Independent Auditors' Report

To the Trustees of
Standard Insurance Company Retiree Umbrella Health and Welfare Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Standard Insurance Company Retiree Umbrella Health and Welfare Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of benefit obligations as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Standard Insurance Company Retiree Umbrella Health and Welfare Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Standard Insurance Company Retiree Umbrella Health and Welfare Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Standard Insurance Company Retiree Umbrella Health and Welfare Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Standard Insurance Company Retiree Umbrella Health and Welfare Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Standard Insurance Company Retiree Umbrella Health and Welfare Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 – Description of Plan

The following description of the Standard Insurance Company Retiree Umbrella Health and Welfare Plan (the Plan) provides only general information about the Plan's provisions. Participants should refer to the Summary Plan Description and may request a copy of the plan document for a more detailed description of the Plan's provisions.

General – The Plan provides health and other benefits to eligible retired employees and qualified spouses or domestic partners of StanCorp Financial Group, Inc. (StanCorp) and its subsidiaries. The Plan is sponsored by Standard Insurance Company (Standard or Company), a wholly owned subsidiary of StanCorp. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Standard established a Voluntary Employees' Beneficiary Association (VEBA) trust, the Standard Insurance Company Continuing Health & Welfare Trust (Retiree Trust) for retirees. The Retiree Trust collects, holds and disburses funds for covered retirees and their qualified spouses or domestic partners.

Standard controls and manages the operation and administration of the Plan and the Retiree Trust. The Bank of New York Mellon serves as the trustee of the assets in the Retiree Trust.

Eligibility – The Plan provides health and other benefits to eligible retirees and qualified spouses or domestic partners that qualify for benefits per the applicable component plan document depending on their years of service and retirement date.

In December 2012, the Plan announced the reduction of future benefits to plan participants that were either not eligible to or chose not to retire on or before July 1, 2013. Postretirement medical benefits are closed to new participants.

Plan benefits – The Plan provides health benefits (medical), in excess of Medicare coverage, through a Health Reimbursement Arrangement (HRA), as well as life and accidental death and dismemberment (AD&D) insurance through insured benefits, to retired employees.

Health Reimbursement Arrangement – The Plan provides medical reimbursements to participants through an HRA. HRA subsidies are based on a tiered schedule aligned to the employer subsidy percentage calculated at the time the Plan transitioned to an HRA arrangement (which was based on years of service and retirement date) and an annual COLA adjustment. The HRA allows eligible participants to be reimbursed tax-free for qualified medical expenses subject to a specified ceiling. The employer is not permitted to refund any part of the balance to the employee and the account cannot be used for anything other than reimbursements for qualified medical expenses.

Insured benefits – The Plan offers fully insured life and AD&D benefits. Standard purchased annual insurance contracts for these insured benefits. Premiums were paid from the general assets of Standard or assets from the Retiree Trust.

Contributions – The Company makes contributions to the Plan as needed to fund reimbursements, up to a specified HRA subsidy ceiling, and insured benefits. Any deficiency of the Plan's net assets relative to its benefit obligations is funded by the Company on a pay-as-you-go basis.

Income taxes – The Plan provides for income taxes on income that is subject to federal, state, or local income taxes. Income tax expense is recognized in the period in which the related taxable income is earned.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual basis of accounting.

Use of estimates – The preparation of financial statements in accordance with GAAP requires plan management to make certain estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment valuation – The investments are reported at fair value. The Plan's trustee certifies the fair value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net increases and decreases in fair value of investments consist of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Premiums paid by either Standard or the Retiree Trust are recorded as premium payments in the accompanying statements of changes in net assets available for benefits. Life and AD&D insurance premiums paid for the years ended December 31, 2025 and 2024, were $152,813 and $152,678, respectively.

Medical reimbursements are recorded as reimbursements are paid to participants by the third-party processor. These payments are recorded as medical reimbursements paid in the accompanying statements of changes in net assets available for benefits. The Plan paid $693,421 and $674,617 in medical reimbursements for the years ended December 31, 2025 and 2024, respectively. Amounts for reimbursements processed that have not been paid by the Plan are recorded as other liabilities in the Plan's statements of net assets available for benefits.

Administrative expenses – Standard may elect to pay any administrative fees or expenses. Otherwise, the expenses and fees are paid by the Plan. The Plan pays administrative expenses that consist primarily of administrative fees paid to the third-party processors and the trustee. These expenses are reported on the statements of changes in net assets available for benefits as administration fees and trustee fees. All other administrative expenses, such as professional fees, are paid by Standard on behalf of the Plan.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 2, 2026, which is the date the financial statements were available to be issued.

Note 3 – Postretirement Benefits

A postretirement benefit obligation has been recognized for retiree medical, life and AD&D benefits for eligible participants and their qualified spouses or domestic partners upon retirement. This benefit obligation represents the actuarial present value of the cost of those estimated future benefits that are attributed by the terms of the Plan to employee service rendered to the date of the financial statements. The obligation represents the amounts that are expected to be funded by contributions from the Company and from existing assets of the Plan. Postretirement benefits include future benefits expected to be paid to or for currently retired employees and their qualified spouses or domestic partners upon retirement.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical data to estimate future annual incurred reimbursement costs per participant and to adjust such estimates for the time value of money (through discount for interest) and the probability of payment (by means of decrements, such as those for death, disability, withdrawal) between the valuation date and the expected date of payment.

The Plan provides reimbursements to participants through an HRA. HRA subsidies are based on a tiered schedule aligned to the employer subsidy percentage calculated at the time the Plan transitioned to an HRA arrangement (which was based on years of service and retirement date) and an annual COLA (cost of living adjustment) adjustment. Each retiree and spouse or surviving spouse is eligible to receive reimbursements for medical premiums or claims up to their own annual HRA limit. The amount of that funding will continue to increase in future years with the cost-of-living adjustment of 3%.

HRA subsidy amounts were as follows:

	HRA Subsidy amounts for the year ended December 31, 2025			
	Retiree		Qualified spouses or domestic partners	
	Pre-65	Post-65	Pre-65	Post-65
Current Subsidy %				
67%–85%	$ 13,530	$ 4,510	$ 13,530	$ 4,510
50%–63%	$ 10,155	$ 3,385	$ 10,155	$ 3,385
12%–40%	$ 6,780	$ 2,260	$ 6,780	$ 2,260

	HRA Subsidy amounts for the year ended December 31, 2024			
	Retiree		Qualified spouses or domestic partners	
	Pre-65	Post-65	Pre-65	Post-65
Current Subsidy %				
67%–85%	$ 13,134	$ 4,378	$ 13,134	$ 4,378
50%–63%	$ 9,858	$ 3,286	$ 9,858	$ 3,286
12%–40%	$ 6,582	$ 2,194	$ 6,582	$ 2,194

Other significant assumptions used in the valuation as of December 31, 2025 and 2024, were as follows:

	2025	2024
Discount rate to determine benefit obligations	5.24%	5.57%
Normal retirement age	65	65
Cost of living	3.00%	3.00%
Mortality	PRI2012 Combined Healthy Mortality Table Generational Projection, using scale MP2021	PRI2012 Combined Healthy Mortality Table Generational Projection, using scale MP2021

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the benefit obligations.

During the years ended December 31, 2025 and 2024, the actuarial present value of the postretirement benefit obligation decreased by $836 and $656,151, respectively, due to actuarial assumption changes including the discount rate and HRA subsidy amounts.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2025 and 2024.

Municipal bonds – Valued using pricing models maximizing the use of observable inputs for similar securities, including values based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, those bonds are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Money market fund (mutual fund) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses by level, the fair value hierarchy, of the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Total	Level 1	Level 2	Level 3
Municipal bonds	$ 15,674,493	$ -	$ 15,674,493	$ -
Money market fund	855,377	855,377	-	-
Total investments, at fair value	$ 16,529,870	$ 855,377	$ 15,674,493	$ -

	Assets at Fair Value as of December 31, 2024			
	Total	Level 1	Level 2	Level 3
Municipal bonds	$ 15,752,081	$ -	$ 15,752,081	$ -
Money market fund	916,400	916,400	-	-
Total investments, at fair value	$ 16,668,481	$ 916,400	$ 15,752,081	$ -

Note 5 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

The actuarial present value of the postretirement benefit obligation is reported based on certain assumptions pertaining to interest rates, health care trend rates and retiree demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 6 – Parties-in-Interest Transactions

The Retiree Trust reimburses Standard for certain benefit payments. Expenses of reimbursement administration and servicing of the Retiree Trust are paid by Standard or the Plan, as determined by Standard. Certain benefits, including life and AD&D, are provided by Standard. These transactions are characterized as party-in-interest transactions.

Note 7 – Plan Termination

Although it has not expressed any intention to do so, Standard has the right under the Plan to modify the benefits provided to, and contributions required of, participants to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, remaining assets will be applied in a uniform and nondiscriminatory manner toward the provision of benefits for or on account of the participants. No assets of the Plan may revert to Standard or be used for purposes other than for the exclusive benefit of the Plan's participants.

Note 8 – Certified Investment Information

The following information related to investments was obtained by management and agreed to or derived from information certified as complete and accurate by Bank of New York Mellon, a qualified institution:

- Investments and interest and dividends receivable reflected on the accompanying statements of net assets available for plan benefits as of December 31, 2025 and 2024.
- Net decrease in fair value of investments and interest and dividend income reflected on the accompanying statements of changes in net assets available for plan benefits for the years ended December 31, 2025 and 2024.
- Investments reflected on the schedule of assets (held at end of year) as of December 31, 2025.

Note 9 – Tax Status

The Retiree Trust, funding certain benefits of the Plan, received an exemption letter from the Internal Revenue Service (IRS) dated September 1993, stating that the trust is tax-exempt under the provisions of Section 501(c)(9) of the Internal Revenue Code (IRC). However, as a result of the Plan's funding policy, from time to time the Retiree Trust may be subject to income taxes. Federal and state income tax expense of $15,500 and $25,205 was recorded for the years ended December 31, 2025 and 2024, respectively, for unrelated business taxable income.

In addition, the Plan and the Retiree Trust are required to operate in conformity with the IRC to maintain the tax-exempt status of the Retiree Trust. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the related Retiree Trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
