INDEPENDENT AUDITOR'S REPORT

To the Trustee and Plan Administrator
Puklich Chevrolet, Inc. 401(k) Plan
Bismarck, North Dakota

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Puklich Chevrolet, Inc. 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Puklich Chevrolet, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

Make Every Day Count | www.bradymartz.com

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Puklich Chevrolet, Inc. 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Puklich Chevrolet, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Puklich Chevrolet, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Puklich Chevrolet, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025 and Schedule of Delinquent Participant Contributions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For

information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 PLAN DESCRIPTION

The following description of the Puklich Chevrolet, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Puklich Chevrolet, Inc. established the Plan effective October 1, 1987. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is a defined contribution plan.

The plan is administered by the sponsor, Puklich Chevrolet, Inc. (the Company). FuturePlan by Ascensus serves as the third-party administrator of the Plan, while Voya Retirement Insurance and Annuity Company maintains the records of the participant data and holds the Plan assets.

Eligibility

All employees of the Company are eligible to participate in the Plan after 500 hours of service in a consecutive 6-month period; or 1,000 hours of service in the first year of eligibility (one year following first date of employment), and attainment of age 21 except for: union employees, leased employees, nonresident aliens, and dealer/trade drivers. To receive discretionary matching contributions, an employee must complete six months of service, be 21 years of age and be contributing to the Plan. To receive discretionary profit-sharing contributions, an employee must meet the eligibility requirements above and be employed on the last day of the plan year. Employees may enroll in the Plan at the beginning of each calendar year quarter.

Contributions

Participants may contribute up to the maximum dollar amount allowed under federal regulations for the plan year. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan allows for a discretionary match. For the years ended December 31, 2025 and 2024, the Plan matched 100% of the participant’s elective deferrals up to 2% of the participant’s eligible compensation. The Plan allows participants to allocate contributions between pretax and after tax (Roth 401(k)) deferrals.

Discretionary profit-sharing contributions to the Plan are also allowed and are allocated to each employee in the ratio that the compensation of the individual participant is to the compensation of all participants for the plan year. There were no discretionary profit-sharing contributions for the plan years ended December 31, 2025 and 2024.

Participants may make rollover contributions for amounts representing distributions from other qualified defined benefit plans, defined contribution plans, or individual retirement accounts.

Payment of Benefits

Upon termination of employment, death, disability, or retirement, the participant will receive a lump sum amount, installment distributions or ad-hoc distributions equal to the value of the participant's vested interest. Terminated participants with account balances of $1,000 or less are required to take a lump sum distribution upon termination. Terminated participants with balances between $1,000 and $7,000 can elect to receive a lump sum payment or rollover those funds to another qualified plan. Participants may take an in-service distribution upon reaching age 59 ½. The Plan allows for hardship withdrawals, subject to account balance limits and applicable laws. Generally, certain minimum distributions are required for participants who have separated from service and have reached minimum distribution age.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's contribution. Plan earnings are allocated based on participant account balances, as defined. Participant accounts are charged with and allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. The Plan allows for participant-directed investment programs for which separate funds are maintained. The value of each participant's account is determined daily.

Participants' Investment Options

Participants must direct their salary deferral contributions and Company contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options throughout the year by contacting Voya Retirement Insurance and Annuity Company, the recordkeeper.

Vesting

Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service with certain exceptions for death and disability. A participant is 100% vested after six years of credited service or upon attaining retirement age.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to the maximum of the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest of one percent above the Prime interest rate as published in the Wall Street Journal when the loan was obtained. The term of the loan cannot exceed five years, unless it is for the purchase of a principal residence, which must be repaid within twenty years. Principal and interest are paid ratably through payroll deductions.

Forfeitures

Forfeitures can be used in any permissible method, including to restore forfeitures, reduce employer contributions, or to pay Plan expenses. At December 31, 2025 and 2024, forfeited non-vested accounts totaled $18 and $4,445, respectively. During the years ended December 31, 2025 and 2024, $11,055 and $13,781 were used to reduce employer matching contributions, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Basis of Presentation

The accompanying financial statements are presented in accordance with accounting principles generally accepted in the United States of America, ("GAAP"), as codified by the Financial Accounting Standards Board.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for investments in insurance contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year and is reflected in the statements of changes in net assets available for benefits.

Contributions

Contributions from Plan participants and matching contributions from the Company are recorded in the year in which the employee contributions are withheld from compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payment of Benefits

Benefit distributions are recorded when paid.

Administrative Expenses

Several of the investment fund options are subject to investment fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and thus are not separately disclosed in the accompanying financial statements. Participant loan accounts are assessed a separate fee for the administration of loans. Certain administrative expenses that are paid by the Company are excluded from these financial statements.

Income Taxes

The Plan's policy is to evaluate the likelihood that its uncertain tax positions will prevail upon examination based on the extent to which those positions have substantial support within the Internal Revenue Code and Regulations, Revenue Rulings, court decisions, and other evidence.

NOTE 3 INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

Certain information in the accompanying financial statements and ERISA-required supplemental schedules related to investments and notes receivables from participants held as of December 31, 2025 and 2024, and investment income and interest income on notes receivable from participants for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by the custodian, Voya Retirement Insurance and Annuity Company, a qualified institution.

NOTE 4 FAIR VALUE MEASUREMENT

Financial Accounting Standards Board Statement ASC Topic 820, *Fair Value* Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
If the asset or liability has a specified (contractual) term the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2025 and 2024.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV, as provided by the insurance company, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the account will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the accounts, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Plan does not have any assets to be classified within the fair value hierarchy table. See investments measured using the net asset value per share practical expedient in the following table to reconcile investments at fair value on the Statement of Net Assets Available for Benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2025 and 2024, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Balanced pooled separate accounts invest in a diversified portfolio of quality stocks and bonds to promote versatility and lead to more consistent results.

Bond pooled separate accounts invest in bonds and are designed to provide regular income from interest paid by the bonds they hold.

Growth pooled separate accounts include investments that invest in companies the account manager believes have above-average growth potential. Most underlying holdings are in common stocks. The accounts may make limited use of futures and/or options for the purpose of maintaining equity exposure. These managers are generally willing to pay higher market multiples for the superior growth rates and profitability they anticipate. As a result, stocks in growth portfolios will tend to have higher price/earnings ratios and will generally pay little or no dividends.

Value pooled separate accounts primarily hold stocks that are deemed to be undervalued in price and that are likely to pay dividends.

Blended pooled separate accounts invest primarily in a combination of stocks, bonds, and cash-equivalent investments. Over the long term, they seek growth of both capital and income.

Asset allocation pooled separate accounts provide investors with a portfolio of a mix of stocks and bonds, as well as cash equivalents, with a variety of objectives.

Diversified income pooled separate accounts seek income by investing in a broadly diversified array of securities including bonds, common stocks, real estate securities, foreign market bonds and stocks, and money market instruments. Bonds, stocks, and cash components will vary, reflecting the portfolio manager's judgments of the relative availability of attractively yielding and priced stock and bonds.

Diversified emerging markets pooled separate accounts seek long-term capital appreciation by investing primarily in equity securities, principally common stocks, of non-U.S. companies whose principal activities are located in emerging market countries and are undervalued based on their earnings. Under normal circumstances, it invests at least 80% of its assets in equity securities of companies whose principal business activities are located in emerging market countries.

Target retirement pooled separate accounts seek a high total return with asset allocations tailored to individuals' expected retirement dates. These funds invest in a mix of fixed income, stocks, and alternative assets depending upon the expected retirement date.

NOTE 5 CONTRACT WITH INSURANCE ENTITY

During the year ended December 31, 2016, the Plan entered into an insurance contract with Voya Retirement Insurance and Annuity Company (VRIAC). Under the terms of that contract, Plan participants can direct funds to pooled separate accounts or the Voya Fixed Account which has a primary objective of stability of principal. The Voya Fixed Account is an obligation of VRIAC's general account which supports all of the company's insurance and annuity commitments. The interest rate guarantees under the contract are subject to VRIAC's claims-paying ability.

The Voya Fixed Account guarantees minimum rates of interest and may credit interest that exceeds the minimum guaranteed rate. The current rate is subject to change at any time but will never fall below the guaranteed minimum. The guaranteed minimum interest rate was 1% as of December 31, 2025 and 2024. Daily credited interest becomes part of the principal and the investment increases through compound interest. The same credited rate applies to all funds a participant invests in the Voya Fixed Account under the portfolio method of interest rate crediting. The credit rating of the issuer at December 31, 2025 and 2024 was A2 as reported by Moody’s Investors Service.

The Voya Fixed Account guarantees principal and a guaranteed minimum interest rate (GMIR) for the life of the contract, as well as featuring two declared interest rates: a current rate, determined at least monthly, and a guaranteed minimum floor rate declared for a defined period - currently one calendar year. The GMIR may vary by participant based on the date the participant established an account under the VRIAC contract. The guaranteed minimum floor rate may change after a defined period, but it will never be lower than the GMIR that applies for the life of the contract. The current rate, the guaranteed minimum floor rate and the GMIR are expressed as annual effective yields.

The Voya Fixed Account is intended to be a long-term investment for participants seeking stability of principal. The assets supporting it are invested by VRIAC with this goal in mind. Therefore, VRIAC may impose limitations on the ability to move funds into or out of this investment option. Transfers from the Voya Fixed Account to other investment options within the contract are limited to the 'window' which varies but will never be less than 10 percent of the balance in the Voya Fixed Account as of the date of transfer, reduced by any prior transfers made during the same calendar year. Withdrawals from the Voya Fixed Account are not subject to this window limitation, and may be made for any reason, subject to plan or Internal Revenue Code limitations; however, the withdrawal may be subject to a withdrawal fee.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contracts
- Plan termination or merger
- Changes to the Plan's prohibition on completing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer.

The contract permits the insurance company to terminate the agreement with 90 days advanced written notice.

NOTE 6 INCOME TAX STATUS

The Plan adopted a non-standardized pre-approved profit sharing plan sponsored by Ascensus. The non-standardized pre-approved profit sharing plan has received an opinion letter dated June 30, 2020, from the Internal Revenue Service as to the plan's qualification status. The opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain tax position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

NOTE 7 EXEMPT TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan is currently funded through a group funding agreement issued by Voya Retirement Insurance and Annuity Company (Voya). The contract makes certain mutual funds available to the Plan through a pooled separate account and also provides a credit rate investment option (Voya Fixed Account) for the Plan. Certain investment options offered by the Plan are Voya proprietary funds and Voya is a party-in-interest to such funds.

Voya provided recordkeeping services to the Plan during the years ended December 31, 2025 and 2024, and received indirect compensation from the Plan's investments as compensation for these recordkeeping services. These transactions are covered by a permanent exemption under Section 408 of the Employee Retirement Income Security Act of 1974, and therefore, are not a violation of the prohibited transactions regulations promulgated by Act Section 406.

FuturePlan by Ascensus provides third party administrator services for the Plan.

NOTE 8 NON-EXEMPT TRANSACTIONS WITH PARTIES-IN-INTEREST

The Company remitted the following participant contributions to the trustee subsequent to the date required by the Department of Labor (DOL) Regulation 2510.3-102.

Contribution Date	Amount
December 19, 2025	$ 453

During the year ended December 31, 2025, the Company filed Form 5330 with the IRS and paid the excise tax related to the non-exempt party-in-interest transactions that occurred during year ended December 31, 2025.

The Company also calculated the amounts representing the earnings that the contributions would have earned if they had been deposited timely. The lost earnings from the late remittances for the year ended December 31, 2025 were deposited during the year ended December 31, 2025.

NOTE 9 AMENDMENT AND TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right at any time to amend or terminate the Plan subject to the provisions of the Plan and ERISA. If the Company terminates contributions or the Plan is terminated, all participants become fully vested.

NOTE 10 RISKS AND UNCERTAINTIES

Participants direct the investment of their accounts into various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 SUBSEQUENT EVENTS

No significant events occurred subsequent to the Plan's year end. Subsequent events have been evaluated through October 2, 2026, which is the date these financial statements were available to be issued.
