Independent Auditor's Report

To the Plan Administrator Deschutes Brewery, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Deschutes Brewery, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Deschutes Brewery, Inc. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Deschutes Brewery, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Deschutes Brewery, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Deschutes Brewery, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Deschutes Brewery, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of the Deschutes Brewery, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan (ESOP) established effective December 12, 2012. The Plan covers all employees of Deschutes Brewery, Inc. (the Company or Employer) who have completed 1,000 hours of service during a 12-month period and are age 18 or older. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Board of Directors is responsible for oversight of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Directors.

Contributions

Employer contributions are discretionary. Amounts contributed to the Plan may be paid in cash, shares of company stock, or by forgiveness of indebtedness. Employee contributions are not permitted.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of the Company's discretionary contributions and, on the last day of each plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation of employer stock.

Allocations are based on a participant's eligible compensation, relative to total eligible compensation. The participants' employer stock accounts are adjusted for unrealized appreciation or depreciation on the shares held by each participant. Plan earnings are allocated, as defined in the plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances as of the beginning of the year.

All assets and liabilities of the Plan are nonparticipant-directed, and all changes in Plan net assets are detailed on the statement of changes in net assets available for benefits.

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. A participant is 20 percent vested beginning in year 2 of their credited service and continue to vest in increments of 20 percent until 100 percent vested after 6 years of credited service. If a participant's employment with the Company ends due to retirement, permanent disability, or death, he or she will become 100 percent vested in the balance in his or her account. A year of service for vesting purposes is defined as 1,000 hours worked during a plan year.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to the approval or disapproval of any corporate merger, consolidation, liquidation, or similar transaction. The trustee is permitted to vote in other matters and will vote any unallocated shares in a manner which is in the collective best interests of the Plan, the participants, and beneficiaries of the Plan.

Payment of Benefits

On termination of service, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account. Depending on the value of the participant's vested account balance, the distribution will be made either in a lump sum or installment payments over no more than five years. Distributions are made in cash or company stock, at the plan administrator's discretion.

Under the provisions of the Plan, a participant receiving a distribution of company stock must immediately sell all shares to the Company, which is obligated to repurchase the participant shares at a price equal to the fair market value as determined by the most recent annual appraisal. During the plan years ended December 31, 2025 and 2024, the Plan did not distribute any shares of common stock subject to repurchase.

Under certain conditions, and as determined by the plan administrator, the Plan may distribute dividends or S-Corporation distributions paid on shares of company stock allocated to participants' company stock accounts to participants. No such distributions occurred for the years ended December 31, 2025 and 2024.

Forfeited Accounts

When certain terminations of a participant in the Plan occur, the nonvested portion of the participant's account represents a forfeiture. However, if the participant is re-employed and fulfills certain requirements, as defined in the Plan, the participant's account may be reinstated. Plan forfeitures are allocated to each participant's account in the same manner in which the company contributions are allocated. During 2025 and 2024, $96,615 and $117,538, respectively, was allocated to participant accounts from forfeited nonvested accounts, in accordance with plan provisions.

Put Option

Under federal income tax regulations, company stock that is held by the Plan and its participants, is not readily tradable on an established market, or is subject to trading limitations, must include a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to qualified participants so that they may have the opportunity to move part of the value of their investment in company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan are considered qualified and may elect to diversify a portion of their account. Diversification is offered during the six-year period beginning with the plan year in which the participant first becomes eligible for diversification. During the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage increases to 50 percent. Participants who elect to diversify have the option to receive a cash distribution or to invest a portion of their account in non-company stock investments under this plan or another plan maintained by the Company. As of December 31, 2025 and 2024, there were 15 and 16 participants, respectively, who were eligible to elect to diversify their account. For the year ended December 31, 2025, one participant elected diversification totaling $2,658 which was satisfied through a cash distribution to the electing participant. No participant diversification elections were made for the year ended December 31, 2024.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid. There were $51,860 of benefit payments allocated to persons who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2025. There were no amounts allocated to persons who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2024.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments. The plan sponsor absorbs all significant costs of administering the Plan.

Subsequent Events

Subsequent events were evaluated through September 2, 2026, the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

Company Common Stock: Valued at estimated fair value based on an independent third-party appraisal using a combination of widely used valuation approaches, including the market and income valuation techniques. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate.

The fair valuation methodology used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value could result in different fair value measurement at the reporting date.

Money Market Funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

The following summary presents a summary of the Plan's investment assets measured at fair value:

Assets at Fair Value as of December 31, 2025	**Level 1**	**Level 2**	**Level 3**	**Total**
Money market mutual funds	$ 362,096	$ -	$ -	$ 362,096

Total investments at fair value	$ 20,816	$ -	$ 5,210,087	$ 5,230,903

Changes in Fair Value of Level 3 Assets

At December 31, 2025 and 2024, the Plan had 78,961 allocated shares and no unallocated shares with a price per share of $65.96 and $65.98, respectively.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2025 and 2024, the significant unobservable inputs and the quantitative information about those inputs.

Instrument	2025	2024	Principal Valuation Technique	Significant Unobservable Inputs
Company common stock	$ 5,208,274	$ 5,210,087	Income	EBITDA, weighted average cost of capital, discount rate
			Market	Fair value of Deschutes Brewery, Inc. net worth, discount for lack of marketability, discount for lack of control

5. Investment in Common Stock

The Plan's investments in the Company's common shares at December 31, are presented in the following table:

	2025	2024
Number of shares	78,961	78,961
Cost	$ 4,500,000	$ 4,500,000
Estimated fair value	$ 5,208,274	$ 5,210,087

6. Tax Status

The IRS has determined and informed the Company by a letter dated May 20, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Administration of Plan Assets

The Plan's assets, which consist principally of Deschutes Brewery, Inc. common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received as well as investment income and S-Corporation distributions. The trustee also makes distributions to participants and administers the payment of interest and principal on outstanding loans, if any.

8. Employer Contributions

Company contributions for any plan year shall be in an amount determined at the sole discretion of the board of directors provided that the company contributions are made in an amount sufficient to allow the trust fund to satisfy any currently maturing obligations. Company contributions may be paid in cash, shares of company stock, or by forgiveness of indebtedness, as determined by the board of directors.

During the years ended December 31, 2025 and 2024, the Company approved $249,922 and $483,266, respectively, in discretionary contributions to the Plan.

9. Related-Party and Party-In-Interest Transactions

A related party is any party who can control or significantly influence plan management or operating policies. Parties-in-interest are defined under DOL regulations as any employees of the Plan, fiduciaries of the Plan, service providers of the Plan, the employer whose employees are covered by the Plan, and certain significant owners of the employer and their relatives. Service providers may include, but are not limited to, the custodian, trustee, third-party administrator (TPA), investment managers, investment advisors, legal counsel, and plan auditor.

The Plan invests in shares of common stock of Deschutes Brewery, Inc., the plan sponsor. This investment and transactions in this investment qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA for employee stock ownership plans.

10. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Directors directs the Trustee to pay all liabilities and expenses of the Plan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan agreement and the IRC. In the event of plan termination, participants would become 100 percent vested.
