Independent Auditor's Report

To the Participants and Plan Administrator of
The Retirement Plan for Union Employees of U.S. Oil & Refining Co.
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2025 Financial Statements

We have performed an audit of the financial statements of The Retirement Plan for Union Employees of U.S. Oil & Refining Co. (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements (2025 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2025 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2025 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2025 Financial Statements* section:

- the amounts and disclosures in the accompanying 2025 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- the information in the accompanying 2025 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2025 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2025 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of the 2025 financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the 2025 financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2025 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2025 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the 2025 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2025 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

2025 Supplementary Information Required by ERISA

The supplementary information listed in the table of contents as of and for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplementary information, other than the information in the supplementary information that agrees to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplementary information related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Participants and Plan Administrator of
The Retirement Plan for Union Employees of U.S. Oil & Refining Co.

Auditor's Report on the 2024 Financial Statements

Predecessor auditors performed an audit of the 2024 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 8, 2025 indicated that (a) the amounts and disclosures in the 2024 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with US GAAP, and (b) the information in the 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).Their report also indicated that the form and content of the 2024 supplemental schedule, other than the information in the 2024 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2024 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

Note 1. Description of the Plan

The following description of The Retirement Plan for Union Employees of U.S. Oil & Refining Co. (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions, which is available from Plan management.

General

The Plan is a defined benefit pension plan covering those employees of U.S. Oil & Refining Co. (the Company) who are covered by a collective bargaining agreement, have one year of service, and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Par Petroleum, LLC is the Plan Sponsor and the Plan Administrator. John Hancock Trust Company, LLC (Trustee) is the trustee of the Plan. John Hancock Retirement Services, LLP (JHRPS) provides actuarial and administrative services for the Plan. Both the Trustee and JHRPS are wholly owned subsidiaries of John Hancock Life Insurance Company.

The Plan is administered by the Retirement Plan Committee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan, and determines the appropriateness of the Plan's investment offerings, monitors investment performance.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. No contributions are required for the 2025 Plan year. The minimum required contribution for the 2024 Plan year was $447,889 and it was satisfied with the Plan's pre-funded balance.

Pension Benefits

Benefits are accrued based on the employee's hourly rate of compensation at the beginning of each year of employment. A participant's accrued monthly benefit is equal to one-twelfth the sum of (a) the annual accrued benefits earned for the Plan years prior to January 1, 1976, which accrued according to the provisions then in affect; (b) the annual accrued benefit for the Plan years between January 1, 1976 and December 31, 1993, at $81.98 plus 1.13% of the excess of the employee's hourly rate for that year in excess of $2.605 per hour (calculated in brackets of $0.25 per hour); (c) the annual accrued benefits for Plan years after 1993 at $81.98 plus 1.13% of the excess of the employee's hourly rate for that year in excess of $2.605 per hour increased (calculated in brackets of $0.25 per hour) as follows (1) Plan year 1994, increased by 10%, (2) Plan year 1995, increased by 4.55% over the 1994 amount, (3) Plan years after December 31, 1995 but before February 1, 2005, increased by 4.25% over the 1995 amount, (4) Plan years after February 1, 2005, increased by 5% over the 1996 amount.

Employees are entitled to pension benefits beginning at normal retirement age 62. The Plan permits early retirement upon attaining age 55 provided the employee has completed seven years of credited service. Employees may elect to receive the value of their accumulated plan benefits in a lump sum, as a lifetime pension, or as various joint and survivor pension payments.

Vesting

Upon completion of five years of credited service, a participant is 100% vested, or upon death, early, normal, or deferred retirement, if not otherwise 100% vested. If employees terminate prior to completing five years of credited service, they forfeit the right to receive their accumulated plan benefits.

Death and Disability Benefits

If an employee dies prior to attaining age 55, the employee's surviving spouse receives an annual benefit equal to the amount which the surviving spouse would have received had the employee (1) terminated employment on the date of death, (2) survived to the earliest retirement age under the Plan, (3) retired with an immediate joint and fifty-percent (50%) survivor annuity, and (4) died on the day after attaining their earliest retirement age.

If an employee dies after age 55, the employee's surviving spouse receives an annual benefit equal to the amount the surviving spouse would have received had the employee (1) terminated employment on the date of death, (2) retired with an immediate joint and fifty-percent (50%) survivor annuity with the spouse as the beneficiary, and (3) died after the date distribution had commenced to the employee.

Note 2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Reclassifications

Certain reclassifications have been made to the 2024 financial statements to conform to the 2025 financial statement presentation. These reclassifications had no effects on changes in the net assets available for benefits.

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events through October 8, 2026, the date the financial statements were available to be issued.

Note 3. Certified Investments

Certain information in the accompanying financial statements and ERISA-required supplementary information related to investments held as of December 31, 2025 and 2024, and net appreciation in fair value of investments and interest and dividends for the years ended December 31, 2025 and 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by the John Hancock Trust Company LLC, a qualified institution.

Note 4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered prior to the valuation date. Benefits to be provided via annuity contracts are excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined the Plan's independent actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The Retirement Plan for Union Employees of U.S. Oil & Refining Co.

Notes to Financial Statements

The accumulated plan benefits information at January 1, 2026 and 2025, were as follows:

	2026	2025
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	$ 9,426,507	$ 8,484,324
Participants entitled to deferred benefits	3,644,627	4,382,114
Other participants	3,173,429	2,794,148
Non-vested benefits	542,370	135,554
Total actuarial present value of accumulated plan benefits	$ 16,786,933	$ 15,796,140

The change in the actuarial present value of accumulated plan benefits from January 1, 2025 to January 1, 2026 and from January 1, 2024 to January 1, 2025 are attributable to the following:

	2026	2025
Actuarial present value of accumulated plan benefits at January 1, 2025 and 2024	$ 15,796,140	$ 14,902,342
Increase (decrease) during the year attributable to:		
Increase for interest	919,720	869,181
Benefit payments	(948,765)	(844,269)
Benefits accumulated	1,019,838	868,886
Net increase	990,793	893,798
Actuarial present value of accumulated plan benefits at January 1, 2026 and 2025	$ 16,786,933	$ 15,796,140

The significant actuarial assumptions used in the Plan valuations as of January 1, 2026 and 2025 were as follows:

Assumed rate of return on investments:	6%
Discount rate:	6%
Retirement age rate:	valuations assumed 40% retire at age 63, 40% retire at age 64, and the remainder retire at age 65
Morality	Pri-2012 Morality Table with Generational Projection (Scale MP-2021)

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2026 and 2025. Had the valuations been performed as of December 31, there would be no material differences.

Note 5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before Plan termination.
2. Annuity benefits which former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the level of benefits guaranteed by the PBGC.

Note 6. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Group Annuity Contract: Amounts held in the group annuity contract reflect the experience of New York Life Insurance Company's general account. The investment is valued at fair value annually by the Trustee, for purposes of the Plan's annual financial reporting requirement. Observable inputs are used by the Trustee to value the contract.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	2025	2024
Level 1:		
Mutual funds	$ 12,934,480	$ 12,050,120
Level 2:		
Group annuity contract	10,449,094	9,581,731
Investments, at fair value	$ 23,383,574	$ 21,631,851

Note 7. Group Annuity Contract with New York Life Insurance Company

The Plan holds an interest in a group annuity contract with New York Life Insurance Company (GA-142). GA-142 consists of two contractual accounts, the Fixed Dollar Account and the Pension Account. The contract is not fully benefit-responsive.

Fixed Dollar Account

The Fixed Dollar Account is an unallocated account. The cumulative balance of the account includes contributions made under the contract, plus earnings, less funds used to pay administrative expenses charged by New York Life Insurance Company, less allocations to the Pension Account. The balance in the Fixed Dollar Account at December 31, 2025 and 2024 is $427,611 and $168,058, respectively.

Pension Account

The Pension Account is an allocated account and is subject to a minimum balance provision. The cumulative balance of this account includes contributions made under the contract, plus earnings, less funds used to pay administrative expenses charged by New York Life Insurance Company, less payments of pension benefits. The balance in the Pension Account at December 31, 2025 and 2024 is $10,021,483 and $9,413,673 respectively. New York Life Insurance Company determines a minimum balance for the Pension Account, which is the aggregate of the estimated present values of all pension benefits to which pensioners are then entitled. Transfers are made from the Fixed Dollar Account to the Pension Account as necessary to maintain the minimum balance.

The Fixed Dollar Account and Pension Account earn interest at a rate equal to the rate of net investment income earned by the GA-142 contract of 3.77% and 4.17% as of December 31, 2025 and 2024, respectively.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that some changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are determined and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

Note 9. Tax Status

The Plan obtained its latest determination letter on April 22, 2014 in which the Internal Revenue Service (IRS) stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified, and the related trust is tax-exempt.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10. Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by John Hancock Trust Company, LLC, the trustee for the Plan. JHRPS provides actuarial and related services for the Plan. The Plan invests in a group annuity contract issued by New York Life Insurance Company, an affiliate of the Trustee. Certain costs are incurred as transactions occur. These costs are included in the price of investments bought or sold and are not separately quantifiable. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various services providers. These transactions are party-in-interest transactions under ERISA.

Actuarial cost method

Funding target and target normal cost

An actuarial cost method allocates the expected cost of a pension plan on a year-by-year basis. The primary objective is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) requires plan sponsors to use the Traditional Unit Credit actuarial cost method in which the estimated accrued benefit is based on service and, if applicable, earnings as of the valuation date. The funding target is equal to the actuarial present value of all accrued benefits as of the valuation date. The target normal cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefits attributable to service expected to be completed during the plan year (i.e., if applicable, one year's salary growth is reflected in the determination of target normal cost).

For tax deduction purposes, the funding target may reflect the value of future pay increases on accrued benefits, if applicable.

PPA discounting method

The plan sponsor must choose between full yield curve spot rates or a segmented yield curve of 24-month average corporate bond rates. If the segmented yield curve is selected, the plan sponsor can use either the rates as of the month of the valuation or as of a lookback month, up to 4 months prior to the valuation date. If the full yield curve is selected, the rates as of the month of valuation must be used.

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

January 2025 segment rates, adjusted so each segment rate is no less than the applicable minimum percentage* of the corresponding 25-year average segment rate for the calendar year that contains the first day of the plan year and no more than the applicable maximum percentage of that 25-year average segment rate. The 25-year average cannot be less than 5.0% prior to application of the corridor.**

Asset valuation method

Plan assets for purposes of this actuarial valuation are valued at their fair market value, including, if applicable, discounted receivable contributions.

---

* Minimum is 95% through 2030, decreasing 5% per year beginning in 2031 until 70% is reached in 2035

** Maximum is 105% through 2030 and increasing 5% per year beginning in 2031 until 130% is reached in 2035

Termination: The T-4 Termination Table
Sample rates are as follows:

Age	Rate
25	5.29%
40	4.19%
55	0.94%

Assumed Retirement Age: For active participants, 40% of the participants retire at age 63, another 40% retire at age 64, and the remaining participants retire at age 65.

For vested terminated participants, age 62 or current age, if later.

Actuarial assumptions

Miscellaneous Assumptions

Form of Payment:	Life Annuity
Administrative Expenses:	Equal to current year's expected PBGC expenses plus prior year's actual non-PBGC expenses, rounded up to the nearest $1,000 (for 2025, the assumed expenses are $46,000)
Percent Married:	100%
Spouse's Age:	Wives assumed to be 3 years younger than husbands

Rationale for significant assumptions

Economic assumptions

- **Expected return on plan assets:** The assumption was selected by the client with input from their investment advisor. We believe the assumption is reasonable as it falls within a reasonable range of expected returns for the plan's asset allocation based on capital market assumptions.

- **Salary increase:** We believe that this is representative of anticipated future experience. In addition, based on discussions with the plan sponsor, significant changes in future salary growth or compensation practices are not expected.

Demographic Assumptions

- **Termination:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in termination patterns are not expected.

- **Retirement:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in retirement patterns are not expected.

Miscellaneous assumptions

- **Expenses:** The assumption is based on the expectation of expenses to be paid out during the plan year, based on actual PBGC expenses projected for the year, and assuming non-PBGC related expenses will be similar to the prior year.

- **Form of payment:** All optional forms are actuarially equivalent, and the assumption is based on the normal form of payment.

- **Spouse's age and percent married:** The employer does not have enough credible data to analyze spousal demographics. These assumptions are based on the actuary's experience with similar plans.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
