REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Trustees
ABB Inc. Pension Plan of Fischer & Porter Company

Scope and nature of the ERISA Section 103(a)(3)(C) audit
We have performed audits of the financial statements of ABB Inc. Pension Plan of Fischer & Porter Company (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Grant Thornton LLP is a U.S. member firm of Grant Thornton International Ltd (GTIL). GTIL and each of its member firms are separate legal entities and are not a worldwide partnership.

Basis for opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s responsibilities for the audit of the financial statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTE 1 - PLAN DESCRIPTION

The following brief description of the ABB Inc. Pension Plan of Fischer & Porter Company (the Plan) is provided for general information purposes. Participants should refer to the Plan document for more complete information.

The Plan is a noncontributory defined benefit plan established to provide retirement benefits for eligible employees of Warminster, PA Facility of ABB Inc. (the Company or Employer), the Plan Sponsor. Employees are eligible to participate in the Plan when they attain age 21 and complete one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective December 31, 1994, the pension benefits for salaried and nonunion hourly employees participating in the Plan were frozen at the level of benefits earned by those employees through that date, thereby freezing subsequent benefit accruals. Effective April 30, 1995, eligibility by union employees was frozen.

In March 2025, the Company ceased operations at its Warminster, Pennsylvania facility. Approximately 40 bargained employees at that location were the sole active participants in Part D of the Plan. As a result of the facility closure and related employment terminations, there are no longer any active participants in Part D.

Effective December 31, 2025, the Plan merged into the ABB Inc. Merged Pension Plan (the Merged Plan). Due to the merger, Plan assets totaling $31,858 were transferred to the Merged Plan effective December 31, 2025, and the Merged Plan assumed the Plan's benefit obligation estimated to be $32,204 as of December 31, 2025 (the Plan's most recent measurement date).

Benefits and Vesting

Plan participants are entitled to receive pension benefits at their normal retirement age of 65; however, based on age and years of service, they may elect early retirement. In addition, Plan participants born on or after July 1, 1949 may elect to postpone distribution of benefits until age 73 or upon termination of employment, if later. Benefits under the Plan are based on a flat benefit rate per year of service.

A participant is fully vested after completion of five years of service. The Plan offers multiple options for payment including lump-sum and various annuity options for participants, which have satisfied the vesting requirements under the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Master Trust invests in various types of investment securities and in various companies and/or funds within various markets. The Plan's interest in the Master Trust is exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments in the Master Trust, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions including interest rates and employee demographics, which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

Investment managers have been granted discretionary authority concerning all purchases and sales of investments in the ABB Inc. Master Trust (the Master Trust) within the investment guidelines established by the ABB Inc. U.S. Investment Subcommittee. The Plan's interest in the Master Trust and the interest in the net investment income or loss of the Master Trust has been reported to the Plan Administrator by BNY Mellon, the trustee of the Plan.

The Master Trust's investments are reported at fair value as described in Note 4. Purchases and sales of securities by the Master Trust are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded when earned. Net appreciation includes the Master Trust's gains and losses on investments bought, sold, and held during the year.

Funding Policy

The Company will make contributions to the Plan as necessary under accepted actuarial principles to meet the requirements of ERISA. Employer contributions are based on an actuarial determination, which provides for funding (a) the annual normal cost for the current year and (b) an amount necessary to amortize the unfunded accrued liability.

The Plan has satisfied the minimum funding requirements of ERISA for the years ended December 31, 2025 and 2024.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan, Master Trust, or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net asset available for benefits. In addition, certain investment-related expenses are included in change in plan interest in the Master Trust as presented in the accompanying statements of changes in net assets available for benefits.

Securities Lending

During 2025 and 2024, the Master Trust participated in BNY Mellon's securities lending program for securities held in custody at the trustee. These securities are loaned to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102% of the fair value of the loaned securities, and for non-U.S. securities, collateral shall not be less than 105% of the fair value of the loaned securities unless it is denominated in the same currency as the collateral, in which case it will be 102% of the fair value. Collateral received is invested in overnight cash deposits and U.S. government securities managed by BNY Mellon. The value of loaned securities in the Master Trust amounted to approximately $0 and $11,882 at December 31, 2025 and 2024, respectively. The realized gain from securities lending activities of approximately $26 and $57 for the years ended December 31, 2025 and 2024, respectively, is included as a component of the Master Trust's net appreciation in fair value of investments in Note 4.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or other beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment), are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as of December 31, 2025 and 2024 was determined by the Plan's actuary, Willis Towers Watson US LLC, using employee data supplied by the Company as of January 1, 2025 and 2024, and projected to the respective valuation date, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial cost method used to determine the actuarial present value of accumulated plan benefits is the unit credit method. A summary of the significant actuarial assumptions underlying the actuarial valuations as of December 31, 2025 and 2024 are as follows:

Mortality - 2025 and 2024: Based on the Retirement Plans - Collar specific Pri-2012 Mortality Table with Scale MP-2021 generational projection split between annuitants and non-annuitants and sex distinct.

Discount Rate: The assumed interest rates utilized to estimate accumulated plan benefits at December 31, 2025 and 2024 were 5.03% and 5.48%, respectively.

Retirement Age - 2025 and 2024: Age 62 for terminated vested employees and the following chart of rates applies for active employees:

Age	Percentage of Employees Expected to Retire Within One Year
55	5%
56-61	2
62	50
63-64	10
65-69	50
70	100%

The change in actuarial assumptions, for the year ended December 31, 2025, was due to a decrease in the interest rate to 5.03%. The change in actuarial assumptions, for the year ended December 31, 2024, was due to an increase in the interest rate to 5.43%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 - ABB INC. MASTER TRUST

The Plan's investments are held in the Master Trust, which is a master trust established for the investment of the assets of the Plan and other Company-sponsored retirement plans. Each participating plan has an undivided interest in the Master Trust.

The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

As of December 31, 2025 and 2024, the Plan had a 0.00% and 4.46% interest in the net assets of the Master Trust, respectively.

The following table presents the investments and other assets and liabilities for the Master Trust and the Plan's interest in the Master Trust as of December 31, 2025 and 2024:

NOTE 5 - INVESTMENTS CERTIFIED BY TRUSTEE

Certain information related to the Plan's interest in the Master Trust and the Master Trust's investments disclosed in the accompanying financial statements, including the Plan's interest in the Master Trust and the Master Trust's investments held at December 31, 2025 and 2024, and the Plan's interest in the net investment income of the Master Trust for the years ended December 31, 2025 and 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by BNY Mellon, the trustee of the Plan. The Master Trust investments and related activity as disclosed in Note 6 are also certified.

NOTE 6 - FAIR VALUE MEASUREMENTS

Investments held by the Master Trust are stated at fair value. The Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust's investments, are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.

Level 3 - Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The determination of where an asset falls in the hierarchy requires significant judgment. Plan management evaluates the hierarchy disclosures each year and changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. However, the Plan expects changes in classifications between levels will be rare. In such instances, the transfer is reported at the beginning of the reporting period.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024:

- Interest-bearing cash valued at Level 1 primarily consists of cash collateral deposits with clearing financial institutions.
- U.S. government securities valued at Level 1 are valued at the closing price reported on the active markets on which the individual securities are traded and securities valued at Level 2 are valued using pricing models maximizing the use of observable inputs for similar securities.
- Corporate bonds valued at Level 2 are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable section of issuers with similar credit ratings.
- Corporate stocks valued at Level 2 are valued using closing price reported on the inactive market.
- State and foreign bonds valued at Level 2 are valued using pricing models maximizing the use of observable inputs for similar securities.
- Collective trusts and partnership/joint venture interests are valued at net asset value (NAV) as the practical expedient and reported by the respective fund managers based upon the fair value of the underlying investments less liabilities.

The following table sets forth by level, within the fair value hierarchy, the assets at fair value of the Master Trust as of December 31, 2025:

	Master Trust Assets			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy:				
U.S. government securities	$ 24,464	$ 25,655	$ -	$ 50,119
Corporate bonds	-	320,697	-	320,697
Corporate stock	-	503	-	503
State and foreign bonds	-	14,925	-	14,925
Total assets in fair value hierarchy	$ 24,464	$ 361,780	$ -	386,244
Investments measured at NAV:				
Partnership/joint venture interests				128
Collective trusts				344,344
Total investments measured at NAV				344,472
Total assets, at fair value				$ 730,716

The following table sets forth by level, within the fair value hierarchy, the assets at fair value of the Master Trust as of December 31, 2024:

	Master Trust Assets			
	Level 1	Level 2	Level 3	Total
Investments in the fair value hierarchy:				
Interest-bearing cash	$ 877	$ -	$ -	$ 877
U.S. government securities	22,897	19,058	-	41,955
Corporate bonds	-	293,855	-	293,855
Corporate stock	-	487	-	487
State and foreign bonds	-	10,709	-	10,709
Collateral held under securities lending agreement	11,882	-	-	11,882
Total assets in fair value hierarchy	$ 35,656	$ 324,109	$ -	359,765
Investments measured at NAV:				
Partnership/joint venture interests				151,770
Collective trusts				204,621
Total investments measured at NAV				356,391
Total assets, at fair value				$ 716,156

In accordance with ASC 820, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in Note 4.

There were no significant transfers among investment levels during the years ended December 31, 2025 and 2024.

The following table summarizes investments measured at fair value based on the NAV per share practical expedient as of December 31, 2025:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Partnership/joint venture interests [(a)]	$ 128	$ -	Monthly	30-60 days
Collective trusts [(b)]	344,344	-	Monthly	31-60 days
	$ 344,472	$ -		

The following table summarizes investments measured at fair value based on the NAV per share practical expedient as of December 31, 2024:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Partnership/joint venture interests[(a)]	$ 151,770	$ -	Monthly	30-60 days
Collective trusts[(b)]	204,621	-	Monthly	31-60 days
	$ 356,391	$ -		

(a) The majority of the partnerships/joint venture interests are funds that have a fixed income investment strategy.

(b) The collective trust investments include an international equity fund and a U.S. market equity fund. The investment objective of the international equity fund is to seek capital appreciation through investments in a portfolio of securities issued by companies predominantly in companies contained in the MSCI EAFE Index. The investment objective of the U.S. market equity fund is to seek capital appreciation through investments in a portfolio of U.S. based small-, mid-, and large-cap growth and value stocks. As of December 31, 2025, the value of the U.S. market equity fund in the Master Trust amounted to $344,344. As of December 31, 2024, the value of international equity fund and U.S. market equity fund in the Master Trust amounted to $108,225 and $96,396, respectively.

NOTE 7 - PLAN TERMINATION AND PBGC MATTERS

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions set forth in ERISA. Upon termination of the Plan, each affected participant's accrued benefit as of the date of termination becomes fully vested to the extent funded. Under provisions of ERISA, if the Plan is terminated, the Company may be obligated to make termination payments to the Plan, and participants may be eligible for continuation of benefits under insurance provided by the Pension Benefit Guaranty Corporation (PBGC).

Refer to the Plan document for a detailed description of the order of allocation of Plan net assets among participants and beneficiaries of the Plan in the event of the termination of the Plan.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees that is adjusted periodically. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 8 - INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 7, 2014 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

Certain of the Master Trust's assets are invested in funds managed by the Trustee. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

NOTE 10 - SUBSEQUENT EVENTS

Plan management evaluated subsequent events through September 16, 2026, which is the date the Plan financial statements were available to be issued, and has concluded that there were no subsequent events requiring recognition or disclosure in these financial statements.

Schedule SB, Part V
Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

- Applicable month: September
- Interest rate basis: 3-Segment Rates

Interest rates	Reflecting Corridors	Not Reflecting Corridors
• First segment rate	5.07%	5.07%
• Second segment rate	5.31%	5.33%
• Third segment rate	5.50%	5.36%
• Effective interest rate	5.30%	5.29%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Annual rates of increase

- Compensation: N/A
- Future Social Security wage bases: N/A
- Statutory limits on compensation: N/A

Plan-related expenses $340,000

SCHEDULE SB ATTACHMENTS

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees

Mortality

- Healthy and disabled mortality rates

Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

Termination

Representative Termination rates not due to Disability, Retirement, and Mortality are as follows[1]:

Percentage retiring during the year	
Age	**Rate**
20	4.30%
30	2.70%
40	1.70%
50	1.10%
60	0.60%
70	0.10%

Disability

None[1].

[1] As a result of the planned Warminster plant closure in Q1 2025, it was assumed that all active participants are terminated during 2025. All participants are eligible for retirement as of that date and are assumed to exit through the retirement decrement and commence immediately.

SCHEDULE SB ATTACHMENTS

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire are shown below[2]:

Percentage retiring during the year	
Age	**Rate**
55	5.00%
56-61	2.00%
62	50.00%
63-64	10.00%
65 - 69	50.00%
70	100.00%

Benefit commencement dates for current employees

- Preretirement death benefit: For actives, the later of the date of death of the active participant or the date the participant would have attained early retirement eligibility. For terminated vested participants, the later of the date of death of the participant or the date the participant would have attained age 62.
- Deferred vested benefit: The later of termination of employment or age 62.
- Retirement benefit: Upon termination of employment.

Form of payment

Participants not yet in payment status are assumed to elect a single life annuity form of payment upon benefit commencement.

Percent married

For purposes of valuing the preretirement surviving spouse's benefit, 70% of eligible participants are assumed to be married.

Spouse age

Wife three years younger than husband.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month.

[2] As a result of the planned Warminster plant closure in Q1 2025, it was assumed that all active participants are terminated during 2025. All participants are eligible for retirement as of that date and are assumed to exit through the retirement decrement and commence immediately.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, plan-related expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued.

Sources of Data and Other Information

The plan sponsor through its third-party administrator (Alight), furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

- Applicable month: September
- Interest rate basis: 3-Segment Rates

Interest rates	Reflecting Corridors	Not Reflecting Corridors
• First segment rate	5.07%	5.07%
• Second segment rate	5.31%	5.33%
• Third segment rate	5.50%	5.36%
• Effective interest rate	5.30%	5.29%

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Annual rates of increase

- Compensation: N/A
- Future Social Security wage bases: N/A
- Statutory limits on compensation: N/A

Plan-related expenses $340,000

SCHEDULE SB ATTACHMENTS

Demographic Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees

Mortality

- Healthy and disabled mortality rates

Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

Termination

Representative Termination rates not due to Disability, Retirement, and Mortality are as follows[1]:

Percentage retiring during the year	
Age	**Rate**
20	4.30%
30	2.70%
40	1.70%
50	1.10%
60	0.60%
70	0.10%

Disability

None[1].

[1] As a result of the planned Warminster plant closure in Q1 2025, it was assumed that all active participants are terminated during 2025. All participants are eligible for retirement as of that date and are assumed to exit through the retirement decrement and commence immediately.

SCHEDULE SB ATTACHMENTS

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire are shown below[2]:

Percentage retiring during the year	
Age	**Rate**
55	5.00%
56-61	2.00%
62	50.00%
63-64	10.00%
65 - 69	50.00%
70	100.00%

Benefit commencement dates for current employees

- Preretirement death benefit: For actives, the later of the date of death of the active participant or the date the participant would have attained early retirement eligibility. For terminated vested participants, the later of the date of death of the participant or the date the participant would have attained age 62.
- Deferred vested benefit: The later of termination of employment or age 62.
- Retirement benefit: Upon termination of employment.

Form of payment

Participants not yet in payment status are assumed to elect a single life annuity form of payment upon benefit commencement.

Percent married

For purposes of valuing the preretirement surviving spouse's benefit, 70% of eligible participants are assumed to be married.

Spouse age

Wife three years younger than husband.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month.

[2] As a result of the planned Warminster plant closure in Q1 2025, it was assumed that all active participants are terminated during 2025. All participants are eligible for retirement as of that date and are assumed to exit through the retirement decrement and commence immediately.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, plan-related expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued.

Sources of Data and Other Information

The plan sponsor through its third-party administrator (Alight), furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Summary of Plan Provisions

Plan Provisions

The Plan was adopted on January 1, 1947 and amendments adopted through December 31, 2024 are reflected in these plan provisions.

Coverage and Participation

Any person employed for a regular fixed compensation for the Fischer & Porter Company who has attained age 21 and has completed one year of service. Benefits for non-union employees were frozen as of December 31, 1994.

The Plan was closed to new entrants on April 30, 1995.

Definitions

Accrued Benefits

The Accrued Benefit for union employees is equal to $35.00 per month for each year of Benefit Service.

The Accrued Benefit for non-union employees is equal to $19.00 per month for each year of Benefit Service through April 30, 1993, plus the greater of a cash balance account or a $19.00 multiplier, for Benefit Service from May 1, 1993 through December 31, 1994. There is an additional minimum benefit for non-union active vested employees who were age 51 and older and met the Rule of 70 on January 1, 1993. It is equal to $1 times all benefit service for active employees as of May 1,1993 plus an additional $1 times all benefit service if active on May 1, 1994, offset by one half of the actuarial equivalent of cash balance account. This cash balance account was converted into an annuity. Employees received a one-time only banked vacation amount converted into an annuity and added to the pension plan. The annuity amount attributable to the cash balance account and the banked vacation amount may be payable as a lump sum.

Eligibility for Benefits

Normal retirement

Last day of the month in which age 65 is attained

Early retirement

Retirement before Normal Retirement Date and on or after both attaining age 55 and completing five years of vesting service

SCHEDULE SB ATTACHMENTS

Postponed retirement	Retirement after Normal Retirement Date
Disability	Permanent and total disability prior to Normal Retirement Date
Death benefits	Death while eligible for normal, early, postponed, deferred vested retirement benefits or participants in retirement, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement

The Accrued Benefit is payable upon retirement at age 65.

Early retirement

The actuarial equivalent of the Accrued Benefit payable at age 65 is payable upon retirement at age 55 through age 61. There is no reduction for retirement on or after age 62. Early retirement factors are based upon UP84 mortality basis and a 7.00% interest rate. The percentage of the Accrued Benefit payable prior to age 65 is as follows:

Retirement Age	Early Retirement Percentage
62 - 65	100.00%
61	64.53%
60	58.19%
59	52.59%
58	47.62%
57	43.21%
56	39.27%
55	35.75%

Postponed retirement

An active participant who retires after the participant's normal retirement date will receive a retirement benefit equal to the greater of:

- The actuarial equivalent of the benefit earned though the participant's normal retirement date, or
- The benefit based on the participant's years of service and the benefit rate in effect at the participant's actual retirement date.

SCHEDULE SB ATTACHMENTS

Deferred vested termination	Upon termination of employment after 5 years of Vesting Service (3 years of Vesting Service for the cash balance account) or after age 55, an employee will be entitled to his Accrued Benefit payable in full at age 65. The Member may elect commencement on or after age 55 payable in an actuarially reduced amount. There is no reduction for retirement on or after age 62.
Disablement	An employee who becomes disabled will receive the Accrued Benefit as of the date of Disablement. The Accrued Benefit for union and non-union employees will be payable at age 65. The Member may elect commencement payable in an actuarially reduced amount if commencement occurs before age 62. There is no reduction for retirement on or after age 62.
Death benefits	Death Benefits for Participant in Active Service In the event of the death of a vested employee prior to retirement, his surviving spouse will be entitled to 100% of the reduced accrued benefit as of the date of death, payable upon the later of the following: • The date of employee's death • The attainment of the employee's earliest retirement age There is a 0.0417% charge per month for this coverage for employees who terminated prior to August 23, 1984. Death Benefits for Retired Participants The retirement benefits described above are based upon election of a straight life form of payment. Actuarially equivalent optional forms are available.

Other Plan Provisions

Form of Payment	Normal forms of Payment • For Single participants pension benefits are paid as a life annuity. • For married participants pension benefit are paid as a Joint & Survivor annuity option. Forms of Payment in Lieu of Normal Forms • Joint & Survivor Options (50%, 75%, 100%). • Lump sum (cash balance account only).
