INDEPENDENT AUDITORS' REPORT

Knights of Columbus

Committee on Audit

New Haven, Connecticut

Opinion

We have audited the accompanying financial statements of the Knights of Columbus Agents' Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Knights of Columbus Agents' Pension Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with U.S. generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Knights of Columbus Agents' Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Knights of Columbus Agents' Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Knights of Columbus Agents' Pension Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Knights of Columbus Agents' Pension Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 and 2024 are presented for the purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1 - Plan Description

General

The Knights of Columbus Agents' Pension Plan (the Plan) was originally adopted as a contributory benefit plan on January 1, 1963. Effective January 1, 1969, the Plan was amended to provide that no further contributions by agents would be required or permitted. The Plan, was last restated on December 7, 2015, effective January 1, 2015, and last amended on December 8, 2025, effective October 1, 2025. The Plan is a trusteed, non-contributory defined benefit plan covering insurance agents under contract with the Knights of Columbus, Supreme Council (the Society). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Pension Benefits

Participants who became an agent on or after January 1, 2022 accrue benefits under the cash balance formula. Under the Plan provisions, for participants accruing benefits under the cash balance formula, amounts are credited by the Society to the participants' hypothetical accounts. The accounts are allocated pay credits and investment credits at the end of every plan year. The pay credits are allocated based on a percentage (5%) of the participants' compensation as defined in the plan document for that particular plan year. Participants' hypothetical accounts also receive investment credits at the end of every plan year. The amount of the investment credit is four percent (4%) annually.

Participants become fully vested in their future benefits on completion of three years of continuous service in accordance with the provisions of Internal Revenue Code Section 411(a)(2). Participants have the option of receiving their vested benefit in the form of a one-time lump sum payment equal to the amount credited to their vested Cash Balance Account or a monthly annuity payable for their lifetime.

Active participants in the Plan who became an agent before January 1, 2022 continue accruing benefits under the existing final average pay formulas.

Under the final average pay formulas, participants become fully vested in their future benefits on completion of five years of continuous service in accordance with the provisions of Internal Revenue Code Section 411(a)(2). Benefits are normally paid in the form of a life annuity on a monthly basis following normal retirement age of sixty-five. In addition, benefit payments may be, depending on the circumstances, in the form of joint and survivor annuities and lump sums for amounts less than $5,000.

The Plan provides for early retirement and death benefits. A married agent will, unless electing otherwise, automatically receive a reduced retirement benefit which provides a benefit payable to the spouse as contingent beneficiary.

2 - Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits as of January 1, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Pension-401(k) Committee (See Note 3) determines the Plan's valuation policies utilizing information from its investment advisors and custodian.

The fair value of the Plan's interest in the Knights of Columbus Master Trust (Master Trust) is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions.

Investments in the Master Trust are valued as follows:

Marketable securities are stated at fair value. Securities traded on a national securities exchange are valued at the last reported sales price on the last business day; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

When applicable for certain investments, corporate bonds and notes and preferred stock that do not have an established fair value, an estimate of their value is made based on yields currently available on comparable securities of issuers with similar credit ratings.

Other investments are comprised of interests in limited partnerships and limited liability companies and are carried at net asset value at year-end, which is used as a practical expedient to estimate fair value.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service agents have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated agents or their beneficiaries, (b) beneficiaries of agents who have died, and (c) present agents or their beneficiaries. Cash balance formula benefits under the Plan are accumulated based on agents' compensation during each year of credited service. The accumulated plan benefits for active agents under the cash balance formula will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Final average pay formula benefits under the Plan are generally based on years of credited service, age at retirement, and average monthly earnings for the last sixty consecutive months. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17) in determining benefits. Benefits payable for all circumstances are included to the extent they are deemed attributable to agent service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary from Milliman, Inc. (Plan Actuary) and is calculated by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuary evaluates the Plan as of January 1 of each Plan year, based on information received from the Society. The significant actuarial assumptions and methods used in the valuations of January 1, 2025 and 2024 were: (1) unit credit actuarial cost method, as prescribed by the Pension Protection Act of 2006 (PPA) (2) expected 6.75% investment return, compounded annually in 2025 and 2024 (3) retirement rates assumed to range from 2% at age fifty-five to 100% at age sixty-seven, or attained age if greater (4) expenses will be met directly by the Society (5) annual increases in compensation of 3.00% in 2025 and 2024 (6) mortality is determined from the PRI-2012 Total Dataset Employee/Retiree Amount-Weighted Mortality Tables projected from 2012 with improvement scale MP-2021, males and females; for disabled participants, the PRI-2012 Total Dataset Disabled Amount-Weighted Mortality table projected from 2012 with improvement scale MP-2021 was used (7) withdrawal rates are assumed to range from 14.9% at age twenty to 0% at age fifty-five.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

Management has evaluated subsequent events through September 11, 2026, the date on which the financial statements were available to be issued.

3 - Plan Administration

Investment decisions are the responsibility of the Executive and Finance Committee of the Board of Directors of the Society or such persons delegated by them.

The Society pays all administrative expenses of the Plan and the Board of Directors of the Society has appointed the Pension-401(k) Committee (Plan Administrator) with responsibility for the general administration of the Plan. The Plan is covered under a fidelity bond issued to the Society in the amount of $30,000,000 against losses through fraud or dishonesty.

4 - Interest in Knights of Columbus Master Trust

All of the Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and assets of the Knights of Columbus Retirement Plan for Bargaining and Non-Bargaining Unit Employees. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Delaware Charter Guarantee & Trust Company, conducting business as Principal Trust Company, under a trust agreement dated June 19, 2012.

At December 31, 2025 and 2024, the Plan's interest in the net assets of the Master Trust was approximately 40%. Investment income, including net appreciation (depreciation) in fair value of investments, relating to the Master Trust is allocated to the individual plans based upon average monthly balances invested by each plan.

The following table presents the net assets, including investments, of the Master Trust at December 31, 2025:

	Master Trust Balances	Plan's Interest in Master Trust
Mutual funds	$ 1,377,170	$ 545,050

Net assets at December 31	$ 723,077,020	$ 655,294,354

5 - Funding Policy

The Society's practice is to generally contribute, in the current year, the greater of the minimum contribution required under ERISA, calculated by reflecting the credit balance in the Funding Standard Account, or an amount approximating the estimated annual normal cost, based on an actuarial valuation as of the close of each preceding year.

The available funding balance was used to meet the minimum funding requirements of ERISA, $6,036,878 and $6,372,490 required minimum contributions, for the plan years ended December 31, 2025 and 2024, respectively.

6 - Tax Status

The Plan obtained its latest determination letter on November 30, 2016 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However as of December 31, 2025 and 2024, the plan administrator believes there are no uncertain tax positions taken by the Plan and therefore, no provision for income taxes has been included in the Plan's financial statements.

7 - Plan Termination

Although the Society expects to continue the Plan indefinitely, it retains the right to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the rights of each participant shall be non-forfeitable to the extent funded as of the date of termination together with any amounts which may come from the Pension Benefit Guaranty Corporation (the PBGC). The assets of the trust shall be applied in the following order, after reservation for reasonable expenses and for any benefit payments due prior to such termination:

First, among benefits derived from contributions of agents.

Second, equally among benefits of individuals in the following two subcategories:

(a) In the case of benefits in pay status three years prior to termination (at the lowest pay level in that period and at the lowest benefit level under the Plan during the five years prior to termination), and

(b) In the case of benefits which would have been in pay status three years prior to termination had the agent been retired (and his benefits commenced then, at the lowest benefit level under the Plan during the five years prior to termination).

Third, among all other benefits (if any) of individuals under the Plan guaranteed under the termination insurance provisions of the Employee Retirement Income Security Act of 1974, as amended.

Fourth, among all other non-forfeitable (i.e., uninsured vested) benefits under the Plan.

Fifth, among all other benefits under the Plan, and

Sixth, in the event any assets are remaining after the satisfaction of all liabilities to the participants and such amount is due to erroneous actuarial computations, then such balance shall be returned to the Society.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2025 and 2024, that ceiling is $7,432 and $7,108 per month, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

8 - Risks and Uncertainties

Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9 - Accumulated Plan Benefits

The accumulated plan benefit information as of the beginning of the current and prior plan years is as follows:

	January 1, 2025	January 1, 2024
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	$ 93,797,482	$ 87,407,402
Other participants	85,378,685	87,566,155
	179,176,167	174,973,557
Nonvested benefits	1,828,998	1,799,047
Totals	$ 181,005,165	$ 176,772,604

Changes in the present value of accumulated plan benefits are as follows:

	Year ended January 1, 2025	Year ended January 1, 2024
Actuarial present value of accumulated plan benefits at beginning of year	$ 176,772,604	$167,107,139
Increase (decrease) during the year attributable to:		
Benefits accumulated and net actuarial experience gains and losses	3,441,698	8,663,107
Increase for interest due to the decrease in the discount period	11,574,157	10,949,498
Benefits paid directly to participants or beneficiaries	(10,783,294)	(9,947,140)
Actuarial present value of accumulated plan benefits at end of year	$ 181,005,165	$176,772,604

10 - Fair Value Measurements

The Plan utilizes the market approach as the valuation technique used to measure fair value of its financial instruments. U.S. generally accepted accounting principles establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value of financial instruments into three levels:

> Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities where the organization has the ability to access at the measurement date;
>
> Level 2 - Significant other observable inputs other than quoted prices included in Level 1, which are observable for the asset or liability, either directly or indirectly (i.e. quoted prices in inactive markets, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency);
>
> Level 3 - Unobservable inputs are used to the extent that observable inputs are unavailable due to little, if any, market activity for the asset or liability. Unobservable inputs are developed based on the best information available, which might include the organization's own data that reflects assumptions that market participants would use in pricing the asset or liability.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Investments that are measured at fair value that utilize a net asset value per share (or its equivalent) practical expedient are not categorized within the fair value hierarchy. Investments measured at net asset value per share (or its equivalent) are presented in the following fair value hierarchy table to permit a reconciliation of the fair value hierarchy to the amount presented in the net assets of the Master Trust.

Assets, which are included in the Knights of Columbus Master Trust, measured within the fair value hierarchy on a recurring basis at December 31, 2025 are as follows:

Description	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Investments Measured at Net Asset Value
Mutual funds	$ 1,377,170	$ 1,377,170	$ -	$ -	$ -
U.S. government obligations	121,846,503	120,348,230	1,498,273	-	-
Corporate bonds and debentures	97,617,918	-	97,617,918	-	-
Common stocks	358,888,328	324,033,198	34,855,130	-	-
Partnerships	73,696,671	-	-	-	73,696,671
Totals	$ 653,426,590	$ 445,758,598	$ 133,971,321	$ -	$ 73,696,671

Assets, which are included in the Knights of Columbus Master Trust, measured within the fair value hierarchy on a recurring basis at December 31, 2024 are as follows:

Description	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Investments Measured at Net Asset Value
Mutual funds	$ 634,885	$ 634,885	$ -	$ -	$ -
U.S. government obligations	94,013,968	93,085,768	928,200	-	-
Corporate bonds and debentures	65,886,752	-	65,886,752	-	-
Common stocks	365,571,339	333,434,405	32,136,934	-	-
Partnerships	91,866,572	-	-	-	91,866,572
Totals	$ 617,973,516	$ 427,155,058	$ 98,951,886	$ -	$ 91,866,572

The Plan's policy is to recognize transfers in and transfers out of each level as of the actual date of the event or change in circumstances that caused the transfer. There were no transfers between each level during 2025 or 2024.

The following table summarizes investments, which are included in the Knights of Columbus Master Trust, for which fair value is measured using the net asset value per share practical expedient as of December 31, 2025:

Description	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Partnerships:				
Loan funds (a)	$ 24,543,005	$ 1,200,000	N/A	N/A
Real estate funds (b)	24,066,979	4,107,000	N/A	N/A
Other funds (c)	25,086,687	5,099,000	N/A	N/A
Total	$ 73,696,671	$ 10,406,000		

The following table summarizes investments, which are included in the Knights of Columbus Master Trust, for which fair value is measured using the net asset value per share practical expedient as of December 31, 2024:

Description	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Partnerships:				
Loan funds (a)	$ 27,561,087	$ 1,625,000	N/A	N/A
Real estate funds (b)	24,640,711	4,290,000	N/A	N/A
Other funds (c)	39,664,774	6,656,000	N/A	N/A
Total	$ 91,866,572	$ 12,571,000		

(a) This class includes commercial loan, residential mortgage and commercial mortgage funds. The fair values of the investments in this class have been estimated using the net asset value of the Plan's ownership interest in partners' capital. These investments can never be redeemed with the funds. Distributions from each fund will be received as loan payments/pay-offs are received by the fund.

(b) This class includes real estate funds that invest primarily in U.S. commercial real estate. The fair values of the investments in this class have been estimated using the net asset value of the Plan's ownership interest in partners' capital. These investments can never be redeemed with the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated.

(c) This class includes funds that invest in various types of investments. The fair values of the investments in this class have been estimated using the net asset value of the Plan's ownership interest in partners' capital. These investments can never be redeemed with the funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated.

Based on the current allocation of total assets within the Master Trust account, the Plan's portion of the unfunded partnership investment commitments were $4,163,000 and $5,061,000 at December 31, 2025 and 2024, respectively.

Part V – Summary of Plan Provisions

Summary of Principal Plan Provisions

The actuarial valuation was prepared in accordance with the provisions of the plan, a summary of which is presented below. The summary describes the principal provisions only and is not intended to be authoritative. For questions about specific benefits, please refer to the plan document. This summary of plan provisions is intended to only describe the essential features of the plan.

Basic Information

Plan Name: Knights of Columbus Agents' Pension Plan

Effective Date of Plan: January 1, 1963. The valuation reflects all amendments adopted as of the valuation date.

EIN/PN: 06-0416470/003

Plan Year: January 1 to December 31

Eligibility: People who are under contract with the Order as Agents are plan participants; there is no other eligibility requirement. The term "Agents" includes General Agents, Assistant General Agents and Field Agents. District Agents are considered to be independent contractors and are not permitted to participate in the plan.

Period of Benefit Service: Total period of service under all tax-qualified defined benefit retirement plans of the Knights of Columbus from date of hire or rehire while eligible to participate in the Plan, limited to a maximum of 40 years.

Period of Vesting Service: Total period of service under all tax-qualified defined benefit retirement plans of the Knights of Columbus from date of hire or rehire with the Knights of Columbus (generally excluding any period of service prior to the attainment of age 18).

Compensation: Monthly amount of an Agent's commissions excluding bonuses, overtime payments, severance payments, fringe benefits, reimbursed expenses, any other forms of extra compensation, and any portion of the period's cash earnings taken into account for benefit accrual purposes under another tax-qualified defined benefit retirement plan of the Knights of Columbus.

Final Average Compensation: Average annual Compensation received in the last 60 months prior to termination or retirement (or over entire period of employment if fewer than 60 months).

Benefit Formulas and Eligibilities

Participants Hired Prior to January 1, 2022

Participants hired prior to January 1, 2022 will receive benefits under the traditional annuity benefit formula. Any such participants who terminate and are subsequently rehired with less than a one-year period of severance will

continue to accrue benefits under the traditional annuity benefit formula. All other participants will accrue cash balance benefits as described later in this section.

Normal Retirement

Normal Retirement Benefit: A member's Normal Retirement Date will be the first of the month coinciding with or next following the later of his 65th birthday and the fifth anniversary of his date of entry into the plan.

Normal Retirement Benefit: For participants with service on or after January 1, 2006, the accrued benefit is the sum of (i), (ii) and (iii) as follows:

i. 1.0% of Final Average Compensation multiplied by Benefit Service up to 10 years

ii. 1.2% of Final Average Compensation multiplied by Benefit Service over 10 years but not over 30 years

iii. 1.3% of Final Average Compensation multiplied by Benefit Service over 30 years but not over 40 years

Notwithstanding the above, accrued benefits earned in other Knights of Columbus qualified plans are offset in determining the benefits obligated by this plan.

The maximum salary used to determine Plan benefits is limited as required by Internal Revenue Code (IRC) §401(a)(17). The limit for 2025 is $350,000. The maximum benefit used to determine Plan benefits is limited as required by IRC §415(b). The limit for 2025 is $280,000.

Deferred Retirement

Deferred Retirement Benefit: Benefit determined under same formula as for normal retirement, based on Years of Service and Average Monthly Compensation to actual retirement date. Suspension of benefits provisions apply at Normal Retirement Age, and benefits payable subsequent to age 70½ are subject to an actuarial increase.

Early Retirement

Early Retirement Date: The first day of any month following age 55 with a Period of Vesting Service of at least 15 years.

Early Retirement Benefit: A pension computed in the same manner as the Normal Retirement Pension, but reduced by 0.5% for each month by which the benefit commencement date precedes the participant's Normal Retirement Date.

Disability

Disability Benefits: Disability benefits are provided under a separate plan ("Agents' Disability Plan of the Order"). This plan does not provide disability benefits.

Vested Termination

Vested Termination Eligibility: 100% vested if a participant's employment terminated for any reason other than by death, retirement or disability after having been credited with a Period of Vesting Service of at least five years. Participants are 100% vested upon attainment of Normal Retirement Age.

Vested Termination Benefit: a vested participant who terminates employment with a Period of Vesting Service of at least five years may elect to commence payment of their accrued benefit at any time on or after attaining age 55. Benefits are reduced by 0.5% for each month by which the benefit commencement date precedes the participant's Normal Retirement Date.

Participants Hired On or After January 1, 2022

Participants hired on and after January 1, 2022 will receive cash balance benefits. The cash balance account is equal to the sum of all pay credits and interest credits earned.

Cash Balance Account

Pay Credits: Annual Pay Credits are equal to 5% of total compensation, and are credited annually on December 31.

Interest Credits: Annual Interest Credits are provided each December 31, and are equal to 4.00% of the cash balance account on the prior December 31.

Vested Termination

Vested Termination Eligibility: 100% vested if a participant's employment terminated for any reason other than by death, retirement or disability after having been credited with a Period of Vesting Service of at least three years.

Vested Termination Benefit: a vested participant who terminates employment may elect to commence payment of their cash balance account at any time on or after termination.

All Participants

Preretirement Death Benefit

Preretirement Death Benefit Eligibility: For married participants: 100% vested under the Plan, married for at least one year, survived by the Spouse, and no waiver of coverage in effect. For unmarried participants: married for less than one year (or not survived by the Spouse), dies while active and eligible to receive benefits, with a current in-force election to have survivor annuity coverage for a designated non-spouse beneficiary.

Preretirement Death Benefit for Married Participants: For death on or after reaching Early Retirement Eligibility, the surviving spouse or designated non-spouse beneficiary is entitled to 100% of a benefit determined as if the participant had retired one day prior to death and elected the Qualified Joint and 100% Survivor Annuity.

For death prior to reaching Early Retirement Eligibility, the surviving spouse or designated non-spouse beneficiary is entitled to 100% of a benefit determined as if the participant had separated from service on the date of death, survived to the earliest retirement date, elected the Qualified Joint and 100% Survivor Annuity, and died on the next day.

For cash balance benefits, the pre-retirement death benefit to the surviving spouse is the cash balance account, payable as a lump sum or as a life annuity.

Preretirement Death Benefit for Unmarried Participants: For death on or after reaching Early Retirement Eligibility, the designated non-spouse beneficiary is entitled to a benefit determined as if the participant had retired one day prior to death and elected the Joint and Survivor Annuity. The continuation percentage of the Joint and Survivor Annuity is based on the participant's prior election.

Forms of Payment

Normal Form of Benefit: Single Life Annuity for single participants; 100% Joint and Survivor Annuity for married participants. A participant that is married must take the benefit in the form of a 100% Joint and Survivor annuity unless the spouse provides written consent for a waiver.

Optional Forms of Benefits: Benefits may be received in one of the following actuarially equivalent forms:

- Single Life Annuity
- 50% Joint and Survivor Annuity
- 66 2/3% Joint and Survivor Annuity
- 100% Joint and Survivor Annuity
- Lump Sum

All participants are eligible to receive benefits as a single life annuity. Participants may elect a Joint and Survivor Annuity if a spouse, child or named dependent is designated as the joint annuitant.

Lump sum payments are available as follows:

- Traditional benefits with an actuarial equivalent value of $1,000 or less will be paid as a lump sum
- Traditional benefits with an actuarial equivalent value between $1,000 and $5,000 can be paid as a lump sum to a participant or beneficiary, if elected
- Traditional benefits with an actuarial equivalent value over $5,000 may not be paid as a lump sum
- All cash balance benefits may be paid as a lump sum

The Single Life Annuity form of benefit is converted to a Joint and Survivor Annuity form of benefit based on the Plan's definition of Actuarial Equivalence, which is the greater of factors generated by (a) 3.5% compounded annually and the 1965 Projected Annuity Table of Mortality (GA 1951 projected by Scale C to 1965), and (b) the assumptions used for lump sums under the traditional benefit plan as described in the next paragraph. For calculations under (a), the beneficiary's actual age is reduced by five years to determine the factor; no adjustment is made to the participant's age. All ages are as of last birthday.

For lump sums under the traditional benefit plan, the applicable IRC §417(e)(3) mortality table and the first, second, and third segment rates under IRC §417(e) for November of the preceding year are used.

Part V - Actuarial Methods and Assumptions

Summary of Actuarial Methods

Valuation Date: January 1, 2025

Actuarial Methods

Attribution Method: The valuation of retirement benefits is determined under the "Unit Credit Actuarial Cost Method", as prescribed by the Pension Protection Act of 2006 (PPA). Under this method, the regular Plan cost arises from two sources: a Target Normal Cost and an Amortization Payment for the Funding Target Shortfall.

The Funding Target is determined as the actuarial present value of benefits as of the valuation date. The Shortfall is equal to the Funding Target less the Plan Assets (with adjustments for credit balances). The amortization payment for a plan year is the aggregate total of the Shortfall Amortization payments, which are based on amounts necessary to amortize the additional Shortfall of each year in level annual installments over a 15-year period.

The Target Normal Cost is the actuarial present value of benefits expected to accrue during the valuation year plus anticipated administration expense, if any.

Asset Valuation Method: 2 year (3-point) Average Value of Assets as permitted under IRS Notice 2009-22, not less than 90% nor greater than 110% of Market Value of Assets on the valuation date.

Other Methods

PBGC Variable Rate Premium Funding Target: Standard Premium Funding Target as elected by the Plan Sponsor for 2023 Pla year and thereafter.

Part V - Actuarial Methods and Assumptions

Summary of Actuarial Assumptions

ECONOMIC ASSUMPTIONS

Interest Rates:

The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the standard method, which was elected in 2023.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0–5 years)	5.07%	5.07%	4.65%
Segment 2 (5–20 years)	5.31%	5.33%	5.28%
Segment 3 (20+ years)	5.50%	5.36%	5.63%
Effective Interest Rate	5.38%	5.33%	5.40%

Rationale for assumption: This assumption is a prescribed assumption, set by the Internal Revenue Code Section 430. The sponsor has elected to utilize a 4-month look-back, with rates averaged over a 24-month period, limited to applicable minimum and maximum values in accordance with funding stabilization rules, subject to ARPA Corridor. These rates are utilized for purposes of calculating the Plan's Funding Target and Target Normal Cost for minimum funding purposes under ERISA and related tax codes.

FASB ASC Topic 960 Discount Rate and Expected Return on Assets:

Assumption: 6.75% compounded annually. This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses and including inflation (CPI) of 2.25% as indicated below. It is based on the plan's investment allocation as of December 31, 2024.

Rationale for assumption: In developing the expected return on assets assumption, we reviewed the Plan's actual asset allocation along with forward-looking data such as projections of inflation and total return growth. Mean returns, standard deviations and correlations between investment categories were determined and used in the investment return assumption.

CPI:

Assumption: 2.25% compounded annually. This assumption represents an estimate of future experience and is based in part on observations of estimates inherent in market data.

Rationale for assumption: We considered historical and projected rates for this assumption. The assumption reflects relevant economic data as of the measurement date and represents our current best estimate of future experience.

Salary Increases:

Assumption: 3.00% compounded annually.

Rationale for assumption: The assumption was based on discussions with company management and their future expectations.

Currency Exchange Rate:

Assumption: The rate used is the closing rate in effect on the last business day of the prior year. The closing rate in effect on December 31, 2024 was $1 Canadian = $0.6948 U.S.

Rationale for assumption: The closing rate in effect on the last business day of the year provides the best estimate of future experience.

Administrative Expenses:

Assumption: None.

Rationale for assumption: All expenses are paid outside of the pension trust.

DEMOGRAPHIC ASSUMPTIONS

Mortality:

ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium:

Assumption: The generational mortality tables as promulgated by the IRS for plan years beginning in 2024.

Rationale: The mortality assumption is the only available standard tables permitted by the IRS for PPA funding for big plans.

Change in assumptions: Mortality tables were updated from the statutory tables applicable for 2023 to the statutory tables applicabe for 2024.

.

FASB ASC Topic 960:

Assumption: PRI-2012 Total Dataset Employee/Retiree Amount-Weighted Mortality Tables projected from 2012 with improvement scale MP-2021, males and females. For disabled participants, the PRI-2012 Total Dataset Disabled Amount-Weighted Mortality table projected from 2012 with improvement scale MP-2021.

Rationale for assumption: The plan is not large enough to develop a credible mortality table based exclusively on plan experience. We have relied on the above mentioned published mortality tables in which credible mortality experience was analyzed.

Part V - Actuarial Methods and Assumptions

Withdrawal Rates:

Assumption:

For the first five years of service, withdrawal rate is 20% per year.

After five years of service, sample rates are as follows.

Age	Annual Rate
20	14.9%
25	9.9%
30	6.9%
35	4.9%
40	2.8%
45	1.7%
50	0.4%
55 and over	0.0%

Rationale for assumption: This assumption is based on prior experience study.

Retirement Rates for Active Participants:

Assumption:

Once eligible for retirement, all active participants are assumed to retire at the following rates.

Age	Annual Rate
55-60	2.0%
61	5.0%
62	20.0%
63-64	12.0%
65-66	30.0%
67 and over	100.0%

Rationale for assumption: This assumption is based on prior experience study.

Attachment to 2025 Schedule SB (Form 5500)

Part V - Actuarial Methods and Assumptions

Retirement Rates for Terminated Vested Participants:

Assumption: Once eligible for retirement, all terminated vested participants with benefits under the traditional annuity benefit formula are assumed to receive their benefit at Normal Retirement Date; all terminated vested participants with benefits under the cash balance benefit formula are assumed to receive their benefit at the following rates:

Age	Annual Rate
<62	10.0%
62	20.0%
63-64	10.0%
65 and over	100.0%

Rationale for assumption: Assumption with regard to the traditional benefits is based on prior experience study and the assumption with regard to the cash balance benefits is based on our review of other Cash Balance Plan experience with similar demographic characteristics.

Benefit Commencement Date for Preretirement Death Benefit:

Assumption: The earliest date the participant would have been first eligible for retirement.

Rationale for assumption: This assumption represents the best estimate of future experience.

Beneficiary:

Assumption: 85% of participants assumed to be married with females 3 years younger than males.

Rationale for assumption: This assumption represents the best estimate of future experience.

Form of Payment:

Assumption: For Traditional benefits, participants are assumed to elect Single Life Annuity. For Cash Balance benefits, participants are assumed to elect Lump Sum.

Rationale for assumption: This assumption represents the best estimate of future experience.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
