Independent Auditors' Report

Plan Administrator and Participants
Array Architects Employee Stock Ownership Plan
Conshohocken, PA

Opinion

We have audited the accompanying financial statements of Array Architects Employee Stock Ownership Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024 and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute insurance and therefore is not a guarantee that an audit conducted with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in accordance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

ARRAY ARCHITECTS EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Array Architects Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for more complete information.

1. General

The Plan is a defined contribution pension plan covering all full-time employees of Array Architects, Inc. (the Company) who have six months of service and are age 21 or older. The Plan provides retirement, death, and disability benefits. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

No contributions are made by participants. The Company may contribute a discretionary contribution, to be determined each year. The contribution may be in Array Architects, Inc. common stock or in cash. The Company made no discretionary contributions for the years ended December 31, 2025 and 2024. Contributions are subject to certain IRS limitations.

3. Participant Accounts

Each participant's account is credited with allocations of (a) plan earnings and (b) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Vesting is determined on a graded scale starting at 20% after two years of credited service and increasing 20% per year for each additional year of credited service until attaining 100% vesting after six years of credited service, based on the following vesting schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20
3	40
4	60
5	80
6	100

5. Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash or, if a participant elects, in the form of Company common shares plus cash for any fractional share.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares that have been distributed under the terms of the Plan, as long as the shares are not publicly traded or if the shares are subject to trading limitations. The Company did not repurchase shares from participants during 2025 and 2024.

6. Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon relation of the participant's eligible compensation to total eligible compensation for the plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2025 and 2024 totaled $21,697 and $10,815, respectively.

7. Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradeable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

8. Diversification

Diversification is offered to eligible participants to allow them to reduce their concentration in Array Architects, Inc. common stock as they approach retirement. Participants who are 55 and over and have completed at least 10 years of participation in the Plan are eligible to diversify a portion of their account over a six-year period. During each of the first five years of eligibility, a participant may elect to diversify up to 25% of the shares allocated to his or her Array Architects, Inc. common stock account, reduced by any shares previously diversified. In the sixth year, the maximum percentage increases to 50%. Diversified amounts are either transferred to an applicable company's defined contribution plan and invested according to the participant's elections or distributed. Once shares are diversified, they may not be reconverted into Array Architects, Inc. common stock.

9. Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account, and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of the plan participants and beneficiaries. At December 31, 2025 and 2024, there were no unallocated shares of sponsor company common stock.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

2. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The financial statements include Array Architects, Inc. common stock whose value has been estimated by the Plan administrator with the assistance of an independent valuation specialist in the absence of readily ascertainable market value. Because of the inherent subjectivity in any valuation, the estimated value may different significantly from the value that would have been used had a ready market for the securities existed and the difference could be material.

3. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note C for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. The S-Corporation distributions are recorded when declared. Net appreciation includes the Plan's gains on investments bought and sold as well as held during the year.

4. Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

5. Administrative Expenses

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

NOTE C - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 inputs to the valuation methodology include the following:
  - Quoted prices for similar assets or liabilities in active markets
  - Quoted prices for identical or similar assets or liabilities in inactive markets
  - Inputs other than quoted prices that are observable for the asset or liability
  - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

ARRAY ARCHITECTS EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

NOTE C – FAIR VALUE MEASUREMENTS - Continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2025 and 2024.

- The fair value of Array Architects, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. For 2025 and 2024, the appraisal was based on a guideline public company method, a market transactions method, and a capitalization of the cash flow method. The appraiser took into account the general economic outlook and the outlook for the industry, the financial condition of the Company, and the results of operations of the Company, among other factors.

The method described in the previous paragraph may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy the plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at fair values as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Common stock - Array Architects, Inc.	$ -	$ -	$ 8,345,817	$ 8,345,817
Total assets at fair value	$ -	$ -	$ 8,345,817	$ 8,345,817

	Assets at fair values as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Common stock - Array Architects, Inc.	$ -	$ -	$ 6,939,938	$ 6,939,938
Total assets at fair value	$ -	$ -	$ 6,939,938	$ 6,939,938

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2025 and 2024, there were no transfers in or out of Level 3.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements:

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value December 31, 2025	Fair Value December 31, 2024	Principal Valuation Technique	Unobservable Inputs
Common Stock	$8,345,817	$ 6,939,938	Combination of a guideline public company method, a market transactions method, and a capitalization of cash flow method	Control premium and minority interest discounts Discount for lack of marketability

NOTE D - TAX STATUS

The Company adopted a nonstandardized pre-approved ESOP plan sponsored by Stevens & Lee PC. The nonstandardized pre-approved plan has received an opinion letter from the IRS dated June 30, 2020 stating that the nonstandardized pre-approved plan is qualified under the appropriate section of the IRC. The nonstandardized pre-approved plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal, state, or local tax authorities for years before 2022.

NOTE E - ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Company common stock, are held by the trustee of the Plan.

Company contributions and S-Corporation distributions are held and managed by the trustee, which invests cash received and makes distributions to participants.

Certain administrative functions are performed by the officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses are paid directly by the Company.

ARRAY ARCHITECTS EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025 AND 2024

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Upon termination of the Plan, the Board of Directors, consisting primarily of the officers of the Company, shall direct the trustee to pay all liabilities and expenses of the trust fund, if any.

NOTE G - RISKS AND UNCERTAINTIES

The Plan investments consist of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The Plan also maintains cash in a bank deposit account which, at times, may exceed federally insured limits. The Plan has not experienced any losses in the account. The Plan believes it is not exposed to any significant credit risk on cash.

NOTE H - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2025 and 2024, the Plan held 87,703 shares of common stock of Array Architects, Inc., the plan sponsor.

The Company declared distributions to the Plan of $663,486 during the year ended December 31, 2025.

NOTE I - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through September 15, 2026. This date is the date the financial statements were available to be issued. One material event subsequent to December 31, 2025 was noted.

On April 28, 2026, Array Architects, Inc was bought out by a private equity company. As of this date, the new owners agreed to buy all of the ESOP shares outstanding for $210 per share. The Plan was terminated and converted into a profit sharing plan until 100% of all payments to shareholders are made. In addition, the name of the plan sponsor was changed to Array Architects, LLC.
