INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
the Rio Bank
Employee Stock Ownership and 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Rio Bank Employee Stock Ownership and 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Rio Bank Employee Stock Ownership and 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note L to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Rio Bank Employee Stock Ownership and 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Rio Bank Employee Stock Ownership and 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Rio Bank Employee Stock Ownership and 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Rio Bank Employee Stock Ownership and 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agrees to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE A - DESCRIPTION OF PLAN

The following description of the Rio Bank (the "Bank"), a wholly owned subsidiary of Rio Bank Financial Services, Inc. (the "Company") Employee Stock Ownership and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan established January 1, 1996, and most recently amended and restated effective January 1, 2025. The Plan is a Qualified Automatic Contribution Arrangement (QACA) which is intended to be qualified under Section 401(a) of the Internal Revenue Code (the "Code") with safe harbor provisions under the Pension Protection Act of 2006. The Plan is intended to be an employee stock ownership plan within the meaning of Section 4975(e)(7) of the Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

Each year participants may contribute a dollar amount or percentage of pretax annual compensation as defined in the Plan. The total amount of such contribution shall not exceed the maximum elective contribution prescribed by Section 402(g)(1) of the Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various 401(k) investment options offered by the Plan. The Plan currently offers nineteen pooled separate accounts, ten mutual funds and one collective investment trust. Under the provisions of the Plan, the Company contributes a safe harbor matching contribution of 100 percent of the participant's elective salary deferral, up to 6 percent of compensation. All employer contributions are designated for investment in employer common stock. Contributions received near year-end are temporarily held in cash and cash equivalents by the Plan prior to being invested in employer common stock subsequent to the reporting date.

Additional discretionary non-elective (optional) contributions, based on elective deferrals, may be contributed by the Company at the option of the Company's Board of Directors. Contributions are subject to certain limitations. There were no additional discretionary non-elective (optional) contributions made for 2025 and 2024.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of (a) Plan losses and (b) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Employer Dividends

Employer dividends received by the Plan are reinvested in participant accounts in accordance with the provisions of the amended Plan document. Participants are not permitted to take direct cash distributions of these dividends. The total amount of employer dividends received and reinvested for the year ended December 31, 2025 was $16,284.

NOTE A - DESCRIPTION OF PLAN – Continued

5. Vesting

Participants are immediately vested in their contributions and actual earnings thereon. The Company's QACA safe harbor matching portion of their accounts plus actual earnings thereon are fully vested after two years. Vesting in the Company's matching and discretionary matching contributions portion of their accounts plus actual earnings thereon is based on years of continuous service, subject to a five-year graded vesting schedule. The following table summarizes the appropriate vesting schedules:

Years of Service	Discretionary Employer Contributions	QACA Safe Harbor
1 yr	20%	0%
2 yrs	40%	100%
3 yrs	60%	-
4 yrs	80%	-
5 or more	100%	-

6. Notes Receivable from Participants

Participants may borrow from their fund accounts for selected purposes as defined in the Plan. Amounts invested in common stock of the Company are not available for participant loans. No loan shall be granted in an amount less than the principal sum of $500. Loans will be limited to the lesser of 50 percent of their vested account balance or $50,000, and must be in the form of a signed note with a reasonable and definite repayment schedule paid through payroll deductions. Participants are allowed one outstanding loan at a time. The loans are secured by the participant's vested balance in their account and bear interest at rates ranging from 3.25 to 8.50 percent, which is commensurate with local prevailing rates as determined by the Plan's provisions. The interest rate will be fixed for the duration of the loan.

7. Participant Investment Rollovers

Participants are allowed to transfer or rollover funds into the Plan from other qualified plans.

8. Payment of Benefits

In the event of total and permanent disability or retirement, distribution shall commence no later than one year after the close of the Plan Year in which such event occurs. In the event of death or termination of service, distribution of the funds shall be made on the occurrence of such event. Payment of benefits shall generally not exceed a period of five years, unless certain plan provisions are met. Participants can receive their distributions in either one lump-sum payment or in payments over a period certain in monthly, quarterly, semiannual, or annual installments, provided their total vested interest in the Plan exceeds $7,000. Distributions made from Company stock are processed only once per year.

NOTE A - DESCRIPTION OF PLAN – Continued

9. Forfeitures

On or before each anniversary date any amounts which become forfeitures since the last anniversary date may be made available to reinstate previously forfeited account balances of former participants, if any, be used to satisfy any contribution in accordance with plan provisions, or used to pay any administrative expenses of the Plan. The remaining forfeitures, if any, shall be allocated to participants' accounts as defined in the Plan. At December 31, 2025 and 2024, forfeited non-vested accounts totaled $14 and $12, respectively.

10. Put Option

If Company stock is distributed to a participant, the participant has a right to require the Company to repurchase the Company stock distributed to such participant under a fair valuation formula. The put option must be exercisable only by the participant, by the participant's donees, or by a person to whom the Company stock passes by reason of the participant's death. The put option must permit the participant to put the Company stock to the Company. Under no circumstances may the put option bind the Plan. However, it shall grant the Plan an option to assume the rights and obligations of the Company at the time that the put option is exercised. The put option shall commence as of the day following the date the Company stock is distributed to the former participant and end sixty days thereafter and, if not exercised within such period, an additional sixty-day option shall commence on the first day of the fifth month of the Plan year next following the date the stock was distributed.

11. Diversification and Voting Rights

Certain participants are entitled to diversification election rights in accordance with Section 401(a)(28) of the Internal Revenue Code (the "Code"), allowing qualified participants to diversify a portion of their investments in employer common stock into other available plan investment options. Additionally, in accordance with the provisions of the Plan and Code Section 401(a)(22), participants are entitled to pass-through voting rights. Each participant is entitled to direct the trustee how to vote the shares of employer common stock allocated to their account on all corporate matters submitted to a vote of shareholders. Unallocated shares and shares for which no directions are received are voted by the trustee in accordance with the terms of the Plan document.

12. Administration and Trustees

The general administration of the Plan is performed by the Plan administrator and the Plan Trustees.

The Plan's Board of Trustees is composed of Steve Griffith, Brian Humphreys, Omar Rodriguez, and Michelle Castellanos, with Ms. Castellanos also serving as Plan administrator. Among other duties, the Board of Trustees is responsible for receiving and investing contributions, making payments to participants in accordance with the Plan, and performing other actions as directed by the administrator.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting, in conformity with accounting principles generally accepted in the United States of America.

2. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

3. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements. Net appreciation (depreciation) in the fair value of investments includes gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

4. Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. Delinquent notes receivable from participants are reclassified as distributions based upon the term of the Plan document. No allowance for credit losses has been recorded as of December 31, 2025 and 2024.

5. Payment of Benefits

Benefits are recorded when paid.

6. Contributions

Contributions from employees are recorded as they are withheld from participant's wages. Employer matching contributions are recorded in the period the related participant contributions are withheld. Rollover contributions are recorded when received.

NOTE B - SUMMARY OF ACCOUNTING POLICIES – Continued

7. Administrative Expenses

The Plan permits the payment of all reasonable Plan administration expenses to be paid out of the Plan assets unless paid for by the Company. The Plan will assess against an individual Participant's account certain Plan expenses that are incurred by, or are attributable to, a particular Participant based on the use of a particular Plan feature. Expenses in excess of those fees are paid by the Company. Forfeitures may also be used to pay for Plan expenses.

NOTE C – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

When only net asset value of investments is available, the Plan follows the Financial Accounting Standards Board (FASB) update ASU 2015-07, which removes the requirement for reporting entities to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are measured at fair value using the net asset value per share practical expedient.

NOTE C – FAIR VALUE MEASUREMENTS – Continued

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- *Mutual funds* are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

- *Collective investment trust* invests in a collective trust fund as well as a variety of separate accounts and mutual funds. These securities are valued at the net asset value ("NAV") based on the observable underlying investments. The NAV is used as a practical expedient to estimate fair value. Investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. Redemption frequency is daily, subject to plan-level notice periods as defined in the contract. There are no unfunded commitments.

- *Pooled separate accounts* are securities directly invested in mutual funds. These securities are valued at the net asset value based on the observable underlying investments. The NAV is used as a practical expedient to estimate fair value. Investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. Redemption frequency is daily with no notice period required. There are no unfunded commitments.

- *Common stock*: Value determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation methods consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of company assets and liabilities. The employer common stock held by the Plan is subject to contractual sale restrictions, including a right of first refusal and mandatory put options requiring shares to be sold back to the employer under specified terms, with payouts occurring in substantially equal periodic payments over up to five years. In accordance with ASU 2022-03, the fair value of these equity securities reflects these contractual restrictions.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

NOTE C – FAIR VALUE MEASUREMENTS – Continued

	Assets at Fair Value as of December 31, 2025

Other Investments measured at net asset value (a)				
Pooled separate accounts				$ 5,965,373
Collective investment trust				546,486
Total Investments at fair value				$ 11,841,028

(a) In accordance with ASU 2015-07, Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets.

NOTE C – FAIR VALUE MEASUREMENTS – Continued

The following table presents a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2025:

	Employer Common Stock	
	Shares	Fair Value
Balance, beginning of year	95,791	$ 4,789,550
Purchases	10,102	505,100
Net appreciation in fair value of common stock	-	317,679
Balance, end of year	105,893	$ 5,612,329

The employer common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The valuation process involves the selection of an appraiser under contract for a period of one year. Plan trustees and management accumulate data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution.

The Company evaluates the significance of various inputs to assess the appropriate classification of the Plan's investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Transfers between levels are evaluated for their significance based upon the nature of the investment and size of the transfer relative to the net assets available for benefits. The Plan's policy is to recognize transfers into or out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2025, there were no significant transfers into or out of Level 3.

NOTE D – COMPANY DIVIDENDS

The Company paid a dividend to the Plan of $0.17 per share or $16,284 for the year ended December 31, 2025. As the Plan is not leveraged, all dividends were allocated to participant accounts.

NOTE E – INVESTMENT CONTRACT WITH PRINCIPAL TRUST COMPANY

Plan assets for the 401(k) are held by Principal Trust Company ("Principal"). The contract includes variable investments offerings through pooled separate accounts, a collective investment trust, and mutual funds. These unregistered pooled separate accounts are divided into investment divisions called 'Sub-Accounts.' Each Sub-Account invests in shares of an underlying registered investment company.

NOTE F – CONCENTRATIONS

Investments of the Plan are either in Rio Bank Financial Services, Inc.'s common stock or placed with Principal Trust Company. Investments with Principal Trust Company are in pooled separate accounts, mutual funds or the collective investment trust, which represent ownership of units of participation in said funds rather than specific assets.

At December 31, 2025 and 2024, the Plan's investment in employer common stock represented approximately 33% and 37% of net assets available for benefits, respectively.

The plan maintains its cash accounts in demand deposit accounts with Rio Bank, the plan sponsor. Accounts at the bank are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000. At December 31, 2025 and 2024, the Plan's cash balances held at Rio Bank exceeded the FDIC insurance limit by $508,557 and $349,159, respectively. Management believes the risk of loss is minimized by dealing with a high-credit quality financial institution.

NOTE G – RELATED PARTY TRANSACTIONS

Certain plan investments are shares of common stock of Rio Bank, the plan sponsor. Therefore, these transactions qualify as party-in-interest transactions. At December 31, 2025 and 2024, the Plan held 105,893 shares of employer common stock with a fair value of $5,612,329 and $4,789,550, respectively.

During the years ended December 31, 2025 and 2024, the Plan purchased 10,102 and 6,517 shares of Company common stock at a cost of $505,100 and $296,604, respectively. The Company paid dividends to the Plan totaling $16,284 for the year ended December 31, 2025.

Additionally, the Plan's non-interest-bearing cash balances of $758,557 and $599,159 at December 31, 2025 and 2024, respectively, are deposited with Rio Bank.

Principal Trust Company serves as the trustee and recordkeeper for the Plan, holding the plan's mutual funds, collective investment trusts, and pooled separate accounts. Participants are responsible for 401(k) contract administrator fees, which include asset management fees, loan processing fees, and distribution fees, which together totaled $79,072 for the Plan year ended December 31, 2025.

These transactions are considered exempt party-in-interest transactions.

NOTE H – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE I – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2020.

NOTE J – RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment securities. Investments in general are exposed to various risks, such as interest rate, market, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE K – TERMINATED PARTICIPANTS

The vested amount due to terminated participants totaled $0 at December 31, 2025 and 2024.
