INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Plan Trustees
Retirement Plan for Employees of Littlestown Foundry, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Retirement Plan for Employees of Littlestown Foundry, Inc. (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditors' Responsibilities for the Audit - continued

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

Other Matters - continued

Supplemental Schedule Required by ERISA - continued

The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE A - DESCRIPTION OF PLAN

The following description of the Retirement Plan for Employees of Littlestown Foundry, Inc. (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all employees of Littlestown Foundry, Inc. (the Company). Employees are eligible to participate in the Plan on the first day of the month following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Normal Retirement Benefit

Employees are entitled to a monthly retirement benefit upon reaching the latter of age 65 or having five years of participation in the Plan. However, active employees at June 30, 1979, did not have their normal retirement date changed to a later date. The benefit is calculated based upon 0.75% of the average monthly compensation received for the five latest years prior to retirement multiplied by years of accrual service. The maximum monthly benefit under the Plan is $1,100 adjusted by a prescribed percentage reflecting the number of complete months of service as of a given date divided by the number of complete months of service as of their normal retirement date. For employees who were previously covered under the non-salaried retirement plan, the benefit will not be less than the benefit from that plan as of December 31, 1987.

Early Retirement Benefit

The Plan permits early retirement for those employees who retire within five years of their normal retirement date. For employees who were active prior to January 1, 1988, under the non-salaried retirement plan, early retirement age is within ten years of their normal retirement date with 15 years of vesting service. The employee's accrued benefit as of the date of early retirement is reduced by 6 2/3% for each year up to five and 3 1/3% for each year between five and ten that the early retirement date precedes the normal retirement date.

Late Retirement Benefit

The late retirement benefit would be the greater of accrued benefit as of the normal retirement date increased from the later of normal retirement date or January 1, 1982, to recognize that the annuity commences after normal retirement date or the accrued benefit as of late retirement date.

Pre-Retirement Death Benefit

If a participant dies before their retirement date, their spouse will be eligible to receive 100% of the pension benefit accrued to date, adjusted for joint-and-survivor factors, if any, payable under various options as provided by the Plan, beginning on the date retirement benefits would have been paid to the participant if they ceased to be an employee on the date of death and survived to retire.

NOTE A - DESCRIPTION OF PLAN - continued

Payment Options

Employees may elect to receive their benefits under any of the following options available: joint and survivor annuity form, life annuity, life annuity with guaranteed number of payments and lump sum payment.

If the participant's accrued vested benefit is less than $7,000, the benefit is paid out in the form of a lump sum distribution. In the event of a mandatory distribution greater than $1,000, the Plan Administrator will pay the distribution in a direct rollover to an individual retirement arrangement designated by the Plan Administrator if the participant does not elect a direct rollover or lump sum distribution.

Vesting

Each participant is vested in their accrued benefit according to the following schedule based upon years of service:

Years of Vesting Service	
Less than 3 years	0%
3 years	20%
4 years	40%
5 years	60%
6 years	80%
7 years or more	100%

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefit payments to participants and beneficiaries are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are discussed in Note D. Purchases and sales are recorded on a trade date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Risks and Uncertainties

The Plan provides various investment options. Investment securities of the Plan are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. As of December 31, 2025 and 2024, three investment funds and two investment funds represented approximately 40% and 34% of the total investments, respectively.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' accumulated pension credits as determined under the Plan ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employees' service rendered to the valuation date.

NOTE C - INVESTMENTS

The Plan's investments are held in trust and administered by Principal Life Insurance Company, the custodian, except for the Principal Financial Group common stock which is held outside of the group annuity contracts by Edward Jones, as of and for the years ended December 31, 2025 and 2024. The investments and investment income in the accompanying financial statements and supplemental schedule were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the custodian.

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements and Disclosures,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs consist of unobservable inputs and have the lowest priority. The Plan uses valuation techniques based on the available inputs to measure the fair value of its investment. When available, the Plan measures fair value using Level 1 inputs because they provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 and Level 2 inputs are not available.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	Investments at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	$ -	$ -	$ 1,352,880	$ 1,352,880
Common stock	749,126	-	-	749,126
Total investments in the fair value hierarchy	$ 749,126	$ -	$ 1,352,880	2,102,006
Investments measured at NAV *				5,023,079
Total investments at fair value				$ 7,125,085

	Investments at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	$ -	$ -	$ 1,503,203	$ 1,503,203
Common stock	633,690	-	-	633,690
Total investments in the fair value hierarchy	$ 633,690	$ -	$ 1,503,203	2,136,893
Investments measured at NAV *				4,517,423
Total investments at fair value				$ 6,654,316

*In accordance with Subtopic 820-10, certain investments that were measured at net asset value (NAV) per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statements of net assets available for benefits.

NOTE D - FAIR VALUE MEASUREMENTS - continued

Gains and losses (realized and unrealized) are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2025 and 2024.

Guaranteed Investment Contract: Fair value is an amount plan sponsors receive if withdrawing funds from this participating contract. Fair value is calculated using a cash-out factor based on an associated pool of general account assets. The value of the assets is determined on a book value basis. When a fund transfer occurs, the contract provides it must be based on current investment value (or market value), an approximation of fair value. The cash-out factor is a ratio of asset investment value to asset book value. The cash-out factor is used to adjust fair value of supported liabilities impacting amounts the Plan receives at measurement date. A projection of cash flows is done using contractual provisions for the assets, with adjustment for expected prepayments and call provisions. Projected cash flows are discounted to present value for each asset category. Interest rates for discounting are based on current rates on similar new assets in the general account based on asset category. There are no unfunded commitments.

Common Stock: Valued at the daily closing price as reported on the active market on which the individual security is traded.

Pooled Separate Accounts (PSA): The NAV of each PSA is based on the market value of its underlying investments which are derived principally from or corroborated by observable market data. The NAV serves as a practical expedient to estimate the fair value. Due to the nature of these investments, there are no unfunded commitments or redemption restrictions.

The following table summarizes investments for which fair value is measured using NAV per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice is only applicable to the Plan.

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
December 31, 2025				
Pooled separate accounts	$ 5,023,079	$ -	Daily	Immediate
December 31, 2024				
Pooled separate accounts	$ 4,517,423	$ -	Daily	Immediate

NOTE E - GUARANTEED INVESTMENT CONTRACT

The Plan maintains a guaranteed investment contract with The Principal Financial Group that is not considered fully benefit-responsive. The contract is valued at fair value. The guaranteed account is part of the Principal Life General Account. Guaranteed contracts supported by the general account and issued by Principal Life do not directly invest in any underlying portfolio. The underlying assets in the general account are invested primarily in intermediate-term, fixed income investments, such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and U.S. government and agency-backed securities.

NOTE F - ACTURIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFIT

The actuarial present value of accumulated plan benefits is determined by an actuary from The Principal Life Insurance Company and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2025 and 2024, were as follows:

a. Mortality: Based on Pri-2012 total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale and updated to reflect most recent mortality data in the MP-2025 and MP-2024 report as of December 31, 2025 and December 31, 2024, respectively.

b. Normal retirement age is the latter of age 65 or age on the date five years after the first day of the plan year in which entry date occurred.

c. Investment return: 6.25% and 6.00% as of December 31, 2025 and 2024, respectively.

d. Interest rate: 6.00% and 5.75% as of December 31, 2025 and 2024, respectively.

e. Salary increase from Table S-5 in the Actuary's Pension Handbook plus 3.50% as of December 31, 2025 and 2024.

The actuarial cost method used is Target Normal Cost.

These actuarial assumptions are based on the presumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2026 and 2025. Had the valuations been performed as of December 31, 2025 and 2024, there would be no difference.

NOTE F - ACTURIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFIT - continued

The actuarial present value of accumulated plan benefits are as follows:

	December 31, 2025	December 31, 2024
Vested benefits:		
Participants currently receiving benefits	$ 1,764,745	$ 1,887,100
Other participants	2,731,809	2,784,103
	4,496,554	4,671,203
Non-vested benefits	48,653	37,975
Total actuarial present value of accumulated plan benefits	$ 4,545,207	$ 4,709,178

The changes in the actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at December 31, 2023	$ 5,037,935
Increase (decrease) during the year attributable to:	
Benefits paid	(327,854)
Interest due to decrease in the discount period	268,191
Benefits accumulated and plan experience	(177,689)
Change in assumptions	(91,405)
Net decrease	(328,757)
Actuarial present value of accumulated plan benefits at December 31, 2024	4,709,178
Increase (decrease) during the year attributable to:	
Benefits paid	(214,293)
Interest due to decrease in the discount period	264,703
Benefits accumulated and plan experience	(122,552)
Change in assumptions	(91,829)
Net decrease	(163,971)
Actuarial present value of accumulated plan benefits at December 31, 2025	$ 4,545,207

The change in assumptions amount included in the table above is due to a change in the investment return and interest rate as well as an update to the mortality table.

NOTE G - FUNDING POLICY

Funding standards have been established by ERISA and the Internal Revenue Code of 1954. The Company's funding policy is to make contributions under this Plan that meet or exceed the minimum funding standards while not exceeding the maximum funding standard. Any available accumulated funding credit is considered when determining the level of contribution. The Company's contributions for the years ended December 31, 2025 and 2024 equaled or exceeded the minimum funding requirement of ERISA. There are no required participant contributions, nor are voluntary contributions permitted by the participants under the Plan.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provision set forth by ERISA. Should the Plan terminate at some future time, participants would become fully vested in their benefits.

NOTE H - PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated after providing for any administrative expenses:

a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for the three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan's provisions in effect at any time during the five years preceding the Plan's termination.

b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a United States government agency.

c. All other vested benefits (that is, vested benefits not insured by the PBGC).

d. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the level of benefits guaranteed by the PBGC.

NOTE I - CONCENTRATION OF CASH AND SECURITIES RISK

The Plan maintains its balances in a brokerage institution, which at times may exceed the Securities Investor Protection Corporation limits. The Plan has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and securities.

NOTE J - PLAN TAX STATUS

The Plan obtained its latest determination letter on October 6, 2025, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable sections for the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter for various amendments. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to federal and state income tax examinations by tax authorities for years before 2022.

NOTE K - TRANSACTIONS WITH PARTIES-IN-INTEREST

Plan investments, except for the Principal Financial Group common stock, which is held and managed by Edward Jones, are managed by Principal Life Insurance Company, the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions. Transactions resulting in plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption exists. Principal Life Insurance Company is a party-in-interest as defined by ERISA as a result of investing plan assets in its funds and accounts and providing investment management services. However, these transactions are exempt under Section 408(b)(8) and are not prohibited by ERISA.

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

NOTE L - SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 16, 2026, the date the financial statements were available to be issued.

Assumptions prescribed by law

Mortality

Before benefit payment period

IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

During benefit payment period

IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Inflation

2.40% increase per year.

Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return

6.00% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.

Retirement

Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Upcoming year salary increase

The preceding year's salary is increased using the S-5 Table from The Actuary's Pension Handbook, increased by 3.50% at each age. This table provides a rate of increase that declines as participants age.

Note: not used for Plan accounting calculations.

Age	Upcoming increase
25	7.68%
40	6.22%
55	5.38%

Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.

Disability

None.

Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Wage base increase	3.50% per year. Our Wage Base increase assumption are based on inflation and the real wage differential forecast from Social Security Trustee Report. Based on average annual real wage growth forecast from the Social Security Trustee report and historical averages, our best estimate places this assumption at 3.50%.
Compensation limit increase	2.40% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See Calculated deduction in Rules and regulations. Compensation limit increase is consistent with the inflation assumption.
Form of benefit and basis	40% of active participants will elect a benefit paid in a lump sum at age 65. 70% will elect a lump sum paid immediately. The remaining active participants will elect a monthly annuity on the normal form at the assumed retirement age. 60% of participants who are already terminated on the valuation date are assumed to elect a single sum on this basis payable at the assumed retirement age. The remaining participants will elect a monthly annuity on the normal form at the assumed retirement age. This assumption is based on the results of recent experience analysis and anticipated future experience. The single sum benefit is based on the Applicable Mortality and the plan's funding target interest rates, as prescribed.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Benefit accrual

All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.

The portion based on the plan's definition of accrued benefit.

The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.

The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.

Lump sum payments

Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates could differ from actual plan lump sum rates.

Methods selected by plan sponsor

Asset method

Market value

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2016 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
4.65%	5.28%	5.63%

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2024).
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement

Principal 2024 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2024
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2030/2030
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2024
COVID-19 or Excess load	None[1]

[1]Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See Mortality documentation for rationale and additional information.

Interest rate used to value liabilities

5.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 3.55%/3.95%/4.95%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

Mortality

We have selected the same mortality assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V - Summary of Plan Provisions
Retirement Plan For The Employees Of Littlestown Foundry, Inc.
EIN 23-0814690 Plan No. 002

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan restatement signed 01/31/2019, and the SECURE Act Amendment signed 10/09/2023.

Plan eligibility	
Entry	An employee enters the plan on the first monthly date after date of hire.

Normal retirement benefit	
Age	The later of age 65 or five years after Plan entry. For those who were participants as of 06/30/1979, normal retirement age shall not be older than that under the provisions of the Plan had they continued unchanged. For those who were participants under the Retirement Plan for Non-Salaried Employees of the Littlestown Hardware & Foundry Company, Inc., normal retirement age shall not be older than that under the Non-Salaried Plan.
Form	Monthly annuity guaranteed for ten years and life thereafter (optional forms may be elected in advance of retirement).
Amount	0.75% of the average compensation multiplied by accrual service.
(accrued benefit)	The monthly accrued benefit shall not be less than the product of (a) and (b) below: (a) The expected monthly retirement benefit determined with the plan provisions in effect as of 06/30/1979. (b) The accrued benefit adjustment. The monthly accrued benefit shall not be less than the amount under the Retirement Plan for Non-Salaried Employees of the Littlestown Hardware & Foundry Company, Inc. as of 12/31/1987. The maximum benefit under this plan is $1,100 multiplied by the accrued benefit adjustment.

Early retirement benefit	
Age	Within five years of normal retirement date. For those who were participants under the Retirement Plan for Non-Salaried Employees of the Littlestown Hardware & Foundry Company, Inc. prior to 01/01/1988, early retirement age is fifteen years vesting service within ten years of normal retirement date.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 6 2/3% for each year up to five and 3 1/3% for each year between five and ten that the early retirement date precedes normal retirement date.

Late retirement benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date.

Termination benefit	
Vesting percentage	20% after three years of service plus 20% for each year thereafter, up to 100%.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Survivor annuity death benefit (a vested benefit)	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a 50% qualified joint and survivor annuity in effect, then died the next day.

Definitions	
Accrual service	One year of accrual service is earned for each plan year in which an employee works 1,000 hours or more.
Vesting service	One year of vesting service is earned for each plan year in which an employee works 1,000 hours or more.
Accrued benefit adjustment	The quotient of (a) divided by (b): (a) The member's accrual service as of such date. (b) The member's potential accrual service as of the date he reaches normal retirement age if he remains an eligible employee between the date of determination and the date he reaches normal retirement age.
Average compensation	The monthly average of total pay received for the five latest years prior to such date.
Expected monthly benefit	Determined assuming the compensation used to determine benefits remained unchanged and employment had continued until normal retirement date.
Optional forms of benefit payments	The optional forms of benefit payments are: • Monthly annuity payable for life, or 5, 10, or 15 years certain and life. • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100. • Single sum payment equal to the present value of the retirement benefit. The optional form conversion basis is 7.5% interest and the 1983 Group Annuity Mortality table for payments other than lump sums.
	Lump sum provisions Small amount force out (SAFO) – allowed up to $7,000. Lump sums in excess of SAFO - are allowed at termination of employment and retirement. Conversion – deferred rate with early retirement factor based on the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the month that contains the payment start date.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event
