Report of Independent Auditor

To the Plan Administrator and Participants
Clinical Pathology Associates Profit Sharing Plan and Trust
Austin, Texas

Opinion

We have audited the accompanying financial statements of Clinical Pathology Associates Profit Sharing Plan and Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i, as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1—Description of the Plan

The following description of the Clinical Pathology Associates Profit Sharing Plan and Trust (the "Plan") is provided for general information purposes. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all regular employees of Hurt, Jacknow, Moore, Connor, Wells, Michels, Yurco, Listrom & Huang, Professional Association dba Oculus Pathology, formerly Clinical Pathology Associates (the "Company" or "Plan Sponsor") who have completed one year of service and are at least 21 years of age. The Plan became effective April 1, 1969, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employee Contributions – Each year, participants may contribute the lesser of 100% or the maximum allowed by law ($23,500 for 2025) of their pre-tax annual compensation, as defined in the Plan. The Plan also allows for catch-up contributions for participants at least 50 years of age ($7,500 for 2025). Participants may also contribute amounts representing rollover distributions from other qualified retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Contributions – The Plan Sponsor will make a safe harbor matching contribution equal to 100% of a participant's elective deferrals up to 3% of the participant's eligible earnings, as defined in the Plan document.

Additionally, the Plan allows the Plan Sponsor to make a discretionary profit sharing contribution to the Plan. The total amount of any profit sharing contribution is determined as a percentage of participants' total eligible compensation and is allocated to eligible participants as specified in the Plan document. During the year ended December 31, 2025, the Company made a discretionary profit sharing contribution equal to 10.445% of eligible compensation, totaling $2,278,651. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's matching contribution and discretionary profit sharing contributions, if any, and, (b) Plan earnings (losses), and charged with withdrawals and an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.50% at December 31, 2025, which are commensurate with local prevailing rates as determined by the Plan administrator. All notes must be repaid within a specified period of time, not to exceed 60 months, except those that are used for the purchase of a principal residence in which case the note can be extended for 20 years. Principal and interest is paid ratably through monthly payroll deductions.

Vesting – Participants are immediately vested in their contributions and safe harbor contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contribution portion of their accounts plus actual earnings thereon is based on a participant's years of vesting service. A participant is 100% vested after six years of credited service as summarized as follows:

Years of Service	Vesting Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Note 1—Description of the Plan (continued)

Payment of Benefits – Benefits become available to participants on the earliest of four events: (1) termination of employment, (2) death of the participant (benefits are payable to the participant's spouse or beneficiary), (3) disability of the participant, or (4) the participant's retirement. Payments may generally be paid in a lump sum, a direct rollover, installments, various annuities, or partial payments.

Terminating participants with balances under $1,000 are automatically paid as a lump sum unless they request a qualified rollover distribution. If the participant's account balance exceeds $1,000, the participant may choose to keep the funds in the Plan, request a direct rollover to another qualified plan, or take partial, installment, or lump-sum distributions.

If a participant's benefits exceed $5,000 when benefits begin, they will automatically be paid in an annuity form of payment unless the participant elects a different form of payment in accordance with the distribution election rules under the Plan. Additional information regarding the annuity and other forms of payment is provided in the Plan document.

Distributions During Employment – As a general rule, participant's contributions will remain in the Plan as long as the participant remains employed by the Company. The Plan does provide exceptions to this rule for withdrawals of the participant's contributions under certain circumstances that satisfy the criteria for a hardship withdrawal described in the Plan document.

Furthermore, participants who are at least age 59½ may elect an in-service distribution from their employee deferral contribution accounts and their safe harbor matching and profit sharing contribution accounts, if 100% vested. Upon being credited with at least 10 years of vesting service, participants may withdraw all or any portion of their profit sharing contribution account. Additionally, the participant is required to begin taking minimum distributions no later than April 1 of the calendar year following the calendar year the participant turns 72 or terminates employment, whichever is later.

Forfeitures – As of December 31, 2025 and 2024, forfeited nonvested accounts totaled $19,296 and $44,982, respectively. Per the Plan document, these amounts may be used to pay Plan expenses or to reduce amounts otherwise required to be contributed to the Plan. During the year ended December 31, 2025, $76,852 of forfeited nonvested accounts were used to reduce employer contributions and to pay for certain Plan expenses.

Note 2—Summary of significant accounting policies

Basis of Presentation – The accompanying financial statements have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the Plan management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Income Recognition – The Plan presents in the statement of changes in net assets available for benefits the net appreciation or depreciation in the fair value of its investments, which consists of realized gains or losses and the unrealized appreciation or depreciation on those investments. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Note 2—Summary of significant accounting policies (continued)

Investment Valuation – Investments in the Plan are reported at fair value. U.S. GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document. For the year ended December 31, 2025, $14,615 was recorded as interest income on notes receivable from participants.

Contributions Receivable – Any participant-related contributions that have been deducted from the participant's payroll as of the end of the year but that have not been deposited with the Plan until after the end of year are reflected as participant contributions receivable in the accompanying financial statements. In addition, any contributions due and payable by the Company are reflected as employer contributions receivable in the accompanying financial statements.

Payment of Benefits – Benefits paid to participants are recorded when paid.

Administrative Expenses – Certain administrative expenses, including legal and accounting, are paid by the Plan Sponsor and, accordingly, are not reflected in the accompanying financial statements of the Plan. Certain transaction processing fees are charged to the participants and, therefore, are reflected in the accompanying statement of changes in net assets available for benefits as administrative expenses. Investment related expenses are included in the net appreciation or net depreciation of the fair value of investments.

Note 3—Fair value measurements

U.S. GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset and liability, in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

U.S. GAAP defines three levels of inputs that may be used to measure fair value as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Note 3—Fair value measurements (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following are descriptions of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds – These public investment vehicles are valued using the net asset value ("NAV") provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is classified within Level 1 of the valuation hierarchy based on the underlying assets of the account, which are traded on an active market.

Self-Directed Brokerage Accounts – These investments are valued at current value based on published market quotations from individual investments composing the brokerage accounts. Such assets are classified as Level 1 of the valuation hierarchy.

The Plan believes its valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's financial instruments carried at fair value are classified by the following fair value hierarchy levels as of December 31:

	2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Investments:				
Mutual funds	$ 63,523,904	$ -	$ -	$ 63,523,904
Total investments at fair value	$ 63,523,904	$ -	$ -	$ 63,523,904

	2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Investments:				
Mutual funds	$ 49,591,857	$ -	$ -	$ 49,591,857
Self-directed brokerage accounts	22,619,466	-	-	22,619,466
Total investments at fair value	$ 72,211,323	$ -	$ -	$ 72,211,323

During the year ended December 31, 2025, in anticipation of the Plan merger described in Note 8, the Plan notified all participants with self-directed brokerage accounts that these would no longer be allowed in the Plan. Participants were allowed to transfer these investments into the main Plan trust account or, if eligible, received in-service distributions of the related assets.

Note 4—Party-in-interest transactions

Certain members of the Company's management perform administrative and fiduciary duties for the Plan that qualify them as parties-in-interest and/or related parties of the Plan. Transactions between such members of management and the Plan were routine in nature and conducted pursuant to the Plan's provisions as of and during the year ended December 31, 2025. Notes receivable from participants also qualify as party-in-interest transactions but are exempt from the prohibited transaction rules.

Note 5—Plan termination

The Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event such discontinuance results in termination of the Plan, the Plan provides that the assets be allocated among the participants and beneficiaries in the amounts credited to each participant's respective account at the effective date of such termination. In the event of Plan termination, participants will become 100% vested in their account balances. The Plan merger described in Note 8 did not constitute a termination of the Plan, and participants' vesting service was carried over to the successor plan.

Note 6—Tax status

The Plan obtained its latest opinion letter on June 30, 2020, in which the Internal Revenue Service stated the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8—Subsequent events

In accordance with U.S. GAAP related to subsequent events, the Plan has evaluated all events subsequent through October 1, 2026, the date these financial statements were available to be issued.

Plan Merger – Effective January 2026, the Plan merged with a pooled employer plan ("PEP"), *The Retirement Success Savings Plan*, which allows multiple unrelated entities to pool their investments. The Plan merged with a PEP that allows for flexible adoption provisions, and such, the Plan has adopted provisions substantially similar to the current Plan provisions.

The Plan merger was completed during January 2026, at which point, all assets of the Plan, totaling $64,755,600, were transferred into the new PEP plan.
