INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of Entergy Corporation Retirement Plan for Bargaining Employees

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Entergy Corporation Retirement Plan for Bargaining Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matters – Plan Transfers

As discussed in Note 1 to the financial statements, effective January 1, 2025, certain participants in the Plan, together with their accrued benefits, were spun-off to the Entergy Corporation Retirement Plan VI for Bargaining Employees, and immediately following the spin-off, the Entergy Corporation Cash Balance Plan for Bargaining Employees was merged into the Plan. Further, effective July 1, 2025, certain participants in the Plan, were spun-off into the Delta Utilities Pension Plan for Bargaining Employees. Our opinion is not modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

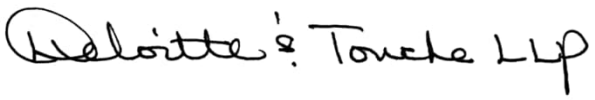

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTE 1. DESCRIPTION OF THE PLAN

General The following description of the Entergy Corporation Retirement Plan for Bargaining Employees (Plan) provides only general information regarding the Plan as in effect on December 31, 2025 and 2024. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan document governs the operation of the Plan and payment of all benefits. Therefore, any conflict between this description of the Plan and the terms of the Plan shall be resolved by reference to the full Plan document including plan amendments.

The Plan is a defined benefit pension plan sponsored by Entergy Corporation (Company) that covers certain bargaining employees of the participating employers (i.e., certain subsidiaries and affiliates of the Company), whose most recent hire date or rehire date is before July 1, 2014 or such later date provided for in their applicable collective bargaining agreements, and in accordance with the eligibility provisions of the Plan document and applicable appendix.

The Employee Benefits Committee of the Company controls and manages the operation and administration of the Plan. Plan assets are held in the Entergy Corporation Retirement Plans Master Trust (Master Trust) for which JPMorgan Chase Bank, N.A. serves as trustee (Trustee). The Trustee works together with several investment managers who manage the Plan's investments. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective January 1, 2025, certain participants in the Plan, together with their accrued benefits, were spun-off to the Entergy Corporation Retirement Plan VI for Bargaining Employees, a new defined benefit pension plan (the spin-off). There was no loss of vesting or benefit options or reduction of accrued benefits to affected participants as a result of the spin-off.

Effective January 1, 2025, immediately following the spin-off, the Entergy Corporation Cash Balance Plan for Bargaining Employees was merged with and into the Plan. As of January 1, 2025, the liabilities for the accrued benefits and the assets attributable to such liabilities of all participants in the Entergy Corporation Cash Balance Plan for Bargaining Employees were assumed by and transferred to the Plan. There was no loss of vesting or benefit options or reduction of accrued benefits to affected participants as a result of this plan merger.

Effective July 1, 2025, certain participants in the Plan, together with their accrued benefits, were spun-off into the Delta Utilities Pension Plan for Bargaining Employees, as a result of the sale of the assets comprising the regulated natural gas distribution businesses by Entergy Louisiana, LLC to Delta Capital Gas Company, LLC or its affiliate and by Entergy New Orleans, LLC to Delta New Orleans Gas Company, LLC or its affiliate. Total assets transferred from the Entergy Corporation Retirement Plans Master Trust to the Delta Utilities Pension Plan for Bargaining Employees Trust were approximately $44 million, of which $10.4 million were assets of the Plan. Also, approximately $49.3 million of the projected benefit obligation was settled, of which $11.3 million was settled at the Plan.

Pension Benefits The Plan provides pension benefits to vested Plan participants, which benefits vary in accordance with the applicable provisions of certain collective bargaining agreements. Generally, for certain employees whose most recent hire date or rehire date is before July 1, 2014 or such later

date provided for in their applicable collective bargaining agreements (Final Average Pay Participants), the monthly normal retirement benefit payable, as a single life annuity commencing as of the first day of the month following the date the participant attains age 65, is equal to 1.5% of the product obtained by multiplying the participant's benefit service (up to 40 years) and final average monthly earnings, as those terms are defined under the Plan. In addition to, or in lieu of, the pension benefits formula described above, certain participants may be entitled to grandfathered benefits as a result of participation in their prior employers' retirement plans. In addition, certain participants may be entitled under the Plan to credited service under their prior employers' retirement plans, which resulting benefits are then reduced by the benefits accrued under the prior employers' retirement plans. Participants may elect to receive various optional forms of actuarially equivalent benefit payments. This includes a lump sum optional form of payment for certain bargaining employees provided for in their applicable collective bargaining agreements, if the participant elects this option within 12 months following the participant's employment termination date, as well as reduced early retirement or vested termination benefits, if the participant satisfies the Plan's eligibility requirements.

Generally, for certain bargaining employees whose most recent hire date or rehire date is after June 30, 2014 or such later date as provided for in their applicable collective bargaining agreement (Cash Balance Participants) the normal retirement benefit, payable as a single life annuity commencing as of the first day of the month following the date the participant attains age 65, is determined by converting the balance of the participant's notional Cash Balance Account into an actuarially equivalent annuity, as defined under the Plan. A participant's Cash Balance Account is equal to the sum of annual pay credits ranging from 4% to 8% of eligible earnings, based upon age and vesting service, and annual interest credits. The interest credits are calculated based upon the annual rate of interest on 30-year U.S. Treasury securities, as specified by the Internal Revenue Service, for the month of August preceding the first day of the plan year. The interest crediting rate applied for any plan year will never be less than 2.6%, and will never exceed 9%. Participants may elect to receive various optional forms of actuarially equivalent benefit payments, if they satisfy the Plan's eligibility requirements.

Vesting Generally Final Average Pay Participants become fully vested in Plan benefits after five years of vesting service, as defined under the Plan, or upon attaining age 65 while employed by any entity required to be aggregated with Entergy Corporation pursuant to Sections 414(b), 414(c), 414(m) or 414(o) of the Internal Revenue Code of 1986, as amended (Code).

Generally Cash Balance Participants become fully vested in Plan benefits after three years of vesting service, as defined by the Plan, or upon attaining age 65 while employed by any entity required to be aggregated with Entergy Corporation pursuant to Sections 414(b), 414(c), 414(m), or 414(o) of the Code. In addition, certain participants may be entitled under the Plan to vesting service for a prior period of employment.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The Plan's financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates The preparation of the Plan's financial statements in conformity with GAAP requires the Plan to make significant estimates and assumptions. These estimates and assumptions affect the reported amounts of net assets available for benefits, the changes in net assets available for

benefits, the actuarial present value of accumulated plan benefits and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties Contributions to the Plan are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, employee compensation, and demographics. Investment securities are exposed to various risks, such as interest rate, market, and credit risks, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the changing nature of these assumptions and the level of risk associated with investment securities, it is at least reasonably possible that changes in these assumptions and in the values of investment securities will occur in the near term. Additionally, such changes could materially affect the Master Trust investment account balances (see Notes 3 and 4) and the amounts reported in the financial statements.

Valuation of Investments Assets of the Plan are invested in the Master Trust and are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Income Recognition The difference in fair value of the assets in the Master Trust from one period to the next is recognized and included in the Plan's interest in the Master Trust's investment income or loss in the accompanying Statements of Changes in Net Assets Available for Benefits. The Plan's interest in the Master Trust's investment income or loss also includes realized gains and losses, interest income, and dividend income. Sales and purchases of securities in the Master Trust are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Expenses Administrative and custodian fees, as well as other direct expenses of the Plan, such as actuarial, legal, and auditing fees, Pension Benefit Guaranty Corporation (PBGC) premiums, independent investment management expenses, and certain direct expenses incurred in the administration of the Master Trust are paid with Master Trust assets, unless paid by the Company or a participating employer.

Funding Policy Annual contributions to the Plan are determined by an actuarial valuation. The Company's policy is to fund an amount not less than the minimum required contribution under ERISA, nor more than the maximum tax-deductible contribution under the Code. For the 2025 and 2024 plan years, the Plan's minimum funding requirement was met.

Payment of Benefits Benefit payments to participants are recorded when paid.

NOTE 3. INTEREST IN MASTER TRUST

The Plan's investments include equity, fixed income, money market, state and municipal, foreign government and agency securities, and unallocated insurance contracts. Certain of these investments are held in common collective trusts and registered investment companies. These assets are held in the Master Trust established by the Company and maintained by the Trustee. The Plan maintains an

undivided beneficial interest in each of the investment accounts of the Master Trust, with the exception of the value of investments held in insurance company general accounts (unallocated insurance contracts) which are only assets of the Entergy Corporation Retirement Plan for Non-Bargaining Employees, the Entergy Corporation Retirement Plan VI for Non-Bargaining Employees, and the Entergy Corporation Retirement Plan VI for Bargaining Employees. Use of the Master Trust permits the commingling of the trust assets of the defined benefit pension plans of the Company and its subsidiaries for investment and administrative purposes. Although assets are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the equity in net earnings (loss) and the administrative expenses of the investment accounts to the various participating plans. Equity in an investment account's net earnings (loss) is comprised of interest and dividends and realized and unrealized investment gains and losses. The Trustee determines the fair value of the fund and calculates a daily earnings factor, including realized and unrealized gains or losses, collected and accrued income, and administrative expenses, and allocates earnings on a pro rata basis to the participating plans. As of December 31, 2025 and 2024, the net assets of the Plan represented approximately 5% and 20%, respectively, of total Master Trust net assets.

The following table presents the net assets of the Master Trust (see Note 4 for fair value disclosure) as reported in the Master Trust's Form 5500 and the Plan's interest in the Master Trust as of December 31, 2025 and 2024:

For the year ended December 31, 2025, the Master Trust had transfers to the trust of $240,001,000 and transfers from the trust of $410,085,527.

For the year ended December 31, 2024, the Master Trust had transfers to the trust of $270,005,000 and transfers from the trust of $1,585,725,248.

NOTE 4. FAIR VALUE MEASUREMENTS

Accounting standards provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The Master Trust classifies its investments as follows:

- Level 1 - Level 1 inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 - Level 2 inputs are inputs other than quoted prices included in Level 1 that are, either directly or indirectly, observable for the asset or liability at the measurement date. Assets are valued based on prices derived by an independent party that uses inputs such as benchmark yields, reported trades, broker/dealer quotes, and issuer spreads. Prices are reviewed and can be challenged with the independent parties and/or overridden if it is believed such would be more reflective of fair value. Level 2 inputs include the following:

  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability; or
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If an asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Level 3 refers to securities valued based on significant unobservable inputs.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy a summary of the Master Trust's investments measured at fair value on a recurring basis at December 31, 2025 and 2024.

(a) Certain fixed income debt securities (corporate and government) are stated at fair value as determined by broker quotes.

(b) Common stocks and preferred stocks are stated at fair value determined by quoted market prices.

(c) The common collective trusts hold investments in accordance with stated objectives. The investment strategy of the trusts is to capture the growth potential of equity markets by replicating the performance of a specified index. The issuer of these funds allows daily trading at the net asset value and trades settle at a later date, with no other trading restrictions. Net asset value per share of common collective trusts estimate fair value. Common collective trusts are not publicly quoted and are valued by the fund administrators using net asset value as a practical expedient. Accordingly, these funds are not assigned a level in the fair value table, but are included in the total.

(d) These registered investment companies are money market mutual funds with a stable net asset value of one dollar per share. Registered investment companies may hold investments in domestic and international bond markets or domestic equities valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The money market mutual funds held by the Master Trust are deemed to be actively traded. Certain registered investment companies transact at a guaranteed book value, which approximates fair value.

(e) Certain of these registered investment companies are not publicly quoted and are valued by the fund administrators using net asset value as a practical expedient. The issuer of these funds allows daily trading at the net asset value and trades settle at a later date, with no other trading restrictions. Accordingly, these funds are not assigned a level in the fair value table, but are included in the total.

(f) The other remaining assets are U.S. municipal and foreign government bonds stated at fair value as determined by broker quotes.

(g) The unallocated insurance contract investments are recorded at contract value, which approximates fair value. The contract value represents contributions made under the contract, plus interest, less funds used to pay benefits and contract expenses, and less distributions to the Master Trust.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

NOTE 5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that employees have rendered through the applicable benefit valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of deceased employees, and present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is calculated by an independent actuary. This amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial cost method used to determine the actuarial present value of accumulated plan benefits is the Unit Credit Actuarial Cost Method.

The effect of plan amendments on accumulated plan benefits are recognized during the year in which such amendments are adopted. There were no amendments effective January 1, 2025 recognized in the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits presented below are presented using the beginning of year benefit information date. The actuarial present value of accumulated plan benefits below is measured as of January 1. Had the valuations been performed as of December 31, there would be no material differences, except for the plan events noted below or Note 1.

The significant actuarial assumptions used in the valuation below were as follows:

Significant Assumptions	January 1, 2025	January 1, 2024
Discount Rate	5.89%	5.07%
Mortality	Base Table: Pri-2012 Employee and Healthy Annuitant Table Projection: Fully Generational MP-2021 projection scale	Base Table: Pri-2012 Employee and Healthy Annuitant Table Projection: Fully Generational MP-2021 projection scale
Average retirement age	60.1 years	60.4 years
Interest crediting rate	4.80%	N/A

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

The actuarial present value of accumulated plan benefits as of January 1, 2025 was as follows:

Vested Benefits:	
Participants and beneficiaries currently receiving payments	$11,182,012
Other participants	151,757,396
Total vested benefits	162,939,408
Nonvested benefits	18,210,321
Total	$181,149,729

The approximate changes in the actuarial present value of accumulated plan benefits from January 1, 2024 to January 1, 2025, as determined by the Plan's actuary, were as follows:

Balance, January 1, 2024	$894,178,537
Increase (decrease) during the year attributable to:	
Increase for interest	43,685,201
Changes in actuarial assumptions	(45,725,737)
Benefits accumulated	12,768,931
Actuarial loss	(4,807,690)
Benefits paid	(65,889,630)
Plan spinoff	(686,997,418)
Plan merger	33,937,535
Net decrease	(713,028,808)
Balance, January 1, 2025	$181,149,729

NOTE 6. PLAN TERMINATION

Although the Company has not expressed an interest in terminating the Plan, the Company reserves the right to discontinue the Plan at any time. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in order of priority as determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTE 7. TAX STATUS

The Plan obtained its latest determination letter on May 2, 2014, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Code. Entergy Corporation, as Plan Sponsor, believes that subsequent amendments to the Plan are in compliance with the requirements of the Code and that the Plan is currently designed and operated in compliance with the applicable requirements of the Code, and the Plan and related Master Trust continue to be tax-exempt. Accordingly, no provision for federal income taxes has been made in the accompanying financial statements.

NOTE 8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Master Trust utilizes various investment managers to manage its net assets. These net assets may be invested in funds managed by the investment managers. Therefore, these transactions qualify as exempt party-in-interest transactions. In Plan management's opinion, fees paid during the years ended December 31, 2025 and 2024 for services rendered by parties-in-interest were based upon customary and reasonable rates for such services.

NOTE 9. CERTIFIED INVESTMENT INFORMATION

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under this election, the following investment information has been certified by the Trustee, JPMorgan Chase Bank, N.A., as complete and accurate, and is not subject to auditing procedures performed by independent auditors:

- Plan interest in the Master Trust of $230,781,704 and $909,313,216 as presented in the Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, respectively;
- Plan interest in the Master Trust investment income of $36,193,199 and $52,711,778 as presented in the Statements of Changes in Net Assets Available for Benefits for the Years Ended December 31, 2025 and 2024, respectively;
- The net assets of the Master Trust for the Years Ended December 31, 2025 and 2024 and investment income of the Master Trust for the Years Ended December 31, 2025 and 2024 in Note 3; and
- The total investment balances of the Master Trust as of December 31, 2025 and 2024 in Note 4.

NOTE 10. SUBSEQUENT EVENTS

Subsequent events were evaluated through October 8, 2026, the date the financial statements were available to be issued. There are no subsequent events that require adjustment to or disclosure in the financial statements.

	Funding Standard Carryover Balance	Prefunding Balance
(7) Preliminary Balance, January 1, 2025, (3) + (5) + 6(d)	$ 0	$ 227,963,797
(8) Plan Spinoff to Plan BVI[1]	**0**	**(183,661,868)**
(9) Plan Merge with Plan B-CB[2]	**0**	**7,557,882**
(10) Balance Waived or Deemed Waived for 2025 Plan Year	0	0
(11) Balance, January 1, 2025, (7) + (8) + (9) - (10)	$ 0	$ 51,859,811
(12) Plan Transfer to Delta Utilities[3]	**0**	**(2,269,466)**
(13) Balance, January 1, 2025, Adjusted for Delta Transaction	$ 0	$ 49,590,345

[1] Effective as of January 1, 2025, the accrued benefits of certain participants were transferred to the Entergy Corporation Retirement Plan VI for Bargaining Employees ("Plan BVI"). Upon the spinoff and transfer of their accrued benefits, such participants no longer participate in the Plan. Prefunding balances transferred proportionate to the amount of assets transferred on a Market Value basis.

[2] Immediately following this spinoff, the Entergy Corporation Cash Balance Plan for Bargaining Employees ("Plan B-CB") was merged into the Plan, and its prefunding balance was accordingly added to the Plan.

[3] Effective as of July 1, 2025, the accrued benefits of certain participants in the Plan were transferred to a defined benefit pension plan established by Delta Utilities. Upon the transfer of their accrued benefits, such participants no longer participate in this Plan. Prefunding balances reduced based on the proportion of Plan assets transferred to Delta Utilities from the Plan on 7/1/2025.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Notes Regarding 2025 Schedule SB (Form 5500)

1. Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. To the extent there are any differences in the entries filed electronically and the actual data contained in the signed Schedule SB, the values on the signed Schedule SB will govern.

In making this certification, I have relied, as permitted under Sec. 103(a)(4)(D) of ERISA, on the correctness of the asset values and contribution information supplied by the plan administrator, on which the qualified public accountant engaged by the Plan has expressed an opinion. I have also relied on the correctness of the participant data supplied by the plan administrator. These items would customarily not be verified by the actuary. I have reviewed, and applied certain reasonableness and consistency checks to, the information furnished and I have no reason to doubt its substantial accuracy.

ENTERGY CORPORATION RETIREMENT PLAN
FOR BARGAINING EMPLOYEES

EIN 72-1229752/PN 005

There are different retirement rates for different groups of plan participants. The final weighted average retirement age was calculated by taking the liability-weighted average of the weighted average retirement age for each group.

The weighted average retirement age (60) is equal to the liability weighted average of the weighted average retirement age for Final Average Pay participants (60) and Cash Balance participants (62). The tables below provide additional detail regarding the development of the weighted average retirement age for each group.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Actuarial Assumptions and Methods

Discussion of Actuarial Assumptions and Methods

For the funding valuation, the allowable interest rates and mortality tables available to measure plan liabilities are prescribed by IRC section 412. Aon provided guidance with respect to the alternative interest rate and mortality table options, and it is our belief that the options prescribed by Entergy Corporation are appropriate for funding purposes. It is our belief that all other actuarial assumptions used for the funding valuation represent reasonable expectations of anticipated plan experience. The actuarial cost and amortization methods used are prescribed by IRC section 412. While the method used to value assets is prescribed by Entergy Corporation, Aon provided guidance with respect to the use of this method, and it is our belief that the method is appropriate for funding purposes.

Calculation of Normal Costs and Liabilities

The method used to calculate the ERISA target normal cost and funding target is the unit credit cost method. The funding target under IRC section 430 is calculated as the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year, based on current service and current pay. The target normal cost is the present value of all benefits expected to accrue or be earned under the plan during the plan year, including any increase in benefits earned in prior plan years attributable to compensation increases in the current plan year, plus certain trust expenses.

Under this method, benefits are estimated at each decrement age using service and earnings as of the valuation date. The present value of these estimated benefits using the applicable ERISA assumptions is the ERISA funding target. The target normal cost is the present value of the benefits earned during the year.

Summary Of Principal Plan Provisions For Entergy Arkansas (Appendix F), ANO (Appendix G), and IBEW Local 2286 (Appendix I)

Effective Date of Plan	December 31, 1943. Amended and restated effective January 1, 2013, as subsequently amended through January 1, 2025.
Employees Eligible for Participation	An employee who was a participant in the Plan immediately prior to January 1, 1985 continues to participate. Prior to January 1, 1985, participation began on the first day of the month following attainment of age 25 or the first day of the month following the date of hire, whichever is later. An employee not participating in the Plan immediately prior to January 1, 1985, but who attained age 21, became a participant as of January 1, 1985. Subsequent to January 1, 1985, any other employee becomes a participant in the Plan upon the attainment of age 21 or the date of hire, whichever is later. Definitions

a. Participant: An employee who meets the eligibility requirements to participate and not covered under a collective bargaining agreement.

b. Earnings: Regular monthly earnings, excluding commissions and overtime and including amounts deferred under a cash or deferred arrangement qualified under Section 401(k) of the Internal Revenue Code (Code) or under a cafeteria plan under Section 125 of the Code and bonuses received under the Teamsharing Program or other specified Incentive Plan.

c. Accrued Benefit: Monthly annuity for life equal to the actuarial equivalent of the projected cash balance account, projected to age 65. The cash balance account consists of the accumulation of pay credits and interest credits, defined as follows:

Pay Credits: A percentage of earnings for a plan year determined as of the January 1 of the calendar year that includes the applicable plan year, based on the unrounded sum of the participant's age and service on such date, in accordance with the following schedule:

Age+Service Greater Than or Equal to	Less Than	Percentage
0	40	4%
40	50	5%
50	60	6%
60	70	7%
70+		8%

Interest Credits: The 30-year Treasury interest rate for the month of August preceding the first day of the plan year, but no less than 2.60% or greater than 9.00%, applied to the cash balance account value as of the January 1 preceding the date on which the Interest Credit is added to the cash balance account.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Background on Plan Transactions

Effective as of January 1, 2025, the accrued benefits of participants in the Plan were transferred to the Entergy Corporation Retirement Plan VI for Bargaining Employees ("Plan BVI"). Upon the spinoff and transfer of their accrued benefits, such participants no longer participate in the Plan. Immediately following on January 1, 2025 the Entergy Corporation Cash Balance Plan for Bargaining Employees ("Plan B-CB") was merged into the Plan.

Effective as of July 1, 2025, the accrued benefits of certain participants in the Plan were transferred to a defined benefit pension plan established by Delta Utilities ("Delta"). Upon the spinoff and transfer of their accrued benefits, such participants shall no longer participate in the Plan. This transfer is treated as non-de minimis under 1.414(l), and the Plan Year 2025 funding valuation reflects adjustments for this transfer.

The following provides additional explanation of the impact of these transactions on certain items, including reference to applicable lines of the Schedules SB for the plans.

Schedule SB, line 2a—Market Value of Plan Assets ("MVA")

The January 1, 2025 MVA is reduced based on the proportion of Plan assets transferred to Delta Utilities from the Plan on 7/1/2025.

Schedule SB, line 2b—Actuarial Value of Plan Assets ("VPA")

Historical investment gains/(losses) were proportionately allocated between the Plan and Plan BVI based on the MVA transferred on 1/1/2025, added to the Plan for Plan B-CB, and subsequently reduced based on the proportion of Plan MVA transferred from the Plan to Delta on 7/1/2025.

Schedule SB, lines 3 and 6—Funding Target and Target Normal Cost

The January 1, 2025 Funding Target is reduced by the January 1, 2025 Funding Target associated with participants whose benefits transferred to Delta.

The Target Normal Cost for Plan Year 2025 was reduced by the portion associated with participants whose benefits transferred to Delta following the 7/1/2025 transfer effective date (i.e., determined based on an average of the Target Normal Cost as determined before and after the transfer).

EIN 72-1229752/PN 005

Schedule SB, lines 12-13—Funding Balances

The Prefunding Balance as of January 1, 2025 was allocated to Plan BVI in proportion to the MVA for each plan, the Prefunding Balance for Plan B-CB was subsequently added, and subsequently reduced based on the proportion of Plan MVA transferred from the Plan to Delta on 7/1/2025.

The Prefunding Balance shown on Line 12 of the Schedule SB is the combined amount of the funding balances transferred between plans. The attachment for Line 12 has been provided to clarify.

Schedule SB, line 16—Prior Year Eligibility Percentage

Results for the Plan as of January 1, 2024 were reported for this line item.

Schedule SB, line 20a—Funding Shortfall for Prior Year

Results for the Plan as of January 1, 2024 were reported for this line item.

Schedule SB, line 32—Schedule of Amortization Bases

The Shortfall Amortization Installments for 2024 and prior were allocated to Plan BVI based on the funding shortfall of each plan as of January 1, 2025 and subsequently added for Plan B-CB. Shortfall Amortizations were then reduced for the portion associated with participants whose benefits transferred to Delta following the 7/1/2025 transfer.

Additional detail on the determination of the Shortfall Amortization Charge is described in the attachment for Line 32.

Schedule SB, line 32—Schedule of Amortization Bases

Effective as of January 1, 2025, the accrued benefits of certain participants in the Plan were transferred to the Entergy Corporation Retirement Plan VI for Bargaining Employees. Shortfall Amortization Installments for 2024 and prior were proportionately allocated between plans based on the 2025 Funding Shortfall for each plan.

Immediately following this spinoff, the Entergy Corporation Cash Balance Plan for Bargaining Employees was merged into the Plan, and its Shortfall Amortization Installments for 2024 and prior were accordingly added to the Plan.

Effective as of July 1, 2025, the accrued benefits of participants in the Plan were transferred to a defined benefit pension plan established by Delta Utilities. Shortfall Amortization Installments were reduced for the portion associated with participants whose benefits transferred to Delta Utilities following the 7/1/2025 transfer.
