Report of Independent Auditors

To the Plan Administrator of
Bashas' Employees Defined Benefit Pension Plan and Trust

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Bashas' Employees Defined Benefit Pension Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Bashas' Employees Defined Benefit Pension Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025, and 2024, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Bashas' Employees Defined Benefit Pension Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Bashas' Employees Defined Benefit Pension Plan and Trust's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Bashas' Employees Defined Benefit Pension Plan and Trust's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Bashas' Employees Defined Benefit Pension Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2025, and Schedule H, Line 4(j) – Schedule of Reportable Transactions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Bashas' Employees Defined Benefit Pension Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for more complete description of the Plan's provisions.

General – The Plan is a defined benefit pension plan established by Bashas', Inc. (the prior plan sponsor) initially effective January 4, 1970. On January 23, 2009, the prior plan sponsor elected to freeze all future benefit accruals under the Plan. As of the Plan's freeze date, no further hours of service were credited, no new participants entered the Plan, and a participant's average compensation was frozen as of the freeze date.

The Plan was amended effective December 14, 2021 to transfer sponsorship to Raley's Arizona, LLC (the Company and Employer) in connection with the purchase of Bashas', Inc. The Administrative Committee of the Company is responsible for the administration and management of the Plan. The Company contributes such amounts as are necessary on an actuarial basis that, along with the Plan earnings, will provide the Plan with assets sufficient to meet benefits to be paid to Plan participants.

The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code and is subject to certain provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Vesting – The Plan provides a five-year cliff vesting schedule.

Funding policy – Contribution amounts must adhere to or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. Minimum funding requirements were met for the years ended December 31, 2025 and 2024. Participants may not make contributions to the Plan.

Payment of benefits – An eligible employee became a participant in the plan with one year of service (completed 1,000 hours or more) in a 12-consecutive-month period from the date employment began. Participants that complete five years of service are entitled to annual pension benefits beginning at the normal retirement age of 65. Benefits under the Plan depend upon years of service and compensation prior to the Plan's freeze date.

If the present value of a participant's accrued benefit is less than $7,000, the normal form of distribution is one lump sum cash payment, and the participant is not permitted to elect any optional form of payment. If the present value of a participant's accrued benefit exceeds $7,000 the normal form is a Qualified Joint and 50% Survivor Annuity if the Participant is married or a monthly straight life annuity payable in equal installments for the life of the participant that terminates upon the participant's death if the Participant is unmarried. The participant may, subject to the spousal consent requirement set forth in the Plan, elect to have his or her benefit distributed in optional form of distribution. Each optional form of distribution is the actuarial equivalent of the normal form of retirement benefit. The optional forms of distribution include a straight life annuity, a life annuity with period certain, and Joint and Survivor options.

If the present value of the vested benefit is less than $200, the benefit will be cashed-out without the consent of the participant. If the amount to be distributed is more than $200 but not more than $7,000, the payment may be distributed without consent in a direct rollover to a designated individual retirement account. The participant must consent to any benefit distribution that is greater than $7,000.

Death and disability benefits – If a participant dies after benefit payments have begun, any benefits to a beneficiary will continue according to the form of payment elected. If payments have not yet begun, the surviving spouse will receive a minimum death benefit with respect to the accrued benefit in the form of a qualified pre-retirement survivor annuity. No death benefit is payable to a single participant. The Plan does not provide disability retirement benefits.

Plan termination – Although it has not expressed any intent to do so, Raley's has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

In the event the Plan terminates, participants that have not incurred a 5-year break in service become 100% vested and the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations and the Plan document, generally to provide the following benefits in the order indicated:

a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

c. All other vested benefits (that is, vested benefits not insured by the PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2026 that ceiling is $7,790 per month. That ceiling applies to those annuitants who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits in the event that the Plan terminates at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the existing assets and the PBGC guarantee while other benefits may not be provided for at all.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition – Investments are stated at fair value. The Plan's trustee and custodian, Principal Bank (see Note 4), certifies the fair market value of investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 5 for additional discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) in fair value of investments includes net unrealized market appreciation and depreciation of investments and net realized gains and losses on the sale of investments during the period.

Payment of benefits – Benefit payments to participants are recorded when paid.

Expenses – The Plan's expenses are paid by the Plan or the Employer, as specified in the Plan document. Expenses that are paid by the Employer are excluded from these financial statements. The Employer provides bookkeeping and other administrative services to the Plan at no charge.

Certain expenses paid by the Plan for investment advisory and recordkeeping services are recorded as deductions in the accompanying statement of changes in net assets available for benefits.

Management fees and operating expenses charged to the Plan for investments in common/collective trusts, and registered investment companies are deducted from income earned on a daily basis as disclosed in the investment prospectus, thus are not separately disclosed in the accompanying financial statements.

Subsequent events – The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 5, 2026, which is the date the Plan's financial statements were available to be issued.

NOTE 3 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawals, or retirement) between the valuation date and the expected date of payment.

The Plan's independent actuaries calculated accumulated plan benefits and changes therein as of January 1, 2025. These calculations have been used to disclose the accumulated plan benefits as of December 31, 2024. Had the actuarial valuations been performed as of December 31, 2024, there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2024, were:

Discount rate	5.79%
Life Expectancy of Participants	Healthy Active Non- Annuitants: Pri-2012 Blue Collar Mortality Table (male and female) projected 15 years beyond the valuation date using Projection Scale MP-2021 (as selected by Plan Sponsor to align with ASC 715 results). Healthy Terminated Vested Non- Annuitants and Healthy Annuitants: Pri-2012 Bottom Quartile Mortality (male and female) projected 7 years beyond the valuation date using Projection Scale MP-2021 (as selected by Plan Sponsor to align with ASC 715 results).
Administrative expense	The expected expenses were assumed to equal the prior year expenses, (excluding investment management expenses), minus the PBGC premium for last year, plus the PBGC premium for this year.
Retirement age and form of benefits assumptions	
All participants	Actives are assumed to retire at varying rates between ages 55 and 70.
	Terminated Vested participants and Deferred Beneficiaries are assumed to commence at Normal Retirement Date.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2024, is as follows:

	2024
Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants and/or beneficiaries currently receiving payments	$ 67,392,871
All other vested participants	66,470,355
	133,863,226
Nonvested benefits	4,753
Total actuarial present value of accumulated plan benefits	$ 133,867,979

The change in the actuarial present value of the accumulated plan benefits for the year ended December 31, 2024 is as follows:

Actuarial present value of accumulated plan benefits, beginning of year	$ 142,598,151
Increase (decrease) during the year attributable to	
Net benefits accumulated (including actuarial gains and losses)	(237,816)
Change in assumptions (*)	(6,808,153)
Increase for interest due to decrease in the discount period	7,322,116
Benefits paid	(9,006,319)
Net change	(8,730,172)
Actuarial present value of accumulated plan benefits, end of year	$ 133,867,979

(*) Change in assumptions is mainly related to the change in discount rate from 5.30% at December 31, 2023, to 5.79% at December 31, 2024.

NOTE 4 – CERTIFIED INVESTMENT INFORMATION

The Plan administrator has elected to have an audit performed pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, the following information related to investments was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Bank (see Note 2), a qualified institution:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2025 and 2024, except for $5,006 and $5,108 of real estate limited partnership as of December 31, 2025 and 2024, respectively.

- Net appreciation (depreciation) in fair value of investments, interest, and dividends reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2025, and 2024.

- Investments reflected on the schedule of assets (held at end of year) as of December 31, 2025, except for $5,006 of real estate limited partnership as of December 31, 2025.

- Transactions reflected on the schedule of reportable transactions for the year ended December 31, 2025.

NOTE 5 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025, and 2024.

Collective trust funds – Units held in collective trusts (CTs) are valued at the net asset value (NAV) of units of the bank collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily.

Limited partnership interest in a real estate fund – Valued at the NAV of shares held by the Plan at year-end. The NAV is used as practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

There are no unfunded commitments as of December 31, 2025, and 2024 for these collective trust funds or the real estate fund. If the Plan initiates a full redemption of a collective trust fund or the real estate fund, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose the fair value hierarchy of the Plan's assets by level at fair value as of December 31, 2025, and 2024:

	Fair Value Measurements at December 31, 2025			
	Level 1	Level 2	Level 3	Total

NOTE 6 – TAX STATUS

The Internal Revenue Service has determined and informed the Plan Sponsor by a letter dated September 12, 2016, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Employer, and certain others. Amounts paid by the Plan to parties-in-interest included fees paid for investment management and audit and actuarial services. Certain Plan investments are affiliated with the Plan's investment advisor, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

NOTE 9 – RECONCILIATION TO FORM 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.

Statement of Actuarial Assumptions and Methods

Minimum Funding Annual Interest Rates

24-month segment rates averaged through the end of August 2024 and published in September 2024 (as prescribed by IRC 430) and adjusted to reflect ARPA:

- Segment 1 (0 – 5 years) 5.07%
- Segment 2 (5 to 20 years) 5.31%
- Segment 3 (more than 20 years) 5.50%
- Effective Interest Rate 5.37%

Maximum Deductible Annual Interest Rates

24-month segment rates averaged through the end of August 2024 and published in September 2024 (as prescribed by IRC 430) as follows:

- Segment 1 (0 – 5 years) 5.07%
- Segment 2 (5 to 20 years) 5.33%
- Segment 3 (more than 20 years) 5.36%
- Effective Interest Rate 5.33%

Annual Expected Return on Assets

Interest Rate for developing Actuarial Value of Assets; limited to third segment rate 5.52%

Rationale: as selected by the Plan Sponsor to align with last year's ASC 715 results

PBGC and LDROM Annual Interest Rates

Spot segment rates published in January 2025 using the Standard Method (as prescribed by IRC 430) as follows:

- Segment 1 (0 – 5 years) 4.65%
- Segment 2 (5 to 20 years) 5.28%
- Segment 3 (more than 20 years) 5.63%
- Effective Interest Rate 5.39%

ASC 960 Discount Rate

Discount Rate 5.79%

Rationale: as selected by the Plan Sponsor to align with ASC 715 results

Salary Scale

Not applicable

Mortality

Funding: 2025 IRS Generational with Adjusted Scale MP-2021 Rates (as prescribed by IRC 430).

ASC 960-20: Healthy Active Non-Annuitants: Pri-2012 Blue Collar Mortality Table (male and female) projected 15 years beyond the valuation date using Projection Scale MP-2021 (as selected by Plan Sponsor to align with ASC 715 results). Healthy Terminated Vested Non-Annuitants and Healthy Annuitants: Pri-2012 Bottom Quartile Mortality (male and female) projected 7 years beyond the valuation date using Projection Scale MP-2021 (as selected by Plan Sponsor to align with ASC 715 results).

Rationale: as selected by the Plan Sponsor to align with ASC 715 results

Rates of Retirement

Actives are assume to retire based on age as follows:

Age	Rate
55	10%
56-61	5
62	20
63-64	15
65-70	20
71+	100

Terminated Vested participants and Deferred Beneficiaries are assumed to commence at Normal Retirement Date.

Rationale: as selected by Plan Sponsor to meet historical experience

Weighted Average Retirement Age is 63. This is the average retirement age for someone eligible to retire at all ages using the assumed retirement rates and no other decrements.

Rates of Turnover

Active participants are assumed to decrement under retirement assumptions

The following additional rates apply on a select basis.

Year	Rate
0	0.4225
1	0.1645
2	0.1400
3	0.1050
4	0.0525

Rates of Disability

None

Assumptions Made In Valuing Spouse's Benefit

85% of males and 55% of female participants are assumed to be married with same age spouses.

Optional Form Selection

All employees are assumed to elect the life annuity form of benefit.

Provision for Expenses

The expected expenses were assumed to equal the prior year expenses, (excluding investment management expenses), minus the PBGC premium for last year, plus the PBGC premium for this year.

Standing Elections	The client has not signed an election that provides for the automatic use of the Carryover Balance and/or Prefunding Balance if necessary to meet the minimum funding requirement.
Asset Method	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets. ASC 960-20: Market Value of Assets plus any contributions for prior plan years that will be made in this plan year.
Funding Method	Pure Unit Credit The actuarial liabilities shown in this report are determined using software purchased from an outside vendor which was developed for this purpose. Certain information is entered into this model in order to generate the liabilities. These inputs include economic and non-economic assumptions, plan provisions, and census information. We rely on the coding within the software to value the liabilities using the actuarial methods and assumptions selected. Both the input to and the output from the model is checked for accuracy and reviewed for reasonableness.
Employees Valued	Only participants as of the valuation date were valued.
Changes in Assumptions and Methods since the Last Actuarial Valuation	The interest rates used for determining the funding target in the prior year were 4.75%, 4.87% and 5.59%. These rates were updated to the rates required for the current plan year. The mortality table for the funding target was changed as required under PPA '06. The ASC 960 discount rate assumption was updated from 5.52% to 5.30% to align with ASC 715. The asset method was updated from Market Value of Assets to Actuarial Value of Assets to smooth in gains and losses over three years and stabilize contributions.

Justification for Changes in Actuarial Assumptions	The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of Principal Plan Provisions

Plan Sponsor	Raley's Arizona LLC
EIN/PN	87-2167964 / 001
Effective Date	January 4, 1970; restated effective January 1, 2016 and last amended December 2, 2016.
Plan Year	The 12-month period beginning each January 1.
Participation	Each employee other than a collective bargaining employee is eligible to become a participant in the plan on the earlier of the January 1 or July 1 immediately following his completion of 12 months of service and 1,000 hours of service participation. No new participants shall commence participation in the plan after March 15, 2009, or May 28, 2009 for some employees.
Compensation	Compensation for plan purposes means W-2 compensation plus pre-tax salary deferrals earned while a participant but excluding certain expense reimbursements and fringe benefits. A participant's annual compensation for plan purposes is limited as required under Code §401(a)(17).
Social Security Covered Compensation	Average of the Taxable Wage Bases in effect for each calendar year during the 35-year period ending with the last day of the calendar year in which the participant attains (or will attain) Social Security Retirement Age.
Years of Service	Vesting Service credited for benefit and vesting purposes means the number of plan years in which the employee completes at least 1,000 hours of service, subject to certain break in service rules.
Accrued Benefit	No further benefits will accrue under the plan after March 15, 2009 (or May 28, 2009 for some employees).
Additional Accrued Benefit	Contribution amounts as of January 4, 1992.
Normal Retirement Benefit	*Eligibility:* The Normal Retirement Date is the first day of the calendar month coincident with or next following the later of the participant's 65th birthday; or the date, whichever occurs first, that the participant completes five years of service or the 5th anniversary of the participant's date of hire with the employer. *Monthly Benefit*: No further benefits will accrue under the plan after March 15, 2009 (or May 28, 2009 for some employees).

Early Retirement Benefit

Eligibility:
A participant may retire early after he has attained age 55 and completed 5 years of service with the employer.

Monthly Benefit:
The deferred benefit, to commence at the participant's normal retirement date, is equal to the participant's accrued benefit determined as of his early retirement date.

Upon making a written request, the participant's benefit may commence at any time after his termination of employment. If the benefit is to commence immediately, the deferred benefit is reduced by 0.5% for each month by which the participant's date of benefit commencement precedes his normal retirement date.

Late Retirement Benefit

Eligibility:
Terminate employment after normal retirement date

Monthly Benefit:
The Accrued Benefit determined at Normal Retirement Date or Late Retirement

Disability Benefit

There is no disability benefit.

Death Before Retirement Benefit

Eligibility:
In the event of the death of a participant after becoming eligible for a vested benefit under the plan, and while either (i) actively employed by the employer, or (ii) on deferred vested status but prior to receiving any retirement benefits, a monthly survivorship benefit shall be payable to the participant's surviving spouse.

Monthly Benefit:
The monthly benefit is payable on the first day of the calendar month following the participant's date of death or the earliest date the participant could have elected benefit payments to commence, whichever is later, and continuing for the lifetime of the surviving spouse. The benefit is determined as 50% of the benefit the beneficiary would have received if the participant had terminated employment the day before his death (or on his actual date of termination if earlier), had lived to the benefit commencement date, and elected an immediate joint and 50% to survivor benefit.

Additional Death Benefit:

If unmarried at the time death, the Additional Accrued Benefit Account will be paid to the beneficiary as a lump sum payment. If married at the time of death, the Additional Accrued Benefit Account will be paid to the spouse in the form of a single life annuity or as a lump sum payment.

Termination Benefit

Eligibility:

If a participant terminates employment after completion of five or more years of vesting service, the participant is entitled to a deferred vested retirement benefit commencing at normal retirement.

Monthly Benefit:

The amount of the benefit is computed in the same manner as the accrued benefit based upon service accrued and compensation earned through the date of termination. A participant shall be 100% vested when he attains normal retirement age.

Other Termination of Employment

If employment is otherwise terminated before retirement, no benefits are provided under the plan.

Top-Heavy Status

If employment is otherwise terminated before retirement, no benefits are provided under the plan. If in any year the plan is determined to be top heavy, the following provisions will take effect:

- A minimum accrued benefit will be determined for each participant equal to 2% of the average earnings, multiplied by the participant's years of service during which the plan is top heavy, limited to 10 such years.

- Participants will become vested in their accrued benefits according to the following schedule:

Years of Vesting Service	Vesting Percentage
less than 5	0%
5	100%

Optional Forms of Payments

Subject to the applicable plan conditions, a participant may select an optional method of benefit payment, in lieu of the prescribed life income, which is actuarially equivalent thereto. The purpose of the optional method is to permit the guarantee of retirement income payments for a minimum period of time (i.e., 5, 10 or 15 years) or to provide a continued life income to a surviving beneficiary after the death of a participant (i.e., 50%, 75% or 100% joint and survivor). However, if no option is elected and the participant is married at the date the benefit commences, the monthly benefit will automatically be paid in the form of a 50% joint and survivor annuity.

If the actuarial equivalent single sum amount due a terminated participant is less than $5,000, such amount shall be distributed to the participant in lieu of any other benefits under the plan.

Actuarial Equivalence	Actuarial equivalent Accrued Benefit: RP-2000 blended for males and females (50%/50%), as published under the RP-2000 Mortality Table for Healthy Annuitants adjusted for Small Amount for ages 50 or older and the RP-2000 Mortality Table for Employees adjusted for Blue Collar ages under 50 and an interest rate of 6%. Single sum calculations shall be determined using the mandated mortality table described under Code Section 417(e)(3). The interest rates used for single sum shall be the November segment rates prescribed in Code Section 417(e)(3).
Benefits Available As Lump Sums	This plan pays only small benefit amounts (lump sum less than $5,000).
Contributions to the Plan	The employer contributes actuarially determined amounts to finance the plan benefits. Participants had the option to make Employee Contributions between January 4, 1987 and January 4, 1992 to an Additional Accrued Benefit Account. Prior to that, there was a Target Benefit Account, which was converted to the Additional Accrued Benefit Account.
Investment of Plan Funds	The assets of the pension plan will be invested by the trustee in accordance with the terms of the trust agreement.
Maximum Benefit Limit	The Internal Revenue Code Section 415 Maximum Benefit payable as a life annuity at Social Security Normal Retirement Age.
Plan Compensation Limit	The Section 401(a)(17) Maximum Compensation that can be recognized for benefit calculation purposes.
Changes in Plan Provisions	The automatic changes, if any, in the plan compensation limit and maximum benefit limit were recognized as amendments for funding purposes.
