Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Retirement Plan for Salaried Employees of Tinius Olsen Testing Machine Company, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Retirement Plan for Salaried Employees of Tinius Olsen Testing Machine Company's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See CLAglobal.com/disclaimer.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Retirement Plan for Salaried Employees of Tinius Olsen Testing Machine Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Retirement Plan for Salaried Employees of Tinius Olsen Testing Machine Company's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Retirement Plan for Salaried Employees of Tinius Olsen Testing Machine Company's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Retirement Plan for Salaried Employees of Tinius Olsen Testing Machine Company's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2025 and schedule of reportable transactions for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 DESCRIPTION OF PLAN

The following description of the Retirement Plan for Salaried Employees of Tinius Olsen Testing Machine Company (the Plan) provides only general information. Participants should refer to the Plan document for more complete information.

General

The Plan is a noncontributory defined benefit pension plan established in 1973 to provide benefits for eligible employees of Tinius Olsen Testing Machine Company (the Company) who have completed one year of service and are age 21 or older. The Plan excludes leased employees, any employee who is included in a collective bargaining unit, or any individual who is a "payroll service or agency employee" of the Company. The Plan was restated as of January 1, 2015, to comply with tax legislation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. On July 6, 2016, the Board of Directors voted to cease all future benefit accruals and freeze participant entry into the Plan as of July 31, 2016.

The Plan is administered by the Plan administrator. The Plan administrator has overall responsibility for the operation and administration of the Plan. The Plan administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Company's Board of Directors.

Pension Benefits

Employees are entitled to annual pension benefits beginning at normal retirement age 65 equal to:

1. two-thirds of 1% of his/her earnings each year as an active member of the Plan after February 1, 1989, and
2. one-half of 1% of the first $9,000 of his/her earnings plus two-thirds of 1% of his/her earnings as an active member of the Plan in excess of $9,000 for service after July 1, 1973, but prior to February 1, 1989, and
3. one-fourth of 1% of the first $9,000 of "average earnings" plus one-half of 1% of "average earnings" in excess of $9,000 times the number of years of service prior to July 1, 1973, but not service prior to July 1, 1958.

The Plan permits early retirement from ages 55 to 64. The amount of benefit provided for a participant who retires on an early retirement date is based on an actuarially reduced early retirement pension. The Plan also provides a benefit after late retirement, equal to the amount the participant would have received had he retired from service on his normal retirement date, plus for each Plan year that he is a late retirement participant, an additional annuity credit.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Pension Benefits (Continued)

Participants become fully vested in the Plan upon attaining normal retirement age or a participant's early retirement date, death, total disability, or upon the completion of seven years of vesting service. Normal retirement age is defined as the older of age 65 or the age of the participant on the date five years after the first day of the Plan year in which his Plan entry date occurred. A participant's early retirement date is the first day of the month on which the participant ceases to be an employee, and has attained age 55, and completed 10 years of vesting service.

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2025, the Company made contributions of $105,530, which met the minimum funding requirements of ERISA.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with the accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets, liabilities, and the actuarial present value of accumulated Plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2026, the date the financial statements were available to be issued.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provision for the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

a) retired or terminated employees or their beneficiaries
b) beneficiaries of employees who have died
c) present employees or their beneficiaries

Benefits under the Plan are based on years of service. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to July 31, 2016.

The actuarial present value of accumulated Plan benefits is determined by an actuary from USI Consulting Group and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The significant actuarial assumptions used in the valuation as of December 31, 2025 and 2024 were:

a) life expectancy of participants (the Pri-2012 Dataset Table with Scale MP-2021)
b) retirement age assumptions (normal retirement age of 65 years)
c) investment return (5.00% for 2025 and 2024)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan decides to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The following is a summary of actuarial present value of accumulated Plan benefits as of December 31:

	2025	2024
Actuarial Present Value of Accumulated Plan Benefits		
Vested Benefits		
Participants Currently Receiving Payments	$ 2,905,772	$ 2,818,705
Other Participants	3,166,582	3,209,106
Total Vested Benefits	6,072,354	6,027,811
Nonvested Benefits	-	-
Total Actuarial Present Value of Accumulated Plan Benefits	$ 6,072,354	$ 6,027,811

The changes in the actuarial present value of accumulated Plan benefits for the year ended December 31, 2025 are summarized as follows:

Actuarial Present Value of Accumulated Plan Benefits - Beginning of Year	$ 6,027,811
Increase (Decrease) During the Year Attributable to:	
Decrease in Discount Period	293,800
Benefit Payments	(307,377)
Benefits Accumulated, Including Experience Gain or Losses	58,120
Actuarial Present Value of Accumulated Plan Benefits - End of Year	$ 6,072,354

The computations of the actuarial present value of accumulated plan benefits were made as of January 1. Had the valuations been performed as of December 31, there would be no material differences.

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

Aetna Life Insurance Company, the qualified institution of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of investments as of December 31, 2025 and 2024, and investment income for the year ended December 31, 2025 in the accompanying financial statements and ERISA-required supplemental schedule.

NOTE 5 FAIR VALUE INVESTMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 –- Inputs other than quoted prices included within Level 1 that are observable for the asset and liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 FAIR VALUE INVESTMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2025 and 2024.

The Plan's immediate participation guarantee investment contract with Aetna Life Insurance Company is valued at fair value, which is based on a market value adjustment applied to the book value amount of the annuity guarantee that is available for withdrawal. The market value adjustment factors include maturity period of 7.5 years, contract rate of return, and market yields on U.S. corporate investment grade securities.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total
Assets:				
Immediate Participation Guarantee Contract	$ -	$ 5,212,183	$ -	$ 5,212,183
Total Investments at Fair Value	$ -	$ 5,212,183	$ -	$ 5,212,183

	2024			
	Level 1	Level 2	Level 3	Total
Assets:				
Immediate Participation Guarantee Contract	$ -	$ 5,270,675	$ -	$ 5,270,675
Total Investments at Fair Value	$ -	$ 5,270,675	$ -	$ 5,270,675

NOTE 6 PLAN TERMINATION

Although it has not expressed any intention to so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTE 6 PLAN TERMINATION (CONTINUED)

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable limitation as discussed below.
3. All other vested benefits; that is, vested benefits not insured by the PBGC.
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pension. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 1973, the Plan entered into an investment contract with Aetna Life Insurance Company (Aetna). Aetna maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Aetna. An annuity allocation account is maintained equal to the amount that would be required to purchase annuities for persons then eligible to receive annuity payments and to provide for any other benefits guaranteed by Aetna. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting rate is based on a formula established by the contract issuer but may not be less than 3.5%. The crediting rate is reviewed on an annual basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

NOTE 8 PLAN TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company in a letter dated November 4, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment funds. In general, investments are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the estimates and assumptions in the near-term would be material to the financial statements.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

The investments are managed by Aetna Life Insurance Company, the qualified institution of the Plan and, as such, these transactions qualify as party-in-interest transactions.

Description of Actuarial Methods

Asset Valuation Method

The Actuarial Value of assets used in the development of plan contributions phases in recognition of the difference between the actual return on Market Value and the expected return on Market Value over a three-year period at 33.33% per year. The Actuarial Value is adjusted, if necessary, to comply with the IRC Sec. 430 requirement that the Actuarial Value of assets be within the range of 90% to 110% of the Market Value of assets. This method is equivalent to the smoothed market value method without phase-in described in Approval 3.16 of Revenue Procedure 2000-40.

Actuarial Cost Method

Funding Target Liability: Unit Credit Actuarial Cost Method.

Maximum Liability: Projected Unit Credit Actuarial Cost Method. The allocation of projected benefits between past years and future years is in proportion to the applicable rates of benefit accrual under the Plan.

Description of Actuarial Assumptions

Changes in Actuarial Assumptions as of January 1, 2025

- None

Interest Rates

The American Rescue Plan Act of 2021 (ARPA) was signed into law on March 11, 2021. ARPA continues to use a 24-month bond averaging period methodology for determining the segmented interest rates used in the calculation of the Plan's target liability and a corridor based on a 25-year bond averaging period. However, now the corridor based on 25-year average segment rates and the applicable minimum and maximum percentages used for purposes of calculating the Plan's target liability to adjust the 24-month average segment rates has been extended. In addition, any 25-year average segment rate that is less than 5% is deemed to be 5%.

The Infrastructure Investment and Jobs Act was signed into law on November 15, 2021 that further extended funding stabilization. The corridors under the new laws are as follows:

Corridor After ARPA		Corridor after Infrastructure Investment and Jobs Act	
Years	**Corridor**	**Years**	**Corridor**
2020-2021	95% to 105% if not deferred	2020-2021	95% to 105% if not deferred
2022-2025	95%-105%	2022-2030	95%-105%
2026	90%-110%	2031	90%-110%
2027	85%-115%	2032	85%-115%
2028	80%-120%	2033	80%-120%
2029	75%-125%	2034	75%-125%
2030+	70%-130%	2035+	70%-130%

The corridor rates are used for purposes of the calculation of the Plan's minimum required contribution and the determination of the Plan's AFTAP certification, but cannot be reflected in the calculation of the Plan's maximum tax deductible contribution or the PBGC variable premium liability. This report reflects the rates under ARPA as allowed under current legislation.

Valuation: Segment rates for the month of the Valuation Date (i.e., January). The rates are shown below.

	2025		2024	
Segment	Before Adjustment	After Adjustment	Before Adjustment	After Adjustment
1st	5.00%	5.00%	4.37%	4.75%
2nd	5.27%	5.27%	4.96%	4.96%
3rd	5.40%	5.50%	4.95%	5.59%

The rates before adjustment are the standard 24-month segment rates determined under any prior interest rate relief laws. They are used in the determination of the Plan's maximum tax deductible contribution.

The rates after adjustment reflect the application of the applicable corridor around the 25-year average rates. They are used in the determination of the Plan's minimum required contribution and AFTAP for benefit restriction purposes.

Interest Rates (cont.)

PBGC premium: PBGC spot segment rates for the month preceding the premium payment year. The rates are shown below.

	2025	2024
1st segment	4.65%	5.01%
2nd segment	5.28%	5.13%
3rd segment	5.63%	5.15%

Expected Return for Asset Smoothing

Year	Assumption	Not to Exceed
2025	5.00%	5.50%
2024	5.00%	5.59%
2023	5.00%	5.74%
2022	5.00%	5.92%

The expected long-term rate of return on assets is estimated using the Plan Sponsor's long-term target asset allocation and the long-term capital market assumption for each asset class in that allocation provided by the pension fund's investment advisor.

Mortality

Pri-2012 Mortality Table projected to valuation date with an adjusted version of Scale MP-2021.
Combined tables for annuitants and non-annuitants.

Mortality Improvement

Projected using an adjusted version of Scale MP-2021 for 8 years for males, and 9 years for females, after the valuation date.

Projection period is modified based upon participant's age on valuation date.

Inflation

2.40%.

This assumption is consistent with the Social Security Administration's current best estimate of the ultimate long-term (75-year horizon) annual percentage increase in CPI, as published in the 2025 OASDI Trustees Report.

Salary Scale (including inflation)

N/A.

Increases in IRC Sec. 401(a)(17) compensation limit

As required by law, no increases are assumed.

Increases in IRC Sec. 415(b) limit on benefits

As required by law, no increases are assumed.

Retirement

Normal retirement age under the plan, age 65.

The actuarial assumption in regards to retirement shown above is based on certain plan features such as eligibility for full and early retirement where applicable and input from the plan sponsor.

Termination prior to retirement

Sample Rates	
Age	**Rate**
25	7.72%
30	7.22%
35	6.28%
40	5.15%
45	3.98%
50	2.56%
55	0.94%
60	0.09%

The actuarial assumption in regards to rates of termination shown above is based on a standard table (*T-05*) modified for certain plan features such as eligibility for full and early retirement where applicable and input from the plan sponsor.

Disability

None assumed.

Administrative expenses

1.0% of the assets as of the measurement date added to the target normal cost.

Percent of active employees married

80% of males and 80% of females.

Spouse's age

Husbands are assumed to be a year older than wives.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of Plan Provisions

This exhibit summarizes the major provisions of the Plan. It is not intended to be, nor should it be interpreted as a complete statement of all plan provisions. To the extent that this summary does not accurately reflect the plan provisions, then the results of this valuation may not be accurate.

Eligibility

The first of the month following the completion of one year of service and attaining age 21. There will be no new entrants after July 31, 2016.

Employee Contributions

None required or permitted.

Retirement

Normal: Age 65.
Early: Age 55.
Late: Retirement after age 65.

Benefit at Retirement

As of July 31, 2016 no future benefits will accrue.

Normal

For service on and after February 1, 1989: 2/3 of 1% of earnings each year as an Active Member of the plan.

For service on and after July 1, 1973 and before February 1, 1989: ½ of 1% of the first $9,000 of earnings plus 2/3% of earnings in excess of $9,000 each year as an Active Member of the plan.

For service prior to July 1, 1973: (a) x (b) where:

(a) = ¼ of 1% of the first $9,000 of "average earnings" plus ½ of 1% of "average earnings" in excess of $9,000. Average Earnings equals the average yearly earnings for the five years prior to July 1, 1973.

(b) = Years of service prior to July 1, 1973, but not service prior to July 1, 1958.

Effective February 1, 1994, the 30 year service limitation was eliminated. All service as an Active Member is reflected.

Benefit at Retirement (cont.)

Early

Benefit accrued to early retirement date, reduced by an early retirement factor as illustrated below.

Number of Years Prior to Normal Retirement Date	Percentage of Benefit Received
0	100.0%
1	92.1%
2	85.1%
3	78.8%
4	73.2%
5	68.1%
6	63.6%
7	59.4%
8	55.7%
9	52.2%
10	49.1%

Late

Benefit accrued to late retirement date.

Normal Form of Pension

The benefit formula provided for a life annuity benefit. However, each participant married at retirement who does not elect otherwise will receive a qualified joint annuity in a reduced amount providing for a 50% continuation to a surviving spouse.

Optional Forms of Pension

Optional forms of benefit payment include a Social Security Adjustment Option, and 50%, 66.67%, 75%, and 100% Joint and Survivor Annuity Options and the 10 and 15 year certain and continuous forms of annuity.

Vesting

Years of Service	Vesting Percentage
Less than 3	0%
3 but less than 4	20%
4 but less than 5	40%
5 but less than 6	60%
6 but less than 7	80%
7 or more	100%

Spouse's Benefit

Participants who are vested or eligible for early retirement benefits who have been married one year, are eligible for a pre-retirement spouse's benefit equal to 50% of the joint annuity benefit which the participant would have received upon early retirement at date of death. This benefit is automatic.
