INDEPENDENT AUDITORS' REPORT

To the Plan Trustees of
Bel Fuse Inc. Employees' Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Bel Fuse Inc. Employees' Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules ("DOL") and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institutions").

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Part IV, Line 4i - Schedule of Assets (Held At End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of Plan:

The following description of the Bel Fuse Inc. Employees' Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - Effective January 1, 1991, Bel Fuse Inc. (the "Plan Sponsor", "Employer", or "Company") converted its profit sharing plan to a contributory stock ownership and savings plan. The Plan combines stock ownership and individual voluntary savings provisions to provide retirement benefits for eligible plan participants in accordance with Sections 4975(e) (7), 401(k) and 401(a) of the Internal Revenue Code (the "IRC") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company is publicly traded on the NASDAQ under BELFA and BELFB, which represent Class A and Class B, respectively.

Plan Administration - The Plan is administered by the Plan Sponsor. The Plan's assets were held by Principal Trust Company from January 1, 2025, through May 5, 2025, and are held by Fidelity Management Trust Company (the "Trustees"), from May 6, 2025, through December 31, 2025. The Trustees are responsible for the custody and management of the Plan's assets.

Eligibility - Effective May 7, 2025, an employee becomes eligible to participate in the Plan on the first day of employment. Previously, an employee was eligible to participant in the Plan on the first day of the month following the date of hire. Employees covered under a collective bargaining agreement are not eligible to participate in the Plan. Employees who contribute elective deferrals to the Plan, whether through an affirmative election or automatic enrollment, are eligible to receive Company contributions.

Automatic Enrollment - All new eligible employees are automatically enrolled in the Plan, upon meeting the eligibility criteria as defined. These employees will automatically be enrolled at a default percentage of 3%, which increases annually by 1% on January 1st, to a maximum of 6%, unless they opt out or elect to change the default deferral percentage.

Contributions - Eligible participants may elect to contribute up to 100% of their compensation on a pre-tax or Roth basis to the Plan, subject to the Internal Revenue Code ("IRC") limitations for 401(k) plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age 50 by the end of the calendar year are eligible to make catch-up contributions. Effective January 1, 2025, participants who have attained age 60 through 63 by the end of the calendar year are eligible to make increased catch-up contributions up to the greater of $10,000 or 150% of the standard catch-up contributions limit.

The Sponsor matches 100% of the first 1% of employee deferrals and 50% of the next 5% of employee deferrals (for a maximum match contribution of 3.5% of the participant's eligible compensation) through a safe harbor matching contribution. The match is calculated and funded to participants' accounts each pay period. The Plan also allows for discretionary employer contributions to be made at the discretion of the Company's Board of Directors; however, no such contributions were made in 2025.

The Company's safe harbor matching contributions are invested in the Company's Class A common stock, subject to the right of eligible participants to change such investment. In 2025, the Company made safe harbor matching contributions to the Plan of $1,472,767, which were primarily invested in Class A common stock of the Employer.

Participants do not have the option to invest their employee deferrals in the Employer stock.

Voting Rights - Each participant who holds Class A shares of Employer stock is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are to be exercised.

Vesting - Participants immediately vest 100% in their voluntary contributions and actual earnings thereon. Vesting in the employer safe harbor matching contributions and discretionary contributions are based on years of continuous service. All active participants become 100% vested upon completion of two years of service.

Forfeitures - The portion of a participant's balance which is not vested upon termination of employment is forfeited and remains in the Plan. If a participant who has previously terminated is reemployed prior to incurring a 5 consecutive year break in service, the amounts which were forfeited at the time of the break in service shall be restored. Forfeitures remaining in the Plan are first used to make such restorations, with the remaining balance then being used to pay any applicable expenses of the Plan and then reduce the Employer's contribution with respect to the Plan Year in which the forfeiture occurs. Forfeitures used to reduce employer contributions during 2025 totaled $141,731. As of December 31, 2025 and 2024, there was an available forfeiture balance of approximately $31,000 and $138,000, respectively.

Participant Accounts - Each participant's account is credited with their contributions, Employer contributions, and the earnings thereon. Participant contributions are invested by the Trustees as directed by the participants. Each participant may elect from one or more of the investment vehicles offered, except for the Employer securities, pursuant to the provisions of the Plan.

Payment of Benefits - Upon termination of service due to death, disability, retirement or for termination of service due to other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in his/her account in a lump-sum amount. A participant may also elect to receive an in-service withdrawal of their vested account balance upon the attainment of age 59 ½ or from their prior rollover account balance at any time.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires Trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and Trustees. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Administrative and recordkeeping fees are also included in administrative expenses. The personnel and facilities of the Company are used by the Plan for its accounting and other activities at no cost to the Plan. Investment-related expenses are included in net appreciation of fair value of investments.

Payment of Benefits - Benefits are recorded when paid.

Hardship Withdrawals - The Plan provides for hardship withdrawals from participants' vested balances, not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with Internal Revenue Service ("IRS") rules and regulations.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Note 3 - Certified Investment Information:

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustees, qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

a) Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024.

b) Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2025.

c) Investment information included in the Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025, as shown on the ERISA-required supplemental schedule of assets (held at end of year).

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule of assets (held at end of year).

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level

1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common collective trusts*: Invests in separate account contracts and investment contracts that are valued at the net asset per share/unit on the valuation date. The net asset value is used as a practical expedient to estimate fair value. The underlying assets of the trust are normally valued based on their closing sales price or, in the absence of sales, at their reported bid price (See Note 5).
- *Common stock - employer*: Valued primarily at the closing price of the Bel Fuse Inc. Class A and Class B common stock, which is traded on an active market, including a cash component, and held in a unitized stock fund.
- *Self-directed brokerage account:* The underlying assets are valued at the closing price reported in the active market in which the individual investment is traded. The self-directed brokerage account consists of cash and equivalents which are initially valued at the transaction price and common stock, which are valued at the closing price in the active market in which the security is traded.
- *Cash and equivalents:* Valued at the closing price in similar markets in which it's traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	Investments at Fair Value as of December 31, 2025			
	Level 1	*Level 2*	*Level 3*	*Total*
Common stock-employer	$ 42,983,445	$ -	$ -	$ 42,983,445
Mutual funds	68,837,985	-	-	68,837,985
Cash and equivalents	-	1,370,814	-	1,370,814

Total investments in fair value hierarchy	$ 114,686,921	$ 1,370,814	$ -	116,057,735
Investments measured at net asset value (a)				5,729,999
Total investments at fair value				$ 121,787,734

	Investments at Fair Value as of December 31, 2024			
	Level 1	*Level 2*	*Level 3*	*Total*
Common stock-employer	$ 27,506,474	$ -	$ -	$ 27,506,474

Total investments in fair value hierarchy	$ 88,613,986	$ -	$ -	88,613,986
Investments measured at net asset value (a)				6,359,367
Total investments at fair value				$ 94,973,353

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2025 and 2024, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5 - Common Collective Trusts:

The Plan invests in investment contracts through common collective trusts ("CCTs"), which have an objective to preserve capital and to provide a competitive level of income over time that is consistent with

the preservation of capital. To achieve this objective the funds invest primarily in guaranteed investment contracts ("GICs") or funding agreements, security-backed investment contracts ("SBICs"), separate accounts issued or wrapped by insurance companies, banks or other financial institutions, or externally managed stable value commingled investment funds (collectively, all such investments are referred to herein as "Investment Contracts"). The Funds may also invest in high-quality money market instruments or other similar short-term investments. The investment objective of the Funds is to provide a competitive yield with minimal market-related risk through investing in a variety of GICs, SBICs, and money market instruments. Redemptions are allowed for participants daily, however, in the event of a complete redemption, the Plan is subject to a one-year redemption notice period which may be waived by the Trustees. There are no unfunded commitments at December 31, 2025 and 2024.

Note 6 - Risks and Uncertainties and Concentration of Investment Risk:

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

The Plan may invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

The Plan's investment in two funds comprises approximately 40% and 37% of total investments for benefits at December 31, 2025 and 2024, respectively.

Note 7 - Notes Receivable from Participants:

Participants may borrow from their individual account balances in accordance with Plan provisions. The minimum loan is $1,000, and the maximum amount of any loan shall not exceed the lesser of 50% of a participant's vested balance or $50,000. Loans bear interest at an interest rate comparable to those charged by local banks and are collateralized by the participant's account balance. Principal and interest is paid ratably through payroll deductions within five years unless the loan provides funding for the purchase of the participant's principal residence in which case it is repayable over the lesser of 10 years or a period of years consistent with commercial home loan practices. Participants may also, in connection with any business acquisition by the Company, rollover an outstanding loan, from another tax-qualified plan, into the Plan.

Note 8 - Tax Status:

The Plan was written on an Internal Revenue Service (IRS) non-standardized pre-approved document, which obtained its latest opinion letter on June 30, 2020 in which the IRS stated that the Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 9 - Plan Termination:

Although it has not expressed any intent to do so, the Sponsor has the right to discontinue its discretionary contributions, if applicable, and amend or terminate the Plan at any time. Upon termination, each participant's account remains fully vested and Company contributions, if any, become fully vested. Under no circumstances may the Company take ownership of any of the Plan's assets as a result of such amendment or termination.

Note 10 – Related Party Transactions:

Certain Plan investments are managed by the Trustees and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management and recordkeeping services totaled $69,342 for the year ended December 31, 2025.

The Plan owns 231,162 and 256,585 shares of Bel Fuse Inc. Class A common stock, included in the unitized stock account, which qualifies as a party-in-interest transaction, as of December 31, 2025 and 2024, respectively. These securities had fair values of approximately $35,090,000 and $23,142,000 on December 31, 2025 and 2024, respectively. The unitized stock account had a cash component of $1,118,242 and $0 for December 31, 2025 and 2024, respectively.

The Plan also owns 46,531 and 52,924 shares of Bel Fuse Inc. Class B common stock, included in the unitized stock account, which qualifies as a party-in-interest transaction, as of December 31, 2025 and 2024, respectively. These shares had fair values of approximately $7,893,000 and $4,365,000 at December 31, 2025 and 2024, respectively. The unitized stock account had a cash component of $252,572 and $0 for December 31, 2025 and 2024, respectively.

Dividend income on the holdings of Bel Fuse Inc. common stock (Class A and B combined) for the year ended December 31, 2025 was $35,937.

Note 11 – Subsequent Event:

The Plan Administrator has reviewed and evaluated all events and transactions from December 31, 2025, through October 5, 2026, the date the financial statements were available to be issued. The effects of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

On December 31, 2025, Bel Fuse Inc. approved the adoption of the Plan by Milpower Source Inc. ("Adopting Employer"). The merger of the Adopting Employer's Plan became effective January 1, 2026, and assets of the Adopting Employer's Plan transferred into Bel Fuse Inc. Employees' Savings Plan during the first quarter of 2026 totaling approximately $2.9 million.

INDEPENDENT AUDITORS' REPORT

To the Plan Trustees of
Bel Fuse Inc. Employees' Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Bel Fuse Inc. Employees' Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules ("DOL") and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institutions").

Management has obtained certifications from qualified institutions as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Part IV, Line 4i - Schedule of Assets (Held At End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of Plan:

The following description of the Bel Fuse Inc. Employees' Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - Effective January 1, 1991, Bel Fuse Inc. (the "Plan Sponsor", "Employer", or "Company") converted its profit sharing plan to a contributory stock ownership and savings plan. The Plan combines stock ownership and individual voluntary savings provisions to provide retirement benefits for eligible plan participants in accordance with Sections 4975(e) (7), 401(k) and 401(a) of the Internal Revenue Code (the "IRC") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company is publicly traded on the NASDAQ under BELFA and BELFB, which represent Class A and Class B, respectively.

Plan Administration - The Plan is administered by the Plan Sponsor. The Plan's assets were held by Principal Trust Company from January 1, 2025, through May 5, 2025, and are held by Fidelity Management Trust Company (the "Trustees"), from May 6, 2025, through December 31, 2025. The Trustees are responsible for the custody and management of the Plan's assets.

Eligibility - Effective May 7, 2025, an employee becomes eligible to participate in the Plan on the first day of employment. Previously, an employee was eligible to participant in the Plan on the first day of the month following the date of hire. Employees covered under a collective bargaining agreement are not eligible to participate in the Plan. Employees who contribute elective deferrals to the Plan, whether through an affirmative election or automatic enrollment, are eligible to receive Company contributions.

Automatic Enrollment - All new eligible employees are automatically enrolled in the Plan, upon meeting the eligibility criteria as defined. These employees will automatically be enrolled at a default percentage of 3%, which increases annually by 1% on January 1st, to a maximum of 6%, unless they opt out or elect to change the default deferral percentage.

Contributions - Eligible participants may elect to contribute up to 100% of their compensation on a pre-tax or Roth basis to the Plan, subject to the Internal Revenue Code ("IRC") limitations for 401(k) plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age 50 by the end of the calendar year are eligible to make catch-up contributions. Effective January 1, 2025, participants who have attained age 60 through 63 by the end of the calendar year are eligible to make increased catch-up contributions up to the greater of $10,000 or 150% of the standard catch-up contributions limit.

The Sponsor matches 100% of the first 1% of employee deferrals and 50% of the next 5% of employee deferrals (for a maximum match contribution of 3.5% of the participant's eligible compensation) through a safe harbor matching contribution. The match is calculated and funded to participants' accounts each pay period. The Plan also allows for discretionary employer contributions to be made at the discretion of the Company's Board of Directors; however, no such contributions were made in 2025.

The Company's safe harbor matching contributions are invested in the Company's Class A common stock, subject to the right of eligible participants to change such investment. In 2025, the Company made safe harbor matching contributions to the Plan of $1,472,767, which were primarily invested in Class A common stock of the Employer.

Participants do not have the option to invest their employee deferrals in the Employer stock.

Voting Rights - Each participant who holds Class A shares of Employer stock is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are to be exercised.

Vesting - Participants immediately vest 100% in their voluntary contributions and actual earnings thereon. Vesting in the employer safe harbor matching contributions and discretionary contributions are based on years of continuous service. All active participants become 100% vested upon completion of two years of service.

Forfeitures - The portion of a participant's balance which is not vested upon termination of employment is forfeited and remains in the Plan. If a participant who has previously terminated is reemployed prior to incurring a 5 consecutive year break in service, the amounts which were forfeited at the time of the break in service shall be restored. Forfeitures remaining in the Plan are first used to make such restorations, with the remaining balance then being used to pay any applicable expenses of the Plan and then reduce the Employer's contribution with respect to the Plan Year in which the forfeiture occurs. Forfeitures used to reduce employer contributions during 2025 totaled $141,731. As of December 31, 2025 and 2024, there was an available forfeiture balance of approximately $31,000 and $138,000, respectively.

Participant Accounts - Each participant's account is credited with their contributions, Employer contributions, and the earnings thereon. Participant contributions are invested by the Trustees as directed by the participants. Each participant may elect from one or more of the investment vehicles offered, except for the Employer securities, pursuant to the provisions of the Plan.

Payment of Benefits - Upon termination of service due to death, disability, retirement or for termination of service due to other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in his/her account in a lump-sum amount. A participant may also elect to receive an in-service withdrawal of their vested account balance upon the attainment of age 59 ½ or from their prior rollover account balance at any time.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires Trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and Trustees. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Administrative and recordkeeping fees are also included in administrative expenses. The personnel and facilities of the Company are used by the Plan for its accounting and other activities at no cost to the Plan. Investment-related expenses are included in net appreciation of fair value of investments.

Payment of Benefits - Benefits are recorded when paid.

Hardship Withdrawals - The Plan provides for hardship withdrawals from participants' vested balances, not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with Internal Revenue Service ("IRS") rules and regulations.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Note 3 - Certified Investment Information:

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustees, qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

a) Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024.

b) Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2025.

c) Investment information included in the Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025, as shown on the ERISA-required supplemental schedule of assets (held at end of year).

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule of assets (held at end of year).

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level

1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

- *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common collective trusts*: Invests in separate account contracts and investment contracts that are valued at the net asset per share/unit on the valuation date. The net asset value is used as a practical expedient to estimate fair value. The underlying assets of the trust are normally valued based on their closing sales price or, in the absence of sales, at their reported bid price (See Note 5).
- *Common stock - employer*: Valued primarily at the closing price of the Bel Fuse Inc. Class A and Class B common stock, which is traded on an active market, including a cash component, and held in a unitized stock fund.
- *Self-directed brokerage account:* The underlying assets are valued at the closing price reported in the active market in which the individual investment is traded. The self-directed brokerage account consists of cash and equivalents which are initially valued at the transaction price and common stock, which are valued at the closing price in the active market in which the security is traded.
- *Cash and equivalents:* Valued at the closing price in similar markets in which it's traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	Investments at Fair Value as of December 31, 2025			
	Level 1	*Level 2*	*Level 3*	*Total*
Common stock-employer	$ 42,983,445	$ -	$ -	$ 42,983,445
Mutual funds	68,837,985	-	-	68,837,985
Cash and equivalents	-	1,370,814	-	1,370,814
Self-directed brokerage account	2,865,491	-	-	2,865,491
Total investments in fair value hierarchy	$ 114,686,921	$ 1,370,814	$ -	116,057,735
Investments measured at net asset value (a)				5,729,999
Total investments at fair value				$ 121,787,734

	Investments at Fair Value as of December 31, 2024			
	Level 1	*Level 2*	*Level 3*	*Total*
Common stock-employer	$ 27,506,474	$ -	$ -	$ 27,506,474
Mutual funds	59,142,945	-	-	59,142,945
Self-directed brokerage account	1,964,567	-	-	1,964,567
Total investments in fair value hierarchy	$ 88,613,986	$ -	$ -	88,613,986
Investments measured at net asset value (a)				6,359,367
Total investments at fair value				$ 94,973,353

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2025 and 2024, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5 - Common Collective Trusts:

The Plan invests in investment contracts through common collective trusts ("CCTs"), which have an objective to preserve capital and to provide a competitive level of income over time that is consistent with

the preservation of capital. To achieve this objective the funds invest primarily in guaranteed investment contracts ("GICs") or funding agreements, security-backed investment contracts ("SBICs"), separate accounts issued or wrapped by insurance companies, banks or other financial institutions, or externally managed stable value commingled investment funds (collectively, all such investments are referred to herein as "Investment Contracts"). The Funds may also invest in high-quality money market instruments or other similar short-term investments. The investment objective of the Funds is to provide a competitive yield with minimal market-related risk through investing in a variety of GICs, SBICs, and money market instruments. Redemptions are allowed for participants daily, however, in the event of a complete redemption, the Plan is subject to a one-year redemption notice period which may be waived by the Trustees. There are no unfunded commitments at December 31, 2025 and 2024.

Note 6 - Risks and Uncertainties and Concentration of Investment Risk:

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

The Plan may invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

The Plan's investment in two funds comprises approximately 40% and 37% of total investments for benefits at December 31, 2025 and 2024, respectively.

Note 7 - Notes Receivable from Participants:

Participants may borrow from their individual account balances in accordance with Plan provisions. The minimum loan is $1,000, and the maximum amount of any loan shall not exceed the lesser of 50% of a participant's vested balance or $50,000. Loans bear interest at an interest rate comparable to those charged by local banks and are collateralized by the participant's account balance. Principal and interest is paid ratably through payroll deductions within five years unless the loan provides funding for the purchase of the participant's principal residence in which case it is repayable over the lesser of 10 years or a period of years consistent with commercial home loan practices. Participants may also, in connection with any business acquisition by the Company, rollover an outstanding loan, from another tax-qualified plan, into the Plan.

Note 8 - Tax Status:

The Plan was written on an Internal Revenue Service (IRS) non-standardized pre-approved document, which obtained its latest opinion letter on June 30, 2020 in which the IRS stated that the Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 9 - Plan Termination:

Although it has not expressed any intent to do so, the Sponsor has the right to discontinue its discretionary contributions, if applicable, and amend or terminate the Plan at any time. Upon termination, each participant's account remains fully vested and Company contributions, if any, become fully vested. Under no circumstances may the Company take ownership of any of the Plan's assets as a result of such amendment or termination.

Note 10 – Related Party Transactions:

Certain Plan investments are managed by the Trustees and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management and recordkeeping services totaled $69,342 for the year ended December 31, 2025.

The Plan owns 231,162 and 256,585 shares of Bel Fuse Inc. Class A common stock, included in the unitized stock account, which qualifies as a party-in-interest transaction, as of December 31, 2025 and 2024, respectively. These securities had fair values of approximately $35,090,000 and $23,142,000 on December 31, 2025 and 2024, respectively. The unitized stock account had a cash component of $1,118,242 and $0 for December 31, 2025 and 2024, respectively.

The Plan also owns 46,531 and 52,924 shares of Bel Fuse Inc. Class B common stock, included in the unitized stock account, which qualifies as a party-in-interest transaction, as of December 31, 2025 and 2024, respectively. These shares had fair values of approximately $7,893,000 and $4,365,000 at December 31, 2025 and 2024, respectively. The unitized stock account had a cash component of $252,572 and $0 for December 31, 2025 and 2024, respectively.

Dividend income on the holdings of Bel Fuse Inc. common stock (Class A and B combined) for the year ended December 31, 2025 was $35,937.

Note 11 – Subsequent Event:

The Plan Administrator has reviewed and evaluated all events and transactions from December 31, 2025, through October 5, 2026, the date the financial statements were available to be issued. The effects of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

On December 31, 2025, Bel Fuse Inc. approved the adoption of the Plan by Milpower Source Inc. ("Adopting Employer"). The merger of the Adopting Employer's Plan became effective January 1, 2026, and assets of the Adopting Employer's Plan transferred into Bel Fuse Inc. Employees' Savings Plan during the first quarter of 2026 totaling approximately $2.9 million.
