INDEPENDENT AUDITOR'S REPORT

To the ESOP Administration Committee
Archer/Malmo, Inc. Employee Stock Ownership Plan
Memphis, Tennessee

Opinion

We have audited the accompanying financial statements of Archer/Malmo, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year) – Schedule H, Part IV, Line 4i as of December 31, 2025, is presented for the purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF PLAN AND OTHER MATTERS

The following brief description of the Archer/Malmo, Inc. (the Company) Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

The Company established the Plan effective as of January 1, 2022. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP Administration Committee appointed by the Company's Board of Directors. SCJ ESOP Fiduciary Services is the Plan's trustee.

On June 30, 2022, the Plan purchased 1,000,000 shares of the Company's common stock with a loan of $22,000,000 and holds the common stock in a trust established under the Plan. The stock was purchased at a price of $22.00 per share, for an aggregate purchase price of $22,000,000.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated common stock (allocated) and common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such Plan year and are age 21 or older. Participants who do not have at least 1,000 hours of service during such Plan year, are not age 21 or older, or are not employed on the last working day of a Plan year are generally not eligible for an allocation of the Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Payment of Benefits

Distributions that are attributable to Company stock are made in installment payments over a period of no longer than five years. Distributions not attributable to Company stock are made in a lump sum. Distributions on account of death, disability, or retirement commence in the plan year following the event. Distributions for other separation from service commence in the sixth year following separation from service. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses of the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to any proposed corporate mergers or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all of the assets of a trade or business of the Company, or such similar transactions as the Department of Treasury may prescribe in regulations. The Trustee will vote the shares of stock held by the Plan on all other matters at the Trustee’s discretion on behalf of the collective best interest of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts, if any. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant’s employment with the Company ends for any reason other than retirement, permanent disability, or death, the participant will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service beginning after the first year of service and are 100% vested after five years of service.

Continued

Put Option

Under federal income tax regulations, the Company shares that are held by the Plan and its participants and are not readily tradable on an established market, or are subject to trading limitations, include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the shares. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the ESOP Administration Committee directs the trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company shares into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify will receive a cash distribution. The election to diversify is made within 90 days of year-end based upon the number of Company shares in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during December 31, 2025, totaled $7,790. At December 31, 2025 and 2024, there were no forfeited non-vested accounts to be allocated to participants in future years.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Management considers the fair value of investments to be a significant estimate. See Note 4 for a discussion of fair value measurements.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated shares (allocated) and (b) shares not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2026, the date the financial statements were available to be issued. No subsequent events occurred requiring accrual or disclosure.

3. INVESTMENTS

The Plan's investment in the Company's common stock at December 31, 2025 and 2024, is presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Archer/Malmo, Inc. common stock				
Number of shares	245,292	754,708	198,130	801,870
Cost	$ 5,396,434	$ 16,603,566	$ 4,358,860	$ 17,641,140
Fair value	$ 1,667,989	$ 5,132,011	$ 1,155,098	$ 4,674,902

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Company stock: The fair value of Archer/Malmo, Inc. common stock held by the Plan is reported at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The unobservable inputs used by the appraiser for the income valuation included: projected financial information, projected inflation, discount rate, discount for lack of marketability, and risk-free rate of return. The unobservable inputs used by the appraiser for the market valuation included: revenue growth, forecasted financial metrics, forecasted tax rate, fair value of the Company's assets and liabilities, discount for lack of marketability, risk-free rate of return, volatility, and market comparables.

The valuation process involves the Company's selection of an independent appraiser annually. Plan management accumulates the data for the appraiser from the audited financial statements and projected financial information of the Company. The appraiser prepares a report which plan management and the ESOP Administration Committee review in detail and approve.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the level, within the fair value hierarchy, of the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Archer/Malmo, Inc. common stock	$ -	$ -	$ 6,800,000	$ 6,800,000

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Archer/Malmo, Inc. common stock	$ -	$ -	$ 5,830,000	$ 5,830,000

5. NOTE PAYABLE

On June 30, 2022, the Plan entered into a $22,000,000 term loan agreement with the Company. The proceeds of the note were used to purchase shares of the Company's common stock. Unallocated shares are collateral for the note. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments, divided by the total of the current year's payments, plus all future years' principal and interest payments. This resulted in 47,162 shares being released and allocated for the plan year ended December 31, 2025. The agreement provides for the note to be repaid over 20 years.

The scheduled amortization of the note for the next 5 years and thereafter are as follows: 2026 – $835,440; 2027 – $861,422; 2028 – $888,213; 2029 – $915,836; 2030 – $944,318 and thereafter – $12,541,537. The note has a stated interest rate of 3.11%.

6. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are considered parties-in-interest under ERISA.

7. RISKS AND UNCERTAINTIES

The Plan investments represent the shares of the Company's common stock, which are exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions for the Company's common stock based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the Company's common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

8. INCOME TAX STATUS

The Plan has not received a determination letter from the Internal Revenue Service (IRS) stating that the Plan is qualified and that the related trust is tax exempt. However, the plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan was qualified, and the related trust is tax-exempt.

Continued

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

INDEPENDENT AUDITOR'S REPORT

To the ESOP Administration Committee
Archer/Malmo, Inc. Employee Stock Ownership Plan
Memphis, Tennessee

Opinion

We have audited the accompanying financial statements of Archer/Malmo, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year) – Schedule H, Part IV, Line 4i as of December 31, 2025, is presented for the purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF PLAN AND OTHER MATTERS

The following brief description of the Archer/Malmo, Inc. (the Company) Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

The Company established the Plan effective as of January 1, 2022. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP Administration Committee appointed by the Company's Board of Directors. SCJ ESOP Fiduciary Services is the Plan's trustee.

On June 30, 2022, the Plan purchased 1,000,000 shares of the Company's common stock with a loan of $22,000,000 and holds the common stock in a trust established under the Plan. The stock was purchased at a price of $22.00 per share, for an aggregate purchase price of $22,000,000.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2025 and 2024, and for the year ended December 31, 2025, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated common stock (allocated) and common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such Plan year and are age 21 or older. Participants who do not have at least 1,000 hours of service during such Plan year, are not age 21 or older, or are not employed on the last working day of a Plan year are generally not eligible for an allocation of the Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Payment of Benefits

Distributions that are attributable to Company stock are made in installment payments over a period of no longer than five years. Distributions not attributable to Company stock are made in a lump sum. Distributions on account of death, disability, or retirement commence in the plan year following the event. Distributions for other separation from service commence in the sixth year following separation from service. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses of the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to any proposed corporate mergers or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all of the assets of a trade or business of the Company, or such similar transactions as the Department of Treasury may prescribe in regulations. The Trustee will vote the shares of stock held by the Plan on all other matters at the Trustee’s discretion on behalf of the collective best interest of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts, if any. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant’s employment with the Company ends for any reason other than retirement, permanent disability, or death, the participant will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service beginning after the first year of service and are 100% vested after five years of service.

Continued

Put Option

Under federal income tax regulations, the Company shares that are held by the Plan and its participants and are not readily tradable on an established market, or are subject to trading limitations, include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the shares. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the ESOP Administration Committee directs the trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company shares into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify will receive a cash distribution. The election to diversify is made within 90 days of year-end based upon the number of Company shares in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during December 31, 2025, totaled $7,790. At December 31, 2025 and 2024, there were no forfeited non-vested accounts to be allocated to participants in future years.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Management considers the fair value of investments to be a significant estimate. See Note 4 for a discussion of fair value measurements.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated shares (allocated) and (b) shares not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2026, the date the financial statements were available to be issued. No subsequent events occurred requiring accrual or disclosure.

3. INVESTMENTS

The Plan's investment in the Company's common stock at December 31, 2025 and 2024, is presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Archer/Malmo, Inc. common stock				
Number of shares	245,292	754,708	198,130	801,870
Cost	$ 5,396,434	$ 16,603,566	$ 4,358,860	$ 17,641,140
Fair value	$ 1,667,989	$ 5,132,011	$ 1,155,098	$ 4,674,902

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Company stock: The fair value of Archer/Malmo, Inc. common stock held by the Plan is reported at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The unobservable inputs used by the appraiser for the income valuation included: projected financial information, projected inflation, discount rate, discount for lack of marketability, and risk-free rate of return. The unobservable inputs used by the appraiser for the market valuation included: revenue growth, forecasted financial metrics, forecasted tax rate, fair value of the Company's assets and liabilities, discount for lack of marketability, risk-free rate of return, volatility, and market comparables.

The valuation process involves the Company's selection of an independent appraiser annually. Plan management accumulates the data for the appraiser from the audited financial statements and projected financial information of the Company. The appraiser prepares a report which plan management and the ESOP Administration Committee review in detail and approve.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the level, within the fair value hierarchy, of the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Archer/Malmo, Inc. common stock	$ -	$ -	$ 6,800,000	$ 6,800,000

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Archer/Malmo, Inc. common stock	$ -	$ -	$ 5,830,000	$ 5,830,000

5. NOTE PAYABLE

On June 30, 2022, the Plan entered into a $22,000,000 term loan agreement with the Company. The proceeds of the note were used to purchase shares of the Company's common stock. Unallocated shares are collateral for the note. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments, divided by the total of the current year's payments, plus all future years' principal and interest payments. This resulted in 47,162 shares being released and allocated for the plan year ended December 31, 2025. The agreement provides for the note to be repaid over 20 years.

The scheduled amortization of the note for the next 5 years and thereafter are as follows: 2026 – $835,440; 2027 – $861,422; 2028 – $888,213; 2029 – $915,836; 2030 – $944,318 and thereafter – $12,541,537. The note has a stated interest rate of 3.11%.

6. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are considered parties-in-interest under ERISA.

7. RISKS AND UNCERTAINTIES

The Plan investments represent the shares of the Company's common stock, which are exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions for the Company's common stock based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the Company's common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

8. INCOME TAX STATUS

The Plan has not received a determination letter from the Internal Revenue Service (IRS) stating that the Plan is qualified and that the related trust is tax exempt. However, the plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan was qualified, and the related trust is tax-exempt.

Continued

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
