Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of the San Diego Gas & Electric Company Cash Balance Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of San Diego Gas & Electric Company Cash Balance Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for pension benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for pension benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF PLAN

The following brief description of the Plan is provided for general information purposes only. Participants in the Plan should refer to the Plan document for a more complete description of the Plan's provisions.

General—The Plan is a single-employer, noncontributory defined benefit pension plan covering substantially all employees of the Company. The Plan is subject to the provisions of ERISA. The Company's board of directors has appointed the Sempra P&B Committee to oversee and manage the operation and administration of the Plan as the Plan Administrator. Sempra is the parent company of the Company. The Bank of New York Mellon/BNY Mellon, N.A. serves as the Trustee of the Plan, and Willis Towers Watson US LLC serves as the recordkeeper of the Plan.

Pension Benefits—The Plan is noncontributory by participants, but is based on accumulated amounts in a hypothetical account maintained for each participant. Each participant's account receives a monthly credit of 7.5% of eligible monthly earnings, as defined in the Plan document, and interest based on the Interest Crediting Rate as of each previous November. Employees with at least three years of service are vested in their pension benefits. If an employee terminates before rendering three years of service, his or her rights to receive benefits are forfeited. Upon retirement or termination, participants may elect to receive their cash balance benefits in the form of a lump sum, a single life annuity, or a joint and survivor annuity. The Plan was amended to provide benefits under these provisions for non-represented and for represented participants as of July 1, 1998 and November 1, 1998, respectively. In addition, participants with a deferred vested benefit in the Plan, that had not commenced payment of their benefit and had not elected to receive a lump-sum distribution as of September 1, 2018, can elect to receive their benefit in the form of a lump-sum distribution.

Transition Provisions—Initial account balances were established for each non-represented and represented participant based on the present value of the participant's accrued benefit as of June 30, 1998 and November 1, 1998, respectively. Certain participants received an additional increase in their initial opening balance if the benefits projected over the next 10 years would be higher under the provisions of the Plan before the cash balance amendments. In addition, the accounts of non-represented and represented employees who were participants in the Plan as of July 1, 1998 and November 1, 1998, respectively, with fewer than 30 years of service, are credited with interest at the Interest Crediting Rate plus an additional 2%. After completing 30 years of service, participants no longer receive the additional 2% interest. The accounts of participants who were age 40 or older with fewer than 15 years of service as of the amendment dates discussed above, receive an additional contribution of 2% of eligible earnings, in addition to the 7.5% credit, until they complete 15 years of service.

Grandfather Provisions—Through June 30, 2003, a participant's benefit under the Plan was not less than the benefit that would have been earned through the date of calculation under the provisions of the prior plan in which the participant previously participated. The benefit calculated under the prior plan is based on accrued final average earnings and service, as defined in the Plan document. Such calculation derives a lifetime monthly annuity at age 65. The participant may elect an immediate annuity or payout upon meeting early retirement eligibility (after attaining age 55 and the required years of service as specified in the Plan document), the amount of which is adjusted with early retirement factors as defined in the Plan

document. On or after July 1, 2003, a participant's benefit under the Plan is not less than the present value of the accrued grandfathered benefit, frozen as of June 30, 2003. Participants with such benefits may elect to receive them in the form of several joint and survivor annuities, a single life annuity, a level income annuity, a 10-year certain and life annuity, or a lump sum.

FBPA—Effective March 1, 2007, the Plan was amended to include the FBPA. Generally, the participants eligible for this account were non-represented active employees as of March 1, 2007, have not been terminated and rehired since that date, and had an opening initial account balance established on July 1, 1998. The amended benefit is based on the greater of the cash balance account balance or the sum of (i) the present value of the accrued grandfathered benefit, frozen as of June 30, 2003, calculated using the grandfathered plan's formulae and factors and (ii) the FBPA balance. The FBPA balance is the sum of the initial opening balance, which is the participant's cash balance account activity from July 1, 2003 through February 28, 2007, and any cash balance account activity to the date of distribution of the account to the participant.

Transfer of Positions—Effective January 1, 2012, the accounts of eligible employees with fewer than 30 years of service who were participants in the Plan as of July 1, 1998 and transfer employment to an affiliated company are credited with interest at the Interest Crediting Rate plus an additional 2%. These participants stop receiving the additional 2% interest beginning the month in which the earlier of the following occurs: (i) the participant completes 15 years of service with the affiliated employer following the date of transfer or (ii) the participant completes a combined 30 years of service at the Company and an affiliated company.

Effective June 30, 2014, the Plan was amended to provide an enhanced pension benefit to certain employees of the Company employed as of or after that date and who transfer or have transferred to the Company from a represented position at Southern California Gas Company, an affiliate, after June 30, 1998.

Disability and Death Retirement Benefits—Participants who become totally disabled are eligible for disability benefits after reaching age 35 and completing 10 years of participation in the Plan. The disability benefit is the greater of the participant's primary social security benefit or the benefit payable at the time the disability starts. Benefits continue through disability, but not beyond age 65 (the normal retirement date). For participants with at least five years of service who die before payment of benefits has begun, his or her beneficiary is entitled to the value of the participant's account. Effective January 1, 2008, the preretirement death benefit for non-represented grandfathered participants employed as of January 1, 2008 was enhanced to be the same value that the participant would receive at separation from service. Effective October 1, 2012, the preretirement death benefit for represented participants employed on or after that date was enhanced to be the value of the lump sum benefit that the participant would receive at separation from service.

Effective January 1, 2023, the Plan was amended to no longer provide disability benefits; however, participants who already were receiving disability benefits as of that date continue to receive such benefits in accordance with the terms of the Plan.

Pension Provision—Prior to July 1, 1998 for non-represented employees and November 1, 1998 for represented employees, participants with at least five years of service, as defined in the Plan document, were entitled to monthly pension benefits at normal retirement age (65) based on his or her average final compensation and years of participation in the Plan. Generally, the Plan permitted early retirement upon attaining age 55. Early retirement benefits were based on normal retirement benefits reduced by a factor

based on the participant's age at retirement. Participants could elect to receive their pension benefits in the form of a joint and survivor or life annuity.

Funding Policy—The Company's contributions are made in amounts sufficient to fund pension costs on a current basis, which are actuarially determined using the projected unit credit cost method, and in accordance with the Company's current agreement with the California Public Utilities Commission. Additionally, the Sempra Plan Funding Committee may approve discretionary contributions to the Plan in excess of the Plan's minimum funding requirements, and may elect to allocate current year contributions to the Plan to a prior plan year in accordance with the provisions of the IRC (see Note 9). Under U.S. GAAP, in 2025, the Company made contributions of $48,560,000 to the Plan. The Plan met the minimum funding requirements of ERISA in 2025.

Transfers—Employees transfer between the Company and related entities for various reasons, and this results in the transfer of participant assets and related benefit obligations from one plan to another. In 2025, net transfers of assets of active employees to related plans of $1,343,000 included in the statement of changes in net assets available for pension benefits consisted entirely of net transfers to and no net transfers from related plans.

401(h) Account—The Plan includes a health benefit component, in addition to normal retirement benefits, to fund a portion of the postretirement benefit obligations for retirees and their beneficiaries in accordance with Section 401(h) of the IRC. A separate 401(h) account has been established and maintained in the Plan for the net assets related to the health benefit component and is held in the Sempra Master Trust (see Note 3). In accordance with IRC Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. Any assets transferred to the 401(h) account from the Plan in a qualified transfer of excess Plan assets (and any income allocable thereto) that are not used during the plan year must be transferred back to the Plan.

The related obligations for health benefits are not included in the Plan's obligations. Accordingly, the liability for amounts related to obligations of 401(h) account reflected in the accompanying statements of net assets available for pension benefits only represents the fair value of investments presently held by the Plan on behalf of the San Diego Gas & Electric Company Retiree Combined Group Health and Welfare Program, net of accruals. Plan participants do not contribute to the 401(h) account. Employer contributions or qualified transfers to the 401(h) account are determined annually by actuarial study and are at the discretion of the Company.

Plan Termination—Although the Company has not expressed any intent to do so, it has the right under the Plan, subject to the provisions of ERISA and contractual obligations, to change or discontinue any or all parts of the Plan or to terminate the Plan at any time.

In the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits for former employees or their beneficiaries who have been receiving benefits for at least three years equal to the lowest benefit level in that three-year period, and for those employees who were eligible to retire during that same three-year period and would have been receiving annuity benefits (if they had retired), calculated at the lowest benefit formula under the Plan during the five years prior to termination of the Plan

2. Other vested benefits insured by the PBGC, a U.S. government agency, up to the applicable limitations

3. All other vested benefits (i.e., vested benefits not insured by the PBGC)

4. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with U.S. GAAP.

Use of Estimates—The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties—As discussed in Note 3, the Plan invests in various investment instruments in the Sempra Master Trust. Investments, in general, are exposed to various risks and uncertainties, such as interest rate risk, credit risk, and market risk. Market risks include global events which could impact the value of investments, such as a pandemic or international conflict. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near-term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Investment Valuation and Income/Loss Recognition—The Plan's investments consist of an interest in the Sempra Master Trust and an investment in a group annuity contract which is held outside the Sempra Master Trust. The Plan's interest in the Sempra Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Sempra Master Trust. See Note 4 for descriptions of valuation methods. The Sempra Master Trust uses various derivative instruments to manage investment risk as discussed below. The group annuity contract is recorded at contract value, which approximates fair value, as discussed in Note 4.

Investment income related to the Plan's interest in the Sempra Master Trust is presented in Plan's interest in net investment income of the Sempra Master Trust in the statement of changes in net assets available for pension benefits and consists of net appreciation in the fair value of investments, dividend income and interest income. Net appreciation includes realized gains and losses on investments sold during the year and unrealized gains and losses on investments held as of year-end. Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

Derivative Instruments—Plan management uses derivative instruments to manage the Sempra Master Trust investments' exposure to interest rate, foreign currency exchange rate, market, credit, and inflation risks. Derivative instruments are recorded at fair value, which is derived from an underlying security or index. They may include futures, swaps, options, forwards, structured notes, and stripped securities. None of the derivative instruments in the Sempra Master Trust are designated as hedges for accounting purposes.

The Sempra Master Trust's derivative instruments are included in Plan's interest in the Sempra Master Trust on the statements of net assets available for pension benefits. Within the Sempra Master Trust (see Note 3), the foreign currency exchange contracts are recorded in receivables—due from broker and liabilities—due to broker, and all the other derivative instruments are disclosed in investments—derivative instruments. The Plan's share of the Sempra Master Trust's derivative gains and losses is included in Plan's interest in net investment income of the Sempra Master Trust on the statement of changes in net assets available for pension benefits and located in the summary of the Sempra Master Trust's net investment income in Note 3 in net appreciation in fair value of investments.

Benefit Payments—Benefit payment annuities are paid monthly, and lump sum benefit payment distributions are paid when due by the Plan. In both cases, benefit payments to participants are recorded when paid.

Administrative Expenses—Administrative expenses of the Plan are paid by the Plan as provided in the Plan document. The Plan Sponsor provides accounting and other administrative services to the Plan at no charge. Administrative expenses not paid by the Plan are paid by the Plan Sponsor.

Subsequent Events—Subsequent events were evaluated through September 24, 2026, the date the financial statements were available to be issued.

3. INVESTMENT IN SEMPRA MASTER TRUST

The Sempra Master Trust was established by Sempra and is administered by the Trustee. Use of the Sempra Master Trust permits the commingling of the trust assets of this and other similar employee benefit plans sponsored by Sempra or an affiliate for investment and administrative purposes.

The Plan's net assets are held in a trust account with the Trustee. Its investments consist of both an undivided interest in a commingled investment account in the Sempra Master Trust (commingled account) and a divided interest in the Sempra Master Trust for the exclusive benefit of the Plan (non-commingled account) (see Notes 4 and 7). The Plan also has an investment in a group annuity contract which is held outside the Sempra Master Trust (see Note 4).

As of December 31, 2025 and 2024, the Plan's approximate interest and the Plan's 401(h) account's approximate interest in the total net assets of the Sempra Master Trust were as follows (dollars in thousands):

	December 31, 2025		December 31, 2024	
	Percentage	Amount	Percentage	Amount
Plan's interest [a][b]	21.7 %	$ 805,893	22.5 %	$ 772,487
Plan's 401(h) account interest [a]	2.0 %	75,826	1.9 %	64,371
Total	23.7 %	$ 881,719	24.4 %	$ 836,858
Net assets of the Sempra Master Trust		$ 3,718,178		$ 3,431,805

[a] Amounts include the Plan's commingled account and non-commingled account.

[b] Amounts exclude the Plan's investment in the group annuity contract, which is held outside the Sempra Master Trust, of $134,000 and $164,000 at December 31, 2025 and 2024, respectively.

The value of the Plan's interest in the Sempra Master Trust is based on the beginning of year value of the Plan's interest in the Sempra Master Trust, plus actual contributions and net earnings of the Sempra Master Trust, less actual benefit payments. Contributions and benefit payments are allocated on a specific identification basis to the plans.

Net earnings include interest income, dividend income, and net appreciation in fair value of investments (representing net investment income of the Sempra Master Trust), net of investment management, custodial, accounting, and actuarial expenses. Net investment income, excluding the non-commingled accounts, is allocated monthly on a pro rata basis using the percentage that the net assets of each plan's respective commingled account bears to the net assets of the commingled investment account in the Sempra Master Trust. Net investment income for the non-commingled accounts is retained within the respective non-commingled accounts.

Expenses are allocated to the plans in the following order: (1) expenses specifically identifiable to each plan, then (2) for the commingled accounts, monthly on a pro rata basis using the percentage that the net assets of each plan's respective commingled account bears to the net assets of the commingled investment account in the Sempra Master Trust.

The net assets of the Sempra Master Trust as of December 31, 2025 and 2024 are summarized as follows (dollars in thousands):

	Sempra Master Trust		Plan's Interest in the Sempra Master Trust	
	December 31,		December 31,

4. FAIR VALUE MEASUREMENTS—SEMPRA MASTER TRUST

Plan management applies recurring fair value measurements to certain assets and liabilities. "Fair value" is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). A fair value measurement reflects the assumptions market participants would use in pricing an asset or liability based on the best available information. These assumptions include the risk inherent in a particular valuation technique (such as a pricing model) and the risks inherent in the inputs to the model.

The fair value hierarchy used by Plan management prioritizes the inputs used to measure fair value, with the highest priority given to observable inputs and the lowest priority given to unobservable inputs as follows:

Level 1—Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. The investments in this category include interest-bearing cash, equity securities, U.S. government and government agency securities, investments in registered investment companies such as mutual funds, and exchange-traded derivatives.

Level 2—Pricing inputs are other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. Level 2 includes those financial instruments that are valued using models or other valuation methodologies. These models are primarily industry-standard models that consider various assumptions, including:

- time value
- current market and contractual prices for the underlying instruments
- volatility factors
- other relevant economic measures

Substantially all these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace. The investments in this category include equity securities, U.S. government and government agency securities, foreign government bonds, municipal bonds, corporate bonds, investments in registered investment companies such as mutual funds, and non-exchange-traded derivatives such as interest rate instruments and over-the-counter forwards and options.

Level 3—Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value from the perspective of a market participant. There were no investments classified as Level 3 in the Sempra Master Trust as of December 31, 2025 or 2024.

Investments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies and assumptions used to estimate the fair values of the investments in the Sempra Master Trust:

Interest-bearing Cash—Interest-bearing cash is valued at cost, which approximates fair value, and is classified within Level 1 of the fair value hierarchy.

Equity Securities—Equity securities include common and preferred stocks. They are generally valued using quoted prices listed on nationally recognized securities exchanges and are classified within Level 1 or Level 2 of the fair value hierarchy.

Fixed Income Securities—Fixed income securities include U.S. government and government agency securities, foreign government bonds, municipal bonds, and corporate bonds. Certain fixed income securities are valued at the closing price reported in the active market in which the security is traded. Such investments are classified within Level 1 of the fair value hierarchy. When quoted prices are not available for identical or similar securities, the security is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks. Certain high yield fixed-income securities are valued by applying a price adjustment to the bid side to calculate a mean and ask value. Adjustments can vary based on maturity, credit standing, and reported trade frequencies. The bid to ask spread is determined by the investment manager based on the review of the available market information. Such investments are classified within Level 2 of the fair value hierarchy.

Registered Investment Companies—Investments in mutual funds sponsored by a registered investment company are valued based on exchange listed prices. Where the value is a quoted price in an active market, the investment is classified within Level 1 of the fair value hierarchy. Investments in certain fixed income securities are valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks for the remaining fixed income securities. Such investments are classified within Level 2 of the fair value hierarchy.

Derivative Instruments—Futures contracts that are publicly traded in active markets are valued at closing prices as of the last business day of the year. Forward currency contracts are valued at the prevailing forward exchange rate of the underlying currencies, and unrealized gains and losses are recorded daily. Fixed income futures and options are marked to market daily. Equity index future contracts are valued at the last sales price quoted on the exchange on which they primarily trade. Derivative instruments are classified within Level 1 or Level 2 of the fair value hierarchy.

Common/Collective Trusts—Investments in common/collective trust funds are valued based on the NAV of units owned, which is based on the current fair value of the funds' underlying net assets. The NAV, as provided by the trustee of the fund, is used as a practical expedient to estimate fair value.

The valuation methods described above are intended to produce a fair value calculation that is indicative of net realizable value or reflective of future fair values. However, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy a summary of the Sempra Master Trust's investments and foreign currency exchange contracts measured at fair value on a recurring basis as of December 31, 2025 and 2024 (dollars in thousands):

Assets Held Outside the Sempra Master Trust—The Plan's investment of $134,000 and $164,000 in the group annuity contract at December 31, 2025 and December 31, 2024, respectively, is held outside the Sempra Master Trust. The group annuity contract is recorded at contract value, which approximates fair value.

The following table presents a reconciliation of the contract value of this investment, which approximates fair value, for the years ended December 31, 2025 and 2024 (dollars in thousands):

[a] The investments for which fair value is estimated based on the NAV have no unfunded commitments.

[b] These trusts discuss their investment strategies in their individual Forms 5500 (annual return/report of Employee Benefit Plan) filed with the Department of Labor.

[c] LGIMA Long Duration US Credit Fund consisted of investments in a diversified pool of long duration U.S. investment-grade assets with a goal of maximizing total return through a combination of income and capital appreciation. The fund liquidated its underlying investments and distributed the proceeds to investors in 2025 and has closed. The Sempra Master Trust recognized a $1,462 gain on the liquidation during the year ended December 31, 2025.

5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic benefit payments, including lump sum distributions, under the Plan that are attributable to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries, (ii) beneficiaries of employees who have died, and (iii) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits has been determined by the Plan's independent actuary as of December 31, 2025 and 2024, and is that amount which results from applying actuarial assumptions, which are reviewed by Plan management, to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the benefit information date and the expected dates of payment. The effect of plan amendments and changes in plan assumptions on accumulated plan benefits is recognized during the year in which such amendments and changes in plan assumptions become effective. As of January 1, 2026, no amendments or changes in assumptions to the Plan became effective that would have changed accumulated plan benefits as of December 31, 2025.

The following are the significant actuarial assumptions used in determining accumulated plan benefits as of December 31, 2025 and 2024:

	December 31,	
	2025	**2024**
Discount rate	5.75%	5.75%
Mortality:		
Pre-retirement mortality	Pri-2012 Employees table with MP-2021 generational projection scale	
Post-retirement mortality	Sempra specific table, base year of 2021, with MP-2021 generational projection scale from 2021	
Weighted average retirement age	61	63
Weighted average long-term rate of return on assets	5.75%	5.75%
Weighted average cash balance Interest Crediting Rate	4.70%	4.54%

In addition, for purposes of converting monthly annuities to a lump sum and converting cash balance accounts to monthly annuities, the 2026 IRC Section 417(e) mortality table with MP-2021 IRS 2024 Adjusted with Cap generational projection scale is used as of December 31, 2025 with interest based on the IRC Section 417(e) segment rates for November 2025. The 2025 IRC Section 417(e) mortality table with MP-2021 IRS 2024 Adjusted with Cap generational projection scale was used as of December 31, 2024 with interest based on the IRC Section 417(e) segment rates for November 2024.

In 2025, changes in the actuarial assumptions for retirement rates, termination rates, cash balance Interest Crediting Rate and interest rates for converting monthly annuities to a lump sum and converting cash balance accounts to monthly annuities most significantly contributed to the net increase in the actuarial present value of accumulated plan benefits of $11,155,000.

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2025 and 2024 is as follows (dollars in thousands):

	December 31,	
	2025	2024
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving benefits	$ 154,115	$ 147,521
Other participants	599,250	605,620
Total vested benefits	753,365	753,141
Non-vested benefits	3,355	6,288
Total actuarial present value of accumulated plan benefits	$ 756,720	$ 759,429

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2025 is as follows (dollars in thousands):

	Year Ended December 31, 2025
Actuarial present value of accumulated plan benefits—beginning of year	$ 759,429
Increase (decrease) during the year attributable to:	
Benefits accumulated	41,350
Actuarial experience losses (gains)	4,239
Interest due to a decrease in the discount period	43,159
Benefits paid	(101,803)
Assumption changes	11,155
Reduction of benefits due to net transfers of active employees between related plans	(809)
Net decrease	(2,709)
Actuarial present value of accumulated plan benefits—end of year	$ 756,720

6. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated April 14, 2021 that the Plan and the Sempra Master Trust were designed in accordance with the applicable regulations of the IRC. The Plan has been amended and restated since submitting the application for the determination letter to the IRS. Additionally, on an annual basis, the IRS publishes a Required Amendments List for individually designed plans that specifies changes in statutory and administrative requirements. The Company and Plan management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and that the Plan and the Sempra Master Trust continue to remain tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the information regarding the Plan and the Sempra Master Trust as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included in the Plan's financial statements that was prepared by or derived from information prepared by the Trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee for the Plan and the Sempra Master Trust that this information is complete and accurate (dollars in thousands):

Statements of Net Assets Available for Pension Benefits	December 31, 2025	December 31, 2024
Plan's interest in the Sempra Master Trust [(a)]	$ 806,433	$ 772,854
Net assets held in 401(h) account of the Sempra Master Trust	$ 75,826	$ 64,371

[(a)] Represents the amounts reported on the statements of net assets available for pension benefits. The amounts of the Plan's interest in the net assets of the Sempra Master Trust reported in Note 3 includes: (1) accrued administrative expenses necessary to present the net assets of the Plan and the Sempra Master Trust in accordance with U.S. GAAP, which are not part of the balances certified by the Trustee, and (2) the Net assets held in 401(h) account of the Sempra Master Trust.

Statement of Changes in Net Assets Available for Pension Benefits	Year Ended December 31, 2025
Plan's interest in net investment income of the Sempra Master Trust	$ 91,333

The Trustee certified all investment balances and investment information in Notes 3 and 4, excluding the classification of investments by level within the fair value hierarchy and the unfunded commitment, redemption frequency and other redemption restrictions, and redemption notice period of investments for which fair value is estimated based on the NAV in Note 4.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of a common/collective trust managed by The Bank of New York Mellon Corporation, an affiliate of the Trustee. Therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on the common/collective trust.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits at December 31, 2025 and 2024 as reported in the financial statements compared to the Form 5500 (dollars in thousands):

	December 31,	
	2025	2024
Net assets available for pension benefits per the financial statements	$ 806,027	$ 772,651
Employer contributions made in subsequent plan year and allocated to current plan year	—	5,000
Net assets held in 401(h) account of the Sempra Master Trust	75,826	64,371
Net assets available for benefits per the Form 5500	$ 881,853	$ 842,022

The net assets of the 401(h) account included in the Form 5500 are not available to pay pension benefits, but can be used only to pay retiree health benefits. Accordingly, they are reflected as 401(h) account assets with an offsetting liability in the accompanying financial statements.

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2025 as reported in the financial statements compared to the Form 5500 (dollars in thousands):

	Year Ended December 31, 2025			
	Amounts per Financial Statements	Employer Contributions Made in Current Plan Year, Allocated to Prior Plan Year	401(h) Account	Amounts per Form 5500
Employer contributions	$ 48,560	$ (5,000)	$ 11,929	$ 55,489
Plan's interest in net investment income of the Sempra Master Trust	91,333	—	7,877	99,210
Benefits paid	101,803	—	7,528	109,331
Administrative expenses	3,377	—	739	4,116
Net transfers of assets of active employees to related plans	(1,343)	—	(84)	(1,427)

Plan-related expenses included in target normal cost — A percentage of PPA funding target plus estimated PBGC premiums for the current year, rounded to the nearest $100,000. For 2025 and 2024, the percentage of PPA funding target was 0.15% for both years. The assumed plan-related expenses included in the 2025 and 2024 target normal cost are $1,800,000 for both years.

The return on assets shown above is net of investment expenses assumed to be paid from the trust.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from current market interest rates and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Inclusion date — The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees — It was assumed there will be no new or rehired employees.

Mortality

- Healthy/Disabled
  - For funding: Separate rates for non-annuitants based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments. The rates are then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years on or after 2024).

Disability

1987 Commissioner's Group Disability Table with 3-month elimination period. Rates are multiplied by a factor of 70%. A one-time recovery rate of 90% is assumed, and a 10% probability of permanent disability is assumed. Participants on disability are assumed to retire at the earlier of age 65 and 2 years from date of disability.

Sample rates per 1,000 before any adjustment:

	Age 25	Age 40	Age 55
Male	1.570	3.327	15.040
Female	2.041	5.024	11.354

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregard at-risk assumptions) the rates at which participants retire by age/points are shown below:

(1) Participants with grandfathered SoCalGas benefits - with 20 years of service as of January 1, 2007 - who are expected to have 90 points prior to age 62. Rates shown are for decrement prior to age 62. On or after age 62, rates are the same as table (3) below. Rates per 1,000:

Points [1]	Rates
Below 90	50
Above 90	175

(2) Other participants with grandfathered SoCalGas or SDG&E benefits with 20 years of service as of January 1, 2007. Rates per 1,000:

Age	Rates	Age	Rates
55 - 56	50	65 - 69	250
57 - 58	100	70+	1,000
59 - 64	200		

(3) All other participants. Rates per 1,000:

Age	Rates	Age	Rates
55 - 59	30	65 - 69	250
60 - 61	100	70+	1,000
62 - 64	150		

Weighted-average retirement age

Retirement rate tables (2) & (3) above produce a weighted-average retirement age of 63.

Assumed retirement age for former employees with vested deferred benefits

Age 58 or age as of valuation date, if later.

[1] Points are equal to age plus service.

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

- Preretirement death benefit — The later of the death of the active participant or eligibility for early retirement.
- Deferred vested benefit — Age 58 or age as of valuation date, if later.
- Disability benefit — Earlier of age 65 and 2 years from date of disability.
- Retirement benefit — Upon termination of employment.

Percentage of participants expected to elect lump sum distributions:

- Future distributions

Active participants	85%
Deferred vested participants	50%

- Form of annuity payments for those who do not elect lump sums — Single life annuity

Percent married — 85% of males; 40% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age — Wife three years younger than husband.

Plan compensation — Assumed plan compensation for the year beginning on the valuation date was determined as actual pensionable earnings for the prior year, increased by 5.0%.

At-risk assumptions — For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.

Timing of benefit payments — Annuity payments are payable monthly and lump sum payments are payable on date of decrement.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements, the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method could have a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Sempra and, based on that review, is not aware of any significant benefits required to be valued that were not. The plan pays small benefits (with a present value up to $5,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Source of Data and other information

The plan sponsor through its third-party administrator furnished participant data as of January 1, 2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Sempra, the following assumptions were made for missing or apparently inconsistent data elements:

- Missing date of birth: Depending on the status of the participant (i.e., Active Employee, Participants with Deferred benefits, Participants Receiving Benefits), average age of each valuation group is used for the assumed date of birth. For Alternate Payees, 3 years younger for male employees, and 3 years older for female employees.
- Missing benefit for Participants with Deferred Benefits and Participants Receiving Benefits: Average benefit of each group from the prior year's valuation is used as the assumed benefit amount. For Alternate Payees, a 50% factor is applied to the average benefit.
- Missing pensionable pay and pay rates: Averages of the actual pensionable pay and the pay rates are used as the assumed pay amounts.
- Retirees with Joint & Survivor (J&S) form of payment but missing Beneficiary's date of birth or sex code: Female beneficiaries are assumed 3 years younger, and male beneficiaries are assumed 3 years older. Beneficiary's sex code is assumed to be opposite to the participant's sex code.
- Retirees with the J&S form of payment but missing J&S percentage: 50% is assumed.
- Missing forms of benefit for retirees: 50% J&S benefit for former employees, single life annuity for alternate payees and beneficiaries.
- Missing cash balance accounts were estimated by rolling forward last know value with estimated pay from historical data files.
- Missing service values were estimated by rolling forward from last known value from historical data files.
- Missing prior plan benefits were assumed to be the last known value from historical data files.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash Balance Interest crediting rate

The plan credits interest to cash balance accounts using the 30-year Treasury rate equal to the rate in effect for the November prior to the plan year. Our long-term estimate of the 30-year Treasury rate is based on current conditions.

We believe that the selected assumption does not significantly conflict with what would be reasonable based on current conditions at the measurement date.

Annuity conversion rate

As required by IRC §430, annuity benefits are valued by converting accounts to annuities using the current IRC §430 interest rates so that the interest rates assumed are effectively the same as described above for the discount rate.

Rates of increase in:

- Compensation

Rates of increase in compensation were selected by the plan sponsor. Assumed compensation increases are based on a combination of: (1) annual experience study prepared by Willis Towers Watson which analyzes actual increases received by plan participants for the five-year period through the year prior to the valuation year, (2) the assumption used for the prior valuation, and (3) the plan sponsor's expectations of future increases.

We believe that the assumption chosen does not significantly conflict with what would be reasonable based on based on historical salary increase experience.

- Increases in statutory limits (CPI)

The assumed CPI of 2.50% is based on historical increases and long term expected levels.

We believe that the assumption chosen does not significantly conflict with what would be reasonable.

- Assumed return for asset smoothing

The assumed return used for asset smoothing for the year prior to the valuation is the same as that used for ASC 715 purposes, minus 25 basis points for differences between arithmetic and geometric returns and for admin related expenses paid from the trust, and not to exceed the third segment rate. We understand that the expected return on assets assumption reflects the plan sponsor's estimate of future experience for trust asset returns for the fiscal year, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions. The analysis was informed by analysis of historical data and real returns on the various classes of assets held by the trust.

SCHEDULE SB ATTACHMENTS

	Willis Towers Watson's determination that this assumption does not significantly conflict with what would be reasonable is informed by Willis Towers Watson's Expected Return Estimator model.
Plan-related expenses	As required by regulations, expected plan-related expenses are included in target normal cost. Plan-related expenses are estimated by determining the average expenses (excluding investment management fees and the PBGC premiums) paid from the trust over the preceding two years.

Assumptions Rationale - Significant Demographic Assumptions for Contributions

Mortality	Assumptions used are as prescribed by IRC §430(h).
Termination	Termination rates were chosen by the plan sponsor. Assumed termination rates are based on a combination of: (1) annual experience study prepared by Willis Towers Watson which analyzes actual terminations by active plan participants for the four-year period through the year prior to the valuation year, (2) the assumed rates used for the prior valuation, and (3) the plan sponsor's expectations of future terminations. Assumed termination rates differ by service because of observed differences in termination rates by service. We believe the assumptions selected do not significantly conflict with what would be reasonable.
Disability	Disability rates were chosen by the plan sponsor. Assumptions are based on a combination of (1) an experience study prepared by Willis Towers Watson analyzing the plan's experience from 2019 - 2023, and (2) annual consideration of whether any conditions have changed that would be expected to produce different results in the future. We believe the assumptions selected do not significantly conflict with what would be reasonable.
Retirement	Retirement rates were chosen by the plan sponsor. Assumed retirement rates are based on a combination of: (1) annual experience study prepared by Willis Towers Watson which analyzes actual retirements by active plan participants for the four-year period through the year prior to the valuation year, (2) the assumed rates used for the prior valuation, and (3) the plan sponsor's expectations of future retirements. Assumed retirement rates differ by age because of expected differences in retirement rates by age. We believe the assumptions selected do not significantly conflict with what would be reasonable.

SCHEDULE SB ATTACHMENTS

Benefit commencement date for deferred benefits:

- Preretirement death benefit

  Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

  We believe the assumptions selected do not significantly conflict with what would be reasonable.

- Deferred vested benefit

  Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. The difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

  We believe the assumptions selected do not significantly conflict with what would be reasonable.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

Assumed pay increases include a one-time increase of 0.5% across all age bands for progressing pay from 2024 to 2025, then revert back to same rates as shown in the salary scale table to project pay for 2026 and beyond.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430.

For plan reporting under ASC 960, the post-retirement mortality table was updated based on Sempra specific experience for the period from 2019 to 2023.

For plan reporting under ASC 960, the mortality table used to convert annuity to lump sum and cash balance to annuity was updated to the 2025 IRS 417(e) mortality table projected generationally with Scale MP-2021 IRS 2025 Adjusted with Cap.

The assumed retirement rates at which participants retire by age are updated based on experience during the four-year period ending in 2023.

The assumed lump sum election rates were updated based on experience during the four-year period ending in 2023.

SCHEDULE SB ATTACHMENTS

	Although not a change in assumption or method since there is no change in the method of determining the actual rate, the 30-year Treasury rate for purposes of projecting interest on cash balance accounts was changed from 4.66% to 4.54%. Although not a change in assumption or method since there is no change in the method of determining the actual rate, the interest rate assumption for paying lump sums and converting cash balance accounts to annuities changed from November 2023 segment rates of 5.50%, 5.76%, 5.83% to November 2024 segment rates of 4.66%, 5.25%, 5.57%.

Change in Actuarial Assumptions

The following non-prescribed assumption changes were made:

- Assumed pay increases include a one-time increase of 0.5% across all age bands for progressing pay from 2024 to 2025, then revert back to same rates as shown in the salary scale table to project pay for 2026 and beyond.

- The assumed lump sum election rates were updated based on experience during the four-year period ending in 2023.
- On aggregate, these changes did not reduce the funding shortfall by more than 5% of the funding target. Therefore, the assumption changes do not exceed the threshold necessary to require approval of the Commissioner under regulations to Internal Revenue Code Section 430.

Summary of Plan Provisions

SoCalGas Grandfathered Defined Benefit Plan Provisions for Non-Union Participants

Plan Provisions

Effective September 1, 1932. Benefit accruals were frozen at June 30, 2003 based on plan provisions as of that date.

Eligibility for Participation	All employees on first anniversary of date of hire.

Definitions

Final Average Earnings	The average eligible earnings of the 36 consecutive months of highest earnings within the last 60 months of earnings prior to June 30, 2003. For Plan Years beginning after December 31, 1997, pensionable earnings are limited to $200,000, as indexed under the Internal Revenue Code. The limit for 2003 was $200,000.
Credited Service	The period of service from date of hire to the earlier of June 30, 2003 or date of termination of employment excluding the period of any breaks in service. On and after January 1, 1976, Credited Service is one year for each calendar year in which the employee works 2,080 hours, rateably reduced for fewer hours.
Social Security Benefit	The projected amount of the employee's primary Social Security Benefit according to the law in effect and assuming zero earnings up to retirement.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65 with five years of pension service

Eligibility for Benefits

Normal or late retirement	All employees who will have completed five or more years of Credited Service at attainment of age 65.
Early retirement	Attainment of age 55 with 10 years of vesting service as of date participant separates from service.
Vested termination	Three years of vesting service for all employees who terminate on or after January 1, 2008. Five years of vesting service for employees who terminated before January 1, 2008.
Preretirement spouse's death benefit	Vested participants who terminated or died before January 1, 2008.
Spouses Eligibility	Spouses of active employees who die in active service after becoming eligible for vested benefits and spouses of certain former employees entitled to deferred vested benefits who are continuously married for the one-year period prior to death.

Normal or Late Retirement

Retirement Benefit

The greater of (i), (ii), (iii), (iv) or (v) based on Credited Service as of the earlier of June 30, 2003 or separation from service:

(i) The following percentages of Final Average Earnings:

- (a) 1.5% for the first 15 years of Credited Service, plus
- (b) 1.25% for the next 5 years of Credited Service, plus
- (c) 1.35% for the next 10 years of Credited Service, plus
- (d) 0.75% for the next 5 years of Credited Service, plus
- (e) 0.50% for Credited Service in excess of 35 years.

(ii) The following percentages of Final Average Earnings, offset by 50% of Social Security Benefits at age 65:

- (a) 2.75% for the first 10 years of Credited Service, plus
- (b) 1.50% for the next 10 years of Credited Service, plus
- (c) 1.35% for the next 10 years of Credited Service, plus
- (d) 0.75% for the next 5 years of Credited Service, plus
- (e) 0.50% for Credited Service in excess of 35 years.

(iii) The larger of the benefit determined under (i) or (ii) above, based on Credited Service projected to normal retirement, times a fraction, not more than one, where the numerator is Credited Service as of the earlier of June 30, 2003 or separation from service, and the denominator is Credited Service projected to normal retirement. For this purpose, Final Average Earnings and Social Security Benefits are assumed to remain constant.

(iv) An amount which, when combined with Social Security Benefits, equals $300 per month, proportionately reduced for Credited Service less than 20 years (but not less than $225 per month).

(v) $130 per month proportionately reduced for Credited Service less than 20 years.

Normal Form of Benefit

The retirement benefit specified above payable for the employee's lifetime, actuarially reduced to provide for continuation of 50% of the reduced benefit to a surviving spouse, if the employee was married for at least one year at date of retirement.

SCHEDULE SB ATTACHMENTS

Early retirement	***Benefit*** The Normal Retirement Benefit, based on Credited Service to date of retirement, reduced by 3% for each year the early retirement date precedes age 62, down to age 60, and by 4% for each year before age 60. ***Unreduced Benefit*** Attainment of age 55 at separation from service with attainment of 90 points (vice presidents and above are excluded). Service for this purpose is based on Credited Service assuming Credited Service continued to accrue through date of separation from service.
Vested Termination	The Normal Retirement Benefit based on Credited Service to date of termination, but assuming no further earnings for Social Security purposes.
Preretirement Death for Spouse	***Prospective Lifetime Benefits*** For active vested employees and former employees entitled to vested benefits, who separated from service on or after January 1, 1996 due to death or termination of employment: • Benefit is calculated assuming participant survived to date of death, elected a 50% joint and survivor option to commence on first of month following date of death, then deceased. For former employees entitled to deferred vested benefits who separated from service due to death or termination of employment prior to January 1, 1996: • If death occurs on or after age 55, computed on basis of 50% joint and survivor option, assuming retirement just before death. If death occurs before age 55, the benefit is payable beginning when the employee would have attained age 55, calculated on basis of 50% joint and survivor option, assuming that retirement occurred at that age. ***Duration of Benefit*** Monthly pensions are paid for the remainder of the surviving spouse's lifetime. Lump sum payment is optional for beneficiaries of those who separated from service due to death or termination of employment on or after January 1, 1996.
Pre-retirement Death	Beneficiary receives a benefit having the same value as the benefit the employee would have received upon separation from service. Such benefit is payable as a lump sum or single annuity.
Post-retirement Death	As provided by the normal form of benefit or by the election of an

optional form of benefit.

Other Plan Provisions

Optional Forms of Benefit

1. 33-1/3%, 50%, 75%, or 100% joint and survivor options.
2. 10- and 15-year certain and continuous options.
3. Lump sum option.

All options except for (c) above are converted from the normal form of benefit using 1) the applicable mortality table under Section 417(e)(3) and 2) a 7.00% interest rate. The conversion factor for the 50% joint and survivor option is limited for married participants to be no less than 90%.

For the Lump Sum option, benefits are converted from the normal form using 1) the applicable mortality table under Section 417(e)(3) and 2) the applicable interest rate under Section 417(e)(3) for the November preceding the first day of the Plan Year.

SDG&E Grandfathered Defined Benefit Plan Provisions

Plan Provisions

Effective January 1, 1941. Benefit accruals were frozen as of June 30, 2003 based on plan provisions as of that date. All plan amendments made through the valuation date have been reflected.

Eligibility for Participation	Employees become participants on the first of the month following the later of attaining age 18 and completing one year of service, or if earlier, on the first of the month following attainment of age 40 (conditioned upon completing a year of service in the following 12 months).

Definitions

Vesting service	Participants receive credit for a year of vesting service for each 12-month period commencing on the Employment Commencement Date with at least 1,000 hours of service. Different rules apply for plan years beginning before July 1, 1976.
Compensation	Participant's base pay actually paid or payable for services rendered during any Plan Year, including 401(k) contributions and section 125 deferrals, deferred compensation, incentive pay in the month in which it is paid, and Pay for Performance amounts, but excluding overtime pay and other bonuses or special payments.
Years of Participation	Participants receive credit for a full year of participation for each plan year in which they complete at least 2,000 hours. They receive a partial year of credit (calculated as the ratio of the actual number of hours to 2,000) if they work less than 2,000 hours. Different rules were used for plan years beginning before July 1, 1976.
Primary Social Security Benefit	The projected amount of the employee's Primary Social Security Benefit according to the law currently in effect and assuming a continuation of earnings up to retirement.

Eligibility for Benefits

Normal retirement	Age 65
Early retirement	Attainment of age 55 while employed with 1 year of vesting service.
Postponed retirement	Retirement after age 65

Benefits Paid Upon the Following Events

Normal retirement

Benefit

Based on participation through the earlier of June 30, 2003 or separation from service, the greater of:

1. the Basic Pension formula
2. the Minimum Pension Formula, or
3. the Alternative Pension.

These formulas are summarized as follows:

1. Basic Pension: This is a career average formula. The annual compensation used for plan years prior to July 1, 1984 is based on a special projection of compensation.

   The benefit is the sum of the amounts in (a), (b) and (c), described below:

   a. From July 1, 1961 to July 1, 1971 - .6% of the first $3,000 of compensation for the year, plus 1.8% of compensation in excess of $3,000.

   b. After July 1, 1971 - the larger of the two following benefits:

      (i) 0.75% of the first $3,000 of compensation for the year, plus 2.0% of compensation in excess of $3,000.

      (ii) 1.15% of the first $4,411.80 of compensation for the year, plus 2% of the excess over $4,411.80.

   c. 24.00 times years of participation (excluding years before July 1, 1976 prior to attaining age 25 and one year of service) up to a maximum benefit of $840.

SCHEDULE SB ATTACHMENTS

2. Minimum Pension: This is a final average pay formula based on the highest 5-year average pay in the 10 years preceding retirement. The benefit is the sum of (a) and (b) below:

   a. s

      66-2/3% of the Primary Social Security Benefit, determined under the 1968 law.

   b. $12.00 times years of participation (excluding years before July 1, 1976 prior to attaining age 25 and one year of service) up to a maximum benefit of $420.

3. Alternative Pension: This is another final average pay formula, based on the highest 3-year average pay in the 10 years preceding the date of retirement. The benefit is determined as (a) minus (b):

   a. 2.0% of 3-year average pay for each year of participation up to 20 years, plus 3/4% for each year of additional participation in excess of 20 years.

   b. 1.0% of the Primary Social Security Benefit for each year of participation up to 40 years.

SCHEDULE SB ATTACHMENTS

	Normal Form of Benefit
	The retirement benefit specified above payable for the employee's lifetime, actuarially reduced to provide for continuation of 50% of the reduced benefit to a surviving spouse, if the employee was married for at least one year at date of retirement.
Early retirement	The accrued normal retirement benefit is determined as the greatest of Basic, Minimum, or Alternative benefits described under Normal Retirement. The Minimum and Alternative benefits are prorated by a fraction equal to the years of participation at the earlier of June 30, 2003 or early retirement divided by the potential years of participation at Normal Retirement. The accrued benefit is unreduced if early retirement occurs after age 62. For ages before 62, the accrued benefit is reduced by applying a reduction factor of 3% for the first two years preceding age 62 plus 4% for the next five years.
Postponed retirement	Same Normal Retirement Benefit based on years of participation and earnings at earlier of June 30, 2003 or actual date of retirement and increased by any cost-of-living adjustments that have occurred since age 65.
Vested termination	100% of the accrued benefit. The accrued normal retirement benefit is determined as the greatest of the Basic, Minimum, or Alternative benefits described under Normal Retirement. The Minimum and Alternative benefits are prorated by a fraction equal to the years of participation at earlier of June 30, 2003 or date of termination divided by the potential years of participation at Normal Retirement. The accrued benefit is unreduced if benefit commences after age 62. For ages before 62, the accrued benefit is reduced by applying a reduction factor of 3% for the first two years preceding age 62 plus 4% for the next five years, then actuarially reduced prior to age 55.
Disablement	A temporary benefit to age 65 equal to the greater of the Participant's Primary Social Security Benefit or the early retirement benefit, not to exceed the projected age 65 benefit. This benefit is discontinued effective January 1, 2023 (employees receiving TDI before January 1, 2023 will be grandfathered). At normal or early retirement date a participant will receive a retirement benefit calculated as if a participant had continued to work until retirement at the same rate of pay as when the disability began.
Pre-retirement death	Beneficiary receives a benefit having the same value as the benefit the employee would have received upon separation from service. Such benefit is payable as a lump sum or single life annuity.

SCHEDULE SB ATTACHMENTS

Pre-retirement Spouse's Benefit	***Prospective Lifetime Benefits***
	For active vested employees and former employees entitled to vested benefits, who separated from service on or after January 1, 1996 due to death or termination of employment:
	Benefit is calculated assuming participant survived to date of death, elected a 50% joint and survivor option to commence on first of month following date of death, then deceased.
	For former employees entitled to deferred vested benefits who separated from service due to death or termination of employment prior to July 1, 1998 (November 1, 1998 for SDG&E union):
	If death occurs on or after age 55, computed on basis of 50% joint and survivor option, assuming retirement just before death. If death occurs before age 55, the benefit is payable beginning when the employee would have attained age 55, calculated on basis of 50% joint and survivor option, assuming that retirement occurred at that age.
	Duration of Benefit
	Monthly pensions are paid for the remainder of the surviving spouse's lifetime. Lump sum payment is optional for beneficiaries of those who separated from service due to death or termination of employment on or after July 1, 1998 (November 1, 1998 for SDG&E union)
Post-retirement Death	As provided by the normal form of benefit or by the election of an optional form of benefit.

SCHEDULE SB ATTACHMENTS

Other Plan Provisions

Optional Forms of Benefit	1. 50%, 75%, or 100% joint and survivor options 2. 10-year certain and continuous option 3. Social Security level income 4. 50% joint and survivor, with pop-up option 5. Lump sum option Annuity options except for (e) above are converted from the normal form of benefit using 1) the applicable mortality table under Section 417(e)(3) and 2) a 7.00% interest rate with a 2½ % COLA. For the Lump Sum option and as a minimum benefit for the Social Security level income option, benefits are converted from the normal form using 1) the applicable mortality table under Section 417(e)(3) and 2) the applicable interest rate under Section 417(e)(3) for the November preceding the first day of the Plan Year with a 2½ % COLA.
Cost of Living Increases	Pensions being paid are adjusted each October 1 to reflect the change in the consumer price index for the 12-month period ending on the previous June 30th. The maximum annual increase is 3%.
Pension Increases	None
Plan participants' contributions	None
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

Cash Balance Plan Provisions

Plan Provisions

All plan amendments made through the valuation date have been included in the actuarial valuation.

Date of Participation	The anniversary of the date of hire if employee completes 1,000 hours during first year of service. Upon entering the plan, Eligible Earnings are retroactively included in benefits.

Definitions

Vesting Service	Participants receive one year of Vesting Service if they work 1,000 or more hours in the 12-month period following the date of hire. Vesting Service includes vesting service previously earned with Pacific Enterprises, Enova, SDG&E, and any of their affiliates. Former Pacific Enterprises participants receive one year of Vesting Service for each calendar year in which they work 1,000 or more hours; former Enova and AIG participants receive one year of Vesting Service for working 1,000 or more hours in the 12-month period between anniversaries of their date of hire.
Eligible Earnings	Pensionable earnings for the qualified plan include: • Base pay including deferred compensation • Incentive pay for the month in which it is paid • Lump sum merit pay recognized in the 12-month period starting with the month of payment • Imputed incentive pay for year of retirement if participant meets specified age and service requirements. • Effective January 1, 2023, union employees are to receive cash balance pay credits for overtime hours, at base pay rate (overtime premium pay not eligible for pay credits), with the number of overtime hours eligible for pay credits capped so that total hours, regular and overtime, do not exceed 2,080 hours.
Normal Retirement Date (NRD)	First day of the month following or coinciding with the participant's 65th birthday.

SCHEDULE SB ATTACHMENTS

Initial Account Balance

The present value of the accrued early retirement benefit on June 30, 1998 was calculated using a 6.11% interest rate and the Unisex 1983 Group Annuity Mortality Table (GAM 83) (50% male, 50% female). Early retirement factors (ERFs) are the subsidized factors used to determine the Early Retirement Benefit under the previous plan for participants age 55 and older. For ages younger than 55, the factors are based on actuarial equivalency from age 55 to the attained age using a 6.11% interest rate and Unisex GAM 83. Factors for former SDG&E participants assume that participants receive a 2.5% annual cost-of-living adjustment (COLA) beginning at age 55. Sample factors are shown below.

SCHEDULE SB ATTACHMENTS

30	0.131492	0.164049

Interest on Initial Account Balance

1. Before completion of 30 years of service: 30-year U.S. Treasury rate plus 2%.
2. On or after completion of 30 years of service including period of time after separation from service but prior to payment of benefits: 30-year U.S. Treasury rate.

Retirement Credits

7.5% of Eligible Earnings

Participants who are over age 40 and had less than 15 years of service as of July 1, 1998 receive an additional contribution of 2.0% of Eligible Earnings until they complete 15 years of service.

Contributions are credited at the end of each month.

Interest on Retirement Credits

30-year U.S. Treasury rate in effect for November preceding the first day of the applicable plan year. Retirement Credits continue to earn interest after separation from service up to date benefits are distributed.

Bump-Up

The initial account balance for certain individuals may be increased by an additional amount, referred to as a bump-up, as specified in the plan document.

Adjustment Account

If a participant was a participant in one of the grandfathered plans and is between age 59 and age 65 on July 1, 1998 or (for former Pacific Enterprises plan participants only) meets the Rule of 90 (i.e., age plus Credited Service is 90 or greater), the account balance will be split into two parts:

1. Retirement Account: 90% of the initial account balance, which receives additional interest and retirement credits.
2. Adjustment Account: 10% of the initial account balance, which does not receive interest credits and is payable immediately; if the participant elects not to retire, it decreases to zero in uniform dollar amounts until age 65.

The retirement account/adjustment account split is different for employees age 63 and 10 months or older as of July 1, 1998.

Eligibility for Benefits

Normal or late retirement	Attainment of normal retirement age
Early retirement for grandfathered participants	Attainment of age 55 with 10 years of service while employed for former participants in the Pacific Enterprises or Southern California Gas pension plan, and attainment of age 55 and while employed with 1 year of vesting service for former participants in the SDG&E pension plan.
Vested termination	For terminations on or after January 1, 2008 (March 1, 2007 for union employees), 100% vesting at the earlier of: • Completion of three years of Vesting Service, or

SCHEDULE SB ATTACHMENTS

- Age 65.

For terminations before January 1, 2008 (March 1, 2007 for union employees), 100% vesting at the earlier of:

- Completion of five years of Vesting Service, or
- Age 65.

Participants attaining age 55 while employed are vested with 1 year of service.

In June 2007, Sempra contributed the Sempra Trading group to a joint venture. Sempra amended the plan to 100% vest all Sempra Trading participants employed on the divestiture date, March 31, 2008.

Nonvested participants always are grandfathered under the previous vesting schedule if they were employed on June 30, 1998.

The account balance of a vested terminated employee continues to earn interest at the 30-year U.S. Treasury bond rate until distribution.

Disability retirement

Total and permanent disability after age 35 with 10 or more years of participation including participation post June 30, 2003.

SCHEDULE SB ATTACHMENTS

Benefits Paid Upon the Following Events

Retirement

Benefit

The cash balance plan provides a Retirement Account that is the sum of the following:

1. The Initial Employer Allocation (including bump-up)
2. Interest on the Initial Employer Allocation
3. Retirement Credits
4. Interest on Retirement Credits.

For participants who separated from service prior to March 1, 2007, participants receive the greater of the:

1. Retirement Account balance as of benefit commencement, or
2. Present value of the frozen accrued grandfathered benefit.

For participants who separate from service on or after March 1, 2007, participants receive the greater of the

1. Retirement Account balance as of benefit commencement, or
2. The sum of the
   a. present value of the frozen accrued grandfathered benefit, and
   b. If eligible, the Frozen Benefit Plus Account balance as of benefit commencement.

Normal Form of Benefit

For married participants, a 50% Qualified Joint and Survivor Annuity. For single participants, a Life Annuity. Both forms are the actuarial equivalent value of the Retirement Benefit.

Conversion of Account Balance to Life Annuity

The calculation is performed on the basis of the following assumptions:

Internal Revenue Code (IRC) Section 417(e) applicable PPA transition segment interest rates, as of November of the previous year (including COLA starting at 55 for SDG&E grandfathered participants assumed to be 2.5%).

IRC section 417(e) applicable mortality table in effect as of the date of the benefit commencement.

Early retirement for grandfathered participants

Same as normal retirement benefit based on participant's Retirement Account and, if eligible, the Frozen Benefit Plus Account balance as of benefit commencement. For participants grandfathered under a prior pension plan, grandfathered benefit is reduced by the prior plan's applicable early retirement reduction factors. The benefit is payable either as a lump sum or an actuarially equivalent monthly annuity.

SCHEDULE SB ATTACHMENTS

Vested termination

Same as Normal Retirement Benefit but based on: Retirement Account and, if eligible, the Frozen Benefit Plus Account as of benefit commencement, and frozen grandfathered benefit actuarially reduced for commencement prior to normal retirement.

If benefit commences prior to normal retirement date, frozen grandfathered benefit is reduced actuarially for former participants in the Pacific Enterprises or Southern California Gas pension plan. For former participants in the SDG&E pension plan, the frozen grandfathered benefit is reduced to 55 by the prior plan's applicable early retirement reduction factors and actuarially reduced prior to 55.

Preretirement death

Beneficiary receives the greater of:

1. The Retirement Account as of benefit commencement, or
2. a. For employees who are not active on or after January 1, 2008: the sum of (i) the present value of spousal benefit attributable to grandfathered plan benefit, which is determined as if the participant terminated employment on the date of his death, elected a 50% joint and survivor annuity to commence immediately, and then deceased, and (ii), if eligible, the Frozen Benefit Plus Account balance as of benefit commencement.

   b. For employees who are active on or after January 1, 2008: the sum of (i) the present value of early, normal or late retirement benefit attributable to grandfathered plan benefit, and (ii), if eligible, the Frozen Benefit Plus Account balance as of benefit commencement.

Such benefit is payable as a lump sum or single life annuity.

Postretirement death

Benefits are payable to the beneficiary under the terms of the payment option elected; if the participant elected a single life annuity or a lump sum, no benefit is payable to the beneficiary.

Disability retirement

A temporary benefit to age 65 equal to the Participant's Primary Social Security Benefit. This benefit is discontinued effective January 1, 2023 (employees receiving TDI before January 1, 2024 will be grandfathered). At normal or early retirement date a participant will receive a retirement benefit calculated as if a participant had continued to work until retirement at the same rate of pay as when the disability began.

SCHEDULE SB ATTACHMENTS

Other Plan Provisions

Optional Forms of Payment

Participants without grandfathered benefits can elect from among the following options:

- Single life annuity
- 50% and 75% joint and survivor annuity
- Lump sum.

Alternative forms of benefits are converted from the normal form using 1) the applicable mortality table under Section 417(e)(3) and 2) the applicable interest rate under Section 417(e)(3) for the November preceding the first day of the Plan Year.

Participants working for the company on June 30, 1998 may elect from among the benefit payment options available to them under the grandfathered plan in which they previously participated. Conversion factors used to convert the normal form of benefit to optional forms are those that apply to the grandfathered plan.

Employees hired before July 1, 1998 who do not qualify for plan participation until on or after July 1, 1998 are not eligible for previous plan options.

All grandfathered plans offer the following payment options:

- 10-year certain and life annuity
- 50%, 75%, and 100% joint and survivor annuity
- Lump sum.

Former Pacific Enterprises participants also have the following payment options:

- 33-1/3% joint and survivor annuity
- 15-year certain and life annuity.

Former Enova participants have the same options as the other grandfathered plans plus the following:

- 50% Pop-up annuity
- Level Income annuity.

In addition, SDG&E union participants whose benefit is equal to the grandfathered plan benefit plus the FBPA, may elect a partial lump sum option using the actuarial equivalence assumptions for the prior plan benefit with a minimum benefit based on 417(e) using 1) the applicable mortality table under Section 417(e)(3) and 2) the applicable interest rate under Section 417(e)(3) for the November preceding the first day of the Plan Year with a 2 ½% COLA.

All options for former Enova participants include a COLA beginning at age 55.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
