INDEPENDENT AUDITOR'S REPORT

Plan Administrator
Ameren Retiree Welfare Benefit Plan
St. Louis, Missouri

Opinion

We have audited the financial statements of Ameren Retiree Welfare Benefit Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and benefit obligations of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits and benefit obligations for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j - Schedule of Reportable Transactions as of and for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following is a summary of the various provisions of the Ameren Retiree Welfare Benefit Plan (the "Plan"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Participants should refer to the Plan documents for more complete information.

The Plan is a stand-alone retiree health and welfare benefit plan that provides medical benefits and retiree life insurance benefits to certain retirees (and their respective eligible dependents) of Ameren Corporation and its subsidiaries ("Ameren" or the "Company").

Retiree welfare benefit coverage (obligations and assets) relates to postretirement benefits of current retired employees, as well as future postretirement benefits expected for certain active employees. Therefore, the Plan maintains all assets and is responsible for obligations associated with retiree and future retiree medical and life insurance coverage for Ameren.

The Administrative Committee serves as administrator of the Plan and has the authority and responsibility for overseeing the general administration of the Plan.

Participation
For retiree medical and life insurance benefits, the Plan provides benefits for employees who retire after age 55 with 10 years of service, except for (1) management employees hired or rehired on or after October 1, 2015, (2) one group of contract employees hired or rehired on or after January 1, 2017, and (3) the remaining groups of contract employees hired or rehired on or after January 1, 2020. Certain employees of the former Central Illinois Light Company and the former Illinois Power Company are not subject to the service requirement.

Investments
The Plan's investments are held in two VEBA trusts, the Ameren Health and Welfare Trust (a master trust, the "Health and Welfare Trust") and the Ameren Management Health Trust (the "Health Trust") (collectively, the "VEBA Trusts"), and a 401(h) account in the Ameren Retirement Plan ("Retirement Plan").

During 2025 and 2024, the Health and Welfare Trust only held Plan investments. Because the Health and Welfare Trust is comprised entirely of the assets of the Plan, management has elected to report the assets of the Health and Welfare Trust as direct investments of the Plan in 2025 and 2024.

The Bank of New York Mellon Corporation ("BNY Mellon"), as Trustee, has the authority and responsibility to hold and protect the assets of the VEBA Trusts and the Plan in accordance with the trust agreements.

Benefits

The Plan provides health benefits (medical, hospital, surgical, and prescription drug) to retired employees and their covered dependents (coordinated with Medicare, if applicable), and retiree life insurance benefits. The Company no longer provides retiree medical and life insurance benefits for employees hired or rehired on or after January 1, 2020.

Plan medical benefits include coverage under optional health plans. Optional plans vary by participant group.

For their retiree medical benefit, certain age-65 or older retirees and dependents purchase individual supplemental Medicare coverage through a private exchange, and Ameren provides retiree health reimbursement accounts that can be used to reimburse premiums and certain out-of-pocket expenses paid for by the participants. For retirees and dependents eligible for the Retiree Health Reimbursement Account (RHRA) program, notional contributions are allocated to individual accounts for each plan participant or couple. The notional contribution amount is subject to fixed dollar maximums, with certain limitations based on the retiree's age and years of service at retirement. The RHRA program is administered by Alight Retiree Health Solutions. Eligible retirees may request reimbursement from their individual accounts for monthly premiums and other eligible healthcare expenses. Alight Retiree Health Solutions provides support and assistance to retirees when they are electing supplemental Medicare policies and/or Part D prescription drug plans.

In the RHRA program, notional contributions carry forward to future years if not claimed in the year awarded, with no account maximum limits. The amount of the notional contributions may be adjusted annually at the Company's discretion. Alight issues reimbursements to retirees, and then invoices Ameren, no less than monthly. Payments to Alight are made from the existing VEBA Trusts, the 401(h) account, and from general assets of the Company for a small number of retired senior executives and managers.

The Plan provides life insurance benefits in the amount of $15,000 for most retired management employees. Also, certain retired and active management employees hired prior to July 1, 1998, are eligible to continue their active coverage level as of December 31, 2003, in retirement. Consequently, some current retirees and a decreasing group of active employees who have not yet retired maintain retiree life insurance coverage under the Plan at levels significantly greater than $15,000.

The first $50,000 of retiree life insurance for members of the Ameren Leadership Team ("ALT members"), generally directors and above, is provided by the Plan. Retiree life insurance in excess of $50,000 for ALT members is provided through individual policies that are not part of the Plan.

Contract employees covered by labor agreements are eligible for retiree life insurance in accordance with their agreements.

Funding
The Plan is funded with Company and Participant contributions.

The medical benefits under the Plan are self-insured, except for certain age 65 or older retirees who purchase individual supplemental Medicare coverage. The retiree life insurance benefits under the Plan are fully insured. Premiums for retiree life insurance are paid by the Company, except for a small group of former AmerenIP retirees, who pay a premium of $0.25 per month per $1,000 of coverage (up to $7,000 in coverage) prior to age 65, which represents less than .1% of total premiums paid for retiree life insurance in 2025 and 2024.

The premiums charged to retirees are reviewed and determined annually.

Plan costs are either directly paid or pre-funded using the VEBA Trusts and the 401(h) account. The VEBA Trusts and 401(h) account are used for substantially all retiree welfare benefits. The only benefits funded outside of the VEBA Trusts and 401(h) account are medical benefits for a small number of retired senior executives and managers and certain retiree life insurance benefits, which are paid out of the general assets of the Company and are included in the Plan's financial statements.

Contributions
Ameren contributes specified amounts to the VEBA Trusts and the 401(h) account, as determined periodically by the Plan's actuary, to fund coverage for current retirees, and to fund coverage in retirement for certain active employees.

Plan Termination
Ameren has the right to terminate the Plan at any time. Should the Plan terminate at some future time, claims which have been incurred prior to termination of the Plan will be paid by the net assets of the Plan, except as otherwise required by law. Assets allocated to the 401(h) account remaining after all liabilities of the 401(h) account have been satisfied will be returned to Ameren. Plan assets remaining in the VEBA Trusts after all liabilities under the Plan with respect to participants participating in the VEBA Trusts are satisfied shall be used, as the Company determines, to provide life, medical or health, accident or other benefits to employees or former employees of the Company in a nondiscriminatory manner in accordance with Section 501(c)(9) of the Internal Revenue Code (the "Code") and applicable provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Reclassifications
Some items in the prior year's financial statements were reclassified to conform to the current presentation. Reclassifications had no effect on the prior year net assets available for benefits or the prior year net increase in net assets available for benefits.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments of the Plan are reported at fair value. The fair value of investments is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

Risks and Uncertainties
The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term could be material to the financial statements.

The Plan holds various investments. Investments are exposed to various risks, such as interest rate, market and credit risks as well as the risks associated with global events such as pandemics. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in risks and the fair value of investments will occur in the near-term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Derivatives, primarily futures, options, swaps, and foreign exchange forwards can be used in the Health and Welfare Trust's and the 401(h) account's (the "Trusts") fixed income portfolios, primarily for duration and yield curve management, currency exposure management, to take exposure synthetically or hedge certain sectors of the fixed income market in a liquid and diversified manner, to assume or protect against credit risk related to individual issuers in the credit markets, and to hedge or generate income. The use of derivatives is intended to allow portfolio investment risks to be managed more efficiently, flexibly, and/or cost-effectively. The use of derivatives also includes additional risks, including counterparty risk and basis risk, which are evaluated and monitored as part of the investment process.

When using derivative instruments, the Trusts are exposed to the counterparty's credit risk, which is the risk that derivative counterparties may not perform in accordance with the contractual provisions offset by the value of any collateral received. The Trusts' exposure to credit risk associated with counterparty nonperformance is limited to the unrealized gains inherent in such transactions that are recognized in the Statement of Net Assets Available for Benefits. The Trusts minimize counterparty credit risk through credit limits and approvals, credit monitoring procedures, executing master netting arrangements, managing margin and collateral requirements, and utilizing a central clearing exchange, as appropriate. The Trusts record counterparty credit risk valuation adjustments, if applicable, on certain derivative assets to appropriately reflect the credit quality of the counterparty.

Refunds/Rebates Receivable
Refunds and rebates are recorded when earned. Refunds due as of the financial statement date are reported as a receivable, with the offset being netted against claims paid.

Administrative Expenses and Investment Management Expenses
All costs incurred to administer the Plan, such as trustee fees and investment management fees, are paid by the Plan and reflected in the financial statements as administrative expenses of the Plan.

Benefit Payments
Claim payments are recorded when paid by the Plan and VEBA Trusts, the 401(h) account, or Ameren. Retiree medical claims are primarily paid out of the VEBA Trusts and 401(h) account with a portion paid by Ameren. Certain administration expenses related to claims processing, such as program integrity and program innovation fees, are recorded as part of Claims paid, net in the statements of changes in net assets available for benefits. Claims paid by Ameren are reflected in the statements of changes in net assets available for benefits as both employer contributions and claims paid.

Claims Payable
An obligation is recorded for claims payable based on reimbursements to claims administrators after year end for claims paid prior to year-end.

Premiums Due to Insurer
An obligation is recorded for premiums due to insurer based on payments to the insurer after year end for time periods prior to year-end.

Postretirement Benefit Obligations
The postretirement benefit obligations relative to the Plan represent the total actuarial present value of those estimated future benefits that were attributed to employee service rendered through the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from current Plan participants. The obligations represent the amounts that are expected to be funded by contributions from the Company and from existing assets of the Plan. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired or terminated employees and their beneficiaries and dependents and (2) active employees and their beneficiaries and dependents after retirement from service with the Company.

The actuarial present value of the expected postretirement benefit obligations is determined by the Plan's actuary and is the amount that resulted from applying actuarial assumptions to historical claims-cost data in order to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following were key assumptions used in December 31, 2025 and 2024 valuations:

Benefit settlement interest rate	5.70% as of December 31, 2025 and 2024
Medical costs	7.5% trending to 5.00% as of December 31, 2025, and 7.0% trending to 5.00% as of December 31, 2024 for pre-65 and post-65 costs
Retirement age	Percentages distributed over a period from early retirement at age 55, to retirement at age 70+, with an average retirement age of 62 as of December 31, 2025 and December 31, 2024

Mortality	At December 31, 2025 and December 31, 2024, the Pri-2012 Projected Generational Mortality Scale and future mortality improvement using Scale MP-2020

These actuarial assumptions were based on the presumption that retiree welfare benefit coverage would continue. If retiree welfare benefit coverage is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligations.

Plan obligations for health claims incurred but not reported at year-end ("IBNR") are included in the postretirement benefit obligation at December 31, 2025 and 2024. IBNR is estimated by the Plan's actuary in accordance with accepted actuarial principals based on claims data provided by the Plan's third-party claims administrators. These amounts are paid by the Plan only if claims are submitted and approved for payment.

The average health care cost trend rate assumption has a significant effect on the amounts reported in the accompanying financial statements. If the assumed rate was increased by one percentage point, the accumulated post-retirement benefit obligation as of December 31, 2025 and 2024 would increase by approximately $32.0 million.

The change in actuarial assumptions during 2025 was primarily due to change in medical trend assumption, change in claims, and change in demographic assumptions resulting from an experience study performed in 2025.

In the 2024 statements of changes in benefit obligations, the actuarial gains of $2.8 million, which offsets benefits earned, were primarily due to the impact of non-investment liability experience. The decrease due to changes in actuarial assumptions was primarily a result of the increase in the discount rate from 5.25% to 5.70%.

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the "Act") introduced a prescription drug benefit under Medicare Part D as well as a federal subsidy to sponsors of retiree health care benefit plans that provide a benefit that is at least actuarially equivalent to Medicare Part D. Under the Act, the Medicare subsidy amount would be received directly by the Company, not the Plan. Further, the Company would not be required to use the subsidy amount to fund postretirement benefits and may use the subsidy for any valid business purpose. As such, the Plan's postretirement benefit obligation at December 31, 2025, and 2024, does not reflect any amount associated with the Medicare subsidy, because the Medicare subsidy inures to the Plan sponsor and the Plan would not be directly entitled to the Medicare subsidy. Also, at December 31, 2025, and 2024, the Company has included the effects of the Medicare subsidy in measuring its postretirement benefit obligation; therefore, the Plan's postretirement benefit obligation differs from that of the Company.

The Plan currently has no deficiency of net assets relative to its benefit obligations. If a deficiency arises in the future, it is expected to be funded through contributions from the Company.

3. Federal Income Tax Status

Plan assets are held in the Health and Welfare Trust and the Health Trust. The Health and Welfare Trust received an exemption letter from the Internal Revenue Service (IRS) dated December 11, 1997, stating that the Trust qualifies as a voluntary employees' beneficiary association ("VEBA") under Section 501(c)(9) of the Code. The Health Trust established under the Plan to hold the Plan's assets received an exemption letter from the Internal Revenue Service dated November 21, 1997, stating that the Trust qualifies as a VEBA under Section 501(c)(9) of the Internal Revenue Code. However, investments in the Health Trust are subject to unrelated business income tax in accordance with requirements of the Code, as the benefits provided from the Health Trust are retiree medical benefits for employees and retirees who are or were not covered by a collective bargaining agreement. The amounts recorded for unrelated business income tax are reflected as income tax expense on the statements of changes in net assets available for benefits. The VEBA Trusts have been amended since receiving the exemption letters. The Plan and the VEBA Trusts are required to operate in conformity with the Code to maintain the tax-exempt status of the Trusts. The Company and the Plan administrator believe that the Plan and the VEBA Trusts are designed and being operated in compliance with the applicable requirements of the Code and, therefore, believe the VEBA Trusts continue to qualify as tax-exempt under section 501(c)(9).

Plan assets are also held in the 401(h) account, a restricted Retirement Plan account (Note 5). The IRS has determined and informed the Company by a letter dated June 29, 2021, that the Ameren Retirement Plan and the related trust are designed in accordance with applicable sections of the IRC. Although the Retirement Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, Plan management believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

4. Transactions with Parties-in-Interest and Related Parties

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

At December 31, 2025 and 2024, the Plan and VEBA Trusts held investments managed by investment managers including BNY Mellon Investment Adviser, Inc., an affiliate of BNY Mellon, the trustee of the Plan. These investments and fees paid by the Plan to third-party service administrators, the Trustee, the Plan's independent auditor, and various Plan investment managers or affiliates of Plan Trustee and Plan investment managers qualify as party-in-interest transactions.

These transactions are allowable party-in-interest transactions under ERISA.

5. 401(h) Account

In accordance with section 401(h) of the Code, the Company maintains an account in the Retirement Plan to fund certain postretirement medical obligations. Although assets in the 401(h) account are included in the Retirement Plan with assets that are available to pay pension benefits, separate accounting for the changes in net assets related to the 401(h) account are maintained. In accordance with Code section 401(h), the Plan’s investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. Plan participants do not contribute to the 401(h) account. Although employer contributions to the 401(h) account are not mandatory, contribution amounts are actuarially determined annually and are made at the discretion of the Company. The 401(h) account assets are restricted for the payment of postretirement medical benefits. The related obligations for health benefits are not included in the Retirement Plan’s statement of accumulated plan benefits but are reported as obligations in the financial statements of this Plan.

The following tables present the 401(h) account assets at December 31, 2025 and 2024 and the changes in net assets available for benefits for the years then ended:

7. Fair Value Measurements

The authoritative guidance issued by the FASB regarding fair value measurement provides a framework for measuring fair value for all assets and liabilities that are measured and reported at fair value. The guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk or the risks inherent in the inputs to the valuation, were used in the valuation process. Inputs to valuation can be readily observable, market corroborated, or unobservable. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. All financial assets and liabilities carried at fair value, except limited liability companies, common trusts, and other investment trusts were classified in one of the following three hierarchy levels:

Level 1: Inputs based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the reporting date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical assets and liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology that are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value for the Plan.

- Common stocks: The fair values of common stocks are determined by obtaining quoted prices from a nationally recognized exchange (Level 1 inputs).

- American depositary receipts (ADRs): Valued at the closing price reported on the U.S. active markets on which the individual securities are traded (Level 1 inputs).

- Limited liability companies (LLC's):The fair value of the limited liability companies are based on Net Asset Value ("NAV") as a practical expedient, provided by the funds and their administrators. Each LLC's NAV is based on the fair value of the underlying investments. The investment objective of each fund is to maximize long-term capital appreciation primarily by investing in a diversified portfolio of equity securities.
    - The Fund which invests in a diversified portfolio of companies located throughout the world, is valued weekly and at month end. Capital contributions and withdrawals are generally allowed weekly with three business day prior written notice. Additionally, contributions may also be allowed on such other days as determined by the Fund in its sole discretion. The Fund imposes no minimum holding period for interests, withdrawal fees, or gate, except that if an investor makes a complete withdrawal from the Fund, the Fund will hold back 5% of the investor's withdrawal proceeds until promptly after the Fund completes its annual audit.

- Common trusts: The fair values of participation units held in common trusts are based on the NAV as a practical expedient and reported by the fund managers as of the financial statement dates and recent transaction prices. Under ordinary market conditions, redemptions of investments in common trusts are permitted as of daily or monthly valuation dates, as applicable, and are executed at NAV.

- Other investment trusts: The fair value of the other investment trusts is based on the NAV as a practical expedient, provided by the funds and their administrators. Other investment trusts consist of one Delaware Statutory Trust (DST) investment with the objective of achieving long-term capital appreciation primarily through investing in a portfolio of equity securities located in countries throughout the world including the United States.
    - The NAV for the DST is determined by recent transaction prices of the underlying securities. Under ordinary market conditions, the DST provides for monthly contributions and redemptions by the Plan at reported NAV per share, with advance notice requirements of at least ten business days.

- Mutual funds: The fair values of the mutual fund investments categorized in Level 1 are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

- Municipal securities: Generally municipal securities are valued based upon recent bid prices or the average of recent bid and asked prices when available (Level 2 inputs) and, if not available, they are valued through matrix pricing models developed by sources considered by management to be reliable. Matrix pricing, which is a mathematical technique commonly used to price debt securities that are not actively traded, values debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

The following table sets forth, by level within the fair value hierarchy, assets and liabilities of the Plan measured at fair value on a recurring basis as of December 31, 2025:

	Quoted Prices In Active Markets for Identified Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Measured at Net Asset Value as a Practical Expedient (a)	Total

(a) In accordance with authoritative guidance, certain investments measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts measured at NAV presented in this table are intended to permit reconciliation of the fair value hierarchy to the total investments at fair value presented in the Statement of Net Assets Available for Benefits.

The Plan does not hold any investments requiring Level 3 measurements.

8. Subsequent Events

In 2026 the Company approved two material amendments to the Plan which are effective for certain Plan participants as of January 1, 2027. One amendment aligns the various participant groups' Plan eligibility dates to a single date – hires or rehires prior to January 1, 2020, provided that to be eligible for this new date, a participant must remain employed on January 1, 2027 and meet certain terms and service conditions. A second amendment removes the Company subsidy cap formula based on age and service for pre-65 and post-65 participants.

Subsequent events have been evaluated through October 8, 2026, which is the date the financial statements were available to be issued.
