Independent Auditor's Report

To the Trustee of
Alaska Heart Institute, LLC Cash Balance Plan
Anchorage, Alaska

Opinion

We have audited the accompanying financial statements of Alaska Heart Institute, LLC Cash Balance Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Alaska Heart Institute, LLC Cash Balance Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Alaska Heart Institute, LLC Cash Balance Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Alaska Heart Institute, LLC Cash Balance Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due to which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Alaska Heart Institute, LLC Cash Balance Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Alaska Heart Institute, LLC Cash Balance Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1: Description of Plan

The following description of Alaska Heart Institute, LLC Cash Balance Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General
The Plan is a noncontributory cash balance plan covering substantially all employees of the Alaska Heart Institute, LLC (the Plan Sponsor). The Plan had an effective date of January 1, 2015. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Sponsor primarily operates out of Anchorage, Alaska, and also has four other locations throughout the State.

Eligibility
Any employee who has attained the age of twenty-one (21) and completed ninety (90) days of service and who holds the title of owner-physician of the employer on the last day of the Plan year, is eligible to participate in the Plan as a Category 1 participant as of his or her entry date.

Any employee who has attained age twenty-one (21) and who has completed ninety (90) days of service shall be eligible to participate in the Plan as a Category 2 participant as of his or her entry date.

For all periods beginning after August 31, 2021, any employee who has attained the age of twenty-one (21) and has completed ninety (90) days of service and:

- Holds the title of Member Physician with 4 years of service on the last day of the Plan year is eligible to participate in the Plan as a Category 3 participant
- Holds the title of Member Physician with 0-3 years of service on the last day of the Plan year is eligible to participate in the Plan as a Category 4 participant
- Holds the title of Employee Physician on the last day of the Plan year is eligible to participate in the Plan as a Category 5 participant
- Holds the title of Executive or Director on the last day of the Plan year is eligible to participate in the Plan as a Category 6 participant
- Holds the title of Nurse Practitioner or Manager on the last day of the Plan year is eligible to participate in the Plan as a Category 7 participant

The Plan is frozen effective for Plan Years beginning after December 31, 2021, for purposes of participation for all future and current Category 2 participants. Prior Category 2 participants who, after December 31, 2021 hold the titles described for Category 3-7 participants as listed above, shall continue to accrue interest and service credits.

Any employee who shall have met the Plan's eligibility requirements shall become a participant in the Plan automatically. An eligible employee begins participating in the Plan upon reaching their entry date, generally defined as the earlier of the first day of each Plan year or the first day of the seventh month of each Plan year, coincident with or next following the day the employee meets the eligibility requirements.

Vesting
A participant shall have a nonforfeitable interest in the entire amount of his or her accrued benefit for all purposes upon the earlier to occur of: (1) the participant's death; (2) the participant's disability; or (3) provided that the participant shall be in the active service of the employer at that time, the attainment of his or her normal retirement age or, if applicable, his or her early retirement age. A participant is 100 percent vested in their accrued benefit after three years of credited service.

Participants Accounts
Under the Plan provisions, amounts are credited by the Plan Sponsor to the participants' hypothetical accounts. The accounts are allocated units of benefit and units of interest not less frequently than the end of each calendar year. The units of benefit are allocated based on three percent of the participant's compensation plus a fixed amount for eligible Category 1 participants and three percent of the participant's compensation less an offset benefit for eligible Category 2 participants as defined in the Plan document. Units of benefit for Category 3-7 participants are a nominal amount as defined in the Plan Document, which may change based on market interest rates. The offset benefit is an amount equal to the participant's vested nonelective contributions in the Alaska Heart Institute, LLC 401(k) Profit Sharing Plan subject to limitations as defined in the Plan document. The units of interest are tied to the average of the annual yields of 30-year treasury securities and are not to exceed a market rate of return.

Payment of Benefits
Vested participants are entitled to pension benefits under several optional forms of payment. Based upon participants' hypothetical account balances comprised of annual units of benefit plus interest credits, participants can elect to have their benefits paid in a lump-sum payment or as an annuity.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan are prepared using the accrual basis of accounting and have been prepared in accordance with accounting principles generally accepted in the United States of America.

Uses of Estimates
The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative Expenses
For the years ended December 31, 2025 and 2024, the Plan Sponsor has paid or will pay the expenses related to administrative services for the Plan, the fees of the custodian, the fees of the third party administrator for preparing Form 5500 and other services, and the audit fee.

Cash
The cash balance is maintained in the investment account at an institution that is a member of Securities Investor Protection Corporation (SIPC), which protects securities of its customers up to $500,000 including $250,000 for claims for cash. The Plan had no uninsured cash balances at December 31, 2025 and 2024.

Investments
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Note 3: Funding Policy

Contributions to provide benefits under the Plan are made solely by the Plan Sponsor. Their funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary which will meet or exceed the annual ERISA minimum funding requirement. The Plan Sponsor made contributions of $1,697,000 and $1,723,000 during the years ended December 31, 2025 and 2024, respectively. The Plan Sponsor's contributions for the years ended December 31, 2025 and 2024 exceeded the minimum funding requirement of ERISA.

Note 4: Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those estimated future period payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries and present employees or their beneficiaries. Benefits for retired or terminated employees are based on an employee's compensation during the highest five consecutive years of credited service. The accumulated Plan benefits for active employees are based on their average compensation during the highest five consecutive years preceding the valuation date. Benefits payable under all circumstances – retirement, death and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The calculations of the present value of accumulated benefits under the Plan were made by consulting actuaries as of January 1, 2025 and 2024. The significant actuarial assumptions underlying the actuarial computations as of January 1, 2025 and 2024 are as follows:

	2025	2024
Interest rate (compounded annually)	5.30%	5.14%
Mortality rate	2025 Applicable Mortality Table from Notice 2024-42	2024 Applicable Mortality Table from Notice 2023-73
Salary projection	0%	0%
Cash balance interest credit	5.00%	5.00%
Retirement age	Normal retirement age of 62 and 1 year of participation	Normal retirement age of 62 and 1 year of participation

The foregoing assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The actuarial present value of accumulated Plan benefits was $12,116,422 and $10,118,757 as of the valuation dates.

The actuarial present value of accumulated plan benefits is segmented into the following categories:

	January 1, 2025	January 1, 2024
Vested benefits of participants currently receiving payments	$ -	$ -
Other vested benefits	12,116,422	10,118,757
Nonvested benefits	-	-
Total actuarial present value of accumulated Plan benefits	$ 12,116,422	$ 10,118,757

The changes in accumulated plan benefits for the years ended December 31, 2025 and 2024 are as follows:

	2025	2024
Accumulated present value of accumulated plan benefits at beginning of year:	$ 10,118,757	$ 9,104,440
Increase in benefits accumulated	1,997,665	1,014,317
Total Investments at fair value	$ 12,116,422	$ 10,118,757

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination or partial termination of the Plan, each participant immediately becomes fully vested in their accrued benefit. Participant benefits will be distributed as soon as practical according to the Plan's provisions. After all accrued benefits are paid, any residual assets of the Plan shall revert to the Plan Sponsor.

Note 6: Fair Value Measurement

Fair value is defined as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds, exchange traded funds and closed-end funds are valued at daily closing price as reported by the fund.

There have been no changes in the methodologies used at December 31, 2025 and 2024. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	2025	
	Level 1	Total
Exchange traded funds and closed end funds	$ 5,917,316	5,917,316
Hedge funds	1,253,678	1,253,678
Mutual funds	6,158,322	6,158,322
Total Investments at fair value	$ 13,329,316	13,329,316

	2024	
	Level 1	Total
Exchange traded funds and closed end funds	$ 4,647,084	4,647,084
Hedge funds	1,220,746	1,220,746
Mutual funds	4,723,065	4,723,065
Total Investments at fair value	$ 10,590,895	10,590,895

Note 7: Income Tax Status

The Plan obtained its latest determination letter on May 18, 2017, in which the Internal Revenue Service states the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 9: Subsequent Events

Management has evaluated subsequent events through September 24, 2026, the date the financial statements were available to be issued.
