INDEPENDENT AUDITORS' REPORT

The Plan Administrator
Matrix Design Group 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Matrix Design Group 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Matrix Design Group 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Matrix Design Group 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Matrix Design Group 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Matrix Design Group 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Matrix Design Group 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Matrix Design Group 401(k) Plan
Notes to Financial Statements
Years Ended December 31, 2025 and 2024

1. Description of Plan

The following description of the Matrix Design Group 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Participating employers in the Plan include Matrix Design Group, Inc. and its subsidiary Matrix Environmental, LLC (here in after, jointly "the Company").

General
The Plan is a participant-directed defined contribution plan, under which participants may direct their contributions into various investment options (generally mutual funds) offered by the Plan. An employee may participate at age 21 with one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). John Hancock Life Insurance Company (John Hancock) serves as the Plan custodian. The Board of Trustees and plan management are responsible for the oversight of the Plan, and determine the appropriateness of the Plan's investment offerings, and monitor investment performance.

Contributions
Participants may generally defer annual compensation to a specified limit ($23,500 in 2025) as defined in the Plan and by statute. Annual additions to the plan are also limited to the lesser of annual compensation or a statutory limit. Participants may also transfer in amounts representing distributions from other qualified plans (rollovers). Contributions are also subject to other statutory limitations, with certain "catch-up" adjustments also permitted for participants age 50 or older.

In 2018, the Plan was amended to provide for automatic enrollment, and new participants in 2018 and thereafter are automatically enrolled at a 4% contribution rate, unless the participant elects a different deferral or declines to participate.

The Company can contribute matching or discretionary profit-sharing contributions, and has accrued a contribution equal to 25% of participants' first 6% in deferrals at December 31, 2025 and 2024, respectively, which are recorded as employer receivables by the Plan.

Participants may designate all or a portion of their elective deferrals as Roth elective deferrals.

Participant Accounts
Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contributions (if any) and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting
Participants are immediately vested in their contributions and earnings thereon. Vesting in Company contributions and earnings thereon is based on total years of service. A year of service is based upon 1,000 hours of service in a 12 month period. The vesting schedule is as follows:

Total years of service	% Vested
Less than 2	- 0 -
2	20%
3	40%
4	60%
5	80%
6	100%

Participants are fully vested upon death or total and permanent disability.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum generally equal to the lesser of $50,000 (with certain reductions for loans already outstanding) or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 9.5% to 10.5%, which are commensurate with prevailing rates at the origination of the loan, as determined periodically by the Plan's third-party administrator. Principal and interest are paid ratably through bi-weekly payroll deductions, generally over terms not exceeding five years, with longer terms for loans used to acquire a primary residence.

Participant Allocations
Participants generally must be employed at December 31 to receive allocations of matching contributions and discretionary employer profit sharing contributions.

Payment of Benefits
Distributions under the Plan are generally to be made in lump sums. Partial withdrawals are generally only permitted for required minimum distributions. Hardship distributions are permitted, and in-service distributions may be made if the participant has reached age 59 ½. Distributions of less than $7,000 do not require participant consent.

Forfeited Accounts
At December 31, 2025 and 2024, forfeited non-vested accounts totaled $29,818 and $24,838, respectively. Forfeitures may be used to reduce employer contributions and to pay Plan expenses. In 2025, $33,324 were used to reduce employer contributions, and in 2024, $7,764 of forfeitures were used as an additional discretionary profit-sharing contribution.

2. Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value of pooled separate accounts is measured at the net unit value, which is based on the fair value of the underlying assets of the account. The Trustees determine the Plan's valuation policies based on input from the Custodian. See note 10 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is reported on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with corresponding reduction to contributions. There were no excess contributions in 2025 or in 2024.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses, are charged directly to the related participant, and are expensed when they are incurred. There was no allowance for credit losses recorded as of December 31, 2025 and 2024.

Due to Participant
Due to participant represents an account balance due to a terminated employee who did not receive the correct distribution. The balance is measured at the participant's account balance as of December 31, 2025.

2. Significant Accounting Policies (continued)

Payment of Benefits
Benefits are recorded when paid.

Expenses
The Company pays for certain direct Plan administrative and other expenses, but this is discretionary, and such expenses are excluded from these financial statements. Additionally, Company employees provide certain administrative duties at no charge to the Plan. Participants are charged directly for loan and distribution fees. Certain fees are also paid through revenue sharing from plan investments to John Hancock and to the plan's investment advisor and the third-party administrator, which are generally included in investment appreciation.

Recent Accounting Pronouncements
The Plan early adopted ASU 2025-05, Financial Instruments - Credit Losses (Topic 326), for the year ended December 31, 2025. This update amends existing CECL guidance under ASC Topic 326 by introducing a practical expedient for certain short-term receivables and permitting nonpublic entities to consider subsequent cash collections when estimating expected credit losses. Adoption of ASU 2025-05 did not have a material impact on the Plan's financial statements.

3. Tax Status

The Plan has not obtained a determination letter. The volume submitter plan has received a letter from the IRS dated June 30, 2020, stating that the plan document form is acceptable under Section 401. Although the Plan has since been amended, the Plan Trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore believe that the Plan is qualified and the related Trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Because plan management believes that the Plan had no taxable income, no income tax returns have been filed for December 31, 2025 or prior years.

4. Subsequent Events

Management has conducted a review of subsequent events for possible disclosure in or correction of these financial statements through October 7, 2026, the date the financial statements were available to be issued.

5. Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian:

- All investments, cash, and notes receivable from participants
- Investment income and interest income on notes receivable from participants
- Information presented in the supplemental schedule

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

7. Related Party and Party In Interest Transactions

John Hancock, the custodian of the Plan, manages certain plan assets. Therefore, these transactions qualify as party in interest transactions. The custodian, the plan's investment advisor, and the third-party administrator receive 12(b)(1) and similar fees from mutual funds in which the Plan has invested. The custodian maintains the pooled account which holds the plan's mutual funds, and also sponsors certain funds (the Target Date funds and the Stable Value Fund are the most significant of such funds) held by the Plan.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Form 5500 Reconciliation

A reconciliation of the statement of net assets available for benefits to Form 5500 as reported at December 31, 2025 and 2024 as follows:

	2025	2024
Net assets available for benefits, reported herein	$18,954,712	$16,950,362
Due to participant	31,010	26,836
Net assets available for benefits, per Form 5500	$18,985,722	$16,977,198

A reconciliation of the net increase in net assets available for benefits to Form 5500 as reported at December 31, 2025 and 2024 as follows:

	2025	2024
Net increase (decrease) in net assets available, reported herein	$ 2,004,350	$ 3,018,878
Earnings (losses) due to participant	4,174	2,438
Net increase (decrease) in assets available, per Form 5500	$ 2,008,524	$ 3,021,316

10. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Section 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

10. Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value within the pooled account. John Hancock publishes daily the relevant unit costs based on the methods described (with deductions for administrative and other fees). There have been no changes in the methodologies used at December 31, 2025 and 2024 from those used in the prior year.

Mutual Funds in the pooled account excluding Stable Value Fund: Valued generally based on the daily closing price as reported by the John Hancock pooled separate account. The mutual funds held by the Plan in the pooled account are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price.

Stable Value Fund: Valued generally by reference to a Collective Trust which is the only investment of the fund (see Note 11), using the unit price quoted daily by John Hancock in its pooled separate account.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair
value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Trustees evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers in December 31, 2025 and 2024.

10. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2025 and 2024.

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Pooled Separate Account:				
Mutual funds	$ -	$18,024,659	$ -	$18,024,659
Stable Value Fund	-	594,923	-	594,923
Total investments at fair value	$ -	$18,619,582	$ -	$18,619,582

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Pooled Separate Account:				
Mutual funds	$ -	$15,453,747	$ -	$15,453,747
Stable Value Fund	-	1,149,811	-	1,149,811
Total investments at fair value	$ -	$16,603,558	$ -	$16,603,558

11. Stable Value Investment

Contributions to the JH John Hancock Stable Value Fund (SVF) are invested solely in units of the John Hancock Stable Value Fund Collective Investment Trust, (the "Trust"), a collective trust. The Unit Value is determined from the fair value of the underlying Trust as adjusted to account for the reinvestment of distributions from the underlying Trust and the deduction of Fund expenses. The Trust invests in U.S. Government and Agency obligations, corporate debt, mutual funds, insurance company common/collective trusts, and similar investments. Most of these are classified by the Trust as level 2 investments. Because of the indirect holdings of the Plan, this investment is not considered to be a fully benefit-responsive investment contract.

Withdrawals from this Sub-account are subject to the same restrictions that apply to the underlying Trust. Withdrawals are generally made at the current Unit Value on a daily basis. Payment of "Individual Participant Directed Withdrawals", as defined in the underlying Trust's

Declaration of Trust, may be delayed for up to thirty calendar days in the event that the Trustee determines in its discretion that an earlier withdrawal may have an adverse impact on the Trust.

11. Stable Value Investment (continued)

Payment of "Participating Plan Directed Withdrawals", as defined in the underlying Trust's Declaration of Trust, may be delayed for up to 12 months at the discretion of the Trustee (for example, the Plan adding competing investment options). Alternatively, unitholders may elect to receive payment without such delay, subject to the application of a market value adjustment factor to the amount of the requested withdrawal if, at the time the withdrawal is to be made, the market value of the net assets of the Trust is less than its contract value. Where such, or any, restrictions or price adjustments are invoked by the underlying Trust with respect to a particular withdrawal under a particular Contract, the custodian will apply such restrictions or price adjustments to those withdrawals.

No market adjustment would have been required at December 31, 2025 and 2024.

The Plan Trustee does not believe that any events which would limit the Plan's ability to transact at unit value with participants, such as termination of the plan, bankruptcy of the sponsor, termination of the contract with John Hancock, and other matters are probable at present.

There are no reserves against unit value for credit risk of the contract issuer or otherwise.

This information is only a summary of certain key provisions of the SVF, and participants should refer to the SVF for a complete review of its provisions, including the impact of Investing Fiduciary Initiated Events (such as mergers, layoffs, bankruptcy, full or partial Plan termination, and early retirement incentive programs) as defined therein.
