INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Health New England 401(k) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Health New England 401(k) Retirement Plan, (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Health New England 401(k) Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Health New England 401(k) Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Health New England 401(k) Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Health New England 401(k) Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Health New England 401(k) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

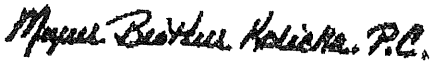

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion –

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF PLAN:

The following description of the Health New England 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Health New England, Inc. (the "Company"). Employees age 21 and older are eligible to make contributions immediately upon satisfying all eligibility requirements. Employees are eligible to receive safe harbor employer matching contributions and discretionary match contributions following six months of service, except for employees hired by a predecessor employer (Baystate Health), who will receive credit for service performed for eligibility, vesting and allocation as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may make pre-tax contributions up to 75% of their annual wages subject to annual limitations determined by the Internal Revenue Code. The Company will match 100% of the first 6% of employee contributions contributed to the Plan (Safe Harbor Match).

The Plan provides for automatic participant contributions, whereby a newly eligible participant who has not elected to defer a portion of compensation or elected to receive cash in lieu of making a salary deferral election will automatically have 1% of their compensation deferred and contributed to the Plan. Until a participant elects otherwise, these automatic participant contributions are invested in a Destination Retirement Fund, which is determined based upon the year in which the participant reaches age 65.

The Plan provides for matching contributions on a discretionary basis. This is separate from the Safe Harbor Matching Contribution formula that allows for a 100% employer match up to 6% of salary deferrals. The employer discretionary match if any, will be limited to 4% of Plan compensation, regardless of the amount contributed.

Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options on a daily basis.

Effective January 1, 2026, the Company amended the Plan to permit participants to make Roth (after-tax) contributions.

Participant accounts

Each participant's account is credited with the participant's voluntary contributions and an allocation of (a) the Company's contributions, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participants' compensation, transactions or account balance as defined in the Plan document. The benefit to which a participant is entitled is the amount which can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions as well as the Company's matching contributions, plus actual earnings thereon.

1. DESCRIPTION OF PLAN: (CONTINUED)

Participant loans

Participants may borrow from their accounts a minimum of $1,000, up to an amount not to exceed the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as transfers between the investment fund and the participant notes fund. Loan terms range from 1-5 years with extended terms for the purchase of a primary residence. The loans are secured by the balance in the participant's account. The loans bear interest at the prime rate at the loan date plus 2%, which range from 5.25% - 10.5%. Principal and interest are paid ratably through bi-weekly payroll deductions and are deposited to participant accounts. The Plan allows terminated participants the opportunity, if they should so elect, to continue to pay down outstanding loans, as opposed to requiring the loan be repaid within ninety days subsequent to the participants termination of employment. Participants are only allowed one outstanding loan at a time.

Payment of benefits

On termination of service due to death, permanent disability, retirement or termination, a participant or their beneficiaries may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, periodic installments over a specified period, or a direct rollover to an individual retirement account ("IRA") or other qualified plan. The Plan also allows for other in-service and hardship distributions.

SECURE 2.0 Act of 2022

The SECURE 2.0 Act of 2022 (the "Act") was signed into law on December 29, 2022, to increase retirement savings, improve retirement rules, and lower employer costs of setting up a retirement plan. Plan amendments required by the Act generally need not to be made until the end of the first plan year beginning on or after January 1, 2026, however, plans must operate in accordance with effective date of each new provision. A significant provision of this Act that may affect the plan requires catch-up contributions for any participants over age 50 who earn $145,000 be on a Roth basis.

Plan termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will remain 100% vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting
The accompanying financial statements have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America.

Payment of benefits
Benefits are recorded when paid.

Administrative expenses
Contract management fees are paid by the Plan participants as deductions from their account balances and included as expenses. All other costs and expenses incurred in connection with the operation of the Plan are paid by the Company.

Risks and uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants
Participant loans receivable are recorded at their unpaid balance plus any accrued but unpaid interest. Since the participants' remaining vested investment balance is sufficient to cover the outstanding loan amount, there is no allowance for doubtful accounts at December 31, 2025 and 2024. Interest is calculated and included in the repayment terms of the loan when the loan is initiated and is recognized with the amortization of the loan as each payment is remitted. Loans are monitored for repayment under the original loan terms and defaulted when active participants cease payments past the allowed grace period. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investment valuation and income recognition
Investments held by the Plan are stated at fair value with the exception of fully benefit-responsive investment contracts which are stated at contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Contract value reflects the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan and is the relevant measure for the portion of assets attributable to fully benefit-responsive investment contracts. All investments are participant directed.

The Plan administrator is responsible for determining the Plan's valuation policies and analyzing information provided by the investment advisors and record keeper that is used to determine the fair value of the Plan's investments. See Note 3 for further discussion of fair value measurements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Investment valuation and income recognition (continued)
In accordance with the policy of stating investments at fair value, net unrealized appreciation for the year is reflected in the statements of changes in net assets available for benefits. The net appreciation in the fair value of its investments consists of realized gains or losses and unrealized appreciation on those investments.

Purchase and sale of securities are recorded on a trade date basis. Investment income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Earnings on investments, with the exception of participant loans, are allocated on a pro rata basis to individual participant accounts based on the type of investment and the ratio of participant's individual account balance to the aggregate of participant account balances. The portion of interest included in each loan payment made by a participant is recognized as interest income in the participant's account.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2025 and 2024.

3. FAIR VALUE MEASUREMENTS: (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are valued at the closing price recorded on the active market in which these individual securities are traded.

Common collective trust fund: Valued at the daily closing price as reported by the fund. The common collective trust is administered by Fidelity Management Trust Company and is registered with the Securities and Exchange Commission. This fund is valued at the closing price recorded on the active market in which this fund is traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Fair Value Measurements at December 31, 2025			
	Total Fair Value	Level 1	Level 2	Level 3
Investments at fair value:				
Mutual funds	$ 26,786,773	$ 26,786,773	$	$

Total investments at fair value	$ 91,049,962	$ 91,049,962	$ -	$ -

	Fair Value Measurements at December 31, 2024			
	Total Fair Value	Level 1	Level 2	Level 3

4. INFORMATION CERTIFIED BY CUSTODIAN:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Fidelity Management Trust Company ("Fidelity"), the custodian of the Plan, certified to the Plan administrator the fair value and physical custody of investments and investment transactions to be complete and accurate as of and for the years ended December 31, 2025 and 2024, and investments and notes receivables from participants included in the statements of net assets available for benefits, and interest and dividend income and net appreciation in fair value of investments included in the statements of changes in net assets available for benefits; and the information contained in Notes 3 and 5 regarding investments and the type of investments held and information included in the supplemental schedule of assets (held at end of year) as of December 31, 2025.

5. GUARANTEED INVESTMENT CONTRACTS:

New York Guaranteed contract

The New York Life Guaranteed Interest Account (GIA) is a general account group annuity contract that provides a low-risk, stable investment option, consistent with preservation of principal. The GIA offers participants competitive yields and limited volatility, with a guarantee of principal and accumulated interest. These guarantees are offered through a group annuity contract that is issued by New York Life Insurance Company. The initial crediting rate for each contract lasts through December 31 of the first year and will reset every January 1 and July 1 in subsequent years. The GIA offers a guaranteed minimum crediting rate that can never fall below 1.00% and participant-initiated withdrawal requests are allowed daily at contract value. For the period January 1, 2025 through June 30, 2025, the crediting rate was 3.95%. For the period July 1, 2025 through December 31, 2025, the crediting rate was 4.1%. For the period January 1, 2024 through June 30, 2024, the crediting rate was 3.9%. For the period July 1, 2024 through December 31, 2024, the crediting rate was 4.0%.

Currently, contributions to the GIA group annuity contract are invested in a fixed income portfolio within New York Life's general account. The general account is invested primarily in a conservative array of securities and cash-equivalent investments in accordance with the investment restrictions of New York Insurance Law. These investments are intended to provide a stable crediting rate consistent with preservation of principal. The New York Life Insurance Company general account is managed by NYL Investors LLC, a Registered Investment Adviser and wholly owned subsidiary of New York Life.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events may include but are not limited to: Plan termination by employer, bankruptcy, lay-offs, early retirement incentives, termination of the contract by the contract holder, termination by New York Life due to loss of Plan's qualified status, participant transfers.

6. TAX STATUS:

The underlying non-standardized prototype plan obtained an opinion letter on June 30, 2020 from the Internal Revenue Service ("IRS") stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code, and therefore, the related trust is tax exempt once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the opinion letter. However, the Plan administrator and Plan's tax counsel believe that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code.

During the year ended December 31, 2023, Plan management discovered an operational failure where certain employees earned a bonus under the variable compensation program but terminated employment before the scheduled payout date. The employees were improperly not given the opportunity to defer a portion of this bonus into the Plan and accordingly did not receive any employer match. Plan management determined that there were several impacted participants. The total amount of $48,842 was corrected by the Company on August 21, 2024.

Effective January 1, 2025, a compensation of any kind paid to a participant after the pay period in which the participant had severed from employment is excluded from 401k eligible compensation. Effective January 1, 2026, bonuses will be excluded from eligible compensation.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2022.

7. RELATED PARTY TRANSACTIONS:

Fidelity manages the Plan's investments and is the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions. Fees paid by the Plan to Fidelity for administrative services amounted to approximately $31,000 and $29,000, for the years ended December 31, 2025 and 2024, respectively. Certain other fees paid by the Plan for investment management services are included in net appreciation in the fair value of the investments, as they are paid through revenue sharing rather than direct payment were included as a reduction of the return earned on each fund. Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services at no cost to the Plan.
