31, there would be no material differences.

The actuarial present value of accumulated plan benefits as of December 31, 2024, is as follows:

Vested benefits:	
Participants with deferred benefits	$ 590,178
Active employees	36,816,256
Total actuarial present value of accumulated plan benefits	$ 37,406,434

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2024 are as follows:

Actuarial present value of accumulated plan benefits as of the beginning of the year	$ 29,562,840
Increase (decrease) during the period attributed to:	
Benefits accumulated	15,765,035
Increase for interest	1,849,980
Benefits paid	(9,771,421)
Actuarial present value of accumulated plan benefits as of the end of the year	$ 37,406,434

NOTE 6 - TAX STATUS

The IRS has determined and informed the Plan, by letter dated July 23, 2024, that the Plan and related trust were designed in accordance with the applicable sections of the IRC. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently operating in compliance with applicable requirements of the IRC.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of money market funds managed by affiliates of U.S. Bank NA, the custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. For the years ended December 31, 2025 and 2024, the Plan paid approximately $17,000 and $14,000, respectively, of fees related to plan operations and investment activity including advisory and administrative expenses. The Plan sponsor made direct payments to service providers of the Plan of approximately $157,000 for the year ended December 31, 2025. In addition, certain administrative functions are performed by trustees or employees of the Firm for which no compensation is received from the Plan.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process,

it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE 9 - SUBSEQUENT EVENTS

Plan management evaluated the Plan's December 31, 2025 and 2024 financial statements for subsequent events through September 23, 2026, the date the financial statements were available to be issued. Plan management is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Assumptions and Methods

Plan Sponsor Elections

Yield curve election: The plan sponsor did not elect to use the full yield curve under IRC section 430(h)(2)(D)(ii).

Applicable month: The plan sponsor elected to base the segment rates on the rates published in the month containing the valuation date.

Economic Assumptions

	Funding Target		PBGC
	with stabilization	without stabilization	Funding Target
First segment rate (years 0 to 4):	5.00%	5.00%	4.65%
Second segment rate (years 5 to 19):	5.27%	5.27%	5.28%
Third segment rate (years 20 and after):	5.50%	5.40%	5.63%
Effective interest rate (current year):	5.23%	5.23%	N/A

Interest crediting rate: 2.50%

The interest rates listed above are compounded annually.

The cash balance interest crediting rate is equal to the rate of return on plan assets, subject to a cumulative minimum interest crediting rate. Accordingly, the assets needed to provide future cash balance benefits are independent of interest rates and only dependent on the plan's asset allocation to the extent that the cumulative minimum interest crediting rate affects the cash balance accounts. This plan provision is difficult to measure using traditional deterministic valuation procedures. To account for this plan provision, the interest crediting rate was selected from a reasonable range based on the plan's asset allocation that, when combined with the segment interest rates, produced a funding target that was as close as possible to the economic value of the cash balance accounts.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Assumptions and Methods

Demographic Assumptions

RETIREMENT

All participants are assumed to retire at the later of normal retirement age and current age, but no earlier than the end of the valuation plan year.

WEIGHTED AVERAGE RETIREMENT AGE

The weighted average retirement age for the population during the current year, rounded to the nearest whole number, is 65.

WITHDRAWAL AND DISABILITY

None.

RATIONALE FOR RETIREMENT AGE, WITHDRAWAL AND DISABILITY ASSUMPTIONS

The economic value of the cash balance benefits is not materially affected by the timing of benefit commencement. Therefore, no preretirement withdrawal or disability is assumed, and all participants are assumed to retire according to the schedule above.

MORTALITY AND MORTALITY IMPROVEMENT

The mortality follows the IRS 2025 Static Mortality Table, as prescribed by Treasury regulation section 1.430(h)(3)-1. The mortality decrement is assumed to occur as of the beginning of the year.

Other Assumptions

FORM OF PAYMENT

Based on the experience of the plan and future expectations, all participants are assumed to elect a lump sum form of payment.

EXPENSES

Assumed expenses are $14,000 for 2025, based on the experience of the plan and future expectations. In accordance with our understanding of the available guidance, the expense assumption reflects administrative expenses and does not include investment-related expenses or any other non-administrative expense.

Changes from Prior Year and Rationale for Changes

None.

VALUATION DATE

The valuation date is January 1, 2025.

ACTUARIAL VALUE OF ASSETS

The actuarial value of assets is equal to the market value of assets.

MINIMUM FUNDING METHOD

The funding target and target normal cost for minimum funding calculations are determined using the traditional unit credit cost method as prescribed by Treasury regulation section 1.430(d)-1. The liability under the unit credit cost method is the value of the accrued pension benefit using service and pay as of the valuation date. The sum of the present value of the accrued benefits for all participants is the ERISA funding target. The normal cost is the present value of the benefits earned during the year. The target normal cost is the sum of the normal costs for all participants and the assumed administrative expenses.

Changes in Method from Prior Year and Rationale for Changes

None.
