NETWORK SERVICES COMPANY PROFIT SHARING 401(K) PLAN

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of NETWORK SERVICES COMPANY PROFIT SHARING 401(K) PLAN (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibility for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets Held at End of Year as of or for the year ended December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to, or is derived from, the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to, or is derived from, the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA.
- The information in the supplemental schedule related to assets held by, and certified to, by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NETWORK SERVICES COMPANY

PROFIT SHARING 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2025 AND 2024

(1) DESCRIPTION OF THE PLAN:

The Network Services Company Profit Sharing 401(k) Plan (the Plan) is a defined contribution plan established on January 1, 1984, and maintained for the benefit of eligible employees of Network Associates, Inc. and Subsidiaries (Network Services Company, National Paper and Plastics Company, Inc., and Cleanwise, LLC) (the Company). Plan Management is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings as well as monitors investment performance. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions. General provisions of the Plan include the following:

Plan Amendments and Recent Legislation –

The Plan has been amended to reflect operational and statutory compliance with the Bipartisan American Miners Act of 2019 (the Miners Act), the Setting Every Community Up for Retirement Enhancement Act of 2019 (SECURE), and the SECURE 2.0 Act of 2022. The formal amendment package incorporates all mandatory legislative provisions as well as certain discretionary provisions adopted by the Plan Sponsor.

The legislative updates formally adopted by the Plan include the following key structural and operational provisions:

SECURE Act and SECURE 2.0 Act Provisions –

- Required Minimum Distributions (RMDs): Formally increased the initial RMD trigger age from seventy and a half to seventy-two (for individuals reaching age seventy and a half after December 31, 2019), dynamically adjusting to seventy-three effective January 1, 2023, and scaling to seventy-five for individuals born in 1960 or later. Additionally, lifetime RMD requirements have been eliminated for designated Roth accounts within the Plan.

- Long-Term, Part-Time Employees (LTPT): Aligned eligibility tracking to allow part-time employees logging at least 500 service hours over three consecutive years (reduced to two consecutive years effective for plan years beginning after December 31, 2024) and who have attained age twenty-one to make voluntary elective deferrals to the Plan.

- Higher Catch-Up Contributions (Ages sixty to sixty-three): Increased the standard catch-up limit for participants aged sixty, sixty-one, sixty-two, and sixty-three to the greater of $10,000 or 150% of the regular catch-up limit, effective January 1, 2025.

- High-Income Catch-Up Compliance: Updated catch-up contribution frameworks to mirror current statutory mandates requiring catch-up contributions made by participants with compensation above specified thresholds to be made on an after-tax Roth basis.

- Penalty-Free Hardship and Emergency Distributions:

  - Qualified Birth or Adoption Distributions (QBOAD): Permits penalty-free distributions of up to $5,000 per child within one year of a birth or finalized adoption, subject to a three-year repayment window, effective November 12, 2024.

  - Qualified Disaster Distributions (QDD): Allows eligible participants affected by federally declared natural disasters to take penalty-free distributions up to statutory limits, with provisions allowing for repayment within three years, effective November 12, 2024.

  - Emergency Expense Withdrawals (EEW): Permits a participant to take one penalty-free distribution of up to $1,000 per calendar year for unforeseeable or immediate personal or family emergency financial needs, with options for repayment, effective November 12, 2024.

Miners Act Provisions –

- The Plan document amendment references the Miners Act for completeness of the collective federal retirement legislation bundle; however, because the Plan is a 401(k) defined contribution plan, the core provisions of the Miners Act (relating to in-service distributions at age fifty-nine and a half for defined benefit plans) had no operational or financial impact on the Plan.

The implementation of these provisions did not have a material impact on the Plan's net assets available for benefits or its financial statement presentation.

In addition, effective September 1, 2025, the Plan was amended to include a new Trust Agreement that allows for certain revenue-sharing credits to be returned to the Plan and used to offset Plan expenses or to be allocated to participant accounts rather than being retained by the Trustee.

Furthermore, in 2024, the Plan was amended to allow for partial withdrawals of any portion of a participant's distributable vested interest in the participant's account upon severance of employment.

Trustee –

Fidelity Management Trust Company (Fidelity) serves as Trustee of the Plan.

Eligibility –

Employees of the Company become eligible to participate in the Plan on the first day of the month following employment. Employees must be twenty-one years of age as of the enrollment date in order to be eligible. Employees covered by a collective bargaining agreement, leased employees, residents of Puerto Rico, and certain nonresident aliens are not eligible to participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions –

Each year, participants may contribute up to 60% of their compensation, as defined in the Plan, on a pretax, or on an after-tax basis if choosing a Roth 401(k). Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. In addition, participants may contribute up to 100% of their compensation, as defined in the Plan, on an after-tax basis. Participant contributions may not exceed certain amounts defined by statute.

The Plan includes an auto-enrollment provision whereby upon satisfying the Plan eligibility requirements, all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a default T. Rowe Price Retirement Trust until changed by the participant. Those participants with a deferral rate greater than zero will have that deferral increased annually by 1% as a pre-tax deferral contribution until a deferral rate of 6% is reached. Each applicable increase will occur each year on January 2nd.

The Plan provides for a non-discretionary employer matching contribution on behalf of each participant in an amount equal to 50% of the participant's contribution, not to exceed $3,000, remitted with each pay period.

Additionally, the Company previously adopted the Profit-Sharing Payment Program (PSPP) with provisions mirroring the Plan related to qualification, computation, and eligibility for annual discretionary Company contributions (participants must complete at least 1,000 hours of service during the Plan year and be employed as of the last day of the Plan year). Annual amounts paid under the PSPP are in lieu of discretionary Company contributions historically made under the Plan. Eligible employees receive annual discretionary profit-sharing payments in the form of a taxable bonus and have the option to defer all or a portion of the payment on a pre-tax basis into the Plan as an employee contribution, subject to applicable contribution limits. The Plan was previously amended to allow participants to defer up to 100% of such compensation into the Plan. Benefits earned under this program that are contributed to the Plan as pre-tax deferrals are not eligible for matching contributions. The benefits under the PSPP shall be made in the January following the program year. For the 2025 and 2024 program years, $1,361,784 and $1,500,973 of benefits were paid to eligible employees in January of 2026 and 2025, respectively. These benefit payments were made directly to eligible employees and therefore, will be included in taxable compensation on their Forms W-2 in the year they were paid. Any portion of the benefit payments deferred into the Plan in any given year will be counted towards that year's employee contributions, subject to contribution limits in place in the year the payments were deferred into the Plan. Such employee contributions would be fully vested.

In addition to payments made under the PSPP, the Company may, out of its current or accumulated profits, contribute to the Plan a discretionary profit sharing contribution in an amount authorized by the Board of Directors. Participants must complete at least 1,000 hours of service during the Plan year and be employed as of the last day of the Plan year to be eligible to receive a discretionary profit sharing contribution. The Company did not make any discretionary contributions to the Plan in 2025 and 2024.

Participant Accounts –

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, Company contributions, allocation of investment earnings or losses, and forfeitures of terminated participants' non-vested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options –

Participants may allocate their contributions (in multiples of 1%) and those of the Company among multiple mutual funds, collective investment trusts, a money market fund, and a common/collective trust fund (the Fidelity Managed Income Portfolio). Employees may change their contribution allocations between investment options for future contributions and transfer prior contributions and associated earnings between investment options subject to certain restrictions set forth in the Plan. The Plan currently offers eleven mutual funds, fourteen collective investment trusts, one money market fund, and one common/collective trust as investment options for participants.

Vesting –

Participants are always 100% vested in their employee pre-tax account, rollover account, Roth 401(k) account, after tax deferral account, and any earnings thereon. Vesting in employer matching contributions and employer discretionary profit sharing contributions is on a graduated scale and participants terminating on or after January 1, 2020, will not be fully vested until the completion of five years of service. Participants terminating prior to January 1, 2020, are not fully vested until the completion of six years of service.

Participants are fully vested in any contributions made under the PSPP program.

Forfeitures –

Forfeitures of employer contributions will be used to reduce future employer contributions. Forfeitures of employer contributions of $31,490 and $22,500 were held by the Plan as of December 31, 2025 and 2024, respectively. Forfeiture funds of $46,520 and $310,238 were used to reduce employer contributions in 2025 and 2024, respectively.

Administrative Expenses –

Certain expenses incurred in the administration of the Plan are paid directly by the Company.

Notes Receivable from Participants –

Participants may borrow, but not less than $1,000, from their self-directed investment accounts. The maximum aggregate of each participant's outstanding loans cannot exceed the lesser of $50,000 or 50% of the participant's vested account balance. No participant may have more than one loan outstanding at any time. Participant loans are secured by the balance in the participant's self-directed investment account and bear a fixed interest rate determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Interest rates range from 3.75% to 9.50% on participant loans outstanding at December 31, 2025. Principal and interest is paid ratably through biweekly payroll deductions in terms generally ranging from five to ten years.

Payment of Benefits –

Upon termination, retirement, death, or disability, a participant's benefit is equal to the value of the participant's vested account and is payable at the election of the participant. Hardship and emergency withdrawals are also allowed as permitted under the Internal Revenue Code (IRC) subject to certain restrictions as defined in the Plan Agreement.

Rollover Contributions –

With the Company's consent, an eligible employee may make one or more rollover contributions to the Plan if the employee demonstrates to the Company's satisfaction that the contribution qualifies as a rollover contribution in accordance with the IRC.

(2) SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting –

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Benefit payments to participants are recorded upon distribution.

Use of Estimates –

The preparation of financial statements, in accordance with GAAP, requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Income Recognition and Investment Valuation –

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investments are stated at fair value (except for the fully benefit-responsive investment contract, which is stated at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by investment advisers, custodian, and Trustee. See Note 8 for discussion of fair value measurements.

Notes Receivable from Participants –

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 or 2024. Delinquent participant loans are reclassified as deemed distributions based upon the terms of the Plan document.

Expenses –

Substantially all administrative expenses of the Plan are paid by the Company and are excluded from these financial statements. Fees related to certain permissible investments may be allocated to the accounts of participants pro rata based on the ratio that each participant's balance in each such permissible investment bears to the total balances for all such participants in such permissible investments. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. The Plan's fee structure allows for certain revenue-sharing credits to be returned to the Plan and used to either offset Plan expenses or to be allocated to participant accounts pro rata based on their account balances in the Plan rather than being retained by the Trustee.

Subsequent Events –

The Plan's management has performed an analysis of activities and transactions subsequent to December 31, 2025, to determine the need for any adjustments to and/or disclosures within the audited financial statements for the year then ended. Management has performed this analysis through October 6, 2026, the date which the financial statements were available to be issued.

(3) PARTY-IN-INTEREST TRANSACTIONS:

Certain portions of the Plan's investments are shares of collective and mutual funds managed by the Trustee. Therefore, these transactions qualify as party-in-interest transactions. In addition, the notes receivable from participants also represent party-in-interest transactions. These transactions are exempt from prohibited transaction rules of the ERISA.

(4) RISKS AND UNCERTAINTIES:

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(5) SUMMARY OF INFORMATION CERTIFIED BY THE TRUSTEE:

The December 31, 2025 and 2024 Statements of Net Assets Available for Benefits, the investment activities included on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2025 and 2024, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA.

The table below summarizes the information that has been prepared and certified to as complete and accurate by the Trustee as of December 31:

	2025	2024
Investments –		
Money market account	$ 4,619,432	$ 3,949,917
Mutual funds	16,303,785	38,790,634
Common/collective trust fund	850,139	1,009,343
Notes receivable from participants	531,817	504,314
Total assets certified by the Trustee	$ 22,305,173	$ 44,254,208
Investment income –		
Net appreciation in value of investments	$ 4,810,489	$ 4,680,159
Interest and dividends	1,361,623	1,644,049
Interest on notes receivable from participants	39,725	32,571
Total investment income certified by the Trustee	$ 6,211,837	$ 6,356,779

(6) PLAN TERMINATION:

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(7) TAX STATUS:

The Plan has adopted a prototype plan sponsored by Fidelity Management and Research Co. Fidelity Management and Research Co. requested that the Internal Revenue Service (IRS) provide an opinion related to the acceptability of the prototype plan under Section 401 of the IRC and received a favorable opinion dated June 30, 2020. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however; there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to applicable statutory periods.

(8) FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended December 31, 2025 and 2024:

Money Market Funds: Valued at the net asset value of units held by the Plan at year-end. Daily unit value is $1 per unit. The net asset value is computed by adding the total market value of the fund's investments, cash and other assets, subtracting the fund's total liabilities, and dividing the result by the total number of shares outstanding.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Investment Trusts: The Plan invests in collective investment trusts (CITs) managed by T. Rowe Price Trust Company, Prudential Trust Company, and Pacific Investment Management Company LLC. The fair value of the Plan's interest in the CITs is determined based on the Net Asset Value (NAV) per unit as a practical expedient, provided by the Trustee. The NAV is calculated daily based on the fair value of the underlying assets. As such, these investment are not categorized in the fair value hierarchy in accordance with ASC 820-10-35-62.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

2025

Description of Investment	Level 1	Level 2	Level 3	Total
Money market fund	$ 4,619,432	$ -	$ -	$ 4,619,432
Mutual funds	16,303,785	-	-	16,303,785
Total investments in the fair value hierarchy	$ 20,923,217	$ -	$ -	$ 20,923,217
Investments measured at NAV practical expedient				25,534,748
Total investments at fair value				$ 46,457,965

2024

Description of Investment	Level 1	Level 2	Level 3	Total
Money market fund	$ 3,949,917	$ -	$ -	$ 3,949,917
Mutual funds	38,790,634	-	-	38,790,634
Total investments at fair value	$ 42,740,551	$ -	$ -	$ 42,740,551

(9) FAIR VALUE MEASUREMENTS USING NET ASSET VALUE:

As of December 31, 2025, the Plan held investments in CITs managed by T. Rowe Price Trust Company, Prudential Trust Company, and Pacific Investment Management Company LLC (PIMCO). CITs are not registered with the Securities and Exchange Commissions (SEC) under the Investment Company Act of 1940, and therefore, are not subject to the same regulatory requirements. These trusts are valued using the NAV per unit as a practical expedient for fair value.

The Plan invests in the T. Rowe Price Retirement Class SG series, which are CITs maintained and managed by T. Rowe Price Trust Company. Each target-date CIT invests in a diversified portfolio of underlying T. Rowe Price mutual funds and CITs. The asset allocation automatically shifts from a more aggressive stance to a more conservative allocation over time as the fund approaches and passes its target retirement year.

The Plan invests in the PGIM Total Return Bond Fund CIT, which is managed by Prudential Trust Company. The fund seeks total return by investing primarily in a diversified portfolio of intermediate-term, investment-grade fixed-income securities.

The Plan invests in the PIMCO RAE US Small CIT, which is managed by PIMCO. The trust seeks long-term capital appreciation by investing in a diversified portfolio of standard small-capitalization U.S. companies. The portfolio is constructed using PIMCO's proprietary RAE (Research Affiliates Equity) methodology, which systematically selects and weighs securities based on fundamental accounting measures rather than market capitalization.

The Plan uses NAV as a practical expedient to estimate the fair value of its investments in these trusts. As such, these investments are not categorized in the fair value hierarchy (i.e., they are excluded from Level 1, Level 2, or Level 3 disclosures), in accordance with ASC 820-10-35-62.

The following table summarizes the investment strategies, liquidity, and redemption terms for the Plan's investments measured at NAV per share (or its equivalent) practical expedient:

(a) This trust utilizes an actively managed, intermediate core-plus bond strategy designed to maximize total return through a combination of current income and capital appreciation.

(b) This trust uses a unique "smart beta" or systematic quantitative value strategy. It combines the benefits of passive indexing with active management insights. The trust invests at least 80% of its assets in small-capitalization companies economically tied to the United States. Rather than tracking a standard market-cap-weighted index, the trust uses a rules-based model developed by its sub-adviser, RAE.

(c) These trust series focus on a target-date "glide path" approach tailored for long-term retirement investing. The trusts seek to provide the highest total return over time, emphasizing a mix of capital growth and income aligned with the participant's time horizon. The trusts operate by investing directly in a globally diversified portfolio of underlying commingled T. Rowe Price trusts, each specializing in different market sectors, such as domestic equity, international equity, and various fixed-income sectors. As a target-date series, each trust is managed to a specific retirement year. Over time, the asset allocation automatically shifts – gradually decreasing exposure to higher-risk stocks and increasing exposure to lower-risk bonds as the target retirement date draws closer.

(10) COMMON/COLLECTIVE TRUST FUND:

The Plan holds an indirect investment in a fully benefit-responsive investment contract with Fidelity through a common/collective trust fund. Fidelity maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a monthly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis. Fidelity may not terminate the contract at any amount less than contract value.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) the Plan's failure to qualify under Section 401(a) or Section 401(k) of the IRC, (2) the establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) any substantive modification of the Portfolio or the administration of the Portfolio that is not consented to by the wrap issuer, (4) any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the Portfolio's cash flow, (5) any communication given to unitholders by the Plan Sponsor, any other Plan Fiduciary or Trustee that is designed to induce or influence unitholders not to invest in the Portfolio or to transfer assets out of the Portfolio, and (6) any transfer of assets from the Portfolio directly to a competing investment option. The Plan Management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) Fidelity's investment management authority over the Portfolio becomes limited or is terminated, or (2) the terms of the contract fail to be met.
