Independent Auditor's Report

Board of Directors and Plan Participants
Colony Tire Employee Stock Ownership Plan
Edenton, North Carolina

Opinion

We have audited the financial statements of Colony Tire Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2025, and the related statement of changes in net assets (deficit) available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2025, and the changes in its net assets (deficit) available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of Plan

The following description of Colony Tire Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Colony Tire Corporation (the "Company") established the Plan effective as of January 1, 2025. The Plan operates as an employee stock ownership plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "IRC") of 1986, as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Board of Directors (the "Committee") consisting of employees of the Company.

On August 22, 2025, the Plan purchased 1,000,000 shares of common stock from the Company through a loan payable to the Company (see Note 5) and holds the common stock in a trust established under the Plan. The stock was initially purchased at a price of $11.50 per share, for an aggregate purchase price of $11,500,000. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The Company, which sold shares to the ESOP, has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of and for the year ended December 31, 2025, present separately the assets and liabilities, and changes therein pertaining to:

(A) the accounts of employees with vested and unvested rights in allocated common stock ("allocated"), and

(B) common stock not yet allocated to employees ("unallocated").

Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the trustee of the Plan. Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after attainment of age 18 and completion of three months of service. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year. An eligible employee will still receive an allocation of the Company contributions for a plan year if employment is terminated on account of retirement, death, or disability in such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additional amounts may be contributed at the discretion of the Company's board of directors. Employee contributions are not permitted.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Plan earnings (losses) are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance less forfeitures and withdrawals made during the plan year to all participants' beginning of the year account balances. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on the proportion that each such participant's compensation for that plan year bears to the compensation of all participants eligible to share in the Company contributions for that plan year. During the year ended December 31, 2025, no shares of stock were forfeited and reallocated to plan participants.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service in the Plan. Participants vest 20 percent after two years of credited service and 20 percent for each additional year of service. A participant is 100 percent vested after six years of credited service.

Payment of Benefits

Distributions of benefits will be made in shares of Company stock, cash or a combination of the two. In the event of retirement, total disability or death of a participant, benefits will commence no later than the last day of the plan year following the plan year on which a participant retires, suffers a disability, or dies while employed by the Company. Distributions related to terminations may commence by the end of the fifth plan year following the plan year in which the participant separated from service unless the account balance is less than $7,000, then distributions will begin after the plan year end in which an employee terminates. Distributions from the Plan shall be made pursuant to a uniform, nondiscriminatory written distribution policy adopted by the Plan administrator, as amended from time to time; provided however, any such policy shall not violate the accrued benefits rule under Section 411(d)(6) of the IRC.

Plan Termination

The Company reserves the right to terminate or amend the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Board of Directors shall direct the trustees to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Administrative Expenses

As provided in the plan document, administrative expenses may be paid either by the Plan or by the Company. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Voting Rights

The trustee shall vote all shares of Company stock held by the Plan. Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee shall vote such allocated shares of Company Stock as instructed by participants. Allocated shares for which no direction is received shall be voted by the trustee in its discretion.

Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the trust buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The trust can pay for the purchase in lump sums. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments, which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Allocations

The financial statements of the Plan present separately the assets and liabilities, and changes therein pertaining to (a) the accounts of employees with rights in common stock (“allocated”), and (b) common stock not yet allocated to employees (“unallocated”), including Company common stock that is committed to be released.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded upon distribution.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2026, the date the financial statements were available to be issued.

Note 3. Investments

The Plan's investment in Company common stock at December 31, 2025 is as follows:

	Allocated	Unallocated
Colony Tire Corporation common stock		
Number of shares	33,333	966,667
Cost	$ 383,333	$ 11,116,667
Estimated fair value	$ 212,333	$ 6,157,667

The estimated fair value of the Company common stock as of December 31, 2025, was $6.37 per share.

Note 4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1 Observable inputs such as quoted prices in active markets.

Level 2 Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025.

Company Common Stock
The Company's common stock is valued at the price per share which is calculated based upon a third-party valuation of the fair market value of the Company's common stock. This valuation was based upon the discounted cash flow method to value the Company from an income approach. The income approach is based on the premise that the value of an investment is a function of the income that will be generated by that asset over its expected life. The valuation specialist took into account historical and projected cash flows and net earnings, weighted average cost of capital, and applicable discounts. This income stream can be examined on an historical basis and capitalized to arrive at a value estimate, or it can be projected into the future and discounted to its present value. Since the value of the Company's common stock is not based on observable inputs, it is classified as level 3 within the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Sponsor company common stock	$ 6,370,000	$ -	$ -	$ 6,370,000

Level 3 assets are measured at fair value on a recurring basis for the year ended December 31, 2025. There were purchases of 1,000,000 shares and allocations of 33,333 shares of Level 3 assets during the year ended December 31, 2025, respectively. No transfers in or out of Level 3 assets for the year ended December 31, 2025.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Note Payable

On August 22, 2025, the Plan entered into a $11,500,000 loan agreement with the Company to purchase 1,000,000 shares of Company stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as annual principal payments plus interest at 4.82% per annum are made. This resulted in a total of 33,333 shares being released and allocated for the year ended December 31, 2025.

The agreement provides for the loan to be repaid over 29 years beginning December 31, 2025. The fair value of the loan as of December 31, 2025 was $10,987,495 determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk.

Future estimated minimum principal maturities are as follows for the year ending December 31, 2025:

2026	$ 181,849
2027	190,614
2028	198,400
2029	209,364
2030	219,456
Thereafter	9,987,812
	$ 10,987,495

Note 6. Employer Contributions

The Company contributed $711,446 to the Plan for the year ended December 31, 2025.

Note 7. Related Party and Exempt Party-in-Interest Transactions

The Plan invests in the Company's common stock and has indebtedness guaranteed by the Company. These are related party and party in interest transactions under ERISA.

Note 8. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (the "IRC"). The Plan is relying on the IRS approval of the volume submitter plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated June 30, 2020, that the volume submitter plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets (Deficit) Available for Benefits.
