INDEPENDENT AUDITOR'S REPORT

The Trustee of
Markey's Audio/Visual Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Markey's Audio/Visual Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary schedule, as noted in the table of contents, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplementary schedule, we evaluated whether the supplementary schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Markey's Audio/Visual Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document and the summary plan description for a more complete description of the Plan's provisions.

General

Markey's Audio/Visual, Inc. (the Company and, Plan Sponsor and Plan Administrator) established the Markey's Audio/Vision Employee Stock Ownership Plan (the Plan) effective as of January 1, 2012. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by an Employee Benefit Plan Committee comprising up to three persons appointed by Markey's Audio/Visual, Inc.'s Board of Directors. An independent third-party individual is the Plan's Trustee.

The Plan purchased Company common stock using the proceeds of a loan from the Company and holds the Company stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible participants' accounts in accordance with applicable regulations under the IRC. Shares vest fully upon allocation.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024 and for the years then ended present separately the assets and liabilities and changes therein pertaining to:

1. the accounts of employees with vested rights in allocated common stock (Allocated) and
2. common stock not yet allocated to employees (Unallocated).

Eligibility

The Plan is a defined contribution plan covering substantially all employees of the Company who have 6 months of continuous service and are employed on the last working day of the Plan year. Employees will have the opportunity to become a participant on the first "entry date", January 1 of each year, once that employee satisfies those requirements. Participants who are considered part-time-as-needed (PRN), and employees leased to the Company are not eligible for an allocation of Company contributions for such year.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. In addition, the Company may make discretionary cash contributions from year to year. Discretionary contributions of $1,558,244 and $630,885 were made for the years ended December 31, 2025 and 2024, respectively. The Board of Directors makes all of these discretionary decisions on a year-to-year basis at their sole discretion. The Plan does not allow participant contributions.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balances to all participants' beginning of the year account balances.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Vesting

Participants begin vesting upon completion of two years of service and a participant is 100% vested after six years of credited service. If a participant attains normal retirement age or is determined totally disabled, all amounts in the affected participant's account become fully vested. A special vesting rule was in place for 2012, which recognizes additional vesting service credit for any service prior to January 1, 2012. Qualifying participants under this provision receive one year of vesting credit for every two full years of service.

Forfeitures

If a participant is not fully vested on their termination date, the non-vested amount of their account is forfeited. Forfeitures on non-vested account balances are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year.

Payment of Benefits

Effective January 1, 2025, distributions will be allocated to participants as follows:

- Vested account balances less than $1,000 as of the allocation date will receive a lump sum distribution as soon as administratively feasible.
- Vested account balances greater than $1,000 but less than $7,000 as of the allocation date may elect to receive a lump sum distribution of the participant's vested account balance or have such distribution paid directly to an eligible retirement plan in a direct rollover.
- Vested account balances greater than $7,000 but less than $500,000 as of the allocation date may elect to receive a lump sum distribution of the participant's vested account balance or have such distribution paid directly to an eligible retirement plan in a direct rollover.
- Vested account balances greater than $500,000 shall receive their distribution of the participant's vested account balance in substantially equal annual installments, not to exceed a period of five years; provided, however, that each install shall be the lesser of $500,000 or the Participant's remaining vested account balance.
- Distributions due to death, disability, retirement, or separation of service other than death, disability, or retirement will commence distribution of the participant's vested account balance not later than one year after the close of the Plan year in which the designated event occurs.

Prior to January 1, 2025, distributions due to death, disability, retirement or termination of employment from the Company, distributions are made in substantially equal installment payments over 5 years in the Plan year or such greater period may be elected by the participant up to 10 years following the event. Payments may be made in whole or in part in an earlier year and/or over a shorter installment period of years if the Board of Directors determines for any given year that the Company and/or ESOP has sufficient assets to make such earlier payments. Determination is made strictly on a year-to-year basis and the early payment of benefits in any one or more years does not require the early payment of benefit in any other year. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan, if the shares are not publicly traded or if the shares are subject to trading limitations. During 2025 and 2024, the Company made a contribution to the Plan to repurchase stock from former participants in the amounts of $1,558,244 and $630,885, respectively.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Put Option

The employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or subject to trading limitations, includes a put option under Federal income tax regulations. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. Beginning in 2025, in years one through five, a participant may elect to diversify up to 30% of the shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 55%. Prior to 2025, in each of the first five years, a participant may diversify up to 25% of the shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution transferred to the 401(k) Plan. The election to diversify is made subsequent to the year-end based upon the shares of employer stock in the participant's account at year end.

Segregation

For participants electing segregation, the entire account balance is transferred subsequent to year-end based upon the shares of employer stock in the participant's account at year end regardless of vesting percentage. Participants terminated prior to January 1, 2021 that are rehired within 5 years of termination have the ability to transfer the account balance back into the ESOP and continue under the vesting percentages of the Plan. Participants terminated subsequent to January 1, 2021 that are rehired within 5 years of termination do not have the ability to transfer the account balance back into the ESOP.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Certain estimates relate to unsettled transactions and events as of the date of the financial statements. Other estimates relate to assumptions about the ongoing operations and may impact future periods. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value on both December 31, 2025 and 2024. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The investment in the Company's common stock is determined by an annual independent appraisal (see Fair Value Measurement note).

Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses paid by the Company are excluded from these financial statements.

Net Assets Available for Benefits

Net assets available for benefits at both December 31, 2025 and 2024 included $-0- allocated to the accounts of persons who, prior to that date, had withdrawn from participating in earnings and operations of the Plan.

Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated September 14, 2017, stating that the Plan is qualified under the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving this opinion letter. However, the Plan Administrator believes the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified and the related trust is tax-exempt. No provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more than likely would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of both December 31, 2025 and 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Currently, the prior three years are open under Federal statutes of limitations and remain subject to review and change. The Plan is not currently under audit, nor has it been contacted by any taxing authority.

Subsequent Events

The Plan has evaluated subsequent events through September 30, 2026, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The Plan's investments in Company common shares at December 31, 2025 and 2024 are as follows:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Sponsor Company Common Stock				
Number of Shares	370,527	429,473	363,007	436,993
Cost	$ 3,025,862	$ 11,909,647	$ 2,817,322	$ 12,118,187
Fair Value	$ 42,795,934	$ 49,604,066	$ 36,384,212	$ 43,799,788

The Plan did not purchase any additional shares during the year (See Loan Payable footnote).

NOTE 4 – FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

LEVEL 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

LEVEL 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There were no changes in the methods used to measure fair value at both December 31, 2025 and 2024.

The following is a description of the valuation methodology used for assets measured at fair value.

Sponsor Company Common Stock – Valued at estimated fair value based upon an independent appraisal. This appraisal is based upon a combination of the market and income valuation techniques. The appraiser took into account historical and projected cash flows and net income, return on equity, market comparables and estimated fair value of Company assets and liabilities.

The preceding method described may provide a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 – FAIR VALUE MEASUREMENT (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2025 and 2024.

	Investments at Fair Value			
December 31, 2025	Level 1	Level 2	Level 3	Total
Investment in Sponsor Company Common Stock	$ -	$ -	$ 92,400,000	$ 92,400,000
Total Assets in the Fair Value Hierarchy	$ -	$ -	$ 92,400,000	$ 92,400,000

	Investments at Fair Value			
December 31, 2024	Level 1	Level 2	Level 3	Total
Investment in Sponsor Company Common Stock	$ -	$ -	$ 80,184,000	$ 80,184,000
Total Assets in the Fair Value Hierarchy	$ -	$ -	$ 80,184,000	$ 80,184,000

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2025 and 2024.

	Investment in Sponsor Company Common Stock	
	2025	2024
Balance, Beginning of Year	$ 80,184,000	$ 62,320,453
Releverage 448,198 Shares of Common Stock	-	12,428,921
	80,184,000	74,749,374
Unrealized Gain	12,216,000	5,434,626
Balance, End of Year	$ 92,400,000	$ 80,184,000

Gains and losses included in changes in net assets for both the years ended December 31, 2025 and 2024 are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

The Plan's policy is to recognize transfers of investments into or out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For both the years ended December 31, 2025 and 2024, there were no transfers of investments into or out of Level 3.

NOTE 5 – FORFEITURES

For the years ended December 31, 2025 and 2024, forfeitures of terminated non-vested account balances of $113,455 and $146,775, respectively, were allocated to remaining participants. As of both December 31, 2025 and 2024, there were $-0- in unallocated forfeitures.

NOTE 6 – RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. As described in Note 1, the Company pays some of the Plan expenses. The Plan has various other service providers. Such providers are parties-in-interest under ERISA guidelines.

These party-in-interest transactions are exempt from the prohibited transaction rule of ERISA.

Several employees of the Company provide administrative services to the Plan, such as day to day administration and oversight. The Company does not charge the Plan for these services.

NOTE 7 – LOAN PAYABLE

In 2024, the Plan entered into a $12,428,921 term loan agreement with the sponsoring Company. The purpose of the 2024 Loan is to finance the purchase of 107,935 shares of Company common stock and to refinance the terms of the 2012 Loan which includes 340,263 shares of Company common stock. Unallocated shares are collateral for the 2024 Loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year's payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 7,520 and 11,205 shares being released and allocated for the Plan years ended December 31, 2025 and 2024, respectively.

The 2024 Loan is to be repaid over 75 years at 4.53% simple annual interest rate on the principal balance outstanding. Annual principal and interest payments of $559,348 are due within 30 days of each December 31st. The balance of the 2024 Loan as of December 31, 2025 and 2024 was $11,358,124 and $11,860,531, respectively. The scheduled maturities of the loan are as follows:

Years Ending December 31,	
2026	$ 44,825
2027	46,856
2028	48,978
2029	51,197
2030	53,516
Thereafter	11,112,752
	$ 11,358,124

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions and the interest of each participant in the trust fund will be distributed to such participant or beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Employee Benefits Committee should direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed Company stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment of the common stock and to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
