Independent Auditor's Report

The Plan Administrator and Management of Columbus Hospice, Inc.
Columbus Hospice, Inc. 403(b) Plan
Columbus, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Columbus Hospice, Inc. 403(b) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

COLUMBUS HOSPICE, INC. 403(B) PLAN
COLUMBUS, GEORGIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

NOTE 1: Description of Plan

The following brief description of the Columbus Hospice, Inc. 403(b) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined-contribution profit sharing plan sponsored by Columbus Hospice, Inc. (the "Plan Sponsor") for its employees and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was originally adopted on January 1, 1988, has been occasionally amended, and was most recently restated effective October 1, 2021. The most recent restatement included amendments since the previous restatement, most significantly, adjusting the definition of compensation to exclude certain types of fringe benefit pay.

The Plan Administrator, who is employed by the Plan Sponsor, has responsibility for the administration of the Plan. Lincoln National Life Insurance Company and Mutual of America Life Insurance Company ("MOA"), as qualified institutions, serve as custodians, and have responsibility for the management, operation and administration of the Trust Fund. A fee is charged by the custodians for services rendered.

Eligibility – All employees, apart from non-resident aliens and leased employees are eligible to participate in the Plan upon their date of hire.

Contributions - Participants may elect to contribute, on a before-tax or after-tax basis, compensation up to maximum limits provided under the Internal Revenue Code ("IRC"). Participants are automatically enrolled to defer 3% of their pay, unless the participant elects otherwise. An auto-escalation feature is in place to increase contributions by 1% each year, until a maximum of 6% is reached. Participants who have attained age 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contributory plans.

All employees who are eligible to participate in the Plan, and are over 18 years of age, are also eligible for matching contributions. The Plan Sponsor provides a matching contribution equal to 60% of each participant's deferrals up to 6% of a participant's annual eligible compensation (3.6% maximum match).

NOTE 1: Description of Plan (Continued)

Special 403(b) Catch-Up Contributions - Participants who have worked at least 15 years for the Plan Sponsor may make a special catch-up contribution equal to the lesser of the following:

1. $3,000 annually;
2. $15,000 less prior year catch-up contributions;
3. $5,000 times the number of years worked for the Plan Sponsor less the total deferrals made while working for the Plan Sponsor.

Participant Accounts - Each participant's account is credited with the participant's and employer's contributions and allocations of (a) Plan earnings, (b) administrative expenses, and (c) forfeitures of nonvested account balances. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions and the Plan Sponsor's discretionary contributions and any earnings or losses thereon. Vesting in the employer's matching contributions occurs in 25% increments over each year of credited service, with full vesting occurring at 4 years of credited service. A participant also becomes fully vested in matching contributions upon reaching 59.5 years of age.

Forfeitures - Forfeitures of employer matching and discretionary contributions of participants' non-vested accounts may be used to pay Plan expenses or to reduce employer matching or discretionary matching contributions. Forfeited, non-vested accounts totaled $75 and $0 at December 31, 2025 and 2024, respectively. Amounts used from these accounts to reduce the employer's matching contributions totaled approximately $7,000 and $6,900 for the years ended December 31, 2025 and 2024, respectively.

Investment Options - Upon enrollment in the Plan, a participant may direct participant and employer contributions in any of the investment options established by the plan administrator. Participants may change their investment options daily.

Notes Receivable from Participants - Participants may borrow, subject to approval by the plan administrator, a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance. Loan terms range from 1 - 5 years. The loans are secured by the balance in the participant's account and bear interest at a fixed rate of interest approximating the Wall Street Journal's published prime interest rate plus one-percent. Principal and interest are paid ratably through bi-weekly payroll deductions.

NOTE 1: Description of Plan (Continued)

Payment of Benefits - Upon reaching age 59.5 or termination of employment due to death, disability, retirement or other reasons, participants may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or annual installments over a period of years. For termination of service due to other reasons, a participant is entitled to the vested interest in his or her account as a lump sum distribution. Participants may also make withdrawals under certain "hardship" conditions if approved by the custodians of the Plan. The Plan Sponsor may force a participant to take a mandatory distribution upon severance from employment if the vested balance in the participant's account is less than $1,000.

Plan Termination - Although there is no present intention to do so, the Plan Sponsor may terminate the Plan at any time subject to the provisions of ERISA. In the event of termination, the participants will become fully vested in their account balances and the custodians shall dispose of the Plan assets by distribution to participants or beneficiaries.

NOTE 2: Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared using the accrual basis of accounting.

Cash and Cash Equivalents - The Plan's cash and cash equivalents consist of amounts held in a General Account at MOA. The characteristics of this account are comparable to a cash equivalent and therefore are excluded from the fair value hierarchy in Note 3. Amounts in this account are completely liquid and can be withdrawn to another investment choice at any time.

Valuation of Investments - The Plan's investments are stated at fair value except fully benefit-responsive contracts, which are stated at contract value, as described in Note 4. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at a measurement date. See Note 3 for a description of the valuation and methodologies used to determine each investment's respective fair value.

Net appreciation or depreciation of the fair value of investments consists of the unrealized appreciation or depreciation of investments held during the year, as well as the realized gain or loss on sale of investments which represents the difference between net sales proceeds and cost or previous fair value of the investments sold.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE 2: Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 and 2024. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Plan Expenses - Significant costs of administering the Plan are absorbed by the Plan Sponsor and are not reflected in these financial statements. These costs include legal, administrative, accounting and trustee fees. Certain investment management fees and administrative expenses, including audit fees, are incurred and paid by the Plan. Other investment-related expenses are included in net appreciation of fair value of investments.

Tax Status - The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service ("IRS") in Revenue Procedure 2007-71. The Plan Administrator and the Plan's tax counsel believe the Plan is currently being operated in conformity with the IRC to maintain tax exempt status for Plan participants under IRC Section 403(b).

Accounting principles generally accepted in the United States of America ("GAAP") require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS or state taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions within the standard statute of limitation periods; however, there are currently no audits for any tax periods in progress.

Reclassifications - Certain items in the 2024 financial statements have been reclassified in order to be in conformity with the 2025 statement presentation.

NOTE 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events - The plan administrator has evaluated all subsequent events that may qualify for disclosure through October 7, 2026, which is the date the financial statements were available to be issued. There were no transactions that are required to be disclosed under the professional guidance.

NOTE 3: Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy according to GAAP are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3: Fair Value Measurements (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Separate accounts: Separate accounts consist solely of investments in mutual funds registered with the Securities and Exchange Commission and are valued at net asset value of shares held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes the valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following information reflects the Plan's investments at December 31, 2025 and 2024:

	2025	2024
Level 1:		
Separate accounts	**$ 10,265,081**	$ 9,552,175

NOTE 4: Fully Benefit-Responsive Investment Contracts

The Plan holds an investment in the Lincoln Financial Group Fixed Account ("Lincoln GIF"). The Lincoln GIF is a guaranteed separate account provided under a group annuity contract and is deemed to be fully benefit-responsive. As such, contract value is the relevant measurement attribute for benefits attributable to the Lincoln GIF because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made to the contract, plus earnings at guaranteed crediting rates, less participant withdrawals and administrative fees, and is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The following information reflects the investments presented at contract value on the face of the Statements of Net Assets Available for Benefits:

	2025	2024
Lincoln GIF	**$ 492,520**	$ 551,189

Generally there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and which require the Plan Sponsor to settle at an amount different than contract value paid either within 90 days or over time.

Lincoln Financial Group bears the risk that the return on the underlying investments will be sufficient to support the guaranteed rate during each guarantee period.

NOTE 5: Information Prepared and Certified by Custodians (Unaudited)

As explained in Note 1, the Plan's funds are maintained and certified by Lincoln National Life Insurance Company and Mutual of America Life Insurance Company, as custodians. The following information included in the accompanying financial statements and Schedule of Assets (Held at End of Year) was obtained from data that has been prepared and certified to as complete and accurate by the custodians:

	2025	2024
Cash and cash equivalents	**$ 1,390,329**	$ 1,188,100
Investments at fair value:		
Separate accounts	**$ 10,265,081**	$ 9,552,175
Investments at contract value:		
Guaranteed investment contracts	**$ 492,520**	$ 551,189
Notes Receivable from Participants	**$ 148,670**	$ 259,769
Interest from Notes Receivable from Participants	**$ 12,302**	$ 10,780
Investment income	**$ 1,361,090**	$ 1,202,574

NOTE 6: Party-in-Interest Transactions

Certain Plan investments are managed by the custodians; therefore, these transactions qualify as party-in-interest. Amounts directly paid by the Plan for related services totaled $3,294 and $3,280 for the years ended December 31, 2025 and 2024, respectively.

NOTE 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Independent Auditor's Report

The Plan Administrator and Management of Columbus Hospice, Inc.
Columbus Hospice, Inc. 403(b) Plan
Columbus, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Columbus Hospice, Inc. 403(b) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024 and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

COLUMBUS HOSPICE, INC. 403(B) PLAN
COLUMBUS, GEORGIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

NOTE 1: Description of Plan

The following brief description of the Columbus Hospice, Inc. 403(b) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined-contribution profit sharing plan sponsored by Columbus Hospice, Inc. (the "Plan Sponsor") for its employees and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was originally adopted on January 1, 1988, has been occasionally amended, and was most recently restated effective October 1, 2021. The most recent restatement included amendments since the previous restatement, most significantly, adjusting the definition of compensation to exclude certain types of fringe benefit pay.

The Plan Administrator, who is employed by the Plan Sponsor, has responsibility for the administration of the Plan. Lincoln National Life Insurance Company and Mutual of America Life Insurance Company ("MOA"), as qualified institutions, serve as custodians, and have responsibility for the management, operation and administration of the Trust Fund. A fee is charged by the custodians for services rendered.

Eligibility – All employees, apart from non-resident aliens and leased employees are eligible to participate in the Plan upon their date of hire.

Contributions - Participants may elect to contribute, on a before-tax or after-tax basis, compensation up to maximum limits provided under the Internal Revenue Code ("IRC"). Participants are automatically enrolled to defer 3% of their pay, unless the participant elects otherwise. An auto-escalation feature is in place to increase contributions by 1% each year, until a maximum of 6% is reached. Participants who have attained age 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contributory plans.

All employees who are eligible to participate in the Plan, and are over 18 years of age, are also eligible for matching contributions. The Plan Sponsor provides a matching contribution equal to 60% of each participant's deferrals up to 6% of a participant's annual eligible compensation (3.6% maximum match).

NOTE 1: Description of Plan (Continued)

Special 403(b) Catch-Up Contributions - Participants who have worked at least 15 years for the Plan Sponsor may make a special catch-up contribution equal to the lesser of the following:

1. $3,000 annually;
2. $15,000 less prior year catch-up contributions;
3. $5,000 times the number of years worked for the Plan Sponsor less the total deferrals made while working for the Plan Sponsor.

Participant Accounts - Each participant's account is credited with the participant's and employer's contributions and allocations of (a) Plan earnings, (b) administrative expenses, and (c) forfeitures of nonvested account balances. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions and the Plan Sponsor's discretionary contributions and any earnings or losses thereon. Vesting in the employer's matching contributions occurs in 25% increments over each year of credited service, with full vesting occurring at 4 years of credited service. A participant also becomes fully vested in matching contributions upon reaching 59.5 years of age.

Forfeitures - Forfeitures of employer matching and discretionary contributions of participants' non-vested accounts may be used to pay Plan expenses or to reduce employer matching or discretionary matching contributions. Forfeited, non-vested accounts totaled $75 and $0 at December 31, 2025 and 2024, respectively. Amounts used from these accounts to reduce the employer's matching contributions totaled approximately $7,000 and $6,900 for the years ended December 31, 2025 and 2024, respectively.

Investment Options - Upon enrollment in the Plan, a participant may direct participant and employer contributions in any of the investment options established by the plan administrator. Participants may change their investment options daily.

Notes Receivable from Participants - Participants may borrow, subject to approval by the plan administrator, a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance. Loan terms range from 1 - 5 years. The loans are secured by the balance in the participant's account and bear interest at a fixed rate of interest approximating the Wall Street Journal's published prime interest rate plus one-percent. Principal and interest are paid ratably through bi-weekly payroll deductions.

NOTE 1: Description of Plan (Continued)

Payment of Benefits - Upon reaching age 59.5 or termination of employment due to death, disability, retirement or other reasons, participants may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or annual installments over a period of years. For termination of service due to other reasons, a participant is entitled to the vested interest in his or her account as a lump sum distribution. Participants may also make withdrawals under certain "hardship" conditions if approved by the custodians of the Plan. The Plan Sponsor may force a participant to take a mandatory distribution upon severance from employment if the vested balance in the participant's account is less than $1,000.

Plan Termination - Although there is no present intention to do so, the Plan Sponsor may terminate the Plan at any time subject to the provisions of ERISA. In the event of termination, the participants will become fully vested in their account balances and the custodians shall dispose of the Plan assets by distribution to participants or beneficiaries.

NOTE 2: Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared using the accrual basis of accounting.

Cash and Cash Equivalents - The Plan's cash and cash equivalents consist of amounts held in a General Account at MOA. The characteristics of this account are comparable to a cash equivalent and therefore are excluded from the fair value hierarchy in Note 3. Amounts in this account are completely liquid and can be withdrawn to another investment choice at any time.

Valuation of Investments - The Plan's investments are stated at fair value except fully benefit-responsive contracts, which are stated at contract value, as described in Note 4. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at a measurement date. See Note 3 for a description of the valuation and methodologies used to determine each investment's respective fair value.

Net appreciation or depreciation of the fair value of investments consists of the unrealized appreciation or depreciation of investments held during the year, as well as the realized gain or loss on sale of investments which represents the difference between net sales proceeds and cost or previous fair value of the investments sold.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE 2: Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2025 and 2024. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Plan Expenses - Significant costs of administering the Plan are absorbed by the Plan Sponsor and are not reflected in these financial statements. These costs include legal, administrative, accounting and trustee fees. Certain investment management fees and administrative expenses, including audit fees, are incurred and paid by the Plan. Other investment-related expenses are included in net appreciation of fair value of investments.

Tax Status - The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service ("IRS") in Revenue Procedure 2007-71. The Plan Administrator and the Plan's tax counsel believe the Plan is currently being operated in conformity with the IRC to maintain tax exempt status for Plan participants under IRC Section 403(b).

Accounting principles generally accepted in the United States of America ("GAAP") require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS or state taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions within the standard statute of limitation periods; however, there are currently no audits for any tax periods in progress.

Reclassifications - Certain items in the 2024 financial statements have been reclassified in order to be in conformity with the 2025 statement presentation.

NOTE 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events - The plan administrator has evaluated all subsequent events that may qualify for disclosure through October 7, 2026, which is the date the financial statements were available to be issued. There were no transactions that are required to be disclosed under the professional guidance.

NOTE 3: Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy according to GAAP are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3: Fair Value Measurements (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Separate accounts: Separate accounts consist solely of investments in mutual funds registered with the Securities and Exchange Commission and are valued at net asset value of shares held by the Plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes the valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following information reflects the Plan's investments at December 31, 2025 and 2024:

	2025	2024
Level 1:		
Separate accounts	**$ 10,265,081**	$ 9,552,175

NOTE 4: Fully Benefit-Responsive Investment Contracts

The Plan holds an investment in the Lincoln Financial Group Fixed Account ("Lincoln GIF"). The Lincoln GIF is a guaranteed separate account provided under a group annuity contract and is deemed to be fully benefit-responsive. As such, contract value is the relevant measurement attribute for benefits attributable to the Lincoln GIF because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made to the contract, plus earnings at guaranteed crediting rates, less participant withdrawals and administrative fees, and is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The following information reflects the investments presented at contract value on the face of the Statements of Net Assets Available for Benefits:

	2025	2024
Lincoln GIF	**$ 492,520**	$ 551,189

Generally there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and which require the Plan Sponsor to settle at an amount different than contract value paid either within 90 days or over time.

Lincoln Financial Group bears the risk that the return on the underlying investments will be sufficient to support the guaranteed rate during each guarantee period.

NOTE 5: Information Prepared and Certified by Custodians (Unaudited)

As explained in Note 1, the Plan's funds are maintained and certified by Lincoln National Life Insurance Company and Mutual of America Life Insurance Company, as custodians. The following information included in the accompanying financial statements and Schedule of Assets (Held at End of Year) was obtained from data that has been prepared and certified to as complete and accurate by the custodians:

	2025	2024
Cash and cash equivalents	**$ 1,390,329**	$ 1,188,100
Investments at fair value:		
Separate accounts	**$ 10,265,081**	$ 9,552,175
Investments at contract value:		
Guaranteed investment contracts	**$ 492,520**	$ 551,189
Notes Receivable from Participants	**$ 148,670**	$ 259,769
Interest from Notes Receivable from Participants	**$ 12,302**	$ 10,780
Investment income	**$ 1,361,090**	$ 1,202,574

NOTE 6: Party-in-Interest Transactions

Certain Plan investments are managed by the custodians; therefore, these transactions qualify as party-in-interest. Amounts directly paid by the Plan for related services totaled $3,294 and $3,280 for the years ended December 31, 2025 and 2024, respectively.

NOTE 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
