Independent Auditors' Report

The Plan Trustees
R&P Technologies 401(k) Plan Profit Sharing Plan and Trust
Dublin, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of R&P Technologies 401(k) Profit Sharing Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

KMCO CPAs LLP
100 Witmer Road, Suite 350, Horsham, PA 19044-2369
215-441-4600 | fax: 215-672-8224 | www.kmco.com

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of Plan

The following description of the R&P Technologies 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

R&P Technologies (the Company) established the Plan on January 1, 2005 to provide eligible employees with retirement, disability, death and income tax benefits through voluntary deferred compensation. The Plan covers all eligible employees, as defined by the Plan, of the Company who are at least 21 years of age. The Plan was restated as of June 1, 2022, and subsequently amended as of January 1, 2023. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Board of Trustees, established and appointed by the Company, serves as the plan administrator and is the primary source of information regarding the Plan. The Board of Trustees is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions

The Plan allows participants to elect to make a pre-tax contribution of up to 92% of compensation, excluding any other benefits provided by the Company on the employee's behalf, as defined. Participants may also elect to make Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees and those who are currently not enrolled in the Plan are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation, and their contributions are invested in a designated balanced fund until changed by the participant. The deferral rate will automatically increase to 6% one year after enrollment unless the participant affirmatively elects their deferral percentage at the beginning of each plan year.

(1) Description of Plan, Continued

Contributions, Continued

The Company makes safe harbor matching contributions to each eligible participant's account. The safe harbor contribution is 100% of participant elective deferrals up to 3% and 50% of participant elective deferrals greater than 3%, up to 5% of compensation. The Plan requires one month of service to be eligible to participate and receive matching contributions. The Company may also make discretionary profit sharing contributions. To be eligible for a profit sharing contribution, the participant must complete 6 months service during the plan year and be employed on the last day of the plan year. For the year ended December 31, 2025, the Company made a $150,000 profit sharing contribution to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested immediately in their contributions plus actual earnings or losses thereon, as well as the employer safe harbor contributions. Vesting in the Company's profit sharing portion of their accounts is based on years of continuous service. Vested percentages for the profit sharing contribution will be determined on the basis of years of service in accordance with the following vesting schedule:

Years of Service	Vested Percentage
Less than One	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Participants become fully vested in their account balances if while employed, the employee reaches normal retirement age of 65, becomes disabled, or dies.

(1) Description of Plan, Continued

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.50%, which is commensurate with market rates on similar loans as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Hardship Withdrawals

Participants may withdraw up to 100% of elective deferral contributions and earnings thereon if the withdrawal is for financial hardship, as defined in the plan document.

Payment of Benefits

Upon termination of employment, retirement, or death, a participant or named beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account under various alternatives including a lump-sum distribution or annuity options, as described by the plan document. A participant may elect to receive an in-service distribution from his or her deferral contribution account without terminating employment upon attainment of age 59½, subject to plan provisions. The plan administrator may elect to authorize a lump-sum distribution for terminated participants whose vested account balances are less than $7,000.

Forfeited Accounts

Company contributions which do not vest prior to participant withdrawals are forfeited to the Plan and will be allocated to each eligible participant's account in the ratio that each eligible participant's compensation bears to the total compensation of all eligible participants, as defined by the Plan, in the same plan year in which the forfeitures occur. At December 31, 2025 and 2024, forfeited nonvested accounts totaled $41,773 and $12,828, respectively. During 2025, $12,828 of forfeited nonvested accounts were used to reduce employer matching contributions. During 2024, $7,315 and $139 of forfeited nonvested accounts were used to reduce administrative expenses and employer matching contributions, respectively.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recognized on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

(2) Summary of Significant Accounting Policies, Continued

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through September 24, 2026, the date the financial statements were available to be issued.

(3) Certified Investment Information

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to investments and notes receivable from participants held as of December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Mid Atlantic Trust Company (MATC), a qualified institution.

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codifications* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

Continued…

(4) Fair Value Measurements, Continued

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open end investments that are registered with the Securities and Exchange Commission. These investments are required to publish their daily net asset value (NAV) and to transact at that price. The investments held by the Plan are deemed to be actively traded.

Common collective trust: Valued at the NAV of units of a trust company investment trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Assets at Fair Value as of December 31, 2025			
Description	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 26,263,726	$ -	$ -	$ 26,263,726
Investments measured at NAV as a practical expedient				736,609
Total investments at fair value				$ 27,000,335

Continued…

(4) Fair Value Measurements, Continued

Description	Assets at Fair Value as of December 31, 2024 Level 1	Level 2	Level 3	Total
Registered investment companies	$ 21,373,125	$ -	$ -	$ 21,373,125
Investments measured at NAV as a practical expedient				326,170
Total investments at fair value				$ 21,699,295

Certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statements of net assets available for benefits.

There were no significant transfers among investment levels during the years ended December 31, 2025 and 2024.

The following table summarizes investments measured at fair value based on the NAV per share as a practical expedient as of December 31, 2025 and 2024, respectively.

	Fair Value at December 31, 2025	2024	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Metlife Stable Value Solutions Fund	$ 736,609	$ 326,170	None	Daily, subject to frequent trading provisions	No defined period

(5) Related Party Transactions and Party-In-Interest Transactions

Fees paid by the Plan for investment management services amounted to approximately $118,000 for the year ended December 31, 2025. Under an agreement negotiated with MATC, the Plan is a beneficiary of a reduction of a portion of the Plan's mutual fund management fees, which are rebated to the Plan. The allowance is deposited in an Administrative Expense Account maintained by the Plan and can be used to pay plan expenses as permitted by the plan document. During 2025, the rebate income received by the Plan amounted to $34,055 and is included in other income.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their account balances.

(7) Tax Status

The Plan uses a prototype plan document sponsored by PayChex, Inc. The Internal Revenue Service (IRS) has determined and informed PayChex, Inc. by a letter dated August 31, 2020, that the prototype plan and related trust under which it operates are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

The Plan Trustees
R&P Technologies 401(k) Plan Profit Sharing Plan and Trust
Dublin, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of R&P Technologies 401(k) Profit Sharing Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

KMCO CPAs LLP
100 Witmer Road, Suite 350, Horsham, PA 19044-2369
215-441-4600 | fax: 215-672-8224 | www.kmco.com

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of Plan

The following description of the R&P Technologies 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

R&P Technologies (the Company) established the Plan on January 1, 2005 to provide eligible employees with retirement, disability, death and income tax benefits through voluntary deferred compensation. The Plan covers all eligible employees, as defined by the Plan, of the Company who are at least 21 years of age. The Plan was restated as of June 1, 2022, and subsequently amended as of January 1, 2023. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Board of Trustees, established and appointed by the Company, serves as the plan administrator and is the primary source of information regarding the Plan. The Board of Trustees is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions

The Plan allows participants to elect to make a pre-tax contribution of up to 92% of compensation, excluding any other benefits provided by the Company on the employee's behalf, as defined. Participants may also elect to make Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees and those who are currently not enrolled in the Plan are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation, and their contributions are invested in a designated balanced fund until changed by the participant. The deferral rate will automatically increase to 6% one year after enrollment unless the participant affirmatively elects their deferral percentage at the beginning of each plan year.

Contributions, Continued

The Company makes safe harbor matching contributions to each eligible participant's account. The safe harbor contribution is 100% of participant elective deferrals up to 3% and 50% of participant elective deferrals greater than 3%, up to 5% of compensation. The Plan requires one month of service to be eligible to participate and receive matching contributions. The Company may also make discretionary profit sharing contributions. To be eligible for a profit sharing contribution, the participant must complete 6 months service during the plan year and be employed on the last day of the plan year. For the year ended December 31, 2025, the Company made a $150,000 profit sharing contribution to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested immediately in their contributions plus actual earnings or losses thereon, as well as the employer safe harbor contributions. Vesting in the Company's profit sharing portion of their accounts is based on years of continuous service. Vested percentages for the profit sharing contribution will be determined on the basis of years of service in accordance with the following vesting schedule:

Years of Service	Vested Percentage
Less than One	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Participants become fully vested in their account balances if while employed, the employee reaches normal retirement age of 65, becomes disabled, or dies.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.50%, which is commensurate with market rates on similar loans as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Hardship Withdrawals

Participants may withdraw up to 100% of elective deferral contributions and earnings thereon if the withdrawal is for financial hardship, as defined in the plan document.

Payment of Benefits

Upon termination of employment, retirement, or death, a participant or named beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account under various alternatives including a lump-sum distribution or annuity options, as described by the plan document. A participant may elect to receive an in-service distribution from his or her deferral contribution account without terminating employment upon attainment of age 59½, subject to plan provisions. The plan administrator may elect to authorize a lump-sum distribution for terminated participants whose vested account balances are less than $7,000.

Forfeited Accounts

Company contributions which do not vest prior to participant withdrawals are forfeited to the Plan and will be allocated to each eligible participant's account in the ratio that each eligible participant's compensation bears to the total compensation of all eligible participants, as defined by the Plan, in the same plan year in which the forfeitures occur. At December 31, 2025 and 2024, forfeited nonvested accounts totaled $41,773 and $12,828, respectively. During 2025, $12,828 of forfeited nonvested accounts were used to reduce employer matching contributions. During 2024, $7,315 and $139 of forfeited nonvested accounts were used to reduce administrative expenses and employer matching contributions, respectively.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recognized on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from plan participants and the matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through September 24, 2026, the date the financial statements were available to be issued.

(3) Certified Investment Information

Certain information in the accompanying financial statements and ERISA-required supplemental schedule related to investments and notes receivable from participants held as of December 31, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by Mid Atlantic Trust Company (MATC), a qualified institution.

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codifications* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

Continued…

(4) Fair Value Measurements, Continued

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open end investments that are registered with the Securities and Exchange Commission. These investments are required to publish their daily net asset value (NAV) and to transact at that price. The investments held by the Plan are deemed to be actively traded.

Common collective trust: Valued at the NAV of units of a trust company investment trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Assets at Fair Value as of December 31, 2025			
Description	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 26,263,726	$ -	$ -	$ 26,263,726
Investments measured at NAV as a practical expedient				736,609
Total investments at fair value				$ 27,000,335

(4) Fair Value Measurements, Continued

Description	Assets at Fair Value as of December 31, 2024 Level 1	Level 2	Level 3	Total
Registered investment companies	$ 21,373,125	$ -	$ -	$ 21,373,125
Investments measured at NAV as a practical expedient				326,170
Total investments at fair value				$ 21,699,295

Certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statements of net assets available for benefits.

There were no significant transfers among investment levels during the years ended December 31, 2025 and 2024.

The following table summarizes investments measured at fair value based on the NAV per share as a practical expedient as of December 31, 2025 and 2024, respectively.

	Fair Value at December 31, 2025	2024	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Metlife Stable Value Solutions Fund	$ 736,609	$ 326,170	None	Daily, subject to frequent trading provisions	No defined period

(5) Related Party Transactions and Party-In-Interest Transactions

Fees paid by the Plan for investment management services amounted to approximately $118,000 for the year ended December 31, 2025. Under an agreement negotiated with MATC, the Plan is a beneficiary of a reduction of a portion of the Plan's mutual fund management fees, which are rebated to the Plan. The allowance is deposited in an Administrative Expense Account maintained by the Plan and can be used to pay plan expenses as permitted by the plan document. During 2025, the rebate income received by the Plan amounted to $34,055 and is included in other income.

(6) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their account balances.

(7) Tax Status

The Plan uses a prototype plan document sponsored by PayChex, Inc. The Internal Revenue Service (IRS) has determined and informed PayChex, Inc. by a letter dated August 31, 2020, that the prototype plan and related trust under which it operates are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.
